**TITLE:** an Official Zoning Map Amendment **REQUEST:** to allow a rezoning from the Agricultural Reserve (AGR) Zoning District to the Agricultural Reserve Planned Unit Development (AGR-PUD) Zoning District. **TITLE:** a Development Order Amendment **REQUEST:** to modify the Master Plan to add and delete land area (Preserves); amend a recorded Conservation Easement for Preserve Area No. 2; to allow the Partial Release of the Conservation Easement for Preserve Area No. 2; and, modify Conditions of Approval.

**APPLICATION SUMMARY:** Proposed is an Official Zoning Map Amendment and a Development Order Amendment (DOA) for the Canyon Lakes Agricultural Reserve Planned Unit Development (AGR-PUD). The 517-acre (ac.) development was first approved by the Board of County Commissioners (BCC) on April 24, 2003 for an Official Zoning Map Amendment from the Public Ownership and AGR to AGR-PUD Zoning District. A portion of the site was last approved by the BCC on August 27, 2020, for a rezoning from the Institutional and Public Facilities (IPF) and the AGR Zoning Districts to the AGR-PUD Zoning District; a DOA to modify the Master Plan to add and delete land area (Preserve); and, to amend Conditions of Approval.

The Applicant is proposing to modify the Preliminary Master Plan (PMP) to delete 26.69 acres (ac.) of Preserve Area (Preserve Areas #2 and #10), and to add 26.69 ac. of Preserve Area comprising six non-contiguous locations throughout the AGR Tier, which are proposed to be rezoned from AGR to the AGR-PUD Zoning District. The Applicant is also requesting to modify Planning Conditions of Approval related to the Preserve areas, to amend the Conservation Easement (Official Records Book 25867, Page 1437) for Preserve Area #2, and approval of the Partial Release of the aforementioned Conservation Easement.

This Application is being processed concurrently with two applications, as follows: an Official Zoning Map Amendment to rezone a 16.57-ac. portion of Hyder West (Z-2020-01699), and the 10.12-ac. site known as Pero (155th Lane Rezoning, Z-2020-01700). The PMP proposes no changes to the existing Development Area or to the overall acreage. Modifications are limited to the deletion and addition of Preserve Areas.

Official Zoning Map Amendment (Rezoning) to a PDD or TDD and Development Order Amendments:

When considering a Development Order application for a Development Order Amendment and/or a Rezoning to a Planned Development District (PDD), the BCC and ZC shall consider Standards a – h listed in ULDC Article 2.B.7.B.2, Standards. The Standards and Staff Analyses are indicated below. An Amendment that fails to meet any of these standards shall be deemed adverse to the public interest and shall not be approved.

- a. **Consistency with the Plan** – *The proposed use or amendment is consistent with the purposes, goals, objectives and policies of the Plan, including standards for building and structural intensities and densities, and intensities of use.*

PLANNING DIVISION COMMENTS:

- *Consistency with the Comprehensive Plan:* The proposed use or amendment is consistent with the Goals, Objectives and Policies of the Comprehensive Plan, including previous Land Use Amendments, densities and intensities of use.
- *Relevant Comprehensive Plan Policies:* FLUE Policy 1.5.1-i.6 states that the preserve area shall consist of, at least, 60 percent of the gross acreage less right-of-way identified in the Thoroughfare Identification Map. The policy also states that preserve areas for a 60/40 PUD shall contain a minimum contiguous area of 150 acres; or have a common boundary with other preserve properties whose aggregate total equals at least 150 acres and are contiguous to other preserve parcels or parcels designated Conservation (CON) on the Future Land Use Atlas (33-FLUE).
- *Density & AGR Preserves:* The subject request has a previous approval for 500 units on 517.001 acres (R-2018-1078) which was recently amended (DOA/PDD-2019-2394; R-2020-1243) to remove and replace 92.194 acres that reduced preserve P#2 Hyder and added 10 new preserves. The current application seeks to further reduce P#2 Hyder from 35.661 acres to 19.093 acres, remove and replace the 10.119-acre Preserve #10 (Pero) and add 6 new preserves for a total of 26.687 acres being exchanged. In addition, several of the new preserves are associated with the Nursery with Landscape Services Ordinance ORD. 2020-16 (P10; P18; P19; P20), and others have Farm Residence letters (P9; P11-P18).

