Part 9. ULDC Art. 12.C.1.C.4, Background Traffic (pages 25 of 61), is hereby amended as follows:

CHAPTER C TRAFFIC IMPACT STUDIES

Section 1 Traffic Impact Studies

C. Traffic Volume Components

The traffic impact study shall address the Total Traffic volumes at the Project Buildout Year and the Five Year Analysis Period as outlined for Test 1 and Test 2. [Ord. 2006-043] [Ord. 2007-013]

4. Background Traffic

a. General

Existing traffic volumes will likely change during the Buildout Period of the proposed Project and during the five-year Test 2 analysis period. The traffic study must account for this change in traffic based on Background Traffic during the Buildout Period of the proposed Project and five-year Test 2 analysis periods. The Projection of Background Traffic shall generally be based upon the information set forth in the TPS Database, and shall be established in accordance with the requirements set forth in this Article and accepted engineering principles. It is recognized that errors and omissions may occur in the TPS Database which may need to be accounted for in a traffic study. The traffic study shall be amended to include any correction of errors or omissions in the TPS database, so long as either the engineer preparing the traffic study or the County notifies the other party within thirty (30) days of the initial submission of the traffic study and the error or omission should have been included in the database prior to the date of the initial submission of the traffic study. This change in traffic shall be shown as it relates to the proposed phasing. The Projection of Background Traffic during the Buildout Period of the proposed Project and five-year Test 2 analysis period shall generally be based upon the TPS Database, and subject to the review and approval of the County Engineer, using the following criteria: [Ord. 2006-043]

- 1) Historical growth shown on tables of County Engineer;
- 2) Characteristics of growth in the Radius of Development Influence;
- 3) Extent of existing, approved, and anticipated development in the Radius of Development Influence;
- 4) Types and sizes of development in the area;
- 5) Traffic circulation in the area;
- 6) Major Projects' impact;
- 7) New and assured road construction.

....
c. TPS Database

Using the TPS Database, all traffic from the unbuilt portion of Projects which have received a concurrency reservation prior to the County Engineer's approval of the proposed Project's traffic study which will add significant trips to any Link within the proposed Project's Radius of Development Influence during the Buildout Period of proposed Project shall be specifically accounted for in projecting Traffic for Test 1. For major intersections, the TPS Database shall specifically account for all Project Traffic volumes if at least one approach to the intersection has a Project Traffic volume greater than or equal to 1% of the adopted LOS D. No double counting of trips shall occur. For Test 2, only the traffic generated from the unbuilt portions of the Projects as set forth above which are projected to be built during the Five-Year Analysis Period shall be considered. ARTICLE 12 – TRAFFIC PERFORMANCE STANDARDS
SUMMARY OF AMENDMENTS
(Updated 6/27/11)

~~Section 3 – Application Review of Special Methodologies Projects~~

~~A. Submittal~~

~~An application shall be submitted, in duplicate, to the Planning Division to be considered for traffic concurrency under this Special Methodologies Section. The form of this application shall be prepared by the Planning Division, in coordination with the Commission on Affordable Housing.~~

~~1. The application shall be reviewed for sufficiency by the Planning Division, and the applicant shall be notified of any deficiencies within five working days of receipt of the application. Further processing of the application shall be suspended until the required items and information are provided.~~

~~B. Review~~

~~The complete application shall be reviewed by both the Planning Division and the Commission on Affordable Housing staff who shall determine if a Project qualifies as either a 100 percent very low and low Housing Project or a Mixed Housing Project.~~

~~1. When determining whether a Project qualifies as a Mixed Housing Project, the staff shall consider the following factors:~~

~~a. Whether or not the Project complies with, at least, the minimum standards for a development of its size as identified in the traffic performance standards exemption criteria in the Transportation Element Policy 1.2.b of the Plan. This involves scoring a minimum number of points awarded relative to the Project's size and development characteristics meeting certain performance standards, these standards include affordability, accessibility, quality of design, resource protection, environmental quality, neighborhood compatibility, safety, pedestrian and vehicular circulation, parking, open space, parks and landscaping.~~

~~b. Whether the Project furthers the balance of housing opportunities within a sector by providing units which meet the minimum required housing in the very low, low and moderate categories determined by the existing percentage of very low, low and moderate income housing in that sector. The following table shows the proportions of households as described by income:~~

~~2. When determining whether a Project qualifies as a Workforce Housing Project, the staff shall meet the requirements of Art. 5.G.1. Workforce Housing Program and Section 6, below. [Ord. 2005 – 002]~~

~~Table 12.G.3.B – 12 – Proportions of Households as Described by Income~~

Income Category	Percent of Affordable Housing Existing Within a Sector and Minimum Very Low and Low Housing Required *,**				
	Very Low And Low	Existing	Under 20 percent	20-40 percent	40-50 percent
Required		40 percent	30 percent	20 percent	10 percent
Percent of Moderate Income Housing Existing Within a Sector and Minimum Moderate Housing Required					
Moderate and Above	Existing	Under 20 percent	20-60 percent	Above 60 percent	
	Required	20 percent	10 percent	0 percent	

~~[Ord. 2005 – 002]~~

~~* – The distribution of very low and/or low required in a Project is 50 percent of each type of housing with the exception of Projects with only owner-occupied units which shall be required only to provide low income units. These Projects may fulfill the minimum requirement of very low and low-income units with the provision of all low income units.~~

~~** – Minimum percentages as applied to a number of units to be constructed will be rounded down to the nearest whole unit number or one unit, whichever is greater.~~

~~Note: The Commission of Affordable Housing, in conjunction with the Planning Division, shall identify and periodically update the criteria to be used for evaluating the appropriate mix of very low, low, and other housing in a Project that is to be reviewed for compliance with the Special Methodologies provisions. Upon request, this information shall be made available to an applicant.~~

