

**Board of County Commissioners
Palm Beach County, Florida
Economic Development Incentive Program**

Program Overview

Economic Development Incentive (EDI) Program goal is to encourage the growth of **higher-wage** jobs and a diverse economic base by providing incentives to qualified target industry businesses to relocate to or expand in Palm Beach County. Recipients are required to create higher-wage employment opportunities for Palm Beach County residents. Incentives provided to businesses are entirely contingent on the approval of the BCC.

Incentives may be provided in the form of a cash grant or an ad valorem tax exemption. Funds for cash grants are allocated by the BCC from the Palm Beach County General Fund Contingency Reserves. Ad valorem tax exemptions were established by ordinance in 2004, (Ord. No. 2005-004) and amended in 2013 (Ord. No. 2013-022), all in accordance with Section 196.1995, Florida Statutes, as may be amended. Each ordinance set a 10-year programmatic operation period, with the current ad valorem tax exemption ordinance to remain in effect until August 19, 2034. Ad valorem tax exemptions are allocated by the BCC and in compliance with Florida Statutes.

Program incentives may be provided to satisfy, in whole or part, a local match requirement to an incentive provided through Florida Department of Commerce. When provided as a local match, BCC-approved Program incentives are contingent on certification as a qualified target industry business in accordance with Section 288.106(4), Florida Statutes, as may be amended and pursuant to Section 288.061, Florida Statutes, as may be amended.

The BCC, at its discretion, may modify any Program criteria, consideration, or requirement at the request and recommendation of County Administration and the Department of Housing and Economic Development (DHED) staff subject to Florida Statutes as applicable. Special Consideration may be provided to census tracts in distressed areas including Opportunity Zones and Rural Areas of Opportunity.
