Title: a Development Order Amendment Request: to delete land area (19.09 acres) from an existing 517.00 acre approval; and, to modify the Master Plan for the remaining 497.92 acres

Title: Release of Conservation Easement Request: to allow the full release of the Conservation Easement recorded in OR 25867, Page 1437 for 19.09 acres

APPLICATION SUMMARY: The proposed requests are for the 517.00 acres Canyon Lakes AGR-PUD development. The Site was last approved by the Board of County Commissioners (BCC) on April 22, 2021.

This request is being reviewed concurrently with Comprehensive Plan Text and Future Land Use amendment (ITG AGR Exchange, LGA-2022-021), along with seven other Zoning Applications. The Zoning applications are contingent on the Planning application request.

The request of this application will modify the Master Plan to delete 19.09 acres of Preserve, located in the Ag Reserve Tier, named Canyon Lakes Preserve Parcel 5, and will utilize 23.866 acres of Preserve located within the Indian Trail Groves Planned Development within the Western Communities Residential Overlay (WCRO) in the Rural Tier. The deleted land area will become part of the development area of a new project called Hyder West Planned Development (ZV/PDD-2022-00143).

The Preliminary Master Plan (PMP) indicates no modifications to the Development Area, which is built out with 500 units. Access to the Development Area is from Lyons Road and Acme Dairy Road. No changes are proposed to the other preserve parcels for this development.

**FINDINGS:**

Conditional Uses, Official Zoning Map Amendment to a PDD or TDD and Development Order Amendment:

When considering a Development Order application for a Rezoning to a PDD or a TDD, a Conditional Use, excluding Conditional Use requests for Density Bonus pursuant to Art. 5.G.1, Workforce Housing Program (WHP), or a Development Order Amendment, the BCC and ZC shall utilize the Standards a – h listed in Article 2.B.7.B, Standards. The Standards and Staff Analyses are indicated below. A Conditional Use, Rezoning to PDD or TDD, or Development Order Amendment that fails to meet any of these Standards shall be deemed adverse to the public interest and shall not be approved.

a. **Consistency with the Plan** – The proposed use or amendment is consistent with the purposes, goals, objectives and policies of the Plan, including standards for building and structural intensities and densities, and intensities of use.
Consistency with the Comprehensive Plan: Should the BCC approve the concurrent Comprehensive Plan Text and Future Land Use amendment (ITG AGR Exchange, LGA-2022-021) request, then the proposed amendment is consistent with the Goals, Objectives and Policies of the Comprehensive Plan, including previous Land Use Amendments, densities and intensities of use.

Concurrent Land Use Amendments: The request is an indirect participant a concurrent Comprehensive Plan Text and Future Land Use amendment (ITG AGR Exchange, LGA-2022-021). The amendment seeks to amend prior conditions from Ordinance 2016-041, modify and add policies to the Future Land Use Element and allow lands within the Western Communities Overlay (WCRO) to be utilized as regional water management purposes and offsite preservation for specific AGR-PUDs within the Agricultural Reserve Tier. The subject request seeks to utilize lands within the WCRO as offsite preservation consistent with the proposed policies. The ITG amendment was transmitted to the State by a BCC vote of 5-2 at the May 3, 2023 public hearing.

The Canyon Lakes AGR PUD was previously approved as a 60/40 AGR PUD via Resolutions R-2021-545 and R-2021-544. The requests seeks to remove 19.093acres of previously approved preserve area, replace with 23.87 acres of WCR Exchange Parcel lands, and request to release a previously recorded Agricultural Reserve Conservation Easement over the 19.093 acres. The deleted land area will become part of the development area for the new Hyder West AGR PUD (ZV/PDD-2022-143).

Relevant Comprehensive Plan Policies: The following Future Land Use Element (FLUE) existing policy address the 60/40 AGR PUD requirements and new policies outline the maximum acres and units permitted to be utilized within specific AGR PUD s.

FLUE Policy 1.5.1-i.6 addresses the preserve area requirements, and states, that the preserve area shall consist of, at least, 60 percent of the gross acreage less right-of-way identified in the Thoroughfare Identification Map, and Policy 1.5.1-i. states that the request is required to provide a minimum of 60% of preserve area and 40% maximum developable area. The Preserve areas are not required to be contiguous with the development area.

Therefore, the acreages of the 60/40 breakdown is as follows:

Total acreage: 521.77 acres
Less ROW: 13.20 acres
Net acreage = 508.57 acres

Net acreage x 60%: 508.57 ac x 60% = 305.144 acres (applicant proposes 308.863 acres or 60.73% of preserve which includes 21 AGR preserves (284.997 acres) and WCR Exchange Parcel preserve (23.866 acres).
Net acreage x 40%: 508.57 ac x 40% = 203.430 acres (applicant proposes 199.711 acres in the development area or 39.27%)

The lands within the AGR have a density value of 1 unit per acre and the lands within the WCRO have a density value of 1 unit per 1.25acres, a 0.80du/ac difference. The new policies account for the necessary density conversions and memorialize the maximum units and acres permitted for the exchange. NEW FLUE Policy 1.5.1-i.1 and NEW FLUE Policy 1.11-j, both state that the Fogg North (Canyon Lakes) AGR-PUD (Control Number 2002-067) may utilize up to 23.87 acres of WCR land to satisfy 23.87 acres and 19.10 units of AGR-PUD requirements. The policy allows for the 462.51 acres to count toward the preservation requirement and 370 units to go toward the balance of available units for the project.

