## Latest Paycheck Protection Program details

The **Paycheck Protection Program** is a federal relief program established by Congress and implemented by the U.S. Treasury Department and the SBA with rules, requirements, protocols and processes that all participating banks, including Bank of America, must follow.

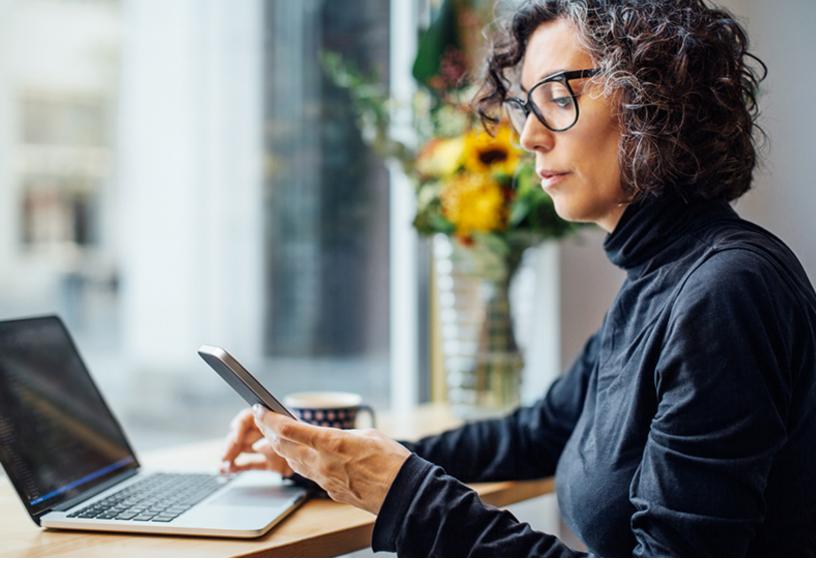

Small Business clients with a Small Business lending and Small Business checking relationship with Bank of America as of February 15, 2020 or a Small Business checking account opened no later than February 15, 2020 and do not have a business credit or borrowing relationship with another bank are eligible to apply for the Paycheck Protection Program through our bank. A client's pre-existing lending relationship with us may include small business, commercial or corporate credit cards, conventional business loan or lease, business lines of credit, business auto loans, practice solutions loans, trade and asset-based loans.

Small Business owners who do not meet these criteria should contact their current

business loan provider as soon as possible, if they plan to apply for the federal Paycheck Protection Program. This is the best and fastest method for applying for federal relief, based on the U.S. Treasury requirements and guidance.

All applications, information and correspondence about the Paycheck Protection Program at Bank of America will occur online and through email, including the application process, submission of required documents, and follow up correspondence.
