SUBJECT: Capital Project and Reserve Status Report for the Period Ending September 30, 2008

Attached for your information and review is the Capital Project and Reserve Status Report for the period ending September 30, 2008. Summary information on reserves for all County funds is included in this report.

This report also contains information on capital projects for Criminal Justice, Environmental Lands (including Beach Improvements), Fire-Rescue, General Government, Libraries, Parks and Recreation, Road Program, Street and Drainage (MSTU), Airports and Water Utilities.

Also included is a section on reserves that details activity in the various reserve accounts during the reporting period and reserve balances as of September 30, 2008. This section contains a detailed analysis of Road Program reserves and identifies the various projects which are still to be funded from those reserves. For instance, page B-42 identifies \$15.1 million in Gas Tax Sweep Reserves. These reserves are currently earmarked for use in the Five Year Road Program.

The report includes sections covering significant contracting activity summarizing major contract awards and contract completions as reported by Contract Development & Control.

Impact Fee Analysis

Impact fees are collected in six capital program areas. The areas are: Criminal Justice (Law Enforcement); Fire Rescue; General Government (Public Buildings); Libraries; Parks & Recreation; and Roads. Impact fees are collected in specific benefit zones and must be spent within the same zone. No impact fees are currently imposed for either the Environmental Land/Beach Improvement Program or the Street & Drainage Improvement Program.

An analysis of **available impact fee cash** is included in this section. This analysis presents information on impact fee cash available to be allocated to projects, outstanding encumbrances, allocated projects which still have balances, reserved pending projects that are eligible for impact fee funding, and projects which are projected for the future and are included in the Capital Improvement Program. This information is provided for all programs that utilize impact fees and by specific geographic impact fee benefit zone within each program. Cash available for allocation is total cash in the impact fee. Article 10 of the Unified Land Development Code (ULDC) prohibits establishment of a budget for an impact fee funded project until such time as sufficient cash is available to fund the project. This section of the report will assist project and program managers in timing and allocation decisions for their projects.

The Unified Land Development Code (ULDC) Article 10 regulates the collection and expenditure of impact fees in Palm Beach County. Impact fees are required to be encumbered within six years of collection and spent within nine years. Fee payers are entitled to refunds if their fees are not spent or encumbered within those time frames. Article 3 of the ULDC defines encumbered as either reserved or earmarked for a specific expenditure.

The "Impact Fee Aging Analysis" section of the report presents the status of all impact fees by type and benefit zone to facilitate analysis of the age of unspent and unencumbered impact fees. The report shows collections by fiscal year and what amounts of those collections are either unspent or unencumbered at the report date. For this report encumbrances are defined as actual contracts awarded and in force. This definition is more stringent than the ULDC definition and allows for an early warning of potential problems with untimely spending of impact fees. Information on the Law Enforcement Countywide Impact Fee is presented in the Criminal Justice Impact Fee section. This fee is no longer being imposed but will continue to be reported until all the collections have been spent.

Reserve Analysis

This section provides varying levels of detail on the reserves which are included in each program, including changes in those reserves during the period and approved projects which have claims against those reserves.

This section begins with reserve activity by type for all County funds which shows reserve balances at the beginning of the period, changes during the period, and ending balances. The next sections show a chart on contingency reserves, followed by a list of changes during the period and an ending balance.

The next section begins with a summary of total capital reserves by program which shows reserve balances at the beginning of the period, changes during the period and ending balances. This summary is followed by a more detailed listing showing beginning and ending balances and activity by program and fund within a program. Information from the program/fund section flows into the program summary section.

The next portion of the Reserve section presents a listing of each transfer within each fund in a program during the period. The total of the detail activities by fund flows up to the program/fund section.

Following the activity section is a report on existing claims on the various reserves. This portion of the report summarizes reserves and approved project claims by program. Projects in later years of the Capital Improvement Program are not included in the claims section.

Significant Contracting Activity

This section consists of two reports which show the status of contracting activity throughout the period. The first report shows all of the significant capital contracts which have been awarded during the reporting period. The activity is listed in order by the date that the contract was approved by the Board of County Commissioners. The report also gives a description of the project and vendor. The amount of the contract is included and department which will be managing the contract is also provided.

The second report lists all final payments made to significant contracts throughout the reporting period. This signifies the end of the contract and usually the substantial completion of a capital project. Final payments approved are also listed chronologically and begins on page C-12.

| DEPARTMENT | PROJECT NAME/VENDOR/COMMENTS | AGENDA DATE | AMOUNT |
|-------------|--|----------------|--------------|
| Facilities | Amendment No. 2 to the Contract with Catalfumo Construction Ltd. (R2003- 1543) for construction management services for the Okeechobee Branch Library. | 4/1/2008 | \$2,145,985 |

Financial Summaries

This section shows a financial summary which presents a comparison of budgeted and actual revenues and expenditures. The actual revenues and expenditures reflect year-todate amounts through the date of the report. Encumbered amounts represent balances as of the end of the period. At the end of the fiscal year, all encumbrances should equal zero. All open encumbrances should have rolled into the next fiscal year.

Budget Summaries

This section identifies the Budget Summary by Project report. This report provides a "one-line" listing for each project showing the current budget, fiscal year spending to date, encumbrances as of the report date and remaining balances. The report provides totals for projects and reserves, and total program (including transfers out - if any). This report provides information on all funded accounts including those projects which have available project detail reports.

| | Prior Spending | Current Budget | Cumulative Budget | Current Spending | Cumulative Spending | Encumbered | Budget Balance |

Inactive Projects

This section provides a listing of capital budget projects (other than reserve accounts) which have had no accounting activity within the last six months. The list does not distinguish projects by funding source which means that the total shown for the list will not have a direct ad valorem tax equivalency.

This listing is provided to project managers for review and comment. Projects which no longer require funding should be swept with balances placed in reserves. Project managers should contact the Fixed Assets Division of Financial Management and Budget (FAMO). Once FAMO completely capitalizes the project, a budget transfer can be processed to sweep the project balance into reserves.
