to be incorporated in the amendment and explained that the primary purpose of the amendment is to respond to BCC direction as related to the County Fuel Price Signs Ordinance.

Several Board members inquired about the proposed amendments which include setback exemptions, electronic message signs location, the County Fuel Price Ordinance, and light intensity. Mr. Cross responded by indicating that existing time and temperature signs would not be in violation as they were previously exempted. Regarding fuel signage, this amendment recognizes that existing signs do not have to comply with Table 8.G.3.B, Setbacks, since only new sign technology will be used in the existing sign area. Mr. Cross also clarified that the add delete exempts fuel price, time and temperature signs from location requirement, except for residential, which requires a minimum setback of 100 feet. He also indicated that per County ordinance, cash and credit pricing shall be indicated. Regarding light intensity, he clarified that 30 watts is equivalent to 300 lumens which has been documented in numerous studies to be sufficiently bright in the daytime.

Mr. Bailey requested staff to correct the terminology "cuts" used in the draft from the manufactures catalog to "cut sheets". Additionally, he requested clarification on the size of Lake Worth Drainage District (LWDD) canal right-of-way (ROW), specifically the E-1 canal, as the current language requires 100-foot canal ROW to qualify for an increase in the letter height for fuel price signs. Mr. MacGillis suggested 80-foot canal ROW and that staff would check the typical canal ROW width in the LWDD.

Motion by Ms. Vinikoor to approve, as amended, including the revision of the ROW canal width, seconded by Mr. Bailey. Motion passed (13-0).

#### **5. Exhibit F - SFWMD Accessory Radio Towers**

Mr. Cross explained that County staff and South Florida Water Management District (SFWMD) staff coordinated to address telemetry tower facilities in the Glades area. Mr. Cross noted that one site south of Belle Glade that is located on State owned land has an existing 200 foot tower that will be replaced with a new self support tower.

Ms. Dadrian, representing the SFWMD, explained that the new self supported 300 foot structure is needed for operations around Lake Okeechobee and the Glades area, particularly to accommodate equipment and to manage various drainage and flood control systems. She clarified that the tower is strictly for SFWMD use only and would not be utilized for commercial purposes. Mr. MacGillis clarified that if the District utilizes the tower for commercial purposes that would be considered a change of use, making it subject to standards for Commercial Communication Towers based on the tower type.

The amendment will include correction to the use of "EPA" acronym to distinguish between the Everglades Protection Area and the Environmental Protection Area brought to staff's attention by Ms. Vinikoor. The acronym for the Everglades Protection Area will be "EvPA".

Motion by Ms. Brinkman, as amended, seconded by Mr. Puzzitiello. Motion passed (13-0).

#### **6. Exhibit G - Outdoor Shooting Range**

Mr. Rodriguez explained the use was previously reviewed as part of the Use Regulations Project and was presented to the LDRAB with Recreation in 2013. Proposed revisions to the use were made at that time. At the request of Palm Beach County Facilities Development and Operations (FDO) and the Florida Wildlife Commission (FWC), amendments have been rescheduled to the 2014-01 Round in anticipation of a proposed shooting range.

Ms. Vinikoor asked if staff could clarify or insert separation distance requirements for outdoor archery ranges. Staff agreed to research the topic further and consider an additional standard to clarify the separation distance.

Motion by Mr. Puzzitiello, seconded by Mr. Gulisano. Motion passed (13-0).

**7. Exhibit H - Art. 7, Landscaping**

Ms. Pinkston explained that the amendment will allow for the use of a greater variety of plant material, and improve viability of the planted material, especially on residential lots.

Ms. Brinkman, questioned if the interior island landscape width in the Minimum Tier Requirements Table 7.C.3, was being relocated as the amendment showed that section to be deleted. Ms. Pinkston explained that the measurements were already located in the Code and having it in the Minimum Tier Requirements table was redundant.

Ms. Colleen Walter, representing Urban Kilday Design Studio, asked if staff could add "trees" to note number 5 related to planting. Ms. Pinkston agreed to add "trees" to the note.

Motion by Mr. Gulisano, as amended, seconded by Ms. Vinikoor. Motion passed (13-0).

**8. Exhibit I - Privately Initiated Amendment (PIA) 2014-376 Bay Door Orientation**

Ms. Dennis explained the amendment would allow bay doors to face residential properties meeting specific criteria. Ms. Dennis briefly described the exemptions that would apply and additional mitigation that would be required.

