Executive Summary

This is the second edition of the Community Services Department Contract Portfolio. It represents all of the contracts from FY 2021.

Purpose

The purpose of the report is to visualize all of the funding sources across the Community Services Department (CSD) that result in contracts. Also included is a description of funding sources that do not result in contracts, thus being able to see the entire funding portfolio of CSD. This report is broken up by division and shows the funding sources, a description of the funding sources (if available), performance outcomes (if applicable), and a detailed breakdown of the funding sources that resulted in contracts. The breakdown of contracts shows each agency that was funded through a competitive process and when available, it also details who was served and the dollar amount provided.

Contracts

The report demonstrates the variety of funding that flows through the Community Services Department and its impact on nonprofit agencies throughout the community as well as the people that they serve. The report also depicts outcomes tracked as part of the contract, if available, and a description of those outcomes; the exception to this is the FAA Ad Valorem funding source, which publishes its own Demographics and Outcomes report annually.

Direct Services

Direct Services are services that are provided by the staff of the Community Services Department and their respective divisions to the community. The variety of funding sources that are used to provide these services are included to show the entire portfolio of funding across the department. Detailed information on direct services such as outcomes, number of people served, and client stories are described in the Community Services Department Annual Report.

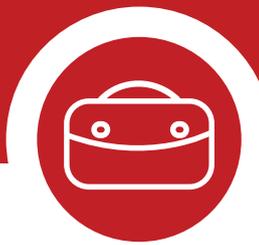

Reporting Changes

The Ryan White program pages in this report contain information that has been repeated from the 2020 version of the Contract Portfolio. Additional information on demographics and outcomes have been provided, when available. The repetitiveness of the information is due to the crossover of timelines from when the first version of the report was produced to when this second version is being published. Beginning with 2022, the Contract Portfolio will be adjusted to account for this variance.

Funding Source Data Range Matrix

Funding Sources	Description	Total Awarded
Ad Valorem	Palm Beach County Financially Assisted Agencies (FAA) - Ad Valorem	\$12,402,726.00
	Total	\$12,402,726.00

Palm Beach County has provided additional financial assistance to community-based organizations providing health and human services through the Financially Assisted Agencies (FAA) program, which is funded by Ad Valorem dollars. This funding is managed through the Administration section of the Community Services Department. Strategies and priorities of the funding are determined in collaboration with the Citizens Advisory Committee on Health and Human Services (CAC/HHS) and other divisions within the department. Through an annual competitive procurement process, funding is allocated across the three (3) main service categories of Housing/Homelessness, Economic Stability/Poverty, and Behavioral Health. There are additional sub-categories that align with the aforementioned service categories and these include Domestic Violence/Sheltering, Seniors, and Special Needs/Developmental Disabilities. Administration releases an annual report on the agencies/programs funded through the Financially Assisted Agencies (FAA) funding source. The report contains detailed demographic and outcome information for each of the funded agencies/programs. This document is published on the Community Services Department website and can be found here: <https://discover.pbcgov.org/communityservices/financiallyassisted/Pages/Documents.aspx>

The table of funded agencies, programs, and contracted dollar amounts can be found on the next page.

Challenge Grant

Funding Sources	Description	Total Awarded
Challenge Grant	State Funding – through the Department of Children and Families (DCF) office on Homelessness Unified Funding Grant	\$124,000.00

The **Challenge Grant** program from the State Office on Homelessness is authorized to provide grant funding annually to lead agencies for homeless assistance continuums of care. These funds may be used for an array of programs, facilities, and services that are identified in the local continuum of care plan. Funding is allocated through a Notice of Funding Opportunity (NOFO) process. Funding recommendations for Challenge funds are made by the selection review committee and subject to final approval by the Board of County Commissioners. The NOFO established funding categories for the following: Homelessness Prevention, Outreach, Emergency Shelter, Supportive Services, Transitional Housing, and Permanent Housing.

