

## Palm Beach County Proposed Comprehensive Plan Text & Map Amendment

<b>Name:</b>	<b>Kirk Road TIM</b>
<b>Request:</b>	This proposed amendment will revise Transportation Element Policy 1.4-u and the Thoroughfare Identification Map (TIM), TE 14.1, to establish language restricting the number of lanes temporarily to 3 for Kirk Road between Lake Worth Road and Alemeda Drive/Purdy Lane until the parallel segment of Military Trail operates below Level of Service (LOS) E.
<b>District:</b>	District 3, Mayor Kerner
<b>Area:</b>	Palm Springs, Urban Redevelopment Area of Urban Suburban Tier
<b>Contact:</b>	Khurshid Mohyuddin, Principal Planner
<b>Basis:</b>	This amendment was requested by the Village of Palm Springs to delay the future widening of Kirk Road until after a parallel segment along Military Trail is operating below Level of Service E. The TIM currently identifies the segment of Kirk Road from Lake Worth Road to Alemeda Drive/ Purdy Lane as an 80 foot right-of-way which can potentially allow up to a 5 lane roadway.
