PALM BEACH COUNTY LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB)

Minutes of July 24, 2013 Meeting

On Wednesday, June 19, 2013 the Palm Beach County Land Development Regulation Advisory Board (LDRAB), met in the Ken Rogers Hearing Room, (VC-1W-47), at 2300 North Jog Road, West Palm Beach, Florida.

A. Call to Order/Convene as LDRAB

1. Roll Call

Chair Wes Blackman called the meeting to order at 2:05 p.m. Zona Case, Code Revision Zoning Technician, called the roll.

Members Present: 14 Wesley Blackman (PBC Planning Congress) David Carpenter (District 2) Lori Vinikoor (District 5) Michael Zimmerman (District 6) Jim Knight (District 4) Gary Rayman (Fl. Surveying & Mapping Society) Joni Brinkman (League of Cities) Terrence Bailey (Florida Eng. Society) Jerome Baumoehl (AIA) Edward Tedtmann, Environmental Organization) Richard Kozell (District 1) Barbara Katz (District 3) Frank Gulisano (PBC Board of Realtors) Raymond Puzzitiello (Gold Coast Build. Assoc.)

Members Absent: 3 Henry Studstill (District 7) Leo Plevy (Member At Large/Alternate) James M. Brake (Member at Large/Alternate)

<u>Vacancies:</u> 2

(Assoc. General Contractors of America) (Condominium Association)

County Staff Present:

Leonard Berger, Assistant County Attorney Jon MacGillis, ASLA, Zoning Director William Cross, Principal Site Planner, Zoning John Rupertus, Senior Planner, Planning Bryan Davis, Principal Planner, Planning Zona Case, Zoning Technician, Zoning David Nearing, Site Planner I, Zoning

- **2.** Additions, Substitutions, and Deletions The Chair noted that there were no additions, substitutions, or deletions to the agenda.
- Motion to Adopt Agenda Motion to adopt agenda by Ms. Vinikoor, seconded by Ms. Katz. Motion passed (14 - 0).

4. Adoption of May 22, 2013 Minutes (Exhibit A) Motion to adopt minutes by Ms. Vinikoor, seconded by Ms. Katz. Motion passed (14 - 0).

B. PRIVATELY INITIATED ULDC AMENDMENTS

The Chairman briefly explained that the two applications are both Phase I of the process, and that the Board was to provide the BCC with a recommendation regarding whether the amendments deserve further consideration. If the BCC chooses to move the amendments forward, they will return at a later date for a detailed evaluation by the LDRAB.

1. Exhibit B - Phase I: Hospital or Medical Center Minimum Lot Size

Mr. Cross briefly explained that the applicant is requesting to remove the minimum five acre lot size from the Supplemental Use Regulations to permit smaller sites to be developed for hospitals and medical centers. He stated that staff was recommending moving the project forward as part of the on-going Use Regulations Project.

Mr. Carpenter indicated that one major concern for this use is access. He did not wish to see access to this project bring the noise associated with hospitals through residential areas.

Mr. Knight asked for clarification regarding the difference between a hospital and a medical center. Mr. Cross explained that they offered similar services, the major difference being that hospitals permitted overnight stays.

Mr. Tedtmann asked what the difference was between a medical center and doctors' offices. Mr. Cross explained that the medical center typically offered a more intensive service, and that it was better equipped to handle emergency situations, including ambulance transport. There was discussion of services such as helipads. Staff explained that the applicant acknowledged that the five acre minimum needed to be retained if there was to be a helipad.

Mr. Kozell questioned why there was no variance relief available to the size, rather than amend the Code to permit the use anywhere on smaller parcels. He noted that this should be available if the size issue is due to government action, such as eminent domain.

PALM BEACH COUNTY LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB)

Minutes of July 24, 2013 Meeting

Mr. Carpenter reminded the Board that care should be taken, as the use is permitted in the Institutional Future Land Use designation, which can be located anywhere, including in residential areas. Eliminating or reducing the minimum acreage could permit the use to further encroach into residential areas.

Ms. Vinikoor asked if staff would be recommending a minimum lot size. Mr. Cross noted that staff would likely be recommending reducing rather than eliminating the minimum.