~~Section 4 – Approval~~

~~A. In the event the Project is found to qualify as a Mixed Housing Project, the Planning Director shall notify the County Traffic Engineer that this Project need not meet the LOS Standards if the Project Traffic is less than or equal to three percent of the Average Daily Traffic LOS D Standard on any Link; provided however, that the cumulative traffic from Mixed Housing Projects on any Link does not exceed three percent of Adopted LOS D Standard. [Ord. 2005 – 002]~~

~~B. The relief provided under this special Methodology Section shall be considered in determining whether or not there are adequate road facilities for this Project in accordance with this Code. In the event that is a determination of sufficiency, any Concurrency reservation issued by the Zoning Director for the Project must include a condition prohibiting the issuance of a Development Order until a covenant is recorded in the Public Records of PBC as outlined in the paragraph below. [Ord. 2005 – 002]~~

SUMMARY OF AMENDMENTS
(Updated 6/27/11)

1 ~~C. The applicant shall prepare a covenant approved by the Commission on Affordable Housing,~~
2 ~~determined to be legally sufficient by the County Attorney. The covenant, to be recorded in the~~
3 ~~public records of PBC, shall guarantee, for a period of at least ten years for single family housing~~
4 ~~and 20 years for multi-family housing rental units, how the affordability shall be maintained for~~
5 ~~units required to be very low and moderate income (pursuant to income categories and definitions~~
6 ~~of the Plan, Housing Element). The period of time these units will remain affordable shall~~
7 ~~commence from the date of the issuance of the final CO for the first required affordable unit built~~
8 ~~in the Project. The covenant shall be recorded in the Public Records of the Clerk of the Court for~~
9 ~~PBC prior to final DRO approval of the site plan. For a mixed housing project located within a~~
10 ~~municipality the covenant shall be recorded in the Public Records of the Clerk of the Circuit Court~~
11 ~~for PBC prior to the issuance of any building permit by the municipality. [Ord. 2005 – 002]~~

12 ~~Section 5 – Municipal and Department Coordination~~

- 13 ~~A. In the event that a Project being proposed is in part or wholly within a municipality, the Planning~~
14 ~~Director shall provide the appropriate officials of the city with the conditions upon which the~~
15 ~~Project is to receive traffic concurrency. The Planning Division shall coordinate with the municipal~~
16 ~~staff to ensure that the issuance of certificates of occupancy for the required housing complies~~
17 ~~with the covenanted requirements and conditions.~~
18 ~~B. The Traffic Division shall be responsible for monitoring the exempted traffic under the Special~~
19 ~~Methodologies for the LOS standard for Links impacted by the specific type, i.e. for mixed~~
20 ~~housing developments. The respective limit is three percent for any impacted Link on the PBCs~~
21 ~~thoroughfare network. The Traffic Engineer shall determine whether the Project traffic, when~~
22 ~~added to all other existing approved Projects' traffic exempted under the Special Methodologies~~
23 ~~procedures, exceeds the limits for exempted volume for the mixed housing development. [Ord.~~
24 ~~2005 – 002]~~
25 ~~C. The Traffic Engineer shall inform the Planning Director, prior to the certification of the Project at~~
26 ~~the DRO, when a Special Methodologies application has been approved for the traffic exemption~~
27 ~~from the applicable LOS standard. The Planning Director shall include this information in the~~
28 ~~review of an application for development certification at the DRO for a Project to be built in~~
29 ~~unincorporated PBC.~~
30 ~~D. The Commission of Affordable Housing shall monitor the Project for compliance with the required~~
31 ~~covenant.~~

32 ~~Section 6 – Workforce Housing and Affordable Housing~~

- 33 ~~A. Workforce Housing Program (WHP)~~
34 ~~TE Policy 1.2.b of the Plan allows special methodologies to be applied for WHP projects. The~~
35 ~~projects net trips associated with the non-WHP units attributable to the standard density and all~~
36 ~~non-residential land uses shall be subject to the 1% of adopted level of service (including Florida~~
37 ~~Strategic Inter-modal System [SIS]). The project's net trips associated with all remaining~~
38 ~~residential units of the project (including WHP units) shall be subject to a 5% of adopted level of~~
39 ~~service significance level in determining compliance with TPS. To address any adverse impacts~~
40 ~~on SIS facilities, any development significantly impacting SIS facilities shall be required to~~
41 ~~address their full impacts on the SIS facilities. [Ord. 2005 – 002] [Ord. 2006-055] [Ord. 2010-~~

ARTICLE 12 – TRAFFIC PERFORMANCE STANDARDS
SUMMARY OF AMENDMENTS
(Updated 6/27/11)

1 Part 12. ULDC Art. 12.H, Constrained Facilities (pages 33 - 34 of 61 and Exhibit D of Ordinance
2 2011-001), is hereby amended as follows:

