Mr. Blackman noted the distribution of an add/delete sheet and requested that it be included in the motion to adopt the agenda.

3. Motion to Adopt Agenda

Motion to adopt agenda with the changes in the add/delete by Ms. Vinikoor, seconded by Mr. Carpenter. Motion passed (13 - 0).

4. Adoption of July 23, 2014 Minutes (Exhibit A)

Motion to adopt by Ms. Vinikoor, seconded by Ms. Katz. Motion passed (13 – 0).

B. ULDC AMENDMENTS

1. Exhibit B – Art. 2, Development Review Procedures

Ms. Dennis presented the following summary:

- Part 1 related to Plan Requirements reflects a minor change to clarify that the approval processes described under Plan Requirements are subject not only to Development Review Officer (DRO) review, but also review by the Zoning Director and Agencies. Future Land Use (FLU) amendments are excluded from reviews. Ms. Brinkman requested clarification whether a rezoning would be subject to these standards. Mr. MacGillis indicated the provisions for the rezoning applications were found elsewhere in Article 2.

- Part 2 regarding Application Procedures changes the numbering of variances by replacing roman numerals with arabic numbers, for consistency with other parts of the Code. It also clarifies that Administrative Variances are also subject the requirements in Art. 2.A.1.G.

- Part 3 about LDRAB Expertise deletes the Condominium/HOA position in the LDRAB Expertise table of Art. 2.G, as there is no one source from which to get nominations and this presents logistical difficulties. The add/delete reflects the need to keep the name of the Gold Coast Builders Association as the organization is planning to retain that name.

Mr. Berger provided background regarding the amendment to the Code Enforcement Special Masters and Hearing Officers appointed bodies in Part 4.

- The ULDC has provisions for Code Enforcement Special Masters and Hearing Officers to hear all types of Administrative Appeals and Hearings. Over time, from an operational standpoint, the processes have been consolidated whereby all persons are picked from one pool and are available for basically the same purposes. Although the names are different, essentially they are all selected through the Special Master...
2. Exhibit C – Art. 11, Subdivision, Platting and Improvements
Ms. Keller, Land Development Director, explained the amendment removes density language from the subdivision code since density is governed by the Comprehensive Plan as well as by applicable plans pursuant to ULDC Art 2.A.1.G.3.d Master Plan, Art 2.A.1.G.3.e, Site Plan and Art 2.A.1.G.3.f, Subdivision Plan.

Motion to approve by Mr. Carpenter, seconded by Ms. Katz. Motion passed (13 - 0).

3. Exhibit D – Commercial Communication Towers - Non Residential Zoning District Separation and Setbacks
Ms. Cantor explained that in the course of working on the Use Regulations Project, staff identified minor glitches, irregularities and redundancies in Table 4.C.3.I, Distance for Towers Located in Non-Residential Districts, Separation and Setbacks, and the decision was taken to advance revision of the Table to Round 2014-02, instead of addressing this in the normal sequence of the Project. She clarified that the amendments were presented at a Commercial Communication Towers meeting on October 10, 2014 with LDRAB members, industry and interested parties.

Ms. Cantor indicated that the revisions include recommendation made by participants at the meeting to:

- Consolidate separation and setbacks from four tables into one: Public Facilities (IPF), Urban Center (UC) and Urban Infill (UI), Infill Redevelopment Overlay (IRO) and Lifestyle Commercial Center (LCC) Zoning Districts, as they were inadvertently omitted.
- Consolidate redundant standards repeated for each applicable zoning district; correct various typographical or clerical errors; clarify that setbacks for Multiple Use Planned Developments (MUPD) apply to Commercial Low (CL) and Institutional (INST) FLU.
- Delete reference to Industrial Future Land Use (FLU) designation applicable to towers in Mixed Use Planned Development (MXPD), as MXPD is not consistent with Industrial (IND) FLU designation.

Ms. Vinikoor raised the point that there is inadequate regulation to ensure that camouflage towers, like pines, are accomplishing the visual disguise that is required. She asked staff to consider adding standards to the Code to ensure that enough foliage is provided for this type of towers. Ms. Cantor explained that the issue was discussed at the Communication Towers meeting with industry and it will be added to the agenda for further discussion at the next meeting.

Mr. MacGillis confirmed that there are existing tower elevation requirements that are enforced by the Code Enforcement Division, but the point about increased vegetation is well taken.

In reply to Mr. Baumoehl's question as to whether the decision on this amendment will affect any future recommendations regarding Commercial Communication Towers, Ms. Cantor said that the amendments under consideration are mainly to address setbacks, and in the process, clean up any identified minor glitches. Ms. Cantor clarified that the comprehensive review of Article 4.C and the next meeting with industry will help to identify any issues, but presently no negative consequences are expected from these changes.

