

A Letter from our Chairs

We had an exciting 2024 Securing Our Future Initiative (SOFI) Economic Mobility Summit on December 9th.

During this summit, we explored ways to collectively enhance upward mobility opportunities for families living in poverty. Participants learned about a comprehensive, integrated system of social supports designed to empower families as they advanced economically. We discussed the development of a community-driven, data-informed effort that enables system leaders to collaborate in strengthening our local ecosystem, increasing financial stability for families, and dismantling public policies that perpetuate racial, geographical, and other forms of inequity within our workforce, healthcare, education, and criminal justice systems.

We are dedicated to challenging mental models and shifting embedded social narratives that shaped policies, institutional practices, and resource flows. We are also committed to finding sustainable solutions with those most affected, keeping families at the center of our work, and strengthening the relationships between service providers and the families we served.

Thank you for partnering with us for this Summit. Together, we can continue to shape solutions that will encourage the workforce of the future and ensure that every child and family has the opportunity to live in a community where the promise of economic success becomes a reality.

OPENING PLENARY SESSION

Stronger Together: Empowering Local Community Networks to Advance Economic Mobility

During this session, participants discussed how leveraging the Urban Institute’s Upward Mobility framework could drive economic mobility across Palm Beach County. Attendees explored tools from Opportunity Insights, the National Association of Counties, and Results for America, examining strategies for effectively utilizing these resources to promote upward economic mobility. The session highlighted how tracking community conditions and reviewing key predictors and indicators can empower local networks to achieve economic growth. It provided a comprehensive overview of how all systems work together to create an opportunity ecosystem. Following this, the workshop sessions delved deeper into each system or domain, discussing how government, foundations, nonprofits, and the business community are collaborating to build a stronger, more prosperous community.

SAFETY & JUSTICE

Life After Incarceration: Navigating the Challenges of Re-Entry to Promote Economic Mobility

In this session, we explored the various barriers and existing policies that hinder individuals from successfully gaining employment upon re-entering society. Participants engaged in discussions and discovered best practices aimed at reducing fines and fees, advancing economic mobility for formerly incarcerated individuals and their families, and fostering supportive employer practices. Topics included policy recommendations that promote fair hiring practices and enhance economic prospects for citizens re-entering the community.

FOOD & HUNGER

Cultivating Prosperity: Harnessing the Power of Food Systems for Economic Mobility

We uncovered the transformative potential of the food system in driving economic mobility. From strengthening food infrastructure to fostering culinary entrepreneurship, we explored strategies to combat food insecurity and enhance economic prospects.

Insights into ongoing community projects and expert-endorsed best practices were shared, along with initiatives that boost earning potential. Local endeavors empowering individuals through vocational culinary training and promoting economic equity in the food sector were also highlighted.

EMPLOYMENT

Empowerment Pathways: Paving the Way to Economic Independence

In this session, we explored a myriad of innovative approaches aimed at fostering employment and economic empowerment within our community. We spotlighted initiatives such as Circles and Prosperity Centers, programs dedicated to assisting those living in poverty by offering comprehensive wrap-around services, including employment skills training and social capital development to facilitate their transition out of poverty. Concepts like universal income, pre-employment training, work readiness training, and financial literacy were also discussed. This session provided an opportunity to explore these initiatives and their role in promoting economic mobility and empowerment within our community.

HEALTH & WELLNESS

Health is Wealth: Advancing Health Equity Through Economic Mobility

This session focused on the critical intersection of health and economic stability, emphasizing how improving economic mobility can lead to better health outcomes for individuals and families, particularly those facing significant barriers. Participants explored innovative pilot initiatives and proven best practices aimed at supporting the physical and behavioral health needs of families living in poverty and individuals transitioning back to the community from treatment centers and jails. Valuable insights were shared, experiences were exchanged, and collaboration took place among participants committed to advancing health equity through economic mobility.