3 CHAPTER ~~HG~~ CONSTRAINED FACILITIES

4 Section 1 Purpose and Intent

5 It is recognized by the BCC that some Links and Major Intersections are not planned to be widened to
6 width, laneage, or geometrics that can accommodate Traffic from the density/intensity and location of
7 land uses at the Generally-Adopted LOS. ~~The BCC may determine that additional traffic impacts from~~
8 ~~new development should be permitted on these Constrained~~ Links and Major Intersections which are
9 improved (or presumed to be improved under Test 2) to their ultimate width, laneage, and geometrics as
10 contemplated by the Thoroughfare R-O-W ~~Protection-Identification~~ Map ~~are, by definition, Constrained~~
11 ~~Facilities. Which of those Constrained Facilities cannot accommodate future Development at the~~
12 ~~Generally Adopted LOS, and what should be done to remedy the situation, requires thorough study,~~
13 ~~comprehensive data, and close scrutiny of the various policies involved. Future Roadway System by~~
14 ~~Number of Lanes Map, and/or MPO Cost Feasible Long-Range Plan. In some cases, the BCC may~~
15 ~~designate a Link or Major Intersection as a temporary CRALLS in order to allow development to occur~~
16 ~~prior to a planned roadway improvement project. When the BCC makes a determination that a reduced~~
17 ~~LOS is appropriate on a Constrained Facility, it shall be designated a Constrained Roadway at Lower~~
18 ~~Level of Service (CRALLS). A County amendment to consider a CRALLS designation will rely upon, as~~
19 ~~appropriate, the data and analysis provided by the local government requesting the CRALLS designation.~~
20 This Section ~~is intended to ensure thorough review of application for a CRALLS. It is declared to be the~~
21 ~~minimum review and procedure necessary~~ establishes the procedures by which a proposed CRALLS
22 ~~amendment is reviewed in order~~ to ensure an appropriate level of review.

23 Section 2 Procedure

24 A. General

25 Constrained Facilities shall not automatically receive a reduced LOS. Determinations of whether
26 a reduced LOS shall be set on a Constrained Facility, and what that LOS should be, shall be
27 made by the BCC ~~as part of a text amendment to the Transportation Element of the~~
28 ~~Comprehensive Plan. The BCC may adopt a reduced LOS and shall specifically establish the~~
29 ~~LOS on the Constrained Facility, if reduced. The CRALLS may be available for all Project~~
30 ~~applicants to utilize, or it may be limited for use by a Project or Projects specified by the BCC.~~
31 ~~Implementation of mitigation strategies shall be a requirement for use of the CRALLS by a~~
32 ~~Project. Any proposed reduction in the LOS on a SIS or FIHS Roadway shall be reviewed and~~
33 ~~approved by the State if required by Florida law, and the applying local government shall be~~
34 ~~responsible for coordinating with and obtaining State approval that may be required.~~

35 B. Applications ~~Letter of Intent~~

36 ~~Local governments shall request Applications for a reduced LOS on a Constrained Facility shall~~
37 ~~be made to the BCC through the Planning Director for initial review by the Planning Commission~~
38 ~~(PLC), by letter of intent up to 60 days and no later than 30 days prior to the window closing date~~
39 ~~for the applicable amendment Round. At least ten days prior to delivering the letter of intent, the~~
40 ~~local government shall provide written notice to the County Commissioner for the Commission~~
41 ~~District in which the Facility is located. Proof of such written notice provided to the District~~
42 ~~Commissioner, and the letter of intent, shall be delivered to the County Engineer and Planning~~
43 ~~Director and shall contain supporting containing such information relating to the Determination~~
44 ~~Criteria of this Section as the PLC requires. The application shall be forwarded to all affected~~
45 ~~Local Governments, the County Engineer, the FDOT, District IV, in the case of State Highways,~~
46 ~~and the MPO. The MPO shall review the proposal for technical traffic engineering purposes and~~
47 ~~consistency with its adopted plan. The advice of the MPO shall be considered by the PLC and the~~
48 ~~BCC when considering an application for a reduced LOS. The application shall propose the~~
49 ~~reduced LOS sought for Test 1 and/or Test 2. It need not be an entire range. The level of data~~
50 ~~and study needed for existing and Future Land Use to review an application for a CRALLS~~
51 ~~designation shall be determined in the pre-application conference. The decision shall be made by~~
52 ~~the County Engineer based upon the Major Thoroughfare Links and Major Intersections involved,~~
53 ~~(whether they are or will be collectors, minor arterials, or principal arterials), the extent of the~~
54 ~~proposed lowering of the LOS, the size of the area affected, the extent to which the affected area~~
55 ~~is built out to its ultimate FLU, and the amount and quality of existing data and~~
56 ~~planning. **[Relocated to new 12.G.2.D, Amendment Review]** Upon receiving the letter of intent,~~
57 ~~the Planning Director shall schedule a Pre-Application Conference prior to the Planning~~
58 ~~Commission meeting at which initiations for the next Comprehensive Plan Amendment Round will~~
59 ~~be discussed.~~

60 C. Pre-application Conference

61 The applying Local Government shall ~~contact the Planning Director prior to making application,~~
62 ~~notifying the Director of the Local Government's intent to make application under this Article~~

ARTICLE 12 – TRAFFIC PERFORMANCE STANDARDS
SUMMARY OF AMENDMENTS

(Updated 6/27/11)

~~12.H.2.B, Applications. The Director shall set a pre-application conference prior to accepting an application. The conference shall include representatives from the following agencies shall be invited to attend the Pre-Application Conference: of the: (1) Local Government making application; (2) County including the Planning Division and County Engineering; (3) FDOT, District IV; (4) Treasure Coast Regional Planning Council; and (5) MPO; and, (6) Other Impacted Local Governments as determined by the County Engineer. Other interested governmental agencies may also attend the Pre-Application Conference at their option. The purpose of the pre-application conference shall be to identify the issues for consideration, the likely impact of the proposal, the assumptions and changes made in socio-economic data (including justification for such), the application requirements (including which should be waived, if any), and to coordinate review. The level of data and study needed for existing and FLU, and the proposed CRALLS, to review the proposed application shall be determined in the pre-application conference. The decision shall be made by the County Engineer based upon the magnitude of the proposed CRALLS, the difference from existing and FLU, the extent of the proposed lowering of the LOS, the amount and quality of existing data and planning, the size of the area affected, the extent to which the affected area is built out, and the Major Thoroughfare Links and Major Intersections involved (whether they are or will be collectors, minor arterials, or principal arterials).~~