Mr. Kevin McGinley of Land Research Management spoke on behalf of the applicants. He gave a brief history of the property which his clients own. At one point in time it was over five acres in size, however, after FDOT took property for adjacent right-of-way, the acreage fell to 4.96 acres.

Ms. Vinikoor asked what type of licensing was needed for the type of facility his client was seeking. It was determined that a Certificate of Need would not be needed for the use, but since the applicant wishes to have overnight stays and outpatient, it needs to be a hospital. It will require some type of State license.

Ms. Vinikoor expressed concern about the fact that many walk-in health clinics are now being opened which are affiliated with hospitals, and she did not wish to see this amendment used as a vehicle to allow such uses to be opened up all over the County. People are being billed as though they were in a hospital, not a clinic.

The Board discussed the need for moving the proposed amendment forward ahead of the Use Regulations project, versus combining the proposal into the project. If it were to move forward, there would need to be a minimum lot size, and some reevaluation of the current definition.

Motion by Mr. Bailey to recommend that the proposed amendment not move forward ahead of the Use Regulation Project, seconded by Mr. Gulisano. A discussion on the motion followed:

Ms. Katz indicated that the definition is at issue, as well as the minimum lot size.

Mr. Rayman did not believe the minimum lot size should be looked at, but the issue of properties rendered non-conforming by government action should be addressed.

Ms. Brinkman noted that we do need to look at industry trends with respect to lot size. The issue will come up again.

Mr. Gulisano indicated that he wanted the proposal to go through the Use Regulations Project because he wanted some serious consideration given to what is an appropriate lot size rather than picking some arbitrary size.

Mr. Kozell agreed with the comments, however, he felt that it was the Board's obligation to facilitate the applicant and staff to start working together sooner than later.

Ms. Brinkman asked if there was a time constraint. Mr. McGinley indicated that there was.

Ms. Brinkman asked if Mr. Bailey would amend the motion to allow the amendment to move forward with the next round of amendments. Mr. Bailey indicated that he would not, due to the impacts evaluating a use for one parcel will have on staff resources. The intent of the motion was discussed. The Chairman called for a roll call vote.

Yes	No
Mr. Bailey	Chairman Blackman
Mr. Baumoehl	Vice Chair Carpenter
Mr. Tedtmann	Mr. Puzzitiello
Mr. Gulisano	Ms. Brinkman
Ms. Katz	Mr. Rayman
Ms. Vinikoor	Mr. Kozell
	Mr. Knight
	Mr. Zimmerman

PALM BEACH COUNTY LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB)

Minutes of July 24, 2013 Meeting

The motion failed 6 to 8.

The Chairman asked for an alternate motion. Ms. Brinkman motioned to support moving the amendment forward in the next round of amendments, seconded by Mr. Puzzitiello.

The Chairman asked for roll call vote:

Yes	No
Chairman Blackman	Mr. Bailey
Vice Chair Carpenter	Mr. Baumoehl
Mr. Puzzitiello	
Ms. Brinkman	
Mr. Tedtmann	
Mr. Gulisano	
Mr. Rayman	
Mr. Kozell	
Ms. Katz	
Mr. Knight	
Ms. Vinikoor	
Mr. Zimmerman	

The motion passed (12 - 2).

2. Exhibit C - Phase I: Allow Commercial Communication Towers in PUD Recreation Pods.

Mr. Cross explained the purpose for the amendment was to permit the siting of cellular communication towers in the Recreation Pod of a Planned Unit Development (PUD). He explained the various types of towers regulated by the ULDC and where they are permitted. He explained that there would be need for additional justification provided by the applicant for the Phase II review of this application, should it move forward. Additional discussion regarding where the towers could go would also be required.

Ms. Lauralee Westine, Law Office of Lauralee G. Westine, P.A., addressed the Board on behalf of her client. Her client is a cell tower developer, not a service provider, who has negotiated locating a tower in the Rec. Pod of the Boca West Country Club PUD.

The Board asked whether the size of Rec. Pods is determined by the area of the project? Staff explained that the minimum size required is based on the number of units in the overall project. It was noted that current Code permits cell towers on Civic Pods of PUDs.