Motion by Mr. Brake, seconded by Mr. Knight. Motion passed (13-0).

**9. Exhibit J - Inland Logistic Center**

Mr. Blackman advised that Ms. Brinkman would be recusing herself from any discussions or vote on the Inland Logistics Center Exhibit, having provided a completed Voting Conflict Form 8B.

Mr. Cross described the general boundaries of the Glades Area Overlay (GAO), which generally encompasses the unincorporated areas located within the Urban Service Area of the Glades Tier and bordering Belle Glade, Pahokee, South Bay and Canal Point. A map of the Inland Logistics Center was also shown delineating the general location in-between South Bay and Belle Glade.

Mr. Cross explained that the parcel has an Industrial Land Use designation, and that the Planning Division recently presented related Comprehensive Plan amendments to the BCC. He clarified that the proposed amendments will apply to any project within the GAO, not just the ILC.

Mr. Tedtmann asked if the project would interfere with the flow-way from Lake Okeechobee to the Everglades. Ms. Colleen Walter, with Urban Design Kilday Studios, representing Florida Crystals, responded that a settlement agreement took place with several local and state environmental stakeholders, including Department of Environmental Protection (DEP), to address environmental concerns and to agree upon the location of the ILC.

Mr. Knight asked about the project moving forward in the event of a recession occurring. Ms. Walter explained that the project has a long development horizon and is potentially planned as a Planned Industrial Park (PIPD). Once the development is platted, development will commence.

Mr. MacGillis briefly explained the Type I waiver process that is beneficial to the project and said the Development Review Office (DRO) would approve a final subdivision plan after the master plan is approved by the Board of County Commissioners (BCC).

Motion by Mr. Puzzitiello, seconded by Mr. Brake. Motion passed (12-0).

**C. CONVENE AS LDRC**

**1. Proof of Publication**

Motion to approve by Mr. Puzzitiello , seconded by Ms. Vinikoor. Motion passed (13 - 0).

**2. Consistency Determination**

**PALM BEACH COUNTY  
LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB)  
LAND DEVELOPMENT REGULATIONS COMMISSION (LDRC)**

**Minutes of May 28, 2014 Meeting**

Ms. Erin Fitzhugh-Sita stated that the proposed amendments, Agenda items B.1 through B.9 and the previously presented amendments, Exhibits K through Q are consistent with the Comprehensive Plan.

Ms. Brinkman clarified to the Board that she had also recused herself from item "P" (RVPD Real Estate Sales Office). Mr. Blackman noted

Motion to approve consistency determination by Ms. Vinikoor, seconded by Mr. Brake. The motion passed (12 - 0) for Exhibit P, and (13 - 0) for all other Exhibits.

**D. ADJOURN AS LDRC AND RECONVENE AS LDRAB**

**E. PUBLIC COMMENTS**

There were no public comments.

**F. STAFF COMMENTS**

**1. Use Regulations Project Status**

Ms. Cantor provided an update on the status of the Use Regulations Project and informed the Board the next Subcommittee meeting will be on June 18, 2014 to address Residential Uses.

Mr. Rodriguez provided a brief update on the recent meeting with Animal Care and Control (ACC), interested parties, commercial kennel business owners and Zoning staff regarding Commercial Kennels operating in residential zoning districts. The item will be part of the Commercial use classification. He noted that additional meetings will take place and they are open to the public.

**2. June 25, 2014, Special LDRAB Meeting**

Mr. Cross reiterated that the next LDRAB meeting in June will include amendments applicable to Minto West Development.

Motion to approve participation of LDRAB members in subcommittee by Ms. Vinikoor, seconded by Mr. Brake. The motion passed (13 - 0).

Mr. Cross also advised that Mr. Richard Kozell had submitted his resignation from the Land Development Review Advisory Board.