D. Amendment Review

~~Within 30 days after BCC initiation, the applying Local Government shall, unless it has already done so, submit a complete CRALLS application, including data and analysis which addresses the Determination Criteria listed herein. The level of data and study needed for existing and Future Land Use to review an application for a CRALLS designation shall be determined in the pre-application conference. The decision shall be made by the County Engineer based upon the Major Thoroughfare Links and Major Intersections involved, (whether they are or will be collectors, minor arterials, or principal arterials), the extent of the proposed lowering of the LOS, the size of the area affected, the extent to which the affected area is built out to its ultimate FLU, and the amount and quality of existing data and planning. The application shall be forwarded to all affected Local Governments, the County Engineer, the FDOT, District IV, in the case of State Highways, and the MPO for review. The advice of the MPO shall be considered by the PLC and the BCC when considering an application for a reduced LOS. [Relocated from 12.H.2.B, Applications]~~

Section 3 Determination Criteria

In determining whether a Constrained Facility shall have a reduced LOS and, if so, what that LOS should be, and any conditions that shall be imposed, the applicant, ~~the MPO~~, PLC, and the BCC shall consider the following public policy criteria: ~~The Application and Amendment staff report shall include an analysis of the proposed CRALLS against these criteria: [Ord. 2011-001]~~

A. Cause of the constraint; e.g., whether the ~~lineage~~ laneage or geometrics are insufficient to accommodate Projected traffic as a result of concerns relating to physical limitations, fiscal limitations, environmental areas, aesthetics, historically significant development, or the character-of-area or neighborhood and the impact of adding lanes or changing the geometrics on such concerns.

~~....~~
L. A description of mitigation measures required to be implemented by the Project(s) that would benefit from the proposed CRALLS. These include vehicular and non-vehicular travel options to alleviate traffic congestion that is anticipated to result from exceedance of the adopted LOS on the CRALLS Link or Major Intersection.

Section 4 — Determination

~~The BCC may adopt a reduced LOS and shall specifically establish the LOS on the Constrained Link, if reduced. When the BCC makes a determination that a reduced LOS is appropriate on a Constrained Facility, it shall be designated a CRALLS. The Plan shall be modified to set this LOS. A reduced LOS need not necessarily be a whole range; it may be a portion of a range. Any proposed reduction in the LOS on a State Constrained Facility shall be coordinated with and approved by the State in accordance with Florida law.~~

~~It is recognized that detailed and comprehensive transportation planning has not yet been completed for all of PBC. This transportation planning will involve balancing the transportation system to the land use as to density/intensity and location. This balancing will involve, in part, adjusting the levels of service on the Major Thoroughfare system. It will be achieved through the work of the MPO's work in updating the Model, and improving the data. Theoretically, once this balancing is completed, the need for CRALLS would not be necessary, unless amendments to land uses are made, or R-O-W widths or lanes are reduced. Accordingly, once the system is balanced through the work on the Model and data, the criteria shall be revisited to ensure that the criteria take into account this balancing.~~

ARTICLE 12 – TRAFFIC PERFORMANCE STANDARDS
SUMMARY OF AMENDMENTS
(Updated 6/27/11)

~~A. Who May Apply~~

~~Only a Local Government may apply to the BCC to amend the adopted width, proposed geometrics, or number of lanes of, or to eliminate a Link or Major Intersection improvements.~~

~~B. Contents~~

~~The application shall contain a detailed and comprehensive traffic evaluation of all affected Links and Major Intersections, taking into account existing, committed, and FLU development.~~

~~C. Criteria~~

~~The following criteria shall be considered by the BCC in considering whether a Link's lanes, proposed geometrics, a Major Intersection's proposed geometrics or the R-O-W width adopted in the Plan should be amended or a Link should be eliminated:~~

- ~~1. Whether improvements are proposed to the Link or Major Intersection under consideration.~~
- ~~2. Whether improvements are proposed to reliever Links or Major Intersections and the extent that such a reliever would impact traffic on the Link under consideration.~~
- ~~3. The physical characteristics of the property adjacent to the Link or Major Intersection under consideration.~~
- ~~4. The character of the area businesses or neighborhood adjacent to the Link or Major Intersection under consideration, and the extent of impact on such.~~
- ~~5. The Projected cost of adding additional capacity to the Link or Major Intersection, or reliever facilities and the amount of capacity that would be added.~~
- ~~6. The existing and Projected volume-to-capacity of the Link and the surrounding Major Thoroughfares before and after the proposed modification.~~
- ~~7. The Projected revenue for improving the Major Thoroughfare system and the likely priority of various improvements to the Major Thoroughfare system.~~
- ~~8. Environmental character and the extent of impact on such.~~
- ~~9. Historical significance and the extent of impact on such.~~
- ~~10. Aesthetics and the extent of impact on such.~~
- ~~11. Amount of existing R-O-W, and cost to obtain additional R-O-W.~~
- ~~12. Impact on the provision of other public facilities.~~

~~D. Procedure/Extraordinary Vote~~

~~1. When an application is made to eliminate a Link, narrow the adopted width of a Link, modify the proposed geometrics of a Link, or Major Intersection, in a manner that would reduce capacity, or reduce the number of lanes in the Plan, and that elimination, narrowing, modification, or reduction would materially impede: (1) the ability to achieve the Adopted LOS on the particular Link or Major Intersection, or the Major Thoroughfare system; or (2) the ability of Local Governments to allow Development consistent with their FLU Elements of their plans; the BCC shall require a review and determination of whether a reduced LOS (CRALLS designation) should be set on the Link or other Links before the BCC's eliminating the Link, narrowing the R-O-W width, modifying the proposed geometrics, or reducing the number of lanes. In such a case, eliminating the Link, narrowing the width or reducing the number of lanes shall require a majority-plus-one vote of the members of the BCC. No elimination of the Link, narrowing of the width, or modifying of the proposed geometrics in a manner that would reduce capacity, or reducing the number of lanes on a Link shall be effected until any necessary adjustments are made to: (1) the Major Thoroughfare system (including capacity improvements or lower the levels of service, as appropriate); (2) or the land uses have been made to accommodate the elimination, narrowing, modification, or reduction.~~

