HOUSING ELEMENT

I. INTRODUCTION

A. Purpose

The purpose of the Housing Element is to: 1) identify existing and projected deficits in the supply of housing to meet the needs of the County's population, particularly the very low and low income families; 2) analyze housing trends and the causes, scope and nature of any housing problems, 3) develop appropriate plans, programs and policies to bring about the accomplishment of the necessary housing, whether through private-sector efforts, non-profit, public/private partnerships or the public sector, and 4) to guide and coordinate all housing activities to eliminate duplications and increase efficiency of the housing delivery system.

The Housing Element of the Comprehensive Plan has several other characteristics that distinguish it from other Plan elements. First, housing is primarily provided by the private sector, and market demand largely dictates the type and location of housing projects. The County's development regulations (e.g., Zoning and Building Codes) only guide the private sector in the development and construction of housing. Second, because housing is an essential human need, the public sector has the responsibility to ensure adequate, safe housing, especially for low, and very low income families, elderly and other disadvantaged groups. Third, the primary criterion for those seeking housing is not local jurisdiction except for those families who can afford to choose a specific location. Factors determining housing selection include personal choice, financial limitation, value, safety and rent.

Much of the planning and coordination of affordable housing services delivery is done through other documents, required as part of State and federal funding programs. As a result the Housing Element does not establish separate targets and approaches, but primarily utilizes the housing needs targets and reflects the strategies identified in the Five-Year Consolidated Plan and supports its efforts to meet the need of very low, low and moderate income households, the homeless and non-homeless special needs populations.

Every five years Palm Beach County is required to submit a Five-Year Consolidated Plan to the US Department of Housing and Urban Development which describes how the County will pursue the overall goals of the community planning and development programs, as well as housing programs. The Consolidated Plan addresses both the unincorporated County and the jurisdiction of the 29 municipalities who possess inter-local agreements with the County for affordable housing and community development purposes. The Palm Beach County Five-Year Consolidated Plan, October 2015–September 2020 (July 2015) identifies affordable housing issues and certain housing program’s expected resources and goals for the period of 2015-2020. In addition, the Consolidated Plan also includes data on substandard housing, special needs populations, homeless populations, and those at risk of homelessness.

Every three years, Palm Beach County is required to submit a Local Housing Assistance Plan (LHAP) to the Florid Housing Finance Corporation as a condition of receiving an annual funding allocation from the State Housing Initiatives Partnership (SHIP) Program. The LHAP establishes the program strategies through which the County will use SHIP funding to serve local housing needs during the three-year period for households with incomes up to 140% of Area Median Income.
The affordable housing needs through the 2020 planning period, as well as data pertaining to rural and farmworker housing and substandard housing, are based on data provided by the Shimberg Center for Housing Studies (University of Florida).

Terms used in the Housing Element are defined in the definitions section of the Introduction and Administration Element of the Comprehensive Plan.

B. Assessment and Conclusions

Housing Affordability

Housing is typically considered to be affordable if monthly rents including utilities, or monthly mortgage payments including property taxes, insurance and utilities (“gross housing costs”), do not exceed thirty percent (30%) of the median adjusted gross annual income for very low, low and moderate income households. Households are considered “cost-burdened” when a household’s gross housing cost exceeds thirty percent (30%) of gross household income, resulting in less available income for other necessities such as food, clothing, and transportation. Severe cost burden is the situation wherein a household’s gross housing cost exceeds fifty percent (50%) of gross household income. In accordance with typical lending standards, debt-to-income ratios such as front end and back end ratios are also considered when determining affordability. Typical front end ratios allow up to 35% of household income to be committed for mortgage and related expenses, and typical back end ratios allow up to 42% of household income to be committed to the mortgage and all other credit related debt.

The focus of County efforts is on affordable housing options for households in the very low income range (0-60% AMI), and on low, moderate and middle income range workforce housing, which the County’s program defines as households from 60% up to 140% of AMI.

Housing Needs for Very Low and Low Income Households

Based on data provided by the Shimberg Center for Housing Studies (University of Florida), approximately 104,245 renter and owner households with very low (0-50% of AMI) and low incomes (50%-80% of AMI) countywide were cost-burdened or severely cost burdened in 2015. Further, the Schimberg Center projects a countywide increase from 2015 through 2025 of 14,278 severely cost burdened households, including 8,288 owners and 5,990 renters.

Workforce Housing Needs

Data provided by the Shimberg Center offer an assessment of housing cost burden estimates for Workforce Housing households with low (60%-80% of AMI), moderate (80%-120% of AMI) and middle incomes (120%-140% of AMI) located in the unincorporated portion of Palm Beach County in 2010, 2015 and 2020.

