

2018 Tax Form 1095-C to be mailed by March 1

Early March 2019, some employees will receive tax form, Form 1095-C, that will contain detailed information about their health care coverage. This form is a requirement under the Affordable Care Act (ACA) and health care reform.

It is important to keep the form for your records; however, for the 2018 tax year only, you **do not** need it to file your tax return for 2018. Additional information can be found on the [IRS website](#) and in [IRS Notice 2018-94](#).

Please note this IRS guidance posted in the “Questions and Answers about Health Care Information Forms for Individuals (..., and 1095-C)”:

3. Must I wait to file until I receive these forms?

Some taxpayers may not receive a Form 1095-C by the time they are ready to file their tax return. While the information on these forms may assist in preparing a return, they are not required.

Individual taxpayers should not wait for these forms and file their returns as they normally would.

Like last year, taxpayers can prepare and file their returns using other information about their health insurance. You should not attach any of these forms to your tax return.

If you have any questions about your tax return, contact your tax preparer or advisor. If you have questions for Group Insurance email: BCCMyBenefits@pbcgov.org or call 561-233-5400.