~~2. If it is clear that no impediment to: (1) achieving the adopted LOS; or (2) Local Governments' allowing Development consistent with the FLUE of their plans would result, the BCC may, by a majority vote of its members narrow the adopted width, modify the proposed geometrics of a Link, or Major Intersection, or reduce the number of lanes in the Plan without PLC review. Nothing herein shall require CRALLS review, application to the PLC, or notice to any Local Government for minor modifications to the proposed Major Thoroughfare system which do not reduce capacity of the Link, Major Intersection, or Major Thoroughfare System. Nothing herein shall require PLC review for waivers of expanded intersection requirements or R-O-W protection pursuant to Policy 2-d of the Transportation Element of the Plan. [Ord. 2011-001]~~

EXHIBIT P

LION COUNTRY SAFARI
SUMMARY OF AMENDMENTS
(Updated 6/27/11)

If a conflict exists between this Section and other Sections of this Code, the provisions of this Section shall apply to the extent of the conflict.

~~e. General~~

~~The following additional standards apply to PUDs in the Rural and Exurban tiers except in the Central Western Communities Sector Plan area (Plan Map Series: Map LU3.1, Special Planning Areas Map), if governed by a Sector Plan pursuant provisions in the Plan.~~

~~1) Density~~

~~The density in a PUD with a rural residential FLU designation shall be based on the gross land area of the PUD and the FLU assignment in the Plan. No additional density shall be assigned as a bonus or through a transfer of development rights.~~

c. Lion Country Safari (LCS)

An application for a RR-PUD within the LCS that includes the transfer of density from the Lion Country Safari MUPD or RVPD, shall be limited to Option 1, Rural Cluster, and the following:

1) Purpose and Intent

The purpose of the LCS is to acknowledge the importance of the Lion Country Safari Park as a unique tourist attraction and recognize that the viability of the park is important for the County's tourism industry, pursuant to Plan Objective 1.11, Lion Country Safari Overlay. The Overlay establishes a mechanism to encourage the preservation of the Safari Park (MUPD), RV Park (RVPD) and related commercial recreation activities, while allowing for residential development at an overall density that is compatible with the surrounding area. This is accomplished by allowing the density of the Safari and RV Parks (excluding hotel approval) to be transferred to the development area of a RR PUD within the boundaries of the Overlay.

2) Applicability

The LCS is approximately one square mile in size, generally located north of Southern Boulevard and West of Seminole Pratt and Whitney Road in Section 23, Range 40, Township 43, as depicted in the Special Areas Planning Map LU 3.1, in the Map Series of the Plan. The provisions of the LCS are optional, and shall only apply to projects that propose to relocate density from the Safari Park to a PUD within the boundaries of the Overlay.

3) Application Requirements

Any application that proposes to relocate density from the Safari or RV Parks to a RR PUD within the Overlay shall comply with the following:

a) Pre-Application Conference

Each application shall require a PAC in accordance with Art. 2.A.1.E, Pre-Application Conference.

b) Master Plan

A Preliminary or Final Master Plan shall be required to depict the overall boundaries of the LCS, include any Zoning approvals, identify Open Space Preserve Areas from which density will be relocated to the development area of a RR-PUD, location of access and interconnectivity, and related tabular data.

4) RR PUD Development Area

In addition to the Development Area requirements for a Rural Cluster PUD, the following shall apply:

a. Clustered residential units which provide a variety of lot sizes to allow for a range of housing choices;

b. Smaller sized lots shall be located towards the center of the Development Area and should transition to larger lot sizes located at the edge, adjacent to the existing residential neighborhoods.

5) Other Requirements

a) Existing native vegetation and other natural features located within the LCS, including a minimum of 37 acres of upland native vegetation, shall be preserved. At the time a PUD is requested, higher quality upland native vegetation shall be preserved in accordance with Art. 14.C.7.B.3, Establishing Native Upland Preserves. This requirement shall not preclude the relocation of existing native upland preserves to other areas with higher quality upland native vegetation.

b) Interconnectivity shall be provided between uses within the LCS. This shall not preclude the use of security gates within the RR PUD.

c) A neighborhood serving commercial store of up to 3,500 square feet shall be permitted within the RVPD to serve campers, or should the RVPD be abandoned, the neighborhood store may be incorporated into a RR-PUD.

d) Golf courses are prohibited within the LCS.

(b) The Safari Park MUPD (excluding hotel site) and RVPD shall be permitted to count towards the 60 percent Open Space requirement provided that prior to issuance of the final Development Order, a deed restriction/conservation easement, subject to approval by the PZ&B Executive Director in consultation with the County Attorney, is recorded that limits the use of the site to those listed above, in the event commercial recreation uses were to cease. This shall not preclude any renovation or expansion of park facilities where permitted by this Code.

b) **Common Area**

If designated as common area, maintenance of the open space shall be the perpetual responsibility of the HOA.

c) **Separate Tract**

All areas designated as open space on the Master Plan shall be platted and maintained as a separate tract of land. No area designated as open space on the Master Plan shall be platted with, nor made part of, a lot or land in the development area, excluding alternative LCS Open Space Preserve Areas.

d) **Plat**

3) **Development Area**

A maximum of 40 percent of the land area shall be designated on the master plan as the development area. All residential, civic, and recreation pods shall be limited to the development area. All improvements, including streets, water management tracts for on-site and street drainage (including R-O-W), excavation, and accessory structures shall be limited to the development area.

a) **Exception**

Mitigation projects, excavation with jurisdictional wetlands, and excavation by public agencies, as defined as exempt in Article 4.D, EXCAVATION, and regional water management facilities certified by the SFWMD, shall be permitted in open space areas.