The 2010 analysis identified that 38,894 households in the unincorporated area experience a housing cost burden of exceeding 30%, or a severe housing cost burden exceeding 50% of their household income. For the period from 2010-2020, the Shimberg Center data identified that an additional 3,897 households located in the unincorporated area will experience a housing cost burden or a severe housing cost burden. From 2010 through 2020 nearly 16% of the households (42,563) within the unincorporated County with low, moderate and middle incomes (60%-140% of AMI) will experience a housing cost burden of exceeding 30%, or a severe housing cost burden exceeding 50% of their household income.
Housing Needs for Special Needs Populations

Special needs populations can include the homeless, the elderly or frail elderly, the physically disabled, persons with mental illness, persons with developmental disabilities, alcohol or other drug addiction, persons with HIV/AIDS and their families, abused/neglected children, victims of domestic violence, veterans, youth aging out of foster care, and ex-offenders. The Community Services Department is the County’s lead entity regarding special needs issues and assistance.

The County’s 2017 Point in Time Count indicated 1,607 persons were homeless on the day of the county, of which 780 of those individuals were sheltered and 827 unsheltered.

The Shimberg Center estimates that as of 2015 countywide there are 31,866 cost burdened households with a disabled member and income less than 50% AMI.

Need Resulting from Overcrowded and Substandard Units

In addition to addressing the identified demand, efforts are also directed toward maintaining existing housing units through policies to eliminate substandard housing and provide for relocation.

The Shimberg Center's 2015 estimates indicated that countywide:

- 15,344 (2.49%) of the units have more than one person per room (an indication of overcrowding)
- 10,108 (1.9%) of the occupied units in the unincorporated area use no home heating fuel source
- 8,576 (1.3%) of the units lack complete kitchen facilities
- 5,335 (0.8%) of the units lack complete plumbing facilities

Addressing Housing Needs

The Five-Year Consolidated Plan is considered the best available data source to determine the housing needs and targets for Palm Beach County when considering the housing funding that is reasonably expected to be available to the County for the FY 2015-2016 through 2019-2020 time period. The Plan addresses households that will experience cost burden issues in its jurisdiction, both in the unincorporated County and within the 29 municipalities who possess inter-local agreements with the County for affordable housing and community development purposes.

The Department of Housing and Economic Sustainability (HES) administers the Five Year Consolidated Plan and the federal funds covered thereunder, including the Community Development Block Grant (CDBG), Home Investment Partnership (HOME), and the Neighborhood Stabilization Programs. These various programs are reflected within the Five-Year Consolidated Plan’s estimates of available funding and the housing goals for the period from 2015-2020. Additionally, HES administers the County’s Local Housing Assistance Plan which establishes housing strategies and funding allocations for the State Housing Initiatives partnership (SHIP) program.

The County’s Planning, Zoning, and Building Department (PZB) administers the Affordable Housing Program (AHP) assisting primarily in serving some of these cost burdened very low and low income (60% of AMI and below) households. With the AHP, builders of residential developments receive certain development incentives in order to provide the housing units
attainable to qualified income eligible households for at least 15 years (for-sale) and 30 years (rental).

In addition, Palm Beach County through PZB’s Workforce Housing Program (WHP) assists in serving some of the households that will experience cost burden issues. The WHP is designed to serve low, moderate, and middle income households (60-140% of AMI) by requiring a component of housing units in new development in certain unincorporated areas of the county be provided for these income groups at rents and sale prices that are to remain affordable for periods of at least 15 years (for-sale) and 30 years (rental).

In September 2008, the Board of County Commissioners adopted the Ten Year Plan to End Homelessness in Palm Beach County. The Plan outlines a strategy to design, fund and develop permanent housing solutions for the County’s homeless population. The objective of the Ten Year Plan to End Homelessness in Palm Beach County is to create a local homeless response system that will completely eliminate homelessness in ten years. A key step toward that objective was the 2012 opening of the County’s first Homeless Resource Center, located in the City of West Palm Beach, which is designed to provide initial services and short-term housing to homeless persons residing in the County.

There are various agencies and facilities serving special needs populations in Palm Beach County. Some of the providers deal only with a single, discrete population; others may serve multiple populations. Some of the agencies only address only housing and shelter needs, while others may provide a range of services, including advocacy, case management, and direct services.

Geographic dispersal must also be addressed in order to avoid the concentration of affordable housing in specific areas of the County, and at the same time consideration must also be given to the availability of public services and employment opportunities when locating affordable housing.
II. GOAL, OBJECTIVES AND POLICIES

It is the GOAL of Palm Beach County to facilitate the provision of an adequate supply of safe, sanitary and affordable housing to meet the needs of the County's residents, with special attention to the needs of very low, and low income households in addition to special needs populations.

These programs should also address residents' aversion to the proximity of affordable housing and the general negative public perception regarding affordable housing.