Mr. Gulisano questioned the possibility that owners of camouflage towers submit a picture once yearly to take some of the burden of monitoring from the County and ensure that the camouflage towers are still disguised.

Motion to approve by Mr. Gulisano, seconded by Ms. Katz. Motion passed (13 - 0).

E. PUBLIC COMMENTS
There were no public comments.

F. STAFF COMMENTS
Ms. Cantor commented that work on the Utilities category in the Use Regulations Project is ongoing. The date for presenting the changes to the subcommittee is yet to be determined.
Mr. Rodriguez advised that a meeting on Kennels was held on September 15, to address research, as a follow-up to the initial meeting with industry in May, which gathered feedback and input. These helped to provide preliminary recommendations for potential code amendments and will be reviewed in the Commercial Uses category. Participants were generally agreeable to the changes but further research will continue with Animal Care and Control. A meeting date is yet to be determined.

G. BOARD COMMENTS

Mr. Baumoehl referred to the Minutes of the July 23, 2014 LDRAB meeting and specifically to the text on Page 5 related to Residential Uses as part of the Use Regulations Project amendments. The language in question reads: "...certain types of Sober Homes have been classified as a single family home allowing a maximum of four unrelated persons to occupy the home, and this use is protected by the American with Disabilities Act (ADA). In cases where there are more individuals involved, application may be made for "reasonable accommodation".

Mr. Baumoehl expressed the view that "Sober Homes" do considerable harm to single family residential communities. He finds the accommodation of members of four different families in a single family residence difficult to accept and questioned if anything can be done.

A discussion ensued in which the following points were made:

- Mr. Berger explained that "Sober Homes" are not regulated under the existing ULDC provisions as they are protected by the American Disabilities Act (ADA) and follow the Reasonable Accommodation Process. He confirmed that four unrelated persons are allowed to be in a single family home under the ULDC definition of Family. In the last legislative session, there was an attempt to regulate sober homes under State law. In addition to State regulations, there are Federal protection laws that trump State laws.

- Ms. Katz spoke about efforts to regulate that are being taken up by two local Congressmen and also two Congressmen at the Federal level.

- Mr. Berger suggested one thing that could be done at the State level and that is a type of Sober Home that does not require licensing.

- Ms. Vinikoor mentioned that HIPAA, (Health Insurance Portability and Accountability Act), also offers protection for the homes, in addition to the ADA. She continued that there are efforts by a local civic organization to which she is affiliated to draft a Bill requiring registration of Sober Homes, but HIPAA could present a problem. The Bill will also require the screening of administrators of these Homes, so that if a felony is committed the affected Home can be closed. The organization is trying to have this Bill put forward at meetings which have been planned by local State officials, and there are also efforts being made at the Federal level.

- Mr. Gulisano added that the City of Boca tried to regulate the Homes at a cost of thousands of dollars and still had to allow them as the City lost the litigation.

G. ADJOURN

The Land Development Regulation Advisory Board meeting adjourned at 2:25 p.m.

Recordings of all LDRAB meeting are kept on file in the Palm Beach County Zoning/Code Revision office and can be requested by contacting the Code Revision Section at (561) 233-5213.

SUMMARY OF AMENDMENTS

(Updated 11/05/14)

Reason for amendments: [Zoning]

4. While this standard is currently located under Art. 5.B.1.A.2, Fences, Walls and Hedges, it only applies to "fences and walls." Hedges are also subject to these limitations in order to ensure traffic and pedestrian safety at intersections. Also, aforementioned section is being amended to remove redundant and confusing references to hedges (which are not an accessory structure or use).

HOTEL ACCESSORY TO PUBLIC PARK
SUMMARY OF AMENDMENTS
(Updated 11/4/14)

Part 1. ULDC Art. 4.B.1.A.72, Hotel, Motel, SRO and Rooming and Boarding House (page 63 of 171), is hereby amended as follows:

Reason for amendments: [Parks/FD&O/PZ&B]

1. On September 9, 2014, the BCC approved a Conceptual Master Plan for Morikami Park, which included a Japanese inn (“ryokan”). The Parks and Recreation Agenda Item noted that Board approval would enable staff to initiate an amendment to the ULDC to allow for the ryokan.
2. Parks, FD&O and PZ&B staff concur that in certain circumstances, a collocated hotel would be beneficial to furthering PBC Parks and Recreation goals of promoting heritage tourism, eco-tourism, or historical, cultural, scientific, educational or other similar purposes.
3. Recognize PBC Parks and Recreation terminology “park resource base” as referenced in the Comprehensive Plan. Further, establish which type of park and park resource base is most appropriately suited for a collocated hotel, noting that a Regional Park by definition generally exceeds 200 acres in size.
4. Establish frontage and access restrictions that will help to ensure that any hotel uses are appropriately located and situated within a qualifying park.
5. Allow a proposed collocated hotel that meets all criteria, subject to Class A Conditional Use approval.

