

Palm Beach County Fire Rescue

Welcome Vendors!

I am sure you are aware of how busy a day's work can become. That is certainly the case for us in Palm Beach County Fire Rescue's **Medical Services Division!** However, being busy has its draw backs when it does not allow the time to accommodate sales representatives eager to show us their latest and greatest products and services. We want you to know that we are most certainly interested in seeing what you have to offer as we look forward into the progressive future of the **EMS side of Fire Rescue!**

With those busy schedules in mind, the Medical Services Division is planning our first **Vendors Day** here at Palm Beach County Fire Rescue. Our goal is to provide a designated day to view and collect product information from industry vendors. To maximize vendor's time and exposure, we will also be inviting other local fire-rescue departments as well as local ambulance service representatives to attend. This event will be hosted at our Administrative Training Complex located at **405 Pike Road, West Palm Beach**. Event date(s) and time slots will be determined based on vendor response.

Vendors interested in participating in **PBCFR Vendors Day** will need to register by contacting PBC Fire Rescue at Fire-Vendors@pbcgov.org and providing the following information:

- Company Name
- Sales Representative Name, e-mail and phone number
- Products and/or services to showcase
- Estimated time and space required

We look forward to hearing from you!
