Coronavirus 2020

1. Hunger Relief is partnering with community partners within and outside our network to address short term, midterm, and long term needs of the Palm Beach County communities. We are staying nimble so we can proactively identify needs, address needs as they arise, prepare for expected and unexpected needs and find and/or create solutions. We are also tracking information available through our networks, data, and WebEOC.
2. Hunger Relief for United Way of Palm Beach County continues to coordinate food distribution with PBC Food Bank, Feeding South Florida, Area Agency on Aging and approximately 80 food pantries that are still operating throughout the county. Hunger Relief for UWPBC is the central point of contact for businesses, faith-based entities and others who are interested in donating or distributing food during this crisis.

All other individuals who are in need of food should contact 211. 211 receives frequent updates of pantries that remain open and have food. 211 also has information on how to find Grab 'n Go sites around the County that are open for families with children 18 and under. (Please note: Meals are FREE to anyone under 18 years of age (under 22 for ESE students), regardless of financial need. Children do not need to be school age – the program is for those 18 and under.

Please Note: Starting April 6, 2020, Child No Longer Required to Be Present:

The U.S. Department of Agriculture (USDA) has provided a waiver to allow parents/guardians to pick up meals without the child being present. The parent needs to provide confirmation of the number of children for which they are picking up meals, by one of the following methods: student ID, student passport, student library card, student birth certificate, or a photo of adult picking up the meals with the students for who they are picking up meals.

The parent will show the identification to staff providing the meals, and meals will be provided for the number of children identified. The District follows food distribution rules as outlined by the USDA.

For the week of April 6, 2020, 35 School District of Palm Beach County sites distribute 'Grab and Go' bags filled with breakfast, lunch, supper, and a snack. These sites will be open Monday through Thursday. Those who come on Thursday to pick up meals will be receiving meals for both Thursday and Friday.

Starting Monday, April 13, and until further notice, the 35 School District of Palm Beach County feeding sites will be open Monday, Wednesday, and Friday. Two days worth of meals will be provided each day.

Family Weekend Backpack meals are being distributed through the Grab 'n Go program due to the Coronavirus Epidemic.

We are in touch with our community partners regarding legislative changes and are currently monitoring a partnership between DCF and FDACS for P-EBT. When it's established, clients will be able to file an application through the FDACS website and FDACS will process it. This should be up and running in April and will run concurrently with the School District of Palm Beach County's NSLP program. Those who are receiving P-EBT will still be able to receive school district meals.