CHAPTER B SUPPLEMENTARY USE STANDARDS

Section 1 Uses

A. Definitions and Supplementary Standards for Specific Uses

72. Hotel, Motel, SRO, and Rooming and Boarding House
An establishment requiring a license by the State of Florida used, maintained or advertised as a place where furnished sleeping accommodations are supplied for short term rent to guests or tenants. PART 1.

ULDC Art. 4.B.1.A.27, Cemetery (page 39 of 171), is hereby amended as follows:

Reason for amendments: [Zoning]

1. Delete reference to F.S. 497.027 for the following reasons: The minimum 15-acre requirement was relocated to F.S. 297.253 in the 1990’s, and then to the current F.S. 497.270 in 2005, the latter of which included an increase to a minimum of 30 acres. The Florida Division of Funeral, Cemetery and Consumer Services, the State agency responsible for licensing and regulating the sale of cemeteries, indicates that older cemeteries established under the 15-acre minimum would be vested.

2. Update minimum acreage required for a cemetery from 15 to 30 to match Division of Funeral Cemetery and Consumer Services interpretation of minimum acreage required for any newly created cemeteries, or the sale of all or a portion of an existing cemetery. Add that prior approvals for cemeteries shall not be considered non-conforming where approved with less acreage.

3. Recognize the limited exceptions to minimum acreage requirements outlined in F.S. 497.260. However, as these standards are only applicable to State licensing requirements and do not preclude local home rule Zoning regulations, staff is recommending that each exception be specifically listed, in the event the State amends the Statutes at a later date, where the County may not concur.

CHAPTER B SUPPLEMENTARY USE STANDARDS

Section 1 Uses

A. Definitions and Supplementary Standards for Specific Uses

27. Cemetery

Land used or intended to be used for human or animal interment. A cemetery may include an office, chapel, mausoleum, or columbarium. [Ord. 2013-001]

a. Frontage

In all residential districts, a cemetery shall have frontage on and access from an arterial or a collector street.

b. Lot Size

In accordance with F.S. §497.027, a cemetery for human interment shall be located on a site with a minimum contiguous area of 30 acres. An existing cemetery having less acreage shall not be considered a non-conforming use if the acreage shown is consistent with a prior approval. Exceptions to the minimum acreage requirement may be permitted, as follows: [Ord. 2013-001]

1. Cemeteries owned and operated by a Place of Worship located within Palm Beach County, whether collocated or remotely located, when less than 5 acres, but not less than 2 acres, which provides only single-level ground burial.

2. County and municipal cemeteries.

3. Community and nonprofit association cemeteries, which provide only single-level ground burial and do not sell burial spaces or burial merchandise.

4. Cemeteries owned and operated or dedicated by a Place of Worship prior to June 23, 1976.

5. A columbarium consisting of less than one-half acre which is collocated with a Place of Worship.

6. A mausoleum consisting of two acres or less which is collocated with a Place of Worship.

ADULT ENTERTAINMENT
SUMMARY OF AMENDMENTS
(Updated 11/04/14)

Part 1. ULDC Art. 4.B.1.A.2, Adult Entertainment (pages 25-26 of 171), is hereby amended as follows:

Reason for amendments: [Zoning/County Attorney] The County seeks to balance regulations limiting the location of adult entertainment uses while ensuring “that there are a sufficient number of available locations for new adult entertainment uses.” Adult entertainment uses have been found to be “adverse to the public’s interest and the quality of life, tone of commerce, and the community environment of PBC.” Subsequently, the use(s) is limited to the General Commercial (CG), Light Industrial (IL) and General Industrial (IG) Zoning districts, and includes minimum separations from uses such as schools, churches, parks. The County Attorney’s office has advised that regulations limiting improvements to non-conforming site elements and exterior building facades, or prohibitions on the location of restaurants or cocktail lounges within Industrial districts, may be an impediment that inadvertently conflicts with goal of ensuring sufficient available locations for adult entertainment uses.

1. Delete duplicated provision that relates to location of nonconforming Adult Entertainments. Current position of the language is out of place and does not relate to the Standards for Nonconformities.

2. Allow for renovations to building facades and site elements that would serve a public benefit by beautifying, or improving the function of, parking, lighting, architecture and landscaping, thus potentially mitigating some adverse impacts.