Policy 1.1-o: The County shall preserve affordability of workforce and affordable housing units developed through the Workforce Housing Program and the Affordable Housing Program as follows:

1. The Workforce Housing Program will target households with incomes ranging from 60%–140% of area median income.

**Policy 1.4-a:** Palm Beach County shall utilize the strategies identified below in its efforts to meet the need for special needs housing. The Shimberg Center (University of Florida) estimates a total of 31,866 cost-burdened households countywide which have a disabled member and income less than 50% AMI, including 16,232 owners and 15,564
renters. The Shimberg Center also estimates a need for 165 multi-family units countywide to meet farmworker housing needs.

1. The Department of Housing and Economic Sustainability and with recommendations from the Commission on Affordable Housing shall continue to help address the county’s special needs housing deficiencies by establishing policies and procedures that will provide continued financial assistance to proposed eligible housing projects that will produce affordable rental and homeownership opportunities for households with special needs. Special needs housing shall be located in proximity to the appropriate support infrastructure, services and facilities including Palm Tran and existing transportation disadvantaged programs. Special needs housing shall be permitted in all appropriate residential, commercial and institutional land use categories, through the use of group homes, Congregate Living Facilities (CLF’s), accessory apartments and rental housing associated with places of worship. Farmworker housing
shall be located in proximity to areas of agriculture employment and shall require a minimum of twenty-five (25) acres. The Planning, Zoning, and Building Department and the Community Services Department, shall be responsible for establishing any additional principles and criteria as may be necessary.

Policy 1.4-e: The Department of Housing and Economic Sustainability, in coordination with the Planning, Zoning, and Building Department shall to the extent feasible provide the ongoing tracking of the number of units being funded and built through both County and private sector efforts, and the evaluation of progress being made in meeting the housing needs of special needs populations.

Policy 1.5-a: The County shall provide for a sufficient amount of land for residential use to meet future housing needs, including very low, low, and moderate income, and to accommodate the projected population. The Planning Division shall be responsible for analysis and recommendations to the BCC for this task.

Policy 1.5-b: *Deleted in Amendment Round 04-1.*

Policy 1.5-c: *Deleted in Amendment Round 04-1.*

Policy 1.5-d: *Deleted in Amendment Round 18-B*

Policy 1.5-e: The County may provide incentives to increase the presence of moderate, or higher income households within areas of high concentrations of affordable housing. These incentives may include subsidy programs to reduce the purchase cost of units, and/or to facilitate the rehabilitation of housing units.
Policy 1.5-f: The Planning, Zoning and Building Department shall revise the Unified Land Development Code (ULDC) to eliminate processing fees for residential Zoning petitions, which are for the purpose of providing affordable housing units in areas of low concentrations of very low, and low income households.

Policy 1.5-g: The County’s mandatory Workforce Housing Program is established to facilitate development of workforce housing. The Program requires new residential developments to provide a percentage of housing units for households with incomes from 60% to 140% of area median income as a means to meet workforce housing needs and to disperse that needed housing in the unincorporated County. The Workforce Housing Program applies in the Urban/Suburban Tier. The Agricultural Reserve Tier is exempt from this program.

The Workforce Housing Program shall address specific criteria, including but not limited to:

1. Eligible developments must have a minimum number of 10 permitted units;
2. Workforce units can be both rental units and for sale units;
3. Workforce units built on site will be designed to be compatible with the overall development;
4. Workforce units built on-site can be clustered or integrated within the development;
5. Rental unit and resale unit affordability controls shall be guaranteed for a period to be set forth in the Unified Land Development Code (ULDC);
6. Workforce units may be allowed based on location, and land use compatibility, in any of the following land use categories: Commercial (mixed use); Industrial (mixed use); Economic Development Center; Institutional and Public Facilities, Traditional Town Development (TTD); and Multiple Land Use (MLU).

Incentives may include:

1. For all urban residential land use designations, a density bonus of up to 100%.
2. Traffic performance standards mitigation,
3. An expedited permit, zoning, and land use site plan approval process including engineering plating procedures.
4. A method to effectively offset impact fees and other development fees for the Workforce units.

A density bonus up to 100% shall be permitted when all program criteria are met and the increased density creates no compatibility issues with adjacent properties. For projects requesting greater than a 50% density bonus, the Workforce Housing development evaluation shall consider factors specified in the ULDC including, but not limited to: compatibility with adjacent properties, provision of workforce housing onsite, concentration of workforce housing, and proximity to employment centers.

Policy 1.5-h: The Planning Division shall prepare an annual report that describes all Workforce Housing Program and the Affordable Housing Program activities during the previous year. The annual report shall be provided to the Board of County Commissioners.
Policy 1.5-i: The County shall establish a Affordable Housing Program to allow new residential developments within the Urban/Suburban Tier only, the opportunity to provide housing units for households with incomes at 60% of area median income and below, as a means to meet affordable housing needs and to disperse that needed housing in unincorporated Palm Beach County. The Affordable Housing Program may provide incentives including density bonuses; density bonus units will be allowed only when consistent with Housing Element Objective 1.5 to discourage the undue concentration of very low and low income housing in the County.
