SOLICITATION NAME: Morikami Museum Roof, Eve and Facia Replacement

PROJECT No. 2023-021051

TYPE OF SOLICITATION: RFP

CATEGORY: CCNA-PROF. SVCS

SCOPE OF PROJECT:

Architectural and Engineering services required to provide architectural details, structural assessment, design, permitting and construction management to replace the approximately 22,425 sq./ft. oriental style tile roof and repair all deteriorating eaves and fascia boards at the Morikami Museum, located in Delray Beach. The existing roof is leaking and at end of life. The museum's architecture is inspired by traditional Japanese design. The building features three exhibition galleries, a 225-seat theater, an authentic tea house with viewing gallery, classrooms, a museum store, the Cornell Cafe and lakeside terraces. The Morikami Collection houses more than 7,000 Japanese art objects and artifacts, including a 500-piece collection of tea ceremony items, more than 200 textile pieces and fine art acquisitions.
