**RE: Cam D. Milani Park
4705 S. Ocean Boulevard, Highland Beach
Art in Public Places**

Dear Property Owner and Neighbor,

Per County policy, many vertical construction projects allocate a portion of the capital budget toward the integration of public art. Milani Park will be no exception, and a standard competitive solicitation process will be conducted to select a professional artist(s) to design and install the public art component for the park's approaching development.

As part of the artist solicitation, the County will establish eligible location(s) and surfaces for art placement and integration as well as art selection evaluation criteria. To assist in the development of the solicitation and to inform artist proposals, we are seeking the input of local property owners to identify a community vision for the public art installation.

Importantly, any art in public places initiative requires a high degree of artistic freedom. Therefore, the input being requested through this letter is for community members to suggest themes, topics, and ideas inspired by **local vision, sense of place, identity and preference**. Staff will synthesize all input received and embed the most common or popular results into the criteria to be considered by responsive artists and the County's Public Art Committee as part of the art selection process.

Should you wish to provide input into the Milani Park Art in Public Places installation, please do so by August 29, 2025 by contacting Elayna Toby Singer, Public Art Program Administrator, at ESinger@pbc.gov or (561) 233-0235.

Cordially,