The proposed preserves that support, or may support, Nursery with Landscape Service uses will have to be approved in the applicable Zoning process and demonstrate consistency with the requirements as laid out within the ULDC for those uses. Exhibit B within Ordinance 2020-016 does not provide substantive proof that the proposed landscape services meet the requirements laid out in the new ULDC language, rather the indicated percentages were preliminary studies made by Staff to determine if the proposed 70/30 regulations could work before returning to the BCC for direction on the regulations. They were based on an analysis of the aerial photography and were not ground-truthed, nor field verified. At best, they were an example of how a project could comply, but do not guarantee nor do they demonstrate that a project complies with the regulations. The following proposed preserves will require a companion application in the Development Review Officer (DRO) process after the BCC approves their designation as preserve parcels:

Proposed Preserve	Name of Preserve	DRO application	Farm Residence Letter
P10	RND Landholding	DRO-2020-1265 Southern Scapes	No
P18	Gaspar / Thomas	Pending submittal	Yes 10-3-18
P19	Twin States Landholdings	Pending submittal	no
P20	Carly Landco	Pending submittal	no

There are two companion rezoning applications to take the lands removed from preserve status and rezone them back to Agricultural Reserve (AGR) Zoning designation as follows:

1. Hyder West AGR (Z-2020-1699): 16.568 acres was P2 Hyder; and,
2. 155 Lane Rezoning (Z-2020-1700): 10.119 acres was P10 Pero

The Applicant is not seeking to increase the dwelling units with this request. In addition, the Applicant has requested to modify conditions of approval related to the added lands areas and timing of commitments.

60/40 Development Option: Per Policy 1.5.1-i. the Applicant is required to provide a minimum of 60% of preserve area and 40% maximum developable area. The Preserve areas are not required to be contiguous with the development area. The 60/40 breakdown is as follows:

Total acreage: 517.001 acres  
Less ROW: 13.200 acres  
Net acreage: 503.801 acres

Net acreage x 60%: 503.801ac x 60% = 302.281 acres (Applicant proposes 17 preserves totaling 304.090 acres or 60.36%)

Net acreage x 40%: 503.801ac x 40% = 201.520 acres (Applicant proposes 199.711 acres in the development area or 39.64%)

○ *Modification of Conditions and Release of Easements:* The exchange of AGR preservation areas will require that the Conservation Easement for P2 Hyder to be released and rerecorded, while the new preserves 18-22 will require that new AGR Conservation Easements are recorded prior to April 1, 2022 or Final approval by the Development Review Officer. The modification of existing Planning condition #8 will be necessary to address the preserve parcel amendments and additions from this request. The partial release of the AGR Conservation Easement for P2 Hyder is necessary due to the reconfiguring of the P2 Hyder Preserve.

○ *Special Overlay District / Neighborhood Plan / Planning Study Area:* The subject property is located within the boundaries of the West Boynton Area Community Plan, which is administered by the Coalition of Boynton West Residents Association (COBWRA). The subject request is not inconsistent with the neighborhood plan. The Applicant was advised to meet with the neighborhood group responsible for implementing the Neighborhood Plan. No letters in support or objection have been received as of the writing of this report.

**b. Consistency with the Code** - *The proposed use or amendment is not in conflict with any portion of this Code, and is consistent with the purpose and intent of this Code.*

The proposed amendment to the Preserve Areas of Canyon Lakes AGR-PUD complies with all applicable standards of this Code for use, layout, function, and general development characteristics. No changes are proposed for neither the Development Area nor the remaining Preserve Areas #1, #3-9 and #11-17, which were all previously found to be consistent with the Code. The amendment to swap 26.69 acres of Preserve Area out for the equal amount of land is consistent with the Code and the prior approval for the purposes of density. In addition, the overall PUD complies with Article 3.E.2.B.2, Required Performance Standards, as previously approved and built. The new Preserve Areas associated with this application meet or exceed the requirements noted in Article 3.E.2.F.3, Preserve Area, including location, access, and uses. The Applicant submitted a separate "Legal Lot of Record Analysis" for proposed Preserve Parcels #10 and #18 through #22.

Preserve Area #2 is 35.67 acres, owned by G.L. Homes of Palm Beach Associates and is encumbered by a Conservation Easement (ORB 24867 Pg. 1437). The Applicant is proposing to remove 16.57 acres from the Master Plan, and Conservation Easement, and rezone that portion in a concurrent application, Z-2020-01699, Hyder West rezoning. The remaining 19.12 acres of Preserve Area #2 will remain as Canyon Lakes AGR-PUD.