Continuum of Care (CoC)

Funding Sources	Description	Total Awarded
Continuum of Care (CoC)	Federal Funding – through Housing and Urban Development (HUD)	\$5,373,973.00

The **U.S. Department of Housing and Urban Development (HUD)** provides an opportunity for agencies to apply for a 12-month funding period for new projects or existing CoC renewal projects. The CoC Program is designed to promote a community-wide commitment to the goal of ending homelessness; to provide funding for efforts by nonprofit providers, states, and local governments to quickly rehouse homeless individuals, families, persons fleeing domestic violence, sexual assault, dating violence, and stalking; and youth while minimizing the trauma and dislocation caused by homelessness; to promote access to and effective utilization of mainstream programs by homeless individuals and families; and to optimize self-sufficiency among those experiencing homelessness. Funding is allocated through a Notice of Funding Opportunity (NOFO) process. Applications are reviewed by staff and a non-conflict review panel. The Division of Human Services (DHS) submits an application to HUD on behalf of the CoC that describes the NOFO process and the recommendations that were made for project funding. HUD awards CoC projects with funding as part of a national NOFO process. CoC contracts are awarded to programs and a contract is established between HUD and the agency. DHS serves as the CoC lead and acts on behalf of HUD through the monitoring process of the contracts.

Emergency Solutions Grant (ESG)

Funding Sources	Description	Total Awarded
Challenge Grant	Federal Funding – through the Department of Housing and Economic Development	\$451,346.00

The **Emergency Solutions Grant Program (ESG)** provides financial assistance to non-profit agencies that operate emergency shelters, transitional housing, and supportive services for homeless individuals and families. Palm Beach County receives Emergency Solutions Grant Program (ESGP) funds from the U.S. Department of Housing and Urban Development (HUD) annually. The ESG is authorized by the Stuart B. McKinney-Vento Homeless Assistance Act of 1987, as amended, for the rehabilitation or conversion of buildings for use as emergency shelter for the homeless, for the payment of certain operating expenses, for the rapid re-housing of homeless individuals and families, essential services in connection with emergency shelters for the homeless, and for homeless prevention activities. Funding is allocated through a Notice of Funding Opportunity (NOFO) process. Funding recommendations for ESG funds are made by the selection review committee and subject to final approval by the Board of County Commissioners. The funding categories include Operations and Maintenance of Shelter Facilities and Rapid Re-Housing.

Emergency Solutions Grant COVID-19-2 (ESG-CV2)	Federal Funding – through the Department of Housing and Economic Development	\$4,264,953.00

The **Coronavirus Aid, Relief, and Economic Security Act (CARES Act)** appropriated funding through the Emergency Solutions Grants Program (ESG-CV1 & ESG-CV2) and provided financial assistance to prevent, prepare for, and respond to the Coronavirus pandemic (COVID-19). This was specific to individuals and families who were homeless or receiving homeless prevention assistance services to mitigate the impacts created by Coronavirus under the Emergency Solutions Grants program. ESG-CV funding were distributed by the U.S. Department of Housing and Urban Development (HUD) and was allocated to the State of Florida to be distributed. ESG-CV2 funds were distributed to a sole-source provider because they were the only organization that could provide Emergency Shelter, Homeless Prevention and Rapid-Rehousing Service and was subject to final approval by the Board of County Commissioners.

Ending the HIV Epidemic

Funding Sources	Description	Total Awarded
Ending the HIV Epidemic*	Federal Funding from Health Resources and Services Administration (HRSA)	\$850,000.00

The U.S. Department of Health and Human Services’ **Ending the HIV Epidemic in the U.S. (EHE)** initiative aims to reduce the number of new HIV infections in the United States by at least 90% by 2030 with the goal of decreasing the number of new HIV infections to fewer than 3,000 per year. Reducing new infections to this level would essentially mean that HIV transmissions would be rare and meet the definition of ending the epidemic. Awards made to HRSA’s Ryan White HIV/AIDS Program recipients will be used to continue to link people who are either newly diagnosed with HIV, or diagnosed but currently not in care, to essential HIV care, treatment, and support services, helping them reach viral suppression and reduce HIV transmission.
