

2021 ACS DP05 Demographics  
Palm Beach County, Florida

	Palm Beach County, Florida	
Label	Estimate	Percent
<b>SEX AND AGE</b>		
Total population	1,481,233	1,481,233
Male	722,045	48.7%
Female	759,188	51.3%
Sex ratio (males per 100 females)	95.1	(X)
Under 5 years	74,632	5.0%
5 to 9 years	76,577	5.2%
10 to 14 years	82,833	5.6%
15 to 19 years	82,363	5.6%
20 to 24 years	77,801	5.3%
25 to 34 years	174,048	11.8%
35 to 44 years	172,761	11.7%
45 to 54 years	188,252	12.7%
55 to 59 years	101,588	6.9%
60 to 64 years	98,281	6.6%
65 to 74 years	175,270	11.8%
75 to 84 years	118,830	8.0%
85 years and over	57,997	3.9%
Median age (years)	45.0	(X)
Under 18 years	284,509	19.2%
16 years and over	1,229,967	83.0%
18 years and over	1,196,724	80.8%
21 years and over	1,149,631	77.6%
62 years and over	408,755	27.6%
65 years and over	352,097	23.8%
18 years and over	1,196,724	1,196,724
Male	577,034	48.2%
Female	619,690	51.8%
Sex ratio (males per 100 females)	93.1	(X)
65 years and over	352,097	352,097
Male	157,330	44.7%
Female	194,767	55.3%
Sex ratio (males per 100 females)	80.8	(X)
<b>RACE</b>		
Total population	1,481,233	1,481,233
One race	1,350,137	91.1%
Two or more races	131,096	8.9%
One race	1,350,137	91.1%
White	968,070	65.4%
Black or African American	275,772	18.6%

Table: ACSDP5Y2021.DP05

	Palm Beach County, Florida	
Label	Estimate	Percent
American Indian and Alaska Native	3,650	0.2%
Cherokee tribal grouping	296	0.0%
Chippewa tribal grouping	0	0.0%
Navajo tribal grouping	0	0.0%
Sioux tribal grouping	68	0.0%
Asian	41,510	2.8%
Asian Indian	12,163	0.8%
Chinese	7,969	0.5%
Filipino	5,442	0.4%
Japanese	684	0.0%
Korean	1,355	0.1%
Vietnamese	6,410	0.4%
Other Asian	7,487	0.5%
Native Hawaiian and Other Pacific Islander	471	0.0%
Native Hawaiian	179	0.0%
Chamorro	140	0.0%
Samoan	87	0.0%
Other Pacific Islander	65	0.0%
Some other race	60,664	4.1%
Two or more races	131,096	8.9%
White and Black or African American	16,446	1.1%
White and American Indian and Alaska Native	4,601	0.3%
White and Asian	6,063	0.4%
Black or African American and American Indian and Alaska Native	610	0.0%
Race alone or in combination with one or more other races		
Total population	1,481,233	1,481,233
White	1,090,040	73.6%
Black or African American	303,855	20.5%
American Indian and Alaska Native	11,024	0.7%
Asian	52,533	3.5%
Native Hawaiian and Other Pacific Islander	2,662	0.2%
Some other race	158,419	10.7%
HISPANIC OR LATINO AND RACE		
Total population	1,481,233	1,481,233

Table: ACSDP5Y2021.DP05

	Palm Beach County, Florida	
Label	Estimate	Percent
Hispanic or Latino (of any race)	342,642	23.1%
Mexican	55,695	3.8%
Puerto Rican	51,635	3.5%
Cuban	60,880	4.1%
Other Hispanic or Latino	174,432	11.8%
Not Hispanic or Latino	1,138,591	76.9%
White alone	777,909	52.5%
Black or African American alone	269,181	18.2%
American Indian and Alaska Native alone	1,031	0.1%
Asian alone	41,017	2.8%
Native Hawaiian and Other Pacific Islander alone	256	0.0%
Some other race alone	8,008	0.5%
Two or more races	41,189	2.8%
Two races including Some other race	14,288	1.0%
Two races excluding Some other race, and Three or more races	26,901	1.8%
Total housing units	702,877	(X)
CITIZEN, VOTING AGE POPULATION		
Citizen, 18 and over population	1,042,475	1,042,475
Male	497,340	47.7%
Female	545,135	52.3%

<b>TABLE NOTES</b>		
	<p>Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.</p>	
	<p>Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.</p> <p>Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.</p>	
	Source: U.S. Census Bureau, 2017-2021 American Community Survey 5-Year Estimates	
	<p>Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.</p>	
	<p>For more information on understanding Hispanic origin and race data, please see the America Counts: Stories Behind the Numbers article entitled, 2020 Census Illuminates Racial and Ethnic Composition of the Country, issued August 2021.</p>	

	The Hispanic origin and race codes were updated in 2020. For more information on the Hispanic origin and race code changes, please visit the American Community Survey Technical Documentation website.
	The 2017-2021 American Community Survey (ACS) data generally reflect the March 2020 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances, the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineation lists due to differences in the effective dates of the geographic entities.
	Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
	Explanation of Symbols:- The estimate could not be computed because there were an insufficient number of sample observations. For a ratio of medians estimate, one or both of the median estimates falls in the lowest interval or highest interval of an open-ended distribution. For a 5-year median estimate, the margin of error associated with a median was larger than the median itself.N The estimate or margin of error cannot be displayed because there were an insufficient number of sample cases in the selected geographic area. (X) The estimate or margin of error is not applicable or not available.median- The median falls in the lowest interval of an open-ended distribution (for example "2,500-")median+ The median falls in the highest interval of an open-ended distribution (for example "250,000+").** The margin of error could not be computed because there were an insufficient number of sample observations.*** The margin of error could not be computed because the median falls in the lowest interval or highest interval of an open-ended distribution.***** A margin of error is not appropriate because the corresponding estimate is controlled to an independent population or housing estimate. Effectively, the corresponding estimate has no sampling error and the margin of error may be treated as zero.
