24 **Computation of Impact Fee** Section 5

A. General

At the option of the feepayer, the amount of the impact fee may be determined either by the limpact Ffee schedules for each impact fee component as provided for in this Article, or by an independent calculation pursuant to Art. 13.A.6, Independent Fee Calculation Study. If the amount of the impact fee for the land use is not determined in the limpact Efee schedule and the feepayer opts not to conduct an independent calculation, the impact fee shall be determined by the Impact Fee CoordinatorManager as described in this Article. [Ord. 2005-047]

C. Land Uses Not Specified in Impact Fee Schedule

Except for Road Impact Fees, if the type of land development for which a Building Permit or other appropriate permit is applied, is not specified on the impact fee schedule, the Impact Fee CoordinatorManager shall use the impact fee applicable to the most nearly comparable type of land use on the fee schedule. For Road Impact Fees, the Impact Fee CoordinatorManager shall select the most comparable type of land use from the most current edition of Trip Generation, a publication of the Institute of Transportation Engineers (ITE). The Impact Fee Coordinator Manager shall follow the procedure pursuant to Art. 13.A.6, Independent Fee Calculation Study. [Ord. 2005-047]

F. BiennialQuadrennial Review

BienniallyExcept as provided by law, quadrennially, beginning in January 19942023, the Impact Fee CoordinatorManager shall recommend to the BCC whether any changes should be made to the fee schedules to reflect changes in the factors that affect the fee schedules. This recommendation shall be as a result of a review of the data from which the fee schedules are calculated. The purpose of this review is to evaluate the level of service for each impact fee component to determine whether it should be adjusted based on changed conditions, to analyze the effects of inflation and other cost factors on the actual costs of capital facilities, to assess any changes in credits and generation rates, and to ensure that the impact fee charged new land use activity impacting capital facilities will not exceed its pro rata share for the reasonably anticipated costs of capital facilities necessitated by the new land development.

1 Section 6 Independent Fee Calculation Study

A. General

If a feepayer opts not to have the impact fee determined according to the fee schedule, then the feepayer shall, at the feepayer's expense, prepare and submit to the Impact Fee CoordinatorManager an independent fee calculation study for the proposed land use. An independent fee calculation study for Road Impact Fees shall be submitted simultaneously to the Impact Fee CoordinatorManager and the County Engineer. The independent fee calculation study shall follow the methodologies used in the Impact Fee Report. The independent fee calculation study for Road Impact Fees shall be conducted by a professional in impact analysis. An independent fee calculation study for Road Impact Fees shall be conducted by a professional in Road Impact Fee analysis or by a rRegistered eEngineer. The burden shall be on the feepayer to provide the Impact Fee CoordinatorManager all relevant data, analysis, and reports which would assist the Impact Fee CoordinatorManager in determining whether the impact fee should be adjusted.

B. Submission of Application

The application for an independent calculation study shall be submitted to the Impact Fee CoordinatorManager, except that an independent calculation study for Road Impact Fees shall be submitted simultaneously to the Impact Fee CoordinatorManager and the County Engineer. In the event that the feepayer wishes to obtain Building Permits prior to the Impact Fee CoordinatorManager's final approval, the feepayer may submit an application and deposit impact fees as set forth in the impact fee schedule into an escrow account, pursuant to an escrow agreement in a form provided for by the Impact Fee CoordinatorManager. A feepayer failing to submit an independent fee calculation study, or, if necessary, an executed escrow agreement to the Impact Fee CoordinatorManager prior to permit issuance is deemed to have waived the right to an impact fee adjustment based on the independent fee calculation study.

C. Contents of Application

The application shall be in a form established by the Impact Fee <u>CoordinatorManager</u> and made available to the public. The independent fee calculation study shall follow the methodologies used in the Impact Fee Report. A feepayer wishing to perform an independent fee calculation study for Road Impact Fees shall prepare a traffic impact analysis, which shall include, as appropriate, documentation of:

1. Impact Fees Other Than Roads

For other than Road Impact Fees, within ten working days after the application is determined to be sufficient, the Impact Fee <u>CoordinatorManager</u> shall review the application, and if the application clearly demonstrates by the methodology described in the Impact Fee Report that the proposed land will use capital facilities less than that projected in the impact fee component, the Impact Fee <u>CoordinatorManager</u> shall appropriately adjust the impact fee.