Ms. Westine noted that the application does not propose any changes to types of towers, setbacks, heights, etc. Her client is actually looking for shorter towers.

Ms. Westine noted that due to contractual obligations, her client needs to move forward with this amendment, and therefore she is asking for the Board's support to move the amendment forward with the next round of the amendments. She is willing to cooperate to craft the amendment to address the County's concerns.

Mr. Baumoehl indicated that he would like to see aesthetics addressed.

Ms. Brinkman motioned to recommend the BCC move this amendment forward with the next round of amendments, seconded by Vice Chair Carpenter. The motion passed unanimously (14-0).

C. PUBLIC COMMENTS

There were no public comments.

D. LDRAB SUBCOMMITTEE UPDATES

- 1. Use Regulations Project
 - Mr. Cross noted that Sub-Committee meetings have been scheduled for August 13th and 20th for Industrial uses. Mr. MacGillis noted that the Code updates are also moving forward.

PALM BEACH COUNTY LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB)

Minutes of July 24, 2013 Meeting

Staff will be briefing the BCC on the next round of the ULDC amendments (2013-02) in September.

E. STAFF COMMENTS

Staff had no additional comments.

F. ADJOURN

The Land Development Regulation Advisory Board meeting adjourned at 3:30 p.m.

Recordings of all LDRAB meeting are kept on file in the Palm Beach County Zoning/Code Revision office and can be requested by contacting the Code Revision Section at (561) 233-5213.

- No permit approval shall be issued unless the application demonstrates that the project:
- 1. Will not result in a net loss of wetland functions and values;
- Complies with water quality rules and standards set forth in Chapter 62 302, F.A.C.; 2.
- Will not adversely affect the conservation of fish or wildlife or their habitats, or adversely 3. affect recreational fisheries or their habitats;
- 4. Will not adversely impact endangered or threatened species, and species of special concern, or their habitat:
- 5. Incorporates into the design alternatives and modifications to avoid or minimize impacts to native vegetation; and
- 6. Complies with any applicable federal, state or local designated preserve, conservation or mitigation area.

Part 5 ULDC Art. 14.C.8, Exemptions [Related to Vegetation Preservation and Protection 22 approvals] (page 38 – 40 of 52), is hereby amended as follows: 23

Reason for amendments: [ERM] This amendment is intended to clarify the exemption application to stand alone agricultural parcels as opposed to larger scale agricultural operations comprised of co-joined parcels with gross acreage greater than 10 acres.

CHAPTER C VEGETATION PRESERVATION AND PROTECTION 24

25 Section 8 Exemptions

26 The following activities do not require an approval under this Chapter: [Ord. 2008-040]

A. Botanical Gardens, Botanical Research Centers, Licensed Commercial Nurseries, or Bonafide Agricultural Operations

Vegetation alteration associated with subsequent harvesting activities, except within preserve areas or vegetated buffers, that are part of the on going activities of the existing operation, the harvesting or alteration of vegetation previously planted and cultivated for production as part of an ongoing botanical garden, botanical research center, nursery or bona fide agricultural operation is an exempt activity. Initial clearing of a parcel is an exempt activity on parcels less than 10 acres, providing that the level of clearing does not exceed the area for crop production. After an initial clearing performed in accordance with this Chapter, the following are exempt if part of the ongoing activities of an existing operation: vegetation alteration associated with subsequent harvesting activities and harvesting or alteration of vegetation previously planted and cultivated for production as part of a botanical garden, botanical research center, nursery or agricultural operation. This exemption does not allow for the removal of vegetation within preserve areas or vegetated buffers. [Ord. 2012-027]

P. Initial Clearing of Agricultural Operations Less Than 10 Acres

Initial clearing of an agricultural operation less than 10 acres is exempt, provided that the level of clearing does not exceed the area for crop production.

PROHIBITED SUMMARY OF AMENDMENTS (Updated 10/04/13)

Part 1. ULDC Art. 1.C.1.A.2.p, Prohibited [Related to Rules of Construction, particularly Interpretation and Application] (page 7 of 119), is hereby amended as follows:

Reason for amendments: [Zoning] Clarify that when the term "prohibited" is utilized in the Code, it precludes eligibility for Variance relief for regulation that contains it or it is applied to.