19 new Section 4, titled Reasonable Accommodation, as follows:

20 CHAPTER D ADMINISTRATIVE PROCESS

21 Section 7 Reasonable Accommodation

22 A. Purpose and Intent
23 The purpose of this section is to establish procedures for processing requests for Reasonable
24 Accommodation from the County's Unified Land Development Code and related rules, policies,
25 practices and procedures, for persons with disabilities as provided by the Federal Fair Housing
26 Amendments Act (42 U.S.C. 3601, et. seq.) (FHA), or Title II of the Americans with Disabilities

29 B. Notice to the Public of Availability of Accommodation
30 The County shall endeavor to provide notice to the public, advising that disabled individuals or
31 qualifying entities may request a Reasonable Accommodation.

32 C. Application Procedures
33 The application forms and requirements for submitting a request for Reasonable Accommodation
34 shall be on forms specified by the County Administrator or designee.

35 1. Application Contents
36 The following considerations shall be applicable for any application information or
37 documentation required:

38 a. Confidential Information
39 Upon submittal of any medical information or records, including but not limited to
40 condition, diagnosis, or history related to a disabled individual, an applicant may request
41 that the County, to the extent allowed by law, treat the information or records as
42 confidential. The County shall thereafter endeavor to provide notice to the disabled
43 individual, or their representative, of any request received by the County for disclosure of
44 the medical information or documentation previously requested to be treated as
45 confidential. The County will cooperate with the disabled individual, to the extent allowed
46 by law, in actions initiated by such individual to oppose the disclosure of such medical
47 information or documentation, but the County shall have no obligation to initiate,
48 prosecute or pursue any such action, or to incur any legal or other expenses, whether by
49 retention of outside counselor, or allocation of internal resources in connection therewith,
50 and may comply with any judicial order without prior notice to the disabled individual.

51 b. Address of Applicant
52 Unless governed by 42 U.S.C. §290d.d., in which case the address shall not be required,
53 but the applicant may be requested to provide documentation to substantiate a claim

2 governed by 42 U.S.C. §290d.d., in which case address shall not be required, but the
3 applicant may be requested to provide documentation to substantiate a claim verifying
4 applicability.

5 **2. Fee**

6 There shall be no fee imposed by the County for a request for Reasonable Accommodation
7 under this section or an appeal of a determination on such request, and the County shall
8 have no obligation to pay a requesting party's, or an appealing party as applicable, attorneys'
9 fees or costs in connection with the request, or an appeal.

10 **3. County Assistance**

11 The County shall provide such assistance and accommodation as is required pursuant to
12 FHA and ADA in connection with a disabled person's request for Reasonable
13 Accommodation, including assistance with reading application questions, and responding to
14 questions related to completing application or appeal forms, among others, to ensure the
15 process is accessible.

16 **4. Findings for Reasonable Accommodation**

17 In determining whether the Reasonable Accommodation request shall be granted or denied,
18 the requesting party shall be required to establish that they are protected under the FHA or
19 ADA by demonstrating that they are handicapped or disabled, as defined in the FHA or ADA.
20 Although the definition of disability is subject to judicial interpretation, for purposes of this
21 ordinance the disabled individual must show:

22 a. a physical or mental impairment which substantially limits one or more major life
23 activities;

24 b. a record of having such impairment; or

25 c. that they are regarded as having such impairment.

26 The requesting party will have to demonstrate that the proposed accommodations being
27 sought are reasonable and necessary to afford disabled persons equal opportunity to use
28 and enjoy housing. The foregoing, as interpreted by the Courts, shall be the basis for a
29 decision upon a Reasonable Accommodation request made by the appropriate PBC official.

30 **5. Authority**

31 The determination of which appropriate PBC official has the authority to consider and act on
32 requests, or appeals of a decision for Reasonable Accommodation, shall be consistent with
33 Art. 1.B.1.A, Authority.

34 **6. Action by Appropriate PBC Official**

35 A written determination shall be issued by the appropriate PBC official within 45 days of the
36 date of receipt of an application (when determined to be sufficient).

37 **a. Additional Information**

38 If reasonably necessary to reach a determination on the request for Reasonable
39 Accommodation, the appropriate PBC official, may, prior to the end of said 45 day period,
40 request additional information from the requesting party, specifying in sufficient detail
41 what information is required. The requesting party shall have 15 days after the date of
42 the request for additional information to provide the requested information. In the event a
43 request for additional information is made, the 45 day period to issue a written
44 determination shall no longer be applicable, and the appropriate PBC official shall issue a
45 written determination within 30 days after receipt of the additional information. If the
46 requesting party fails to provide the requested additional information within said 15 day
47 period, the appropriate PBC official shall issue written notice advising that the requesting
48 party had failed to timely submit the additional information and therefore the request for
49 Reasonable Accommodation shall be deemed abandoned or withdrawn and no further
50 action by the County with regard to said Reasonable Accommodation request shall be
51 required.

52 **b. Determination**

53 In accordance with Federal law, the appropriate PBC official, shall:

54 1) grant the accommodation request;

55 2) grant a portion of the request and deny a portion of the request;

56 3) impose conditions upon the grant of the request; or

57 4) deny the request. Any such denial shall be in writing and shall state the grounds
58 therefore.

