Funding of \$282,667.78 for this Contract is included in the FY 2008 budget request. The Contract provides that additional deputies may be added to this Contract, if outside funding sources can be arranged. The Contract is presented unsigned, because PBSO policies require that entities contracting for their services sign the contract before the Sheriff signs the contract. Countywide (SF)
2. Staff recommends motion to:
  - A) approve** Agreement (Contract No. 013062) with the Florida Department of Agriculture and Consumer Services (FDACS) for mosquito control services performed by the Department of Environmental Resources Management (ERM), for the period October 1, 2007, through September 30, 2008 for an amount not-to-exceed \$35,000, contingent on FY 2008 State funding; and

5. REGULAR AGENDA

G. FACILITIES DEVELOPMENT & OPERATIONS

1. Staff requests direction: on proceeding with the design and construction of a Thermal Energy Storage system to supplement the Judicial Center Central Energy Plant (CEP). **SUMMARY:** In June 2007, the Board authorized proceeding with the expansion of the Judicial Center Central Energy Plant (R2007-0871) to serve the Governmental Center and the 1916 Courthouse as well as ultimately the build-out on Block D. The purpose of this phase of the project is to replace the Governmental Center roof mounted chiller plant which has reached its operational life expectancy by replacing and expanding the existing CEP chillers to accommodate the additional load. Also, the replacement of the existing chillers will eliminate the current refrigerant which is now banned by the EPA. As is typical for new and replacement HVAC projects, the County's consultant was tasked to examine the potential of alternative energy and energy cost saving systems including Thermal Energy Storage (TES). A TES system is designed to store cooling energy during "off-peak" hours thereby benefiting from reduced electrical rates. The analysis shows that the TES alternative for this project would reduce ongoing electrical costs by at least \$205,000/yr (before the construction of the Block D Building and \$265,000/annually with the Block D Building) when compared to operating the proposed new central chiller plant without TES. However, there is a net increase in capital cost of \$1.3M and requires the siting of a water storage tank on the property which not only requires approval from the City of West Palm Beach but the loss of 20 parking spaces. In order for the design to proceed further, Board direction is required with regard to the inclusion of TES in the further design of the CEP Expansion. Staff is presenting this to the BCC for direction as: 1) this analysis indicates favorable payback terms, but recognizes the immediate capital budget constraints and additional appropriation required; and 2) if chosen for long term financial reasons, the design money is at risk until (and if) the water storage tank is approved by the City. H. HEALTH DEPARTMENT

1. Staff recommends motion to approve:

**A)** a Contract with the Department of Health (DOH) in the amount of \$2,330,510 for Environmental Health and Engineering programs provided by the Palm Beach County Health Department (CHD) for the period October 1, 2007, through September 30, 2008; and

**B)** An Addendum to the Contract to clarify:

- 1) Paragraph 6.a. – as State employees/personnel, CHD employees are not “officers, agents, or employees of the County”;
- 2) Paragraph 7.c. – The County shall assure that insurance coverage for vehicles is available through either a self-insurance program or insurance purchased by the County except for insurance referenced in paragraph 7.e.;
- 3) Paragraph 7.d. – The County shall be named as additional insured on any agreement in which the CHD contracts or subcontracts any work to be performed on the premises to a third party; and
- 4) Paragraph 7.e. – As a State agency, the CHD agrees to be responsible for its own, its officers’, employees’, or agents’ negligent acts, or omissions, or tortuous acts, which result in claims or suits against the parties, and agrees to be liable for any damages proximately caused by said acts or omissions.

**SUMMARY:** This Contract sets forth the funding responsibilities of the DOH and the County for the operation of the Palm Beach County Health Department. The State and County share in the funding of the \$10,404,647 environmental health budget. The State’s share is \$5,284,152 (50.8%), primarily from State general revenue and fees. Funding from the County’s FY 2008 budget is \$2,330,510 (22.3%) that includes Environmental Control and Childcare Enforcement funding of \$135,890. The remaining local share (26.9%) is comprised of County authorized fees of \$832,106 (8.0%), Federal funds of \$486,463 (4.7%), DEP funds of \$381,394 (3.7%), the Air Pollution Tag fees of \$885,000 (8.5%) and local contract and miscellaneous funding of \$205,022 (2.0%). County funding is used primarily for salaries and benefits. The environmental staffing is responsible for surveillance of public drinking water systems, permitting and inspection of septic tanks, regulation of air pollution sources, inspection and licensing of child care and other group care facilities, and other duties related to environmental health. The Environmental Control and Childcare Enforcement funding provides for a full-time Attorney/Hearing Officer and a half-time paralegal position to provide counsel for the Child Care Advisory Council, in addition to other Boards, and to serve as Environmental Control Officer for Palm Beach County. County funds are included in the FY 2008 budget. No additional funds are needed. County staff requested certain changes to the State’s standard contract in order to clarify the insurance and liability provisions. The State preferred including these in an Addendum instead of revising the standard contract. Countywide (GB)

H. HEALTH DEPARTMENT (Cont'd)

2. Staff recommends motion to adopt: a Resolution of the Board of County Commissioners of Palm Beach County, Florida, authorizing funds to support a study to characterize the emissions from sugar cane burning in order to establish air toxic emission factors. **SUMMARY:** The Health Department's air pollution control program received a special federal award from the U.S. Environmental Protection Agency to contract with a Florida University to conduct laboratory study. The purpose of the study is to develop air toxic emission factors for sugar cane field burning. This information is important in order to estimate countywide air toxics emissions from all sources to better assess public health impacts. This resolution will enable the Health Department to utilize \$20,000 from the Air Pollution Control Trust Fund to cover approximately 21% of the cost for the \$94,113 special study. The Air Pollution Control Trust Fund is supported solely by motor vehicle license registration fees collected in Palm Beach County. Subsequent to this action, the net Trust Fund balance will have sufficient cash reserves to operate the air program. Countywide (GB)
