Details:

A swimming pool shall have a pool barrier that meets the requirements of the Florida Building Code pool barrier requirements in effect at the time of construction of the pool, or, if constructed before such requirements went into effect, shall have a barrier that meets all of the following minimum requirements:

a.

The barrier must be at least four (4) feet high on the outside.

b.

The barrier may not have any gaps, openings, indentations, protrusions, or structural components that could allow a young child to crawl under, squeeze through, or climb over the barrier.

c.

The barrier must be placed around the perimeter of the pool and must be separate from any fence, wall, or other enclosure surrounding the yard unless the fence, wall, or other enclosure or portion thereof is situated on the perimeter of the pool, is being used as part of the barrier, and meets the barrier requirements of this section. A wall of a dwelling may serve as part of the barrier if it does not contain any door.