Part 1. ULDC Art. 3.B.4, Glades Area Overlay (GAO) (page 24 of 229), is hereby amended as follows:

<p><b>Reason for amendments:</b> [PZ&amp;B] The following revisions to allow additional Type I Waivers are in addition to those previously presented to the LDRAB on May 28, 2014:</p> <ol style="list-style-type: none"> <li>The ULDC establishes minimum and maximum range of parking for Planned Development Districts, also allowing industrial uses to utilize the minimum parking requirements for individual uses. Proposed Waivers would allow additional flexibility (25 percent) for minimum or maximum required industrial parking as needed to accommodate desirable job generating tenants having smaller or larger workforce needs not currently anticipated in County parking standards.</li> <li>Allow reductions or elimination of minimum 10 percent side or rear parking spaces for industrial uses. The intent of this Code provision is typically used to address pedestrian walking distances from vehicle parking areas for larger commercial centers that have large numbers of parking spaces. The Waiver accommodates industrial uses that either have limited public or employee access points, special security requirements, or where side and rear facades are primarily utilized for bay door or other transportation related logistics parking or access.</li> <li>Allow for larger encroachment of utility easements into landscape buffers (e.g. overlap) where unknown future technology requirements may exceed previously anticipated utility needs.</li> </ol>

ARTICLE 1 - GENERAL PROVISIONS

Part 1. ULDC Art. 1.I, Definitions and Acronyms (pages 35 and 112 of 119), is hereby amended as follows:

Reason for amendments: [Planning, Zoning & Building]
1. Requirements related to the Allocation Plan, including Transects, Implementing Principles and Density or Intensity, and Village Center, are being removed from the ULDC.
2. These provisions will be retained within the Comprehensive Plan and implemented by Planning staff through the required Agricultural Enclave (AGE) Future Land Use Atlas (FLUA) Conceptual Plan.
3. The Allocation Plan was originally developed as an alternative to a singular Traditional Town Development (TTD) Rezoning. Combining Overlay standards, existing TTD Master Plan requirements, and the FLUA Conceptual Plan simplifies the development review process.

#### CHAPTER A GENERAL

##### Section 1 Applicability

##### G. Application Procedures

##### 3. Plan Requirements

##### h. Other Types of Plans

##### **3) Agricultural Enclave Allocation Plan**

~~The AGE Allocation Plan shall be required for any Development Order application for a rezoning, requested or conditional use within an AGE, including any related Development Order amendments, but excluding any exempted agricultural uses. Approval of an Allocation Plan by the BCC shall be binding upon the landowners subject to the Development Order, their successors and assignees. All other required Plans, excluding exempted agricultural uses, shall be consistent with the AGE Allocation Plan. For each development order application for a rezoning, requested or conditional use approval, the AGE Allocation Plan includes the general location or layout of arterials and collector streets, access points, location of proposed uses, Transect Zone requirements for acreage, density and intensity, and any remnant parcels that are located within the boundaries of an AGE, but was not included in the FLU amendment. All subdivisions and plats shall be consistent with the AGE Allocation Plan. The Allocation Plan shall include all land areas located within an AGE and shall be consistent with the Conceptual Plan and New Urbanism Guiding Principles adopted with a Site Specific AGE FLU amendment. [Ord. 2010-022]~~

(Updated 6-20-14)

### ARTICLE 3 – OVERLAYS AND ZONING DISTRICTS

Part 4. ULDC Table 3.A.3.C, FLU Designation and Corresponding Planned Development Districts and Table 3.A.3.D, TDD Corresponding Land Use (page 18 of 229), is hereby amended as follows:

**Reason for amendments:** [Planning, Zoning & Building]

1. Revisions required recognizing deletion of Allocation Plan. The Traditional Town Development (TTD) is shown as consistent with the Agricultural Enclave (AGE) future land use (FLU) designation. A TTD allows for the deleted districts to be developed as Pods, rather than separate Zoning districts.
2. Reference to Village Center is no longer applicable, as the AGE Future Land Use Atlas (FLUA) Conceptual Plan will delineate where TMD and MUPD Pods are permitted.
3. Additional note added to reference Traditional Town Development (TTD) Table 3.F.5.D which creates vehicle to allow for TND, TMD, MUPD and PUD “Pods” within a larger TTD approval, to help improve understanding of how a TTD functions.

