## Tips for Physical Distancing

**Know what 6 feet looks like.** Lay measuring tape on the ground. It's the distance of a surfboard, long yoga mat or adult bike.

**Go by yourself** or those you live with. Strongly consider the **use of a face covering**.

**Do not use playgrounds or other frequently touched surfaces.**

**Avoid crowded areas.** If a space cannot be enjoyed safely, go home or discover a new park in your community.

- Do not use parks or trails if you are exhibiting symptoms.
- Follow CDC's guidance on personal hygiene prior to visiting parks or trails.
- Share the trail and warn other trail users of your presence as you pass.
- Follow all posted signage.