2. Road Impact Fees

For Road Impact Fees, within 15 working days after the application is determined to be sufficient, the County Engineer shall review the application and, if the application clearly demonstrates (using the formulae described in this Article) that the proposed land use will create fewer trips than projected in the Road Impact Fee component, <u>The County Engineer</u> shall make a written recommendation to the Impact Fee <u>CoordinatorManager</u> on adjusting the Road Impact Fee. If the Impact Fee <u>CoordinatorManager</u> concurs, the Impact Fee <u>CoordinatorManager</u> shall appropriately adjust the impact fee within five working days of receipt of the County Engineer's recommendation. **[Ord. 2005-047]**

A feepayer wishing to provide additional information after submitting the initial independent fee calculation study must do so no later than 30 days after the date of the Impact Fee <u>CoordinatorManager</u>'s determination of sufficiency. The Impact Fee <u>CoordinatorManager</u> will not accept additional information alter submit fee calculation study after this deadline. If the impact fee is adjusted, the feepayer shall provide a copy of the Impact Fee Modification Certificate at the time of permit issuance. 4. Decision in Writing

The decision of the Impact Fee <u>CoordinatorManager</u> to adjust or to refuse to adjust the impact fee shall be in writing and shall be transmitted to the <u>aApplicant</u> by certified mail within five days of the decision. An approved adjustment shall be issued in the form of an "Impact Fee Modification Certificate" which shall include information regarding:

• • • •

F. Covenant Running with the Land

The Impact Fee <u>CoordinatorManager</u> shall require that a covenant running with the land be executed and recorded in the <u>oOfficial rR</u>ecords of the Clerk of the Circuit Court on the development's land before the Building Permit is issued in cases where:

43 Section 9 Use of Impact Fees

B. Limitation within Benefit Zones

Impact fees collected shall be used exclusively for new capital facilities for the impact fee component within the impact fee benefit zones from which the impact fees were collected, except that if an impact or traffic analysis made by a professional experienced in impact analysis and approved by the Impact Fee CoordinatorManager demonstrates that a planned development substantially impacts the need to expand the capacity of specific public capital facilities in another benefit zone, then impact fees paid by that planned development may be expended on those specific capital facilities in another benefit zone.

A. General

. . . .

2. Untimely Encumbrance

a. Untimely Encumbrance

Notwithstanding Art. 13.A.10.A.1, Non-Commencement of Construction, above, if PBC fails to encumber the impact fees paid by the feepayer by the end of the calendar quarter immediately following six years from the date the impact fees are paid, and fails to spend the impact fee within nine years of the end of the calendar quarter in which the impact fees are paid, the feepayer, or if the property has been conveyed after payment of the fee the successor in interest to the real property, shall be entitled to a refund except that PBC shall retain an additional 3.4 percent of the impact fee to offset the costs of refund. The feepayer, or if the property has been conveyed after payment of the feepayer, or if the property has been conveyed after payment of the fee, the successor in interest shall submit an application for refund to the Impact Fee CoordinatorManager, within one year following the end of the calendar quarter in which the right to a refund occurs. In determining whether the impact fee paid by the feepayer has been encumbered or spent,

monies in the trust funds shall be considered to be expended on a first in, first out basis; that is, the first impact fees paid shall be considered the first monies withdrawn. [Ord. 2010-018] [Ord. 2014-025]

3. Computational or Clerical Errors and Omissions

During the period of time specified in this Article for the correction of errors and omissions, the feepayer or a successor in interest to the real property against which an impact fee was incorrectly assessed through computational or clerical error may request a refund from the Impact Fee CoordinatorManager in the manner set forth in paragraph bArt. 13.A.10.B, Procedure to Obtain Refund of this Section. - Part 8. ULDC Art. 13.H. Impact Fees, Road Impact Fees, Fee Schedule (pages 37 and 38, Supplement 26), is hereby amended as follows:
- 8 CHAPTER H ROAD IMPACT FEES

1

2 Section 2 Fee Schedule

At the option of the feepayer, the amount of the impact fee may be determined by the fee schedule, established in Table 13.H.4-20, Fair Share Road Impact Fee Schedule, or by the independent calculation provided by the feepayer and approved by the Impact Fee CoordinatorManager and the County Engineer. The impact fees in the schedule have been calculated using accepted trip generation, trip length, capture/diversion, and capital road facility costs standards, and applying the appropriate credits. Land uses not listed in the fee schedule shall be as defined in the most current edition of the Institute of Transportation Engineers Trip Generation Manual. To ensure that the impact fee does not exceed the cost to provide capital facilities to accommodate new development, the impact fees in the fee schedule are established at no more than 95 percent of the cost to accommodate the impact.

12 Section 3 Land Uses Not Specified in Fee Schedule

13 If the type of land use for which a Building Permit is applied is not specified on the impact fee schedule, the 14 Impact Fee CoordinatorManager shall select the most comparable type of land use from the most current 15 edition of Trip Generation, a publication of The Institute of Transportation Engineers (ITE). If the Impact 16 Fee CoordinatorManager determines that there is no comparable type of land use in the most current 17 edition of Trip Generation, then the Impact Fee CoordinatorManager shall request a determination of the 18 impact fee from the County Engineer, who shall use the best available traffic generation data, other trip 19 characteristics data, costs per lane mile data, and credit data. The feepayer may challenge the County 20 Engineer's determination through the completion of an independent fee calculation study pursuant to Art. 21 13.A.6, Independent Fee Calculation Study.
