Dear Palm Beach County Residents,

When professional artists are part of Palm Beach County’s capital facility construction projects, our public spaces, buildings, and streetscapes are further enriched for all to enjoy. For this reason, the County has integrated “Public Art Places” into its permanent public facilities to reveal contemporary and historical local stories that create a distinct sense of place. To date, 41 individual professional art installations have been commissioned as part of County facility construction or enhancements, with more constantly in the works.

Palm Beach County’s Art in Public Places Program is managed by the Facilities Development & Operations (FDO) Department. The mission of the Program is to provide art that complements public buildings, parks, and plazas; creates and enhances community identity; improves the design quality of public infrastructure; and contributes to the missions of the county departments where public art is integrated.

With the passage of various resolutions over the years, the Board of County Commissioners has recognized the importance of a public art program in promoting the general welfare of the community through art integrated into architecture, infrastructure, and landscape. To better ensure the success of its Art in Public Places Program, the Board tasked FDO with overseeing it and, in 2003, established a Public Art Committee to serve an advisory role. In 2004, the Art in Public Places Administrator position was created within FDO to professionally manage and expand the County’s Art Collection and Art in Public Places Program.

Today the County follows an openly competitive and systematic approach to integrating professional artists and art into the planning, design, and engineering process of County facilities. Combined with public art education and outreach programs, the County engages communities in learning about and experiencing the benefits of incorporating art into public places.

We invite you to learn more about the County’s unique Public Art Places on the County’s Art in Public Places website [www.discover.pbcgov.org/fdo/art](http://www.discover.pbcgov.org/fdo/art) and to experience them all in person. You can also join the County’s Art in Public Places Administrator, Elayna Toby Singer, on a virtual tour of “The Art of Making Place.” See this Program Guide for show times, and enjoy!

Cordially,

Isami C. Ayala-Collazo
