Palm Beach County Zoning Division

Preferred Plant Interactive Guide

Overview

The Interactive Plant Material Database is designed to allow the user to search for various species and categories of materials that are recommended by the Palm Beach County Zoning Division. Searches may be conducted by plant name, type, and characteristics (hardiness, range, growth, size, drought tolerance). Additional search options include: Flowering, Salt Tolerance, Florida Native Plants, and Recommended for Street Planting.

Visit Palm Beach County, Zoning Division home page. Click on the ePZB Online Portal.
