My Brother’s Keeper

2016-2017 Annual Report
Mission

The My Brother's Keeper Network (MBKN) is a coalition of public and private entities that work together to improve life outcomes for boys and young men of color through internal agency policy review, mentoring, education and employment opportunities.
MBK NETWORK GOALS

➢ To create a network of agencies that are working together to achieve shared goals (MBK goals)

➢ To assist network agencies in assessing current program policies and practices that focus on improving outcomes for boys of color, in determining their effectiveness and provide recommendations, resources, and strategies for improvement
MBK NETWORK GOALS

➢ To create a sustained initiative that increases the number of male mentors and structured activities that promote the achievement of MBK goals

➢ To promote systemic changes in order to improve the community's attitudes and practices toward boys and young men of color, and to strategically allocate public and private resources to enhance their educational and economic opportunities
Core Beliefs

Three Core Beliefs Guide the My Brother's Keeper Network:

First: There are dedicated leaders and organizations that are successfully changing the life outcomes for boys and young men of color. However, they are lacking the infrastructure, support and resources needed to sustain their work and increase their efforts to scale.

Second: Long-term success requires a coordinated movement of leaders and organizations working together to advance shared goals.

Third: Boys and young men of color live within a system that was previously designed to discriminate based on race. As a result, we need to address this issue with race-based solutions that are strategic and targeted.
Based on these core beliefs, MBKN will undertake the following interconnected strategies:

- Mentor Recruitment
- Strategic Communications
- Network Building
- Capacity Building
MBK Community Challenge Goals:

The six goals of the MBK Challenge are ensuring all:

- Entering School Ready to Learn
- Reading on Grade Level by 3rd Grade
- Increase High School Graduation Rate
- Increase enrollment and completion of post-secondary education or training
- Ensure Access To Jobs and Valuable Work Experience
- Fostering Community That Prevents Exposure to Violent crime
**MBK Milestones**

1. Increase Kindergarten Readiness

2. Increase Reading on Grade Level by 3rd Grade

3. Increase High School Graduation Rate

4. Increase Enrollment in Post-Secondary Education or Training

5. Ensure Access to Jobs and Valuable Work Experience

6. Fostering Community that Prevents Youth’s Exposure to Violent Crime
Milestone 1
Increase Kindergarten Readiness

Palm Beach County Children Ready for School

92% in 2015 (FY16) to 90% in 2016 (FY17)

*School Readiness data for 2014 and 2015 were not included for cross year comparisons due to the following reasons. 1) For 2014, no kindergarten readiness data were available since the state did not release the data. 2) For 2015, the kindergarten readiness result was inconsistent with the previous years. In 2015, the Florida Kindergarten Readiness Screener (FLKRS) replaced the previous measurement tool which included both the Early Childhood Observation System (ECHOS) and the Florida Assessments for Instruction in Reading - Kindergarten (FAIR-K) from 2011 to 2013 with the Work Sampling System (WSS). The WSS measures were quite different from the ECHOS and FAIR measures which resulted in a much higher percentage of the students who were deemed ready for kindergarten than the previous years by about twenty percentage points on average.