59 **c. Notice of Proposed Decision**

60 All written determinations shall give notice of the right to appeal. The notice of
61 determination shall be sent to the requesting party (i.e. the disabled individual or his/her
62 representative) by certified mail, return receipt requested.

63 **7. Appeal**

64 Within 30 days after the appropriate PBC official has rendered a decision on a Reasonable
65 Accommodation, the applicant may appeal the decision. This timeframe shall be based upon
66 the date of the letter mailed to the requesting party. All appeals shall contain a statement

URBAN REDEVELOPMENT AREA OVERLAY (URAO)
SUMMARY OF AMENDMENTS
(Updated 6-27-11)

~~The PRA requirements are modeled after the concept of a form based code and seeks to establish a precise and predictable set of regulations to dictate the placement of buildings and site improvements with less emphasis on the regulation of uses. However, the PRAs also serve to implement the concepts of the TCRPC Corridor Plans by establishing limits on building height, mix of uses, and uses by floor, to ensure that development will serve the needs of residents while mitigating adverse impacts to existing neighborhoods. [Ord. 2010-022]~~

2. Streets, Access and Interconnectivity

~~Blocks, streets and alleys are the fundamental components for creating traditional neighborhoods. Blocks are formed by streets which provide an interconnected pedestrian and vehicular circulation system, while regulating the physical and functional relationship between buildings and open space. To improve the pedestrian environment are detailed with pedestrian crossings, street trees, and traffic calming measures such as on-street parking. Regulating block sizes, vehicular access points, and the use of alleys to access parking and service areas are intended to disperse traffic to create a more pedestrian friendly oriented form of development. The alley is located behind buildings, to allow buildings to face and have access directly from the street. Alleys lessen necessary trips on the thoroughfare and provide a physical separation between the existing residential neighborhoods and redevelopment. [Ord. 2010-022]~~

3. Frontage Classifications

~~Frontage classifications define the details of the pedestrian realm located between the public R-O-W or internal streets and the build facade. Three frontage types are established, as follows: Slip Street, Primary, and Secondary. The default location for the PRA Frontage Types shall be in accordance with Maps LU 9.1 and LU 9.2, Urban Redevelopment Area Regulating Plan. [Ord. 2010-022]~~

a. Slip Street Frontage

~~The Slip Street is an optional designation for areas that were determined to have sufficient depth to accommodate landscaping along the existing thoroughfare, a one-way vehicular lane, a parallel parking lane, and a wide pedestrian zone. Applicants in areas designated for Slip Streets are encouraged to utilize this frontage type when identified on Maps LU 9.1 and LU 9.2, or in the following instances:~~

- ~~1. The parcel, or group of parcels, has 400 feet of frontage; or~~
- ~~2. The parcel, or group of parcels, is located between two side streets; or~~
- ~~3. The parcel, or group of parcels, is located adjacent to an existing slip street.~~

~~Applicants may opt to utilize the slip street in areas not designated for slip street, provided the parcel or group of parcels has at least 400 feet of frontage where a Primary Frontage type is identified. [Ord. 2010-022]~~

Figure 3.B.16.E – Typical Example of Slip Street Frontage

[Ord. 2010-022]

b. Primary Frontage

~~Primary Frontages are located along adjacent thoroughfares or new internal streets, and accommodate a wide pedestrian zone, lined by the main building façade and entrance(s). [Ord. 2010-022]~~

c. Secondary Frontage

~~Secondary frontages are located along existing side streets that intersect the main commercial thoroughfare, or new internal side streets. Secondary frontages provide a planting strip for street trees and a pedestrian zone appropriate for less intense uses and building sides. [Ord. 2010-022]~~

4. PRA Transect Zones (TZ)

~~Transect Zones are distinct categories that define and organize density and intensity ranging from the most urban to the least urban. The URAO establishes the Urban-Center (UC) and Urban-Infill (UI) FLU designations for the PRAs, and further refines these designations using sub-areas as transect zones. Transect zones facilitate the development of urban forms while providing for gradual transitions in building scale and use intensity, rather than rigid distinctions. The default location for the URAO Transect Zones shall be in accordance with the PRA GIS Regulating Plan maintained by PZB. [Ord. 2010-022]~~

Figure 3.B.16.E – PRA Transect Zones and Sub-areas

[Ord. 2010-022]

a. Urban-Center (UC) Sub-area Transects

The UC is designated at prominent intersections and is the most intense PRA district, typically comprised of larger interconnected commercial and buildings containing a wide variety of uses, of at least two stories in height that create a continuous street wall along designated street frontages. A well-balanced mix of residential, commercial, civic, and recreational uses is encouraged, but may also be a requirement of the PRA TCEA. The UC is broken down into three distinct Sub-areas, as follows: [Ord. 2010-022]

1) UC 1 Sub-area

The most intense Sub-area accommodates the most intense types of uses and largest building scale permitted in the PRAs. Building heights shall be at least two stories and are permitted up to five stories by right, with green building incentives allowing up to eight stories for certain building types. [Ord. 2010-022]

2) UC 2 Sub-area

This Sub-area allows for the same intensity of uses, but begins a physical transition to the UC 3 Sub-area. Buildings shall be at least two stories in height and are permitted up to four stories by right, with green building incentives allowing up to six stories for certain building types. [Ord. 2010-022]

3) UC 3 Sub-area

The least intense UC Sub-area intended to provide for a transition between the more intense UC 1 and 2 Sub-areas, and abutting residential neighborhoods or adjacent UI Sub-areas. Buildings shall be at least two stories in height and are limited to a maximum of three stories by right. [Ord. 2010-022]

