BUDGET SUMMARY TOTAL COMPARISON FY 2022 Adopted to FY 2023 Tentative Budget

What is the Budget?

The budget is a plan for the accomplishment of goals and objectives within programs identified as being necessary to the purpose of Palm Beach County government. Included in the format are the estimates of the appropriations of the resources required, the tax and non-tax revenues available to support implementation, and the number of positions estimated to fulfill the level of service represented by workload measures. The budget is presented to the appropriating body for adoption, which is the legal authorization to expend County funds during the fiscal year. The budget may be amended during the fiscal year by the governing body in accordance with procedures specified by law and/or administrative order.

Total Budget

The Total Budget includes budget transfers from one fund to another and payments from one County department to another for services received.

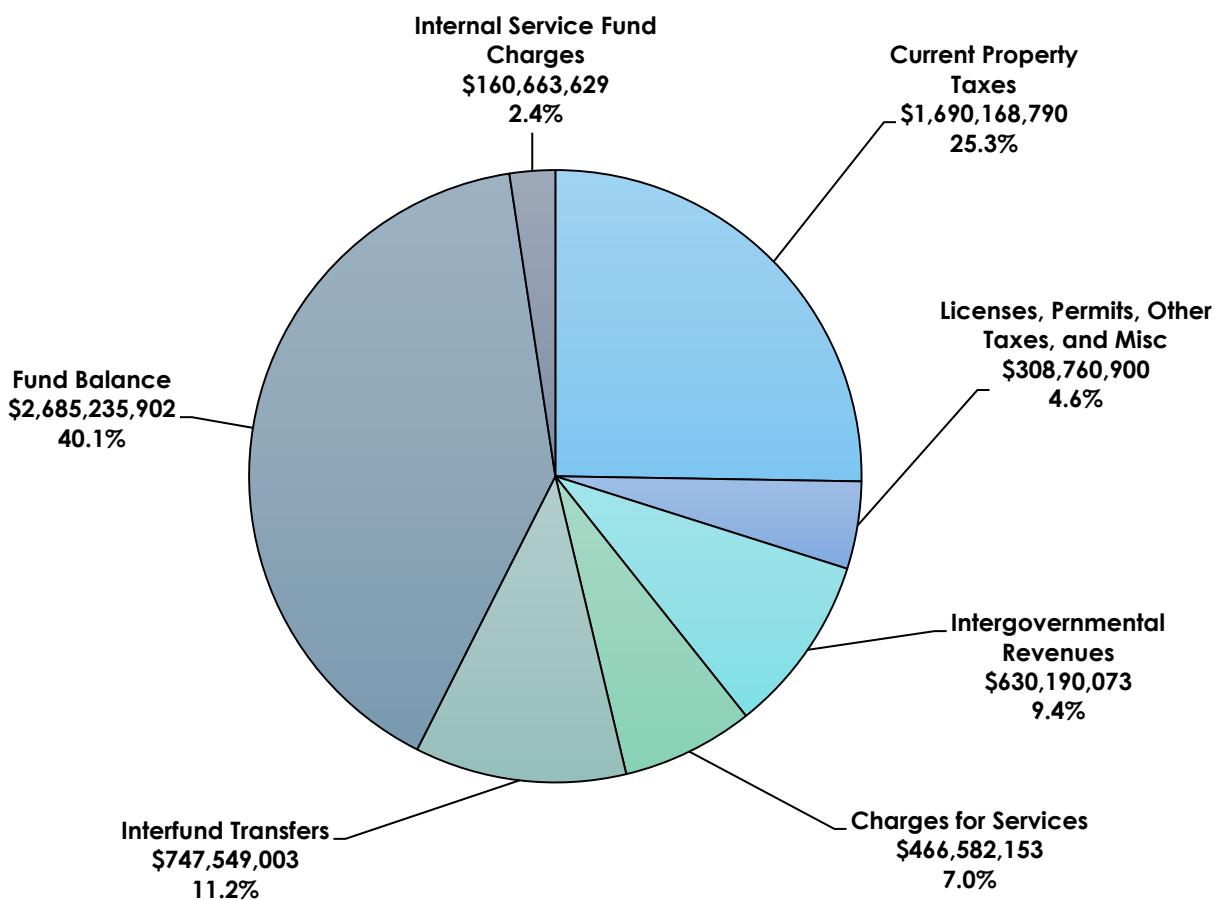

Net Budget

The Net Budget subtracts Internal Service Charges, transfers of money from one fund to another (Interfund Transfers), and payments from one department to another for services rendered, from the total Gross Budget. These reductions from the total Gross Budget are considered double-counted because they do not represent money coming into the County budget as revenue or leaving the County budget as expense. Interfund transfers are necessary to reflect movement of revenues within the legal budget from the fund where received to the fund where the expenditure is to be recorded.