LUNCH PLENARY

Poverty, Place and Race: Exploring the Legacy of Persistent Poverty in PBC

We hosted a compelling plenary session addressing the interconnected issues of poverty, race, and place and their impact on upward economic mobility. Participants explored the racial wealth gap, policies that perpetuate poverty, and innovative investment strategies to revitalize neighborhoods. Promising initiatives such as the Purpose Built Community model, which fosters public-private partnerships for community revitalization, were highlighted. Misconceptions about racial economic progress were addressed, and interventions were examined to provide clearer insights into economic disparities. This session reimagined the power of place to foster economic opportunity and growth, paving the way for a brighter, more equitable future.

CHILDCARE

Nurturing Success: Exploring Childcare Solutions to Advance Economic Mobility

We delved into the critical topic of childcare and its profound impact on early childhood development and intergenerational income mobility. Participants explored innovative approaches such as employer-sponsored childcare and the pivotal role it plays in supporting working families. The discussion highlighted the significance of early childcare in shaping future opportunities for children and families. Local organizations were spotlighted for their tireless efforts to provide quality childcare services to our community. Additionally, policies and programs aimed at enhancing access to affordable childcare for families in need were discussed. This session provided an opportunity to learn, engage, and advocate for solutions that empower children and families for a brighter future.

TRANSPORTATION

Navigating the Road Ahead: Advancing Transportation for Economic Mobility

We hosted an insightful discussion on transportation and its pivotal role in fostering economic mobility within our communities. Participants explored the current state of transportation infrastructure, including potential enhancements such as new bus stops and other changes aimed at improving accessibility. Innovative initiatives that foster collaboration between the public and private sectors to enhance transportation services were highlighted. Best practices from across the nation were shared, addressing transportation challenges and promoting equitable access for all. This session provided an opportunity to contribute to the creation of a more inclusive transportation system for our communities.

EDUCATION

Bridging the Gap: Enhancing Education for Employment in the Digital Age

We hosted an enlightening session on empowering tomorrow's workforce, today. Participants explored education's role in addressing the skills gap and preparing individuals for the evolving workforce demands. Strategies were discussed for identifying and focusing on the essential skills needed by potential employers and collaborating with the educational system to integrate them into tailored curricula. The session also delved into the realm of AI and Cybersecurity, highlighting the certifications required to increase employment opportunities in these growing fields. Best practices were shared from national partners and communities actively working to bridge the gap between education and employment, offering invaluable insights into effective strategies for success. This session provided an opportunity to contribute to shaping the future of education and employment in the digital age.

HOUSING

Creating Homes, Creating Futures: A Collective Effort to Increase Economic Mobility via Access to Affordable Housing

We held a vital discussion on housing as an essential need and the collective efforts underway to increase housing accessibility and affordability in Palm Beach County. Participants explored strategies to leverage housing initiatives to advance economic independence and stabilize communities. Topics included the effective utilization of the Housing Dashboard, homeless prevention strategies focusing on eviction prevention, and other initiatives aimed at increasing access to affordable housing. Insights were shared on collaborative efforts with Housing Authorities, emphasizing governance and boosting economic mobility through self-sufficiency models to end homelessness for families across our community. The discussion also highlighted the importance of sealing eviction records for housing stability and economic prosperity. This event provided an opportunity to address housing challenges and work toward building a better future for our communities.

CLOSING PLENARY SESSION

Building Artificial Intelligence (AI) in Health and Human Services: Addressing Current Challenges and Exploring Future Opportunities

We closed our Summit with the crucial topic and discussion of building Artificial Intelligence (AI) in Health and Human Services to advance economic mobility. Participants explored how AI and other existing technologies could be leveraged to address current challenges and unlock future opportunities in the health and human services sector. During this final session, we discussed innovative strategies and potential applications of AI to enhance service delivery, improve client outcomes, and streamline administrative processes. This session provided an opportunity to be at the forefront of revolutionizing the health and human services sector through the integration of AI.

