Annexation/Rezoning - City of Delray Beach RE

Resolution No 108-83

The Planning Division has reviewed the above waiver request under Chapter 171 062 Florida Statutes and County Ordinance 82-26, amendment to the intergovernmental coordination element of the County's Comprehensive Plan The following comments are offered

Background Information

The City of Delray Beach has recently annexed a 2.79 acre parcel of land located at the northeast corner of the FEC Railroad and Linton Boulevard The request is now for the purpose of rezoning the land from the County's Zoning Classification IL (Light Industrial) to the City's Zoning Classification LI (Light-Industrial) District

Land Use Plan Designation and Zoning District

- The subject site is presently zoned IL (Light Industrial) by the County
- The City proposes to rezone the property to LI (Light Industrial) b)
- There is little significant difference between the County's IL Zoning District and the City's proposed LI District C)
- The County Land Use Plan identifies the subject site as having Industrial Potential "along southwest 12th Street (Linton Boulevard) wast of the Florida East Coast Railroad" (Area 20, Policy #2) d)
- The City's proposed rezoning to LI is consistent with the County's Land Use designation of Industrial Potential for the subject area

Recommendation

Since the City's proposed rezoning to LI (Light Industrial) is consistent with the County's Land Use Designation of "Industrial Potential" and the project will not have a significant impact on County systems, it is recommended that the County grant the City of Delray Beach the waiver request under Chapter 171 062 F.S