The total lands within the AGR for this project are 497.908acres thus yielding 498 units. The above policy permits 19 units to be utilized for the subject request. The available units for the project with the combination of AGR and WCRO units equates to the following:

Total units permitted from AGR: 498
Total units permitted from WCRO: 19
Total permitted units: 517

There is no change proposed to the previously approved 500 units with 17 units remaining.

Rural Parkway: Per Transportation Element Policy 1.4-q #2, the Lyons Road segment from Atlantic Avenue to Boynton Beach Boulevard is a designated Rural Parkway. The Parkway is built and the conservation easement has been recorded via Orb16635 Pg. 86.

Planning Conditions: Conditions of approval were previously applied and will be carried forward.
Special Overlay District / Neighborhood Plan / Planning Study Area: The subject property is located within the boundaries of the West Boynton Area Community Plan, which is administered by the Coalition of Boynton West Residents Association (COBWRA). The subject request is not inconsistent with the neighborhood plan. The applicant was advised to meet with the neighborhood group responsible for implementing the Neighborhood Plan. No letters in support or objection have been received as of the writing of this report.

b. Consistency with the Code - The proposed amendment is not in conflict with any portion of this Code, and is consistent with the stated purpose and intent of this Code.

The proposed request will be consistent with the ULDC if the Comprehensive Plan Amendment (LGA-2022-021) is approved. The amendment proposes to allow land outside of the Ag Reserve Tier to be utilized to meet the 60/40 requirements of an AGR-PUD. Under the existing ULDC language a Preserve Parcel for an AGR-PUD is required to be located within the Ag Reserve Tier within the same zoning development order. The proposed Development Order is to delete land area, for what is known as Preserve 2, encompassing 19.09-acres, which is currently under a conservation easement. The deletion of preserve land area within the AGR Tier is proposed to be replaced by utilizing 23.866-acres of the WCR Exchange Parcel lands thus allowing the AGR-PUD to comply with the 60/40 requirements of the UDLC and as described on the Preliminary Plans as Western Communities Residential Overlay (WCRO).

Development Area: There will be no change to this area. The existing development area consists of one contiguous parcel that complies with the frontage requirement with frontage and access on Acme Dairy Road and Lyons Road; and consists of 199.711-acres. The overall gross Development Area for the project consists of 500 units on 199.711-acres. The development parcel is not impacted by the proposed DOA.

Preserve Area: The deletion of Preserve Land is consistent with the ULDC, pursuant to the concurrent Comprehensive Plan Amendment (LGA-2022-021) amendments to the Comprehensive Plan's Ag Reserve Tier Sub-Objective Policy 1.5.1. These proposed amendments would allow land within the WCR Exchange Parcel within the Western Communities Residential Future Land Use designation to be used as preserve parcels in lieu of land in the Agricultural Reserve Tier for seven AGR-PUD Developments (being review concurrently with this application) so that the existing development will continue to meet the 60/40 requirement. The lands are further specified as only those that are contained within the Indian Trail Groves Planned Unit Development (ITG PUD), and are identified specifically in LGA-2022-021 for Zoning application ABN/ZV/DOA/W-2022-155. This development seeks to utilize a total of 23.866-acres of ITG PUD lands which will equate to 19 units within the development. There are a total of 21 preserves that remain unaffected by this request. The lands to be deleted from this development will be used to create the development area for a new AGR-PUD to be known as Hyder West AGR-PUD (ZV/PDD-2022-00143) which will also be subject to the amendments being requested within LGA-2022-021.

c. Compatibility with Surrounding Uses – The proposed use or amendment is compatible and generally consistent with the uses and character of the land surrounding and in the vicinity of the land proposed for development.

This application is not revising the Development Area, but is deleting a 19.09 acres of preserve area in the Ag Reserve and in exchange for the utilization of preserve in the WCRD and Indian Trails Groves PUD. The Amendment does not create any issues with compatibility or consistency with the uses and character of land in the vicinity of the proposed amendment.

d. Design Minimizes Adverse Impact – The design of the proposed use minimizes adverse effects, including visual impact and intensity of the proposed use on adjacent lands.

This application is not revising the Development Area, but is deleting a 19.09 acre preserve area in the Ag Reserve in exchange for the utilization of a preserve in the WCRD and Indian Trails Groves PUD. This request is contingent upon modifications to the Comprehensive Plan amendment, and if approved this amendment will not create any adverse effects, including visual impact and intensity on adjacent lands.

e. Design Minimizes Environmental Impact – The proposed use and design minimizes environmental impacts, including, but not limited to, water, air, stormwater management, wildlife, vegetation, wetlands and the natural functioning of the environment.

Vegetation Protection: The application request does not impact native vegetation.