3. Recognize industry trend towards including dining options or food service, by allowing food service as an accessory use, provided that food service is provided in conjunction with limited Adult Entertainment uses, and not otherwise as a standalone use.

4. Recognize Cocktail Lounges as a typical collocated use as permitted by right (excluding any outdoor lounge areas). Noting that an Adult Entertainment use meets or exceeds the separations required for a lounge, including a minimum of 500 feet from a Residential district (double the 250 feet for a lounge), the same 750 foot separation from other lounges, 1,000 feet for schools (double that required by F.S. for a lounge), in addition to: 2,000 feet from other Adult Entertainment establishments; 1,000 feet from a Place of Worship; and, 500 feet from a Public Park.

CHAPTER B SUPPLEMENTARY USE STANDARDS

2) Standards for Nonconformance

A nonconforming adult entertainment use as determined in Article 4.B.1.A.2.k, Nonconformity, above shall be subject to the following supplementary standards, in addition to Article 1.F, NONCONFORMITIES. [Ord. 2004-051] [Ord. 2009-040]

a) Location

Was in operation as an adult entertainment use, was generally known and held out in the neighborhood and community as an adult entertainment establishment, and was open to the public as an adult entertainment establishment use; [Ord. 2004-051][Ord. 2009-040]

b) Landscape Buffer

[Relocate Accordingly]

3) Modification or Improvement to Site Elements

When an adult entertainment establishment has been determined to be a non-conforming use, or is located within a non-conforming structure, modifications or improvements to conforming or non-conforming site elements or exterior architecture shall be permitted. The total cost associated with these improvements will not be used in determining the allowable improvements to the interior of the structure, pursuant to Art. 1.F.1.

l. Accessory Food Service in Industrial Districts

In the IL and IG Zoning districts, food service may be permitted as an accessory use to Adult Entertainment, only in conjunction with and during the hours of operation for an adult theater or an adult dancing establishment.

ARTICLE 5.C. – DESIGN STANDARDS
SUMMARY OF AMENDMENTS
(Updated 10/29/14)

Reason for amendments: [Zoning] On May 22, 2014, the Zoning Commission (ZC) requested the Board of County Commissioners (BCC) permission to amend Article 5.C, Design Guidelines of the Unified Land Development Code (ULDC). The proposed amendment will require the submittal of architectural elevations for those applications that are subject to the approval by the ZC or a recommendation by the ZC to the BCC. The intent of the proposed amendment is to ensure quality and consistency of architecture that addresses compatibility issues. The issue was discussed by the Land Development Regulation Advisory Board (LDRAB) Architectural Subcommittee on September 10, 2014, which recommended requesting architectural elevations for use approval applications subject to public hearings.
1. Delete standards that require architectural elevations to be part of the Final Regulating Plan as they are typically provided as a separate set of plans consistent with the requirements of the Technical Manual.
2. Clarify that architectural plans, where applicable, are also within the other types of plans required as part of any development order application. Specific standard to clarify when elevations are required to be submitted and the application requirements are indicated in Article 5.C.

Reason for amendments: [Zoning] Amend to make submittal of architectural elevations mandatory for applications subject to the BCC and ZC as noted in this exhibit reason Part 1.

ARTICLE 5.C. – DESIGN STANDARDS

SUMMARY OF AMENDMENTS

(Updated 10/29/14)

Reason for amendments:

1. Provide cross reference to Article 2, Development Review Procedures, particularly to 2.D.1.G, Modifications to Prior Development Order, which is the section that contains specific language related to the DRO and administrative amendments to architectural elevations.

2. Partially relocate standard that allows the DRO to modify architectural elevations approved by the BCC or ZC to Article 2.D.1.G.1, Modifications to BCC and ZC Approvals in order to consolidate with similar standards.

3. Delete standard that allows DRO changes in building height up to 25 percent or ten feet through the architectural elevation modifications contained in Art. 5.C.1. This standard is inconsistent with provisions in Article 2.A.2.G.1.i, that allows the DRO to increase the building height no more than ten percent.

4. Delete standard that allows for modification to elevations based on “equal or enhances approved elevations” as that represents subjectivity and is not enforceable. Deletes standard that allows modifications to elevations by the DRO consistent with Art. 5.C. as this reference is not consistent with the new title. The concept is carried over to the Zoning Review amendment in Art. 2.

4. Administrative Amendments by DRO to Approved Elevations

Amendments to BCC, ZC or DRO approved elevations shall comply with the standards contained in Art. 2.D.1.G, Modifications to Prior Development Orders.