Figure 3.B.16.e – PRA Transect Zones and Sub-areas

[Ord. 2010-022]

b. Urban Infill (UI) Sub-area Transects

The UI accommodates mixed use redevelopment along the corridors, while providing a transition to the adjacent, existing residential neighborhoods. The UI is broken down into two distinct sub-areas, as follows: [Ord. 2010-022]

1) UI 1 Sub-area

A moderately intense Sub-area accommodating commercial, mixed use, and residential uses. Building heights up to three stories are permitted by right, with green building incentives allowing up to four stories for some building types. [Ord. 2010-022]

2) UI 2 Sub-area

1. PRA Transect Zones (TZ)
Transect Zones are distinct categories that define and organize density and intensity ranging from the most urban to the least urban. The URAO establishes the Urban Center (UC) and Urban Infill (UI) FLU designations for the PRAs, and further refines these designations using sub-areas as transect zones. Transect zones facilitate the development of urban forms while providing for gradual transitions in building scale and use intensity, rather than rigid distinctions. The default location for the URAO Transect Zones shall be in accordance with the PRA GIS Regulating Plan maintained by PZB. [Ord. 2010-022]

EXHIBIT V
URBAN REDEVELOPMENT AREA OVERLAY (URAO)
SUMMARY OF AMENDMENTS
(Updated 6-27-11)

a. Urban Center (UC) Sub-area Transects

The UC is designated at prominent intersections and is the most intense PRA district, typically comprised of larger interconnected commercial and buildings containing a wide variety of uses, of at least two stories in height that create a continuous street wall along designated street frontages. A well-balanced mix of residential, commercial, civic, and recreational uses is encouraged, but may also be a requirement of the PRA TCEA. The UC is broken down into three distinct Sub-areas, as follows: [Ord. 2010-022]

Figure 3.B.16.E – PRA Transect Zones and Sub-areas

[Ord. 2010-022]

[Relocated from Table 3.B.16.E, PRA Transect Zones and Sub-areas]

1) UC 1 Sub-area

The most intense Sub-area accommodates the most intense types of uses and largest building scale permitted in the PRAs. [Ord. 2010-022]

2) UC 2 Sub-area

This Sub-area allows for the same intensity of uses, but begins a physical transition to the UC 3 Sub-area. [Ord. 2010-022]

3) UC 3 Sub-area

The least intense UC Sub-area intended to provide for a transition between the more intense UC 1 and 2 Sub-areas, and abutting residential neighborhoods or adjacent UI Sub-areas. [Ord. 2010-022]

[Relocated from Art. 3.B.16.E.4.a, Urban Center (UC) Sub-area Transects]

b. Urban Infill (UI) Sub-area Transects

The UI accommodates mixed use redevelopment along the corridors, while providing a transition to the adjacent, existing residential neighborhoods. The UI is broken down into two distinct sub-areas, as follows: [Ord. 2010-022]

Figure 3.B.16.F – PRA Transect Zones and Sub-areas

[Ord. 2010-022]

[Relocated from Table 3.B.16.E, PRA Transect Zones and Sub-areas]

1) UI 1 Sub-area

A moderately intense Sub-area accommodating commercial, mixed use, and residential uses. [Ord. 2010-022]

2) UI 2 Sub-area

The least intense UI Sub-area intended to provide for a gradual transition between the UI 1 Sub-area and adjacent residential areas. [Ord. 2010-022]

[Relocated from Art. 3.B.16.E.4.b, Urban Infill Sub-area Transects]

c. TZ Sub-area Modifications

The DRO shall have the authority to allow modifications to the location and boundaries of the default UC or UI Sub-area Transects illustrated in the PRA GIS Regulating Plan,

a. External Access

One access point shall be permitted for each 160 linear feet of street frontage. 3. Block Standards Design

Blocks shall be created by utilizing streets and alleys to provide continuous pedestrian and vehicular circulation, interconnectivity and accessibility in PRA projects. 4. Frontage Classifications and Street Standards

This code addresses the design of perimeter and internal streets and establishes related standards to ensure that pedestrian amenities and walkways, buildings and other improvements are properly and safely situated. [Ord. 2010-022]

a. Frontage Classifications Perimeter Street Frontages

~~Perimeter streets are defined in accordance with the frontage types of the GIS Regulating Plan, as slip street, primary or secondary frontages. [Ord. 2010-022]~~

Frontage classifications define the details of the pedestrian realm located between the public R-O-W or internal streets and the building facade. Three frontage types are established, as follows: Slip Street, Primary, and Secondary. The default location for the PRA Frontage Types shall be in accordance with Maps LU 9.1 and LU 9.2, Urban Redevelopment Area Regulating Plan. [Ord. 2010-022]

[Relocated from Art. 3.B.16.E.3, Frontage Classifications]

1) Slip Street Frontage Slip Streets

~~The slip street establishes a pedestrian oriented parallel street with on-street parking accommodations immediately abutting a commercial corridor. [Ord. 2010-022]~~

The Slip Street is an optional designation for areas that were determined to have sufficient depth to accommodate landscaping along the existing thoroughfare, a one-way vehicular lane, a parallel parking lane, and a wide pedestrian zone. [Ord. 2010-022]

[Relocated from Art. 3.B.16.E.3.a, Slip Street Frontage]

a) Applicability

- (1) *The parcel, or group of parcels, has 400 feet of frontage; or*
- (2) *The parcel, or group of parcels, is located between two side streets; or*
- (3) *The parcel, or group of parcels, is located adjacent to an existing slip street. Applicants may opt to utilize the slip street in areas not designated for slip street, provided the parcel or group of parcels has at least 400 feet of frontage where a Primary Frontage type is identified. [Ord. 2010-022]*

[Relocated from Art. 3.B.16.E.3.a.1, 2 and 3 (related to Slip Street Frontage)]
