

## SUMMARY OF FINDINGS AND CONCLUSIONS

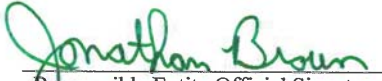

buildings. The activity site is located ~851 feet from the AST which is an acceptable separation distance. See discussion above regarding the FDEP Map Direct website and Waste Management Maps access process to create the AIR STCM map for the 1-mile radius review of facilities.

The activity is in compliance with HUD's environmental requirements as it relates only to the provision of replacement/construction of a residential structure under the HOME S/F Owner Occupied Housing Replacement Countywide Program. Funds may be committed and drawn-down for this activity.
