

Don't Miss It!

4-H Quarter & Silent Auction Fundraiser

October 27, 6-9 pm

Enjoy games, crafts, and a costume contest too!

So how does a quarter auction work?

When you arrive, you'll purchase an auction paddle or you can purchase an entire table. You'll be given a numbered paddle which you'll use to bid on the items and services that are being auctioned. If you purchase an entire table, you will be entered to win every auction drawing. The auctioneer will then let you know how much it costs to bid on the items in quarter intervals based on the item's worth. For example, if you're bidding on a manicure that would normally be worth \$25, the bid might be set at two quarters. If a bed and breakfast has provided a weekend stay that would normally be worth \$200+, the bid might be set at \$10. If you wish to bid, you will raise your numbered paddle and volunteers will come around and collect the quarters and your bid ticket. The auctioneer will then draw a bid ticket and the number that is pulled will match a number on the paddle of someone who has bid on the item and they win it.

Some of the Prizes Available:

- | | |
