## Green Cay Nature Center Program Information

Green Cay Nature Center offers educational programs for school groups and other specialty groups. For all programs, Naturalists use live animals, models, interesting facts, and other fun materials to teach programs about Florida's native plants and animals and conservation! When you bring your group to the nature center for a field trip, we can accommodate up to 60 participants. We can offer multiple field trip days for those that exceed the maximum capacity. Field trips include a program presentation and boardwalk tour.

Our programs are flexible to meet the needs of your group, so if you are looking for something specific to be included, please ask. The following are the *program topics* we offer and are designed with CPALMS Standards for each grade shown:
