- Mr. Buscemi distributed and reviewed the minutes of the May 10, 2005 Public Outdoor Lighting Meeting.
- Mr. Buscemi distributed copies of the revised Outdoor Lighting Standards (All revisions were highlighted in yellow).

The Following items were discussed:

- A.** Under submittal requirements Photometric Plan delete the word “Front” in the seventh line.
- B.** Add a statement to Photometric Plan requirements, that requires a table showing all requirements currently listed but for both Lighting & Security lighting levels.
- C.** Add under LLF (Lighting Loss Factor) that values indicated are “a maximum value based on manufacturers initial lamp lumens.”
- D.** Add a reference to the Florida Building code under security lighting for energy code compliance.
- E.** Add a choice of Luminaries Heights for top parking level of parking structures.
- F.** Add a requirement for calibrator requirement, for the portable light meter.