#### CHAPTER A GENERAL

#### Section 3 Zoning District Consistency with the Future Land Use Atlas (FLUA)

##### C. Planned Development Districts (PDDs)

3 amended as follows:  
4

**Reason for amendments:** [Planning, Zoning, & Building]

1. As outlined in Reason 1, references to an Allocation Plan and related details are being deleted from the ULDC and will be addressed by County Planning Division staff through the Agricultural Enclave (AGE) Future Land Use Atlas (FLUA) Conceptual Plan. In summary, Future Land Use Element (FLUE) Policies 2.2.5-d. through i, establishes the requirements that an AGE FLUA amendment include a Conceptual Plan and Implementing Principles that demonstrate compliance with F.S. 163.3162(4), by establishing the mix of land uses, range of densities and intensities, location and minimum/maximum acreages for Transects and other binding standards.
2. Consolidate references to Urban/Suburban (U/S) Tier previously established in Ord. 2010-022 under "Applicability" to improve ease of use and better reflect F.S. and Plan requirements for an agricultural enclave.

5 **CHAPTER B OVERLAYS**

6 **Section 17 Agricultural Enclave Overlay (AGEO)**

7 **A. Purpose and Intent**

8 These regulations are intended to provide supplemental standards for ~~AGE specific PUD, TDD~~

12 concepts to achieve clustering, mixed use development, the creation of rural village and city  
13 centers, and the transfer of development rights within the boundaries of an AGE. ~~The Plan allows~~  
14 ~~for an AGE to be rezoned as a TTD as contained in~~ This is accomplished by use of Art. 3.F.5,  
15 Traditional Town Development (TTD), and an AGE Future Land Use Atlas (FLUA) amendment  
16 Conceptual Plan, which establishes Natural, Suburban and Urban Transects within an AGE or  
17 ~~developed as a single, or series of, Development Orders.~~

18 **BC. Applicability**

19 The provisions of the AGEO shall apply to ~~any application for a rezoning for~~ property located  
20 ~~within an AGE. Properties~~ with an AGE FLU designation, ~~may only be rezoned to a TDD, PUD or~~  
21 ~~PO district.~~

22 **1. Tier Requirements**

23 The Urban/Suburban Tier Requirements of the ULDC shall apply within the Urban and  
24 Suburban Transects, unless stated otherwise.

25 **CB. Boundaries**

26 The boundaries of ~~the an~~ AGEO shall be consistent with a an AGE ~~Site Specific~~ FLUA  
27 amendment. [Ord. 2010-022]  
28

29 **Reason for amendments:** [Planning, Zoning, & Building] Clarify requirements to incorporate AGE FLUA  
30 Conceptual Plan into all applicable Zoning Plans.

- 38 a. The location and boundaries of the transect zones;
- 39 b. Allocation and range of density and intensity;
- 40 c. General location of all civic sites and a summary chart for required or additional civic  
41 acreages;
- 42 d. General location of existing or proposed arterials, thoroughfares and collector streets,  
43 and access points for each Pod; and,
- 44 e. Any applicable Implementing Principles.

45 **2. Final Site or Subdivision Plan**

46 A FSP or FSBP for a TND, PUD, TMD, MUPD or Requested Use, shall include graphic and  
47 tabular details as required above for Master Plans and Regulating Plans.

**Part 10. ULDC Art. 3.F.1.F, Use Regulations [Related to Traditional Development Districts] (pages 192 – 193 of 229), is hereby amended as follows:**

**Reason for amendments:** [Planning, Zoning and Building]

- Reference term “pod” as to acknowledge Traditional Town Development (TTD) Table 3.F.5.D which establishes “Land Use Allocations” by designating TMD, TND, PUD or MUPD “Pods” within a TTD.
- A hotel is not currently permitted within a Traditional Marketplace Development (TMD); however, this would be an acceptable use within a TMD.

**Part 11. ULDC Art. 3.F.2.A.b, Block Structure [Related to Traditional Development Districts] (pages 196-197 of 229), is hereby amended as follows:**

**Reason for amendments:** [Planning, Zoning and Building]

- Since the adoption of the original block standards for Traditional Development Districts (TDDs) the County has added perimeter block standards to other similar form based walkable development standards. This allows for greater design flexibility and provides for simpler method of determining compliance with required block standards.
- Establish average and maximum block perimeters consistent with industry trends and numerous publications on the subject, while retaining a minimum block perimeter to ensure that each block establishes a minimum functionality within the overall block structure.
- Retain and expand existing minimum block face standards to address perimeter lots that may back up to drainage/lake tracts, streets outside of the development or Pod, or other open space amenity. This ensures that pedestrian network requirements are addressed while allowing for increased design flexibility.
