Violations:

- 1 **Details:** Any owner or authorized agent who intends to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any impact-resistant coverings, electrical, gas, mechanical or plumbing system, the installation of which is regulated by this code, or to cause any such work to be done, shall first make application to the building official and obtain the required permit. More specifically, rock at left side of driveway has been installed without a valid building permit.
Code: PBC Amendments to FBC 7th Edition (2020) - 105.1
Issued: 12/08/2023 **Status:** CLS

- 3 **Details:** Any owner or authorized agent who intends to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any impact-resistant coverings, electrical, gas, mechanical or plumbing system, the installation of which is regulated by this code, or to cause any such work to be done, shall first make application to the building official and obtain the required permit. More specifically, pavers in front of residence and to the left of residence have been installed without a valid building permit.
Code: PBC Amendments to FBC 7th Edition (2020) - 105.1
Issued: 12/08/2023 **Status:** CLS

- 5 **Details:** A swimming pool shall have a pool barrier that meets the requirements of the Florida Building Code pool barrier requirements in effect at the time of construction of the pool, or, if constructed before such requirements went into effect, shall have a barrier that meets all of the following minimum requirements:
 - a. The barrier must be at least four (4) feet high on the outside.
 - b. The barrier may not have any gaps, openings, indentations, protrusions, or structural components that could allow a young child to crawl under, squeeze through, or climb over the barrier.
 - c. The barrier must be placed around the perimeter of the pool and must be separate from any fence, wall, or other enclosure surrounding the yard unless the fence, wall, or other enclosure or portion thereof is situated on the perimeter of the pool, is being used as part of the barrier, and meets the barrier requirements of this section. A wall of a dwelling may serve as part of the barrier if it does not contain any door.
 More specifically, the fence that is acting as the swimming pool barrier does not meet the minimum requirements of the Florida Building Code.

- 2** **Details:** Any owner or authorized agent who intends to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any impact-resistant coverings, electrical, gas, mechanical or plumbing system, the installation of which is regulated by this code, or to cause any such work to be done, shall first make application to the building official and obtain the required permit. More specifically, dirt and fill has been erected or installed without a valid building permit.

All construction activity regulated by this code shall be performed in a manner so as not to adversely impact the condition of adjacent property, unless such activity is permitted to affect said property pursuant to a consent granted by the applicable property owner, under terms or conditions agreeable to the applicable property owner. This includes, but is not limited to, the control of dust, noise, water or drainage runoffs, debris, and the storage of construction materials. New construction activity shall not adversely impact legal historic surface water drainage flows serving adjacent properties, and may require special drainage design complying with engineering standards to preserve the positive drainage patterns of the affected sites. Accordingly, developers, contractors and owners of all new residential development, including additions, pools, patios, driveways, decks or similar items, on existing properties resulting in a significant decrease of permeable land area on any parcel or has altered the drainage flow on the developed property shall, as a permit condition, provide a professionally prepared drainage plan clearly indicating compliance with this paragraph. Upon completion of the improvement, a certification from a licensed professional, as appropriate under Florida law, shall be submitted to the inspector in order to receive approval of the final inspection. More specifically, _____.

| 1 | <p>Details: A swimming pool shall have a pool barrier that meets the requirements of the Florida Building Code pool barrier requirements in effect at the time of construction of the pool, or, if constructed before such requirements went into effect, shall have a barrier that meets all of the following minimum requirements:</p> <ul style="list-style-type: none"> a. The barrier must be at least four (4) feet high on the outside. b. The barrier may not have any gaps, openings, indentations, protrusions, or structural components that could allow a young child to crawl under, squeeze through, or climb over the barrier. c. The barrier must be placed around the perimeter of the pool and must be separate from any fence, wall, or other enclosure surrounding the yard unless the fence, wall, or other enclosure or portion thereof is situated on the perimeter of the pool, is being used as part of the barrier, and meets the barrier requirements of this section. A wall of a dwelling may serve as part of the barrier if it does not contain any door or window that opens to provide direct access from the home to the swimming pool. d. The barrier must be placed sufficiently away from the water's edge to prevent a young child or medically frail person who may have managed to penetrate the barrier from immediately falling into the water. Sufficiently away from the water's edge shall mean no less than twenty (20) inches from the barrier to the water's edge. <p>Code: Palm Beach County Property Maintenance Code - Section 14-32 (e) (2)

More specifically, fill (dirt) and rock has been erected or installed without a valid building permit.
All construction activity regulated by this code shall be performed in a manner so as not to adversely impact the condition of adjacent property, unless such activity is permitted to affect said property pursuant to a consent granted by the applicable property owner, under terms or conditions agreeable to the applicable property owner. This includes, but is not limited to, the control of dust, noise, water or drainage runoffs, debris, and the storage of construction materials. New construction activity shall not adversely impact legal historic surface water drainage flows serving adjacent properties, and may require special drainage design complying with engineering standards to preserve the positive drainage patterns of the affected sites. Accordingly, developers, contractors and owners of all new residential development, including additions, pools, patios, driveways, decks or similar items, on existing properties resulting in a significant decrease of permeable land area on any parcel or has altered the drainage flow on the developed property shall, as a permit condition, provide a professionally prepared drainage plan clearly indicating compliance with this paragraph. Upon completion of the improvement, a certification from a licensed professional, as appropriate under Florida law, shall be submitted to the inspector in order to receive approval of the final inspection.