About the Securing Our Future Initiative

The Securing Our Future Initiative (SOFI) was developed through the Birth to 22 Alliance as a strategy to facilitate the financial upward mobility of our families to ensure our youth have the resources they need to thrive in our community. Palm Beach County Community Services Department answered the call to lead this collective-impact, poverty-reduction initiative. As a well-respected Health and Human Services funder in Palm Beach County, the Community Services Department acknowledged they had the opportunity to engage local nonprofit organizations in the work of SOFI so they designed outcomes for SOFI and released a Request for Proposals to appoint community organizations that could conduct activities yielding the poverty-reducing outcomes identified. Following the Request for Proposals, a number of organizations were selected to participate in the Securing Our Future Initiative.

As you will see on the next page, the Securing Our Future Initiative has made strides in reducing childhood poverty in Palm Beach County. We have accomplished much and acknowledge there is still much more work to do. We are proud to collaborate with our local community to achieve a 10% reduction of childhood poverty over the next 10 years.

WHO WE ARE

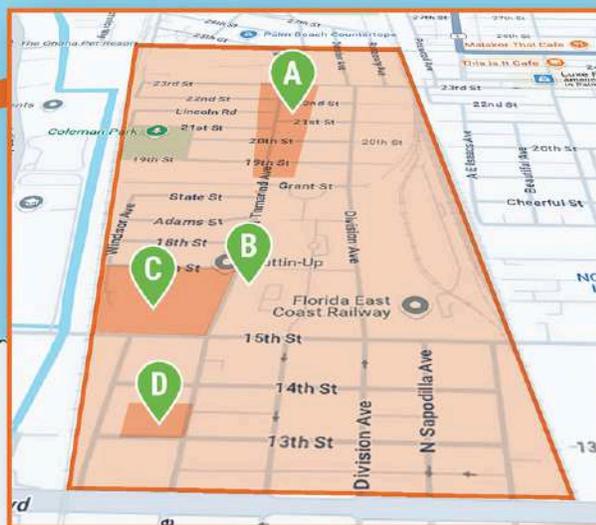

Palm Beach Venture Philanthropy's (PBVP) primary goal is to support and enhance Quantum Foundation's mission to inspire and fund initiatives that improve the health of communities by using long-term investments and initiatives that go beyond providing just financial support.

This will be accomplished by developing solutions and securing capital to tackle persistent socio-economic challenges in underinvested communities.

PBVP was established in 2023 after Quantum Foundation's board and staff recognized the need for greater impact in the communities they serve. Despite awarding \$175 million to local nonprofit organizations in Palm Beach County over the past 30 years, economic mobility in the county's underinvested neighborhoods remained stagnant.

PBVP supports the people of a community by catalyzing investment in place and programs. We are piloting our initial efforts in partnership with Northend RISE as the Community Quarterback in Coleman Park.

PROJECTS WE ARE SUPPORTING IN COLEMAN PARK

BUILDING STRONGER COMMUNITIES TOGETHER

At Community Partners of South Florida, we are committed to investing in Palm Beach County residents with transformative solutions in education, housing, health, and economic development. Our mission is to create a thriving, inclusive community where opportunity, prosperity, and a high quality of life are accessible to all.

OUR IMPACT

From financial literacy training to accessible housing programs, CPSFL breaks down barriers and opens doors for families and individuals. Our approach provides not only immediate support but also long-term resources for stability, independence, and growth.

PARTNER WITH US

With your partnership, we can extend our reach even further. Supporting CPSFL means investing in brighter futures for children, stronger foundations for families, and a more resilient community. Together, we can create lasting change and build a prosperous Palm Beach County for everyone.

LET'S BUILD A STRONGER PALM BEACH COUNTY TOGETHER!

2024 Securing Our Future Economic Mobility Summit

The objective of the summit was to bring systems leaders together to support unemployed or underemployed families. The workshops and plenary sessions provided valuable information about ways in which health and human services systems can collaborate to help families earn more and move out of poverty. To enhance networking and learning opportunities, local workshop presenters were matched with national speakers with similar expertise.

Attendees played a crucial role in finding sustainable solutions for families experiencing poverty, keeping families at the center of the work, and strengthening relationships with them. Participation in this event demonstrated a commitment to eliminating inequities that keep families in poverty.
