3 Section 3 Exemptions

The following development shall be exempt from payment of respective impact fees, as applicable:

C. For the purpose of School Impact Fees, the construction of adult_only residences that meet the Fair Housing Act exemption codified at 42 U.S.C. 3607, as may be amended; provided, however, that the feepayer files a Declaration of Restrictive Covenants prepared and signed by the Impact Fee CoordinatorManager which prohibits persons 19 years of age or younger from residing in the residence for more than 60 days per calendar year. The School Impact Fee Declaration of Restrictive Covenants must be filed with the Clerk of the 15th Judicial Circuit Court. [Ord. 2005-047]

....

All applications for exemption must be approved by the Impact Fee CoordinatorManager. A final decision of the Impact Fee CoordinatorManager may be appealed pursuant to Art. 13.A.6.G, Appeal. All applications for exemption must be made in writing to the Impact Fee CoordinatorManager prior to Building Permit issuance. In the event that the feepayer wishes to obtain Building Permits prior to the Impact Fee CoordinatorManager's final approval, the feepayer may apply for the exemption and deposit the required impact fee assessment into an escrow account, pursuant to an escrow agreement in a form provided for by the Impact Fee CoordinatorManager. PBC may assess a reasonable fee not to exceed its actual cost in processing the escrow agreement to be paid by the feepayer.

Section 5 Computation of Impact Fee

A. General

At the option of the feepayer, the amount of the impact fee may be determined either by the limpact fee schedules for each impact fee component as provided for in this Article, or by an independent calculation pursuant to Art. 13.A.6, Independent Fee Calculation Study. If the amount of the impact fee for the land use is not determined in the limpact fee schedule and the feepayer opts not to conduct an independent calculation, the impact fee shall be determined by the Impact Fee Coordinator Manager as described in this Article. [Ord. 2005-047]

C. Land Uses Not Specified in Impact Fee Schedule

Except for Road Impact Fees, if the type of land development for which a Building Permit or other appropriate permit is applied, is not specified on the impact fee schedule, the Impact Fee CoordinatorManager shall use the impact fee applicable to the most nearly comparable type of land use on the fee schedule. For Road Impact Fees, the Impact Fee CoordinatorManager shall select the most comparable type of land use from the most current edition of Trip Generation, a publication of the Institute of Transportation Engineers (ITE). The Impact Fee CoordinatorManager shall follow the procedure pursuant to Art. 13.A.6, Independent Fee Calculation Study. [Ord. 2005-047]

F. Biennial Quadrennial Review

Biennially Quadrennially beginning in January 19942023, the Impact Fee Coordinator Manager shall recommend to the BCC whether any changes should be made to the fee schedules to reflect changes in the factors that affect the fee schedules. This recommendation shall be as a result of a review of the data from which the fee schedules are calculated. The purpose of this review is to evaluate the level of service for each impact fee component to determine whether it should be adjusted based on changed conditions, to analyze the effects of inflation and other cost factors on the actual costs of capital facilities, to assess any changes in credits and generation rates, and to ensure that the impact fee charged new land use activity impacting capital facilities will not exceed its *pro rata* share for the reasonably anticipated costs of capital facilities necessitated by the new land development.

A. General

If a feepayer opts not to have the impact fee determined according to the fee schedule, then the feepayer shall, at the feepayer's expense, prepare and submit to the Impact Fee CoordinatorManager an independent fee calculation study for the proposed land use. An independent fee calculation study for Road Impact Fees shall be submitted simultaneously to the Impact Fee CoordinatorManager and the County Engineer. The independent fee calculation study shall follow the methodologies used in the Impact Fee Report. The independent fee calculation study shall be conducted by a professional in impact analysis. An independent fee calculation study for Road Impact Fees shall be conducted by a professional in Road Impact Fee analysis or by a rRegistered eEngineer. The burden shall be on the feepayer to provide the Impact Fee CoordinatorManager all relevant data, analysis, and reports which would assist the Impact Fee CoordinatorManager in determining whether the impact fee should be adjusted.

B. Submission of Application

The application for an independent calculation study shall be submitted to the Impact Fee CoordinatorManager, except that an independent calculation study for Road Impact Fees shall be submitted simultaneously to the Impact Fee CoordinatorManager and the County Engineer. In the event that the feepayer wishes to obtain Building Permits prior to the Impact Fee CoordinatorManager's final approval, the feepayer may submit an application and deposit impact fees as set forth in the impact fee schedule into an escrow account, pursuant to an escrow agreement in a form provided for by the Impact Fee CoordinatorManager. A feepayer failing to submit an independent fee calculation study, or, if necessary, an executed escrow agreement to the Impact Fee CoordinatorManager prior to permit issuance is deemed to have waived the right to an impact fee adjustment based on the independent fee calculation study.

C. Contents of Application

The application shall be in a form established by the Impact Fee CoordinatorManager and made available to the public. The independent fee calculation study shall follow the methodologies used in the Impact Fee Report. A feepayer wishing to perform an independent fee calculation study for Road Impact Fees shall prepare a traffic impact analysis, which shall include, as appropriate, documentation of:

D. Determination of Sufficiency

The Impact Fee Coordinator Manager shall determine if the application is sufficient within five working days of its receipt. If the Impact Fee Coordinator Manager determines the application is not sufficient, a written notice shall be mailed to the applicant specifying the deficiencies. No further action shall be taken on the application until the deficiencies are remedied.

