Part 5. ULDC Art. 3.B.14.H, Overlays and Zoning Districts, Overlays, WCRAO, Westgate Community Redevelopment Overlay, Density Bonus Programs (page 55-57 of 213, Supplement 28), is hereby amended as follows:

Reason for amendments: [Westgate Community Redevelopment Agency]

1. Revise Density Bonus Program language to be consistent with the Workforce Housing Program (WHP) and address design, compliance, and enforcement provisions that have been refined and developed as a part of the County’s effort to update the functionality of the WHP. Revisions to the provisions of the Program will create a housing program for the WCRA which can be monitored consistent with the WHP. The new Program language provides incentives to use the WCRA’s density bonus pool furthering both affordable and workforce unit production, while promoting mixed-income housing and maintaining the County’s goal not to concentrate low-income housing in any single community.

2. Revise WCRA Recommendation criteria to allow for better access to the density bonus pool units from a wider range of development, including projects under ten units, commensurate with WHP applicability. Current criteria, heavily focused on achieving form and architecture, is too restrictive for smaller residential projects. Reiterate that a recommendation of approval is provided pursuant to the Plan FLUE WCRAO sub-objective and policies. Recommendation of approval from the WCRA must also be consistent with the intent of the Program; created to facilitate redevelopment of the area commensurate with the housing objectives of the WCRA Community Redevelopment Plan which focuses on preserving existing affordable housing and achieving new mixed-income housing stock for the workforce.

Section 1 Maintenance and Use Documents

E. Documents Establishing Maintenance and Use

The type of document required to establish use rights and responsibility for maintenance of the common areas and private reserves of a development depends upon the nature of the development.

1. Developments Including a Subdivision of Five or More Lots

A POA may or may not be required depending upon the individual subdivision. The determination shall be made by the County Attorney’s Office. If a POA is required, then the submitter requirement shall be as listed above. If a POA is not required, then the developer shall submit a Unity of Control to the approval of the Final Subdivision Plan or Plat, if the DO includes common areas, the Applicant shall be required to establish a POA or a Unity of Control pursuant to the requirements below. MULTIPLE USE PLANNED DEVELOPMENT

Part 1. ULDC Art. 3.E.3.B.2.a, Overlays and Zoning Districts, Planned Development Districts (PDDs), Multiple Use Planned Development (MUPD), Objectives and Standards, Performance Standards, Freestanding Buildings (page 161 of 213, Supplement 28), is hereby amended as follows:

<table>
<thead>
<tr>
<th>Reason for amendments: [Zoning]</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. To remove a Subsection limiting the number of freestanding buildings within the Multiple Use Planned Development (MUPD) Zoning District. These provisions were introduced in the 1992 Unified Land Development Code (ULDC) for MUPDs and Mixed Use Planned Developments (MXPDs), per Board of County Commissioners (BCC) direction, with the intention of ensuring visibility of a development’s primary main inline stores was not obstructed with too many outparcels, and to differentiate Future Land Use (FLU) designation intensity by allowing one freestanding building for low-density commercial as opposed to three for higher-density designations. The 2003 ULDC rewrite did not carry forward the provisions for MXPDs, and since then for MUPDs, Ordinance. No. 2014-025 set a three-building cap for the Economic Development Center (EDC) FLU designation matching other high-density designations, Ordinance No. 2017-007 elaborated on what constitutes a freestanding building, and Ordinance No. 2019-005 codified Planning Ordinance No. 2017-004 to allow residential uses within MUPDs, which are exempt from the cap. Outparcels tend of be high trip generators and often have their own ingress/egress to their parcel. By limiting the total number of outparcels permitted to three or four this would reduce curb cuts and require the outparcel trips to channel through the main entrance of the shopping center, typically via a control signal light.</td>
</tr>
</tbody>
</table>

