

Herbicide injury to vegetables from off target sprays.

Peter J. Dittmar
Horticultural Sciences

Auxin herbicides

Auxin herbicides

- Widely used in row crops, pastures, and turf grass
- New technology
 - Dicamba resistant corn, cotton, and soybean
 - 2,4-D resistant corn

What can we do?

- Farmer applying the herbicide
 - New formulations
 - Correct nozzle selection
 - Monitor weather
- Vegetable farmer
 - Education on new technology
 - Communication with neighbors

Drift within crop

Flumioxazin in
pepper

S-metolachlor in
tomato

Halosulfuron in
watermelon

What can we do?

- Apply at the appropriate stage of crop growth
- Monitor the weather
- Use a hooded sprayer