E. Action by Impact Fee Coordinator Manager

1. Impact Fees Other Than Roads

For other than Road Impact Fees, within ten working days after the application is determined to be sufficient, the Impact Fee CoordinatorManager shall review the application, and if the application clearly demonstrates by the methodology described in the Impact Fee Report that the proposed land will use capital facilities less than that projected in the impact fee component, the Impact Fee CoordinatorManager shall appropriately adjust the impact fee.

2. Road Impact Fees

For Road Impact Fees, within 15 working days after the application is determined to be sufficient, the County Engineer shall review the application and, if the application clearly demonstrates (using the formulae described in this Article) that the proposed land use will create fewer trips than projected in the Road Impact Fee component. The County Engineer shall make a written recommendation to the Impact Fee Coordinator Manager on adjusting the Road Impact Fee. If the Impact Fee Coordinator Manager concurs, the Impact Fee Coordinator Manager shall appropriately adjust the impact fee within five working days of receipt of the County Engineer's recommendation. [Ord. 2005-047]

3. Responsibility of Feepayer

The burden shall be on the feepayer to provide all relevant data, analysis, and reports which would assist the Impact Fee CoordinatorManager and, in the case of roads, the County Engineer in making a determination of the appropriate impact fee. The analysis and report must be based on generally accepted methods and the formulas for the specific impact fee component in the Impact Fee Report, or in the case of roads, the methods—and formulas described in this Article and below in Art. 13.H, Road Impact Fees. A feepayer wishing to provide additional information after submitting the initial independent fee calculation study must do so no later than 30 days after the date of the Impact Fee CoordinatorManager's determination of sufficiency. The Impact Fee CoordinatorManager will not accept additional information relevant to an independent fee calculation study after this deadline. If the impact fee is adjusted, the feepayer shall provide a copy of the Impact Fee Modification Certificate at the time of permit issuance. Failure to provide a copy of the certificate at the time of permit issuance shall constitute a waiver of any adjusted impact fee. [Ord. 2005-047]

4. Decision in Writing

The decision of the Impact Fee Coordinator Manager to adjust or to refuse to adjust the impact fee shall be in writing and shall be transmitted to the aApplicant by certified mail within five days of the decision. An approved adjustment shall be issued in the form of an "Impact Fee Modification Certificate" which shall include information regarding:

Any of the time limitations set forth in this paragraph may be waived upon mutual agreement of the Impact Fee CoordinatorManager and the party filing the appeal. [Ord. 2014-025]
- At the hearing, the Hearing Officer shall provide the aApplicant and the Impact Fee CoordinatorManager an opportunity to present testimony and evidence, provided such information was part of the review before the Impact Fee Coordinator Manager. 4. In-Kind Contributions

In-kind contributions made by a development to PBC shall be credited against the development's impact fees, but only to the impact fee component for which the in-kind contribution is made. For example, credits received for a park contribution may be applied only against Park Impact Fees and not against Fire-Rescue Impact Fees. Civic site dedications accepted by the County shall be eligible for a Public Buildings Impact Fee credit in the event a particular use is not identified by the County at DRO certification. No credit shall be given for in-kind contributions that are not new capital facilities or which were not made for capital facilitiesy costs. [Ord. 2008-015]

Such application must be made within six months of the effective date of a Road Impact Fee increase, or this right shall be waived. The independent calculation must be prepared by a State-FRegistered eEngineer or a professional in impact analysis and must demonstrate that the current cost of reproducing the road construction has increased and therefore the value of the in-kind contribution has correspondingly increased. Any additional credit shall not exceed the percentage of increase of the Road Impact Fee.

Part 8. ULDC Art. 13.H. Impact Fees, Road Impact Fees, Fee Schedule (pages 37 and 38, Supplement 26), is hereby amended as follows:

CHAPTER H ROAD IMPACT FEES

2 ...

Section 2 Fee Schedule

At the option of the feepayer, the amount of the impact fee may be determined by the fee schedule, established in Table 13.H.4-20, Fair Share Road Impact Fee Schedule, or by the independent calculation provided by the feepayer and approved by the Impact Fee CoordinaterManager and the County Engineer. The impact fees in the schedule have been calculated using accepted trip generation, trip length, capture/diversion, and capital road facility costs standards, and applying the appropriate credits. Land uses not listed in the fee schedule shall be as defined in the most current edition of the Institute of Transportation Engineers Trip Generation Manual. To ensure that the impact fee does not exceed the cost to provide capital facilities to accommodate new development, the impact fees in the fee schedule are established at no more than 95 percent of the cost to accommodate the impact.

Section 3 Land Uses Not Specified in Fee Schedule

If the type of land use for which a Building Permit is applied is not specified on the impact fee schedule, the Impact Fee CoordinatorManager shall select the most comparable type of land use from the most current edition of Trip Generation, a publication of The Institute of Transportation Engineers (ITE). If the Impact Fee CoordinatorManager determines that there is no comparable type of land use in the most current edition of Trip Generation, then the Impact Fee CoordinatorManager shall request a determination of the impact fee from the County Engineer, who shall use the best available traffic generation data, other trip characteristics data, costs per lane mile data, and credit data. The feepayer may challenge the County Engineer's determination through the completion of an independent fee calculation study pursuant to Art. 13.A.6, Independent Fee Calculation Study.

Section 4 Use of Road Impact Fee Funds