Minor amendments to BCC or ZC approved architectural elevations pursuant to Review Types I and II may be approved by the Zoning Director provided the changes do not reduce compatibility with surrounding properties. Changes shall be limited to the following: [Ord. 2009-040] [Partially relocated to 2.D.1.G.1.p]

a. A maximum increase of 25 percent or ten feet in overall building height, from finished grade to highest point, whichever is less;

b. Modifications to the architectural composition which are equal to or enhance the approved elevation; and,

c. Modifications to ensure consistency with this Chapter.

F. Application Requirements

The application form and requirements for Architecture Review, including Unique Structure and Green Architecture shall be submitted on forms specified by the PBC official responsible for reviewing the application. All application documents shall be consistent with the Technical Manual. [Ord. 2009-040]

Minor nonconforming uses do not create or threaten to create incompatibilities injurious to the public welfare. An applicant who is requesting modification or improvement to a minor nonconforming use is encouraged to apply pursuant to the review and approval process now in effect to correct the nonconforming status of the use for the benefit of future development order amendments and other types of improvements. [Ord. 2010-005]

Part 2. ULDC Art. 1.I.2, Definitions (page 80 of 119), is hereby amended as follows:

Part 3. ULDC Table 2.G.3.A, LDRAB Expertise (page 71 of 86), is hereby amended as follows:

Reason for amendments: [Zoning] Delete Condominium/HOA Association LDRAB position due to logistical considerations necessary to contact each individual HOA/COA, and doing so would likely result in an inordinate number of nominations. ### COMMERCIAL COMMUNICATION TOWERS
### NON-RESIDENTIAL DISTRICT SEPARATION AND SETBACKS
### SUMMARY OF AMENDMENTS
(Updated 10/01/14)

**Reason for amendments:** [Zoning] As part of the Use Regulations Project (URP), a two-year project to update the use definitions, approval processes and supplementary standards contained in the Unified Land Development Code (ULDC), staff identified scrivener’s errors and minor glitches in the Commercial Communication Towers section. The Zoning Director has determined that several minor revisions to Table 4.C.3.I, Distance for Towers Located in Non-Residential Districts Separation and Setback, should be advanced in the 2014-02 ULDC Round of Amendments, as follows:

1. **Ordinance 2010-022,** which established the Urban Redevelopment Area Overlay (URAO) with the new zoning districts Urban Center (UC) and Urban Infill (UI), and Ordinance 2010-005, which established the Infill Redevelopment Overlay (IRO) and Lifestyle Commercial Center (LCC) Zoning Districts, inadvertently omitted standards for Commercial Communication Towers separation and setbacks.

3. **Revise table title** to better clarify that contents establish “Minimum” setbacks and separations, which also allows for the deletion of the redundant use of “Not Less Than”.

4. **Consolidate redundant standards** repeated for each applicable zoning district and delete a related legend that was used inconsistently making the current table difficult to understand. This amendment looks to improve ease of use while allowing for the current three-page table to be reduced to one page.

5. **Correct various typographical or clerical errors** resulting from reformattting in 2003 as part of the Managed Growth Tier System (MGTS) Code Rewrite (Ord. 2003-067), including:
   - Residential districts were incorrectly included in table for Stealth, Camouflage and Monopole towers.
   - Several non-residential district columns were omitted in the table for Stealth, Camouflage and Monopole towers, including: Mixed Use Planned Development (MXPD), Planned Industrial Park Development (PIPD), and Preservation/Conservation (PC) Zoning Districts.
   - Several monopole tower height categories were omitted, including: less than 60 feet, more than 100 feet and less or equal to 150 feet, and more than 250 feet.

6. **Clarify that setbacks for Multiple Use Planned Developments (MUPD) includes Commercial Low (CL) and Institutional (INST) FLU designations** for consistency with use approval tables.

7. **Delete duplicated standard contained in footnotes “B” and “C” and renumber accordingly.**

8. **Delete reference to Industrial Future Land Use (FLU) designation from footnote #2 applicable to towers in MXPD shown in the old table.** MXPD is not consistent with Industrial (IND) FLU designation.

9. **Delete note #4 in existing table related to Industrial FLU designation as it does not relate to any reference in the table.** The note reference does not have any link since Ordinance 1998-1.

10. **Delete note “More Than”, “Less than” and “NMT Not More Than” in the footnote of the table as they are revised to better explain the applicable setbacks and separation standards for each tower type.**

11. **Clarify that separation and setbacks applicable to Self Support towers, Guyed towers adjacent to Existing and Vacant Residential as well as Monopole towers, are the same as those contained in the Residential Zoning Districts Separation and Setback table.**