The intent of these provisions have been generally ineffective in achieving the goal to ensure visibility of the main inline center. Freestanding buildings in MUPDs are classified as having “continuous vehicular circulation on all four sides” which does not include outparcels fronting streets, having “one-way drive-through lanes,” “dedicated bypass lanes,” or “access ways providing ingress/egress to other uses or tenants within a development.” Deletion of this requirement will have minimal effect on the application of the Code because of the other requirements and standards for review that are captured under the other Articles of the Code. For example, the Vehicular Circulation Patterns are reviewed by the Zoning Division with input from County Traffic and Land Development Divisions review development for motor vehicle circulation patterns, and the Building and Zoning Divisions for compliance with applicable Planned Development District (PDD) or Traditional Development District (TDD) pedestrian and other non-motor vehicle circulation requirements. Additionally, regulations in Art. 7, Landscaping require sidewalks between buildings and parking spaces, and Art. 8, Signage mitigates issues concerning primary tenant visibility. Thus, these safety and design-related standards exceed the original intent of the BCC’s direction. |

CHAPTER E PLANNED DEVELOPMENT DISTRICTS (PDDs)

Section 3 Multiple Use Planned Development (MUPD)

B. Objectives and Standards

2. Performance Standards

a. Freestanding Buildings

The maximum number of freestanding buildings in an MUPD with continuous vehicular circulation on all four sides is indicated in Table 3.E.3.B. Freestanding Buildings.

1) This Section shall not apply to mixed use or residential structures. [Ord. 2019-005]

2) For the purpose of this Section, circulation shall mean any portion of a driveway, drive aisle, or other means of vehicular access located within 50 feet of a building, excluding one-way drive through lanes, dedicated bypass lanes, and one primary building.

3) For the purpose of this Section, circulation shall not include vehicular access ways for uses including but not limited to Self-Service Storage facility, Data and Information Processing, Manufacturing and Processing, or Warehouses, when limited to access to individual storage units or warehouse bays, or facilities not open to the public and under the control of one business. This exception shall not apply to other vehicular circulation, or access ways providing ingress/egress to other uses or tenants within a development. [Ord. 2017-007]

PLANNING DETERMINATION FOR INFILL DENSITY EXEMPTION

CR-2020-0014
(Updated 11/03/20)

Part 1. ULDC Art. 4.B.1.C.4.d.2)a)(1), Use Regulations, Use Classification, Residential Uses, Definitions and Supplementary Use Standards for Specific Uses, Multifamily, Zoning District, RM District, MR-5 FLU Designation, Planning Determination (page 17 of 199, Supplement 28), is hereby amended as follows:

Reason for amendments: [Planning]

1. To remove the requirement for a written Planning Determination in the Medium Residential, 5 unit per acre (MR-5) Future Land Use (FLU) Designation to determine if a property meets the criteria for an Infill Density Exemption in the Comprehensive Plan. This determination impacted the density potential of smaller parcels, and was changed in 2015.

2. The Multifamily Planning Determination amendment is the result of the Use Regulations Project (Ordinance No. 2017-007), which identified that a written Planning Determination was not appropriate, as the Comprehensive Plan does not regulate housing type and the infill letter relates to density only.

CHAPTER B USE CLASSIFICATION

Section 1 Residential Uses

C. Definitions and Supplementary Use Standards for Specific Uses

4. Multifamily

a. Definition

The use of a structure designed for two or more dwelling units which are attached or the use of a lot for two or more dwelling units.

b. Typical Uses

Typical uses include apartments and residential condominiums.

c. Overlay – WCRAO

Multifamily is prohibited in the NR Sub-area per Table 3.B.14.E, WCRAO Sub-area Use Regulations.

d. Zoning District

1) TMD District

AGR-TMDs shall be exempt from the integration requirement and shall comply with the Development Order approved by the BCC.

2) RM District

Multifamily units may be allowed in the RM Zoning District as follows: [Ord. 2017-025]

a) MR-5 FLU Designation

A written determination from the Planning Director that the property meets the criteria for an Infill Density Exemption in the Plan; and

b) HR-8, HR-12, or HR-18 FLU Designation

Multifamily units on parcels with an HR-8, HR-12, or HR-18 FLU designation, may be Permitted by Right unless Development Thresholds in Art. 4.A.9 are triggered. [Ord. 2017-025]

c) Limestone Creek

Multifamily units in the RM Zoning District shall be prohibited in the area bounded on the north by 184th Place North, on the south by the C-18 Canal, on the east by Central Boulevard and the municipal limits of the Town of Jupiter, and on the west
