2. Maximum density - seven (7) mobile homes per gross acre.
3. Building and Mobile Home separation:
 - (a) Minimum of ten (10) feet between mobile homes and their appurtenances and other

mobile homes and their appurtenances.

(b) A minimum of twenty (20) feet between any mobile home or appurtenance and service building or structure.

(c) A minimum of twenty (20) feet between service buildings or structures.

(d) A minimum of a twenty (20) foot setback for Mobile Home and their appurtenance from centerline of interior roads.

D. Buffer And Perimeter Shielding Regulations

1. A perimeter buffer of twenty-five (25) feet shall be required and may be included in computing density as being a part of the gross acreage but shall not be used for anything other than walkways, plantings, walls, fences or utilities. Areas used only as legal access to mobile home park shall be excluded from the gross acreage and from the buffer and shielding regulations.
2. Perimeter shielding for the purpose of safety and screening of a minimum of six (6) feet in height shall be provided by planting, walls, fences or other methods so as to create a minimum of a seventy-five (75) percent opaqueness within one (1) year .
3. In the case of planting, a minimum height of three (3) feet must be attained prior to being issued a certificate of occupancy.
4. In case the perimeter abuts publicly owned land or easements of record (except streets or roads) such as drainage canals and parks or canal

waterways, then the twenty-five (25) feet perimeter buffer shall be reduced to ten (10) feet.

E. Offstreet Parking Regulations

See Section 12

F. Conditions For Land Use Permit

See Section 14-25.

24. Recreational Unit Parks - General Requirements

When, after a review of an application and hearing thereon, the Zoning Commission finds as a fact that the proposed use is consistent with the general zoning plan and with the public interest, the following uses may be permitted in a Recreational Unit Park:

- A. Recreational Units and related or accessory uses customarily incidental to Recreational Unit Parks and subject to the Condition For Land Use Permit (See Section 14-25) including but not limited to:
1. Sewage and water treatment plants or sanitary facilities, required by the State Board of Health.
 2. Golf, swimming, tennis and country clubs and community owned and operated clubs and associations.
 3. Private docks and marinas to accommodate pleasure water craft.
 4. Non-commercial parks and recreation areas.
 5. Day nurseries, kindergartens, provided however, that a fenced area equivalent to two hundred (200) square feet for each enrolled child is established.
 6. A dwelling structure occupied by owner and/or manager of park.
 7. A commissary or service building designed and so located to serve the park residents only.

B. Building Height Regulations

No building or structure shall exceed thirty-five (35) feet in height.

C. Building and Site Area

1. Minimum site area - five (5) acres.
2. Maximum density - fifteen (15) recreational units per gross acre.

 - b. A minimum of twenty (20) feet between any recreational Unit or appurtenance and service building or structure.
 - c. A minimum of twenty (20) feet between service buildings or structures.
 - d. A minimum of a twenty (20) foot setback for Mobile Home and their appurtenance from centerline of interior roads.

D. Buffer and Perimeter Shielding Regulations

1. A perimeter buffer of twenty-five (25) feet shall be required and may be included in computing density as being a part of the gross acreage but shall not be used for anything other than walkways, plantings, walls or fences. Areas used only as legal access to Recreational Unit Park shall be excluded from the gross acreage and from the buffer and shielding regulations.
2. Perimeter shielding for the purpose of safety and screening of a minimum of six (6) feet in height shall be provided by planting, walls, fences or

other methods so as to create a minimum of seventy-five (75) percent opaqueness within one (1) year.

3. In the case of planting, a minimum height of three (3) feet must be attained prior to being issued a certificate of occupancy.
4. In case the perimeter abuts publicly owned land or easements of record (except streets or roads) such as drainage canals and parks or canal waterways, then the twenty-five (25) feet perimeter buffer shall be reduced to ten (10) feet.

E. Offstreet Parking Regulations

See Section 12.

F. Conditions For Land Use Permit

See Section 14-25.

25. Conditions For Land Use Permit

It shall be unlawful for any person, firm or corporation to construct, alter or extend any Mobile Home Park (See Section 14-23) or Recreational Unit Park (See Section 14-24) unless a valid land use permit has been issued by the Palm Beach County Planning, Zoning and Building Department for the specific construction, alteration or extension proposed within six (6) months after approval by the Palm Beach County Zoning Commission.

All applications for permit shall contain or have attached the following and shall be reviewed by the Review Committee for compliance with their respective regulations:

1. Name and address of applicant.
2. Survey and legal description of proposed development by a registered land surveyor.

3. Certification by a registered engineer that the Master Plan was designed with knowledge of information furnished by the Palm Beach County Engineering Department with reference to flood levels and construction elevations of interior roads.
4. Unity of Title, condominium or automatic property owners agreement containing covenants and including that buffer areas shall remain as buffers and used only for walkways, plantings, walls, fences and utilities.
5. Location of accessory and service buildings and recreational facilities.
6. Complete Engineering plans and specifications of the proposed park showing but not limited to the following:
 - a. Area and dimensions of tract of land.
 - b. Location and width of interior and exterior road and walkways.
 - c. Location of water and sewer lines and riser pipes as required by the State Board of Health.
 - d. Site and location of the water supply, refuse and sewage disposal facilities.
 - e. Site and location of all buildings constructed or to be constructed within the park.
 - f. Layout of the location of mobile homes or recreational units showing maximum density proposed.
7. A filing fee as set by the Board of County Commissioners.
8. Upon approval of the Master Plan by the Review Committee, a land use permit shall be issued by the Palm Beach County Planning, Zoning and Building Department and the approved plan shall remain on file in the office of the Zoning Department. No deviation from the Master Plan shall be made,

except upon approval of the Review Committee which will require re-submitting plans on the area to be modified and paying the filing fee on same.

9. In the event that the Park name and/or ownership changes, a new Land Use Permit shall be issued for a fee as set by the Board of County Commissioners providing, however, there are no other changes from the approved Master Plan