Wellfield Protection Zone: This property is not located within Wellfield Protection Zone.
Irrigation Conservation Concerns and Surface Water: All new installations of automatic irrigation systems shall be equipped with a water sensing device that will automatically discontinue irrigation during periods of rainfall pursuant to the Palm Beach County Mandatory Year-Round Landscape Irrigation Conservation Measures Ordinance, Ordinance No. 2022-007. Any non stormwater discharge or the maintenance or use of a connection that results in a non stormwater discharge to the stormwater system is prohibited pursuant to Palm Beach County Stormwater Pollution Prevention Ordinance No. 93 15.

Environmental Impacts: There are no significant environmental issues associated with this petition beyond compliance with ULDC requirements.

Development Patterns – The proposed use or amendment will result in a logical, orderly and timely development pattern.

The deletion of land area is contingent upon modifications to the Comprehensive Plan through the concurrent amendment. These proposed amendments would then allow for the deletion of this land area in order to develop with residential under a separate application, thus creating a new development pattern in accordance with the Comprehensive Plan amendment.

ENGINEERING COMMENTS: No comments on deletion of preserve land

DRAINAGE DISTRICT: The overall development is located within the Lake Worth Drainage District. The deletion of Preserve Land from this development will have no impact on the drainage of the developed areas. Any development of the deleted land will comply with the requirements of the District.

PALM BEACH COUNTY HEALTH DEPARTMENT: This project has met the requirements of the Florida Department of Health.

WATER AND WASTEWATER PROVIDER: The Water and Wastewater provider for the Development area is Palm Beach County Water Utilities. The deletion of preserve land area will have no impact on the provision of water and wastewater approval for the developed areas. Any development of the deleted land will comply with these services.

FIRE PROTECTION: Staff has reviewed this application and have no comment regarding the deletion of land area.

SCHOOL IMPACTS: The School Board has no issues with the proposal.

PARKS AND RECREATION: The Parks and Recreation Department has no comment on the proposed preserve modifications.

g. Changed Conditions or Circumstances – There are demonstrated changed site conditions or circumstances provided by the Applicant’s Justification Statement that necessitate the amendment.

The Applicant has requested a concurrent application, an amendment to the Comprehensive Plan’s Ag Reserve Tier Sub-Objective Policy 1.5.1 in application LGA-2022-021. This amendment proposes to allow Preserve area located within the Indian Trail Groves Planned Development (ABN/ZV/DOA-2022-00155) within the Western Communities Residential Overlay (WCRO) in the Rural Tier to be utilized in lieu of preserve acreage within the Ag Reserve Tier. The Applicant has demonstrated the following as their changed Conditions and Circumstances:

“The removal of 19.093 acres of existing Preserve #2 will unencumber the existing 19.093 acres of Preserve #2 owned by G. L. Homes of Palm Beach Associates and utilize 23.866 acres of preserve from the WCR Exchange Bank.

This application is part of a “bundle” of related development order applications submitted concurrently which involve the proposed “Hyder West AGR-PUD” and the “Indian Trails Grove WCR-PUD(ITG). The overall site and the property known as Hyder West is located west of State Road 7 and south of Atlantic Avenue in the Agricultural Reserve Tier. A total of 1,600 acres of land within the ITG PUD will be designated for water resources and or agricultural purposes. It will contribute to the AGR preserve area acres required within this application and for additional preservation for existing AGR PUDs utilizing land within the Hyder West property. It will allow preservation areas for the Hyder West property known as Hyder West AGR-PUD. Of the 1,600 acres that will be conveyed to PBC, the changes will authorize the overall 1,600-acres to contribute to the required preserve area for AGR PUDs (existing or proposed).
The regional benefits of this plan create 1,600 acres of land to be owned and controlled by Palm Beach County that is contiguous to the L-8, MO and M Canals, providing potential to send fresh water flows to the Loxahatchee River, Grassy Waters and the Lake Worth Lagoon, and as well as for potential water storage. This land could create a potential flow way connecting the L-8 canal to the MO Canal. The WCR Exchange Bank land is also continuous to the west to 640 acres within the PUD that has been previously committed to Indian Trail Improvement District (ITD) to increase stormwater storage for the Acreage that is adjacent to their existing +550-acre drainage impoundment area, and to the east to an additional 448.63 acres of open space designated for water resources or agriculture.

Accommodating a larger contiguous mosaic of lands for water resources and/or agriculture provides more flexibility in addressing both water management challenges, and/or supporting agricultural production in Palm Beach County. Reducing density/intensity in the ITG PUD in an area where infrastructure is minimal in exchange for increasing density in the AGR (Hyder West AGR-PUD) where infrastructure exists is prudent long-range planning. The Canyon Lakes AGR-PUD application is one of the multiple Development Order Amendments that previously included preserve lands within the aforementioned Hyder West property.

**CONCLUSION:** Staff has evaluated the standards listed under Article 2.B. and has determined that there is a balance between the need for change and the potential impacts generated by the Canyon Lakes AGR-PUD Development. Therefore, Staff is recommending approval of the requests subject to the Conditions of Approval as indicated in Exhibit C.