Proposed Preserve Area #9, AKD, is an 11.44-acre portion of a 17.29-acre site in the AGR Zoning district that currently supports an equestrian use. It is important to note that a 4.70-acre portion of the site was recently approved for a rezoning from the AGR to the AGR-PUD Zoning District to serve as a Preserve Area for Valencia Cove AGR-PUD (Control No. 2004-00369). There is, however, no overlap between the two areas. There is one acre reserved as the farm residence, for which the Applicant provided a Farm Residence Determination Letter from the Planning Division dated October 3, 2018.

Proposed Preserve Areas #10 through #17 are all within the AGR Tier and support either Bona-Fide Agriculture or Nurseries. Each of the properties were issued Farm Residence Letters by the Planning Director and according to the Applicant's Justification Statement, non-permitted structures and/or uses not permitted within an AGR-PUD Preserve or Conservation Area, i.e. damaged, abandoned, trailers, will be removed prior to the recordation of the Conservation Easements.

**c. Compatibility with Surrounding Uses** – *The proposed use or amendment is compatible and generally consistent with the uses and character of the land surrounding and in the vicinity of the land proposed for development.*

There are no proposed changes to neither the Preserve Areas, nor the Development Area with this amendment. The Development Area was determined to be compatible with surrounding uses with

the approval of R-2015-0011 in January of 2015, and with the Preserve Areas to be added simply being a continuation of the existing agricultural uses, as intended to be accommodated within an AGR-PUD Preserve Area, Staff's determination of compatibility remains the same.

- d. **Design Minimizes Adverse Impact** – *The design of the proposed use minimizes adverse effects, including visual impact and intensity of the proposed use on adjacent lands.*

This DOA and rezoning propose no physical changes to the Development Area or the Preserve Areas. Therefore Staff does not anticipate any adverse impact to the adjacent lands.

- e. **Design Minimizes Environmental Impact** – *The proposed use and design minimizes environmental impacts, including, but not limited to, water, air, storm water management, wildlife, vegetation, wetlands and the natural functioning of the environment.*

ENVIRONMENTAL RESOURCE MANAGEMENT COMMENTS:

VEGETATION PROTECTION: The site is existing commercial development.

WELLFIELD PROTECTION ZONE: The property is not located within a Wellfield Protection Zone.

IRRIGATION CONSERVATION CONCERNS AND SURFACE WATER: All new installations of automatic irrigation systems shall be equipped with a water sensing device that will automatically discontinue irrigation during periods of rainfall pursuant to the Water and Irrigation Conservation Ordinance No. 93 3. Any non stormwater discharge or the maintenance or use of a connection that results in a non stormwater discharge to the stormwater system is prohibited pursuant to Palm Beach County Stormwater Pollution Prevention Ordinance No. 93 15.

ENVIRONMENTAL IMPACTS: There are no significant environmental issues associated with this petition beyond compliance with ULDC requirements.

- f. **Development Patterns** – *The proposed use or amendment will result in a logical, orderly and timely development pattern.*

This determination was made previously with the approval of R-2015-0011 in January of 2015 and this DOA proposes no changes to the Development Area. Therefore, Staff's determination remains the same.

- g. **Adequate Public Facilities** – *The extent to which the proposed use complies with Art. 2. F, Concurrency.*

ENGINEERING COMMENTS: There are no proposed engineering conditions at this time.

PALM BEACH COUNTY HEALTH DEPARTMENT: This project has met the requirements of the Florida Department of Health.

FIRE PROTECTION: Staff has reviewed this application and have no comment.

SCHOOL IMPACTS: Staff has reviewed this application and have no comment.

PARKS AND RECREATION: The Parks and Recreation Department has "no comment" on the preserve parcel swap.

- h. **Changed Conditions or Circumstances** – *There are demonstrated changed conditions or circumstances that necessitate a modification.*

As mentioned above, the Applicant has purchased the development rights from the six proposed Preserve Areas, and this amendment is necessary in order to remain consistent with the approval as an AGR-PUD utilizing the 60/40 development regulations. Staff has reviewed this request and finds the justification adequate to necessitate the amendment.

**CONCLUSION:** Staff has evaluated the standards listed under Article 2.B. and determined that there is a balance between the need for change and the potential impacts generated by this change. Staff

is recommending approval of the request, subject to the recommended Conditions of Approval as indicated in Exhibits C-1 and C-2. The Zoning Division is not proposing any changes to existing conditions.