5 CHAPTER C RULES OF CONSTRUCTION AND MEASUREMENT

6 Section 1 Rules of Construction

The rules set out in this Section shall be used to enforce and apply this code, unless such rules are inconsistent with the Plan. References to Florida Statutes (F.S.) and the Florida Administrative Code (F.A.C.) refer to citations published in 2003 as may be amended.

- 2. Interpretation and Application
 - p. Prohibited <u>Shall mean nNot allowed and precludes variance relief.</u> [Ord. 2010-022]

Part 2. ULDC Art. 1.I.2, Definitions (page 111 of 119), is hereby amended as follows:

Reason for amendments: [Zoning] 1) Clarify that eligibility to apply for variance is limited to some provisions of the Code; and, 2) Delete the term "use" as variances are not applicable to uses.

17 CHAPTER I DEFINITIONS & ACRONYMS

18 Section 2 Definitions

V. Terms defined herein or referenced Article shall have the following meanings:

- 6. Variance
 - a. An abatement of the terms of certain regulations in the ULDC for a use, where such variance will not be contrary to the public interest and where, owing to conditions peculiar to the property and not the result of the actions of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

Part 3. ULDC Art. 2.A.1.D.1, Processes [Related to Authority and Processes] (pages 11 and 12 of 88), is hereby amended as follows:

Reason for amendments: [Zoning] Clarify for consistency with expanded definition of the term prohibited that when a specific ULDC regulation contains the term "prohibited", the Zoning Commission or Zoning Director shall not consider such regulation for variances relief.

31 CHAPTER A GENERAL

- 32 Section 1 Applicability
 - D. Authority
 - 1. Processes

b. Zoning Commission (ZC)

The ZC shall consider the following types of development order applications:

5) The ZC is not authorized to grant variances from <u>Code regulations with prohibited</u> <u>provisions, or</u> the following Articles of the ULDC: **[Ord. 2006-036] [Ord. 2011-001]**

d. Zoning Director

....

- The Zoning Director, in accordance with the procedures, standards and limitations of this Article, shall approve, approve with conditions, withdraw, deny or revoke the following types of development order applications: **[Ord. 2006-036]**
- 3) Administrative Variances (Type IA and Type IB) except when Code regulations include prohibited provisions; [Ord. 2006-036]

EXHIBIT E HEIGHT EXCEPTIONS

SUMMARY OF AMENDMENTS (Updated 10/17/13)

Part 1. ULDC Art. 3.D.1.E.4, Height Exceptions [Related to Property Development Regulations (PDR)] (page 129 of 229), is hereby amended as follows:

Reason for amendments: [Zoning] 1) Delete scrivener's error for title referencing height exceptions applicable to uses when the list only applies to structures; 2) Clarify that height exception applies to rooftop structures constructed on top of an elevator or a stairwell that provides access to the roof of a building for the purpose of the functioning of the structure, such as access to mechanical equipment or reroofing, and not to extend occupancy; and, 3) Clarify height exception for parapet utilized to screen mechanical equipment by indicating that it applies only to the required parapet height that is equal to the highest point of the equipment that is screened. This amendment looks to avoid installation of large parapet for other purposes other than screening such as signage and still be subject to the height exception.

5 CHAPTER D PROPERTY DEVELOPMENT REGULATIONS (PDRS)

6 Section 1 PDRs for Standard Zoning Districts

E. Building Height

- 4. Height Exceptions
 - The following structures shall be exempt from the height restrictions in this Section, unless otherwise stated:
 - a. Uses Exempted from Height Restrictions
 - Church spires, religious domes, and religious ornamentation attached to a place of worship;

[Renumber Accordingly]

- I.11) Elevator bulkhead Structure built over the top of a stairwell or elevator shaft providing access to the rooftop for maintenance purposes or to house elevator mechanical equipment;
- v.21)Required Pparapet screening of mechanical equipment-; and,
- w.22)Mechanical equipment, less than five feet in height and any required screening, measured from the roof deck. [Ord. 2006-004]

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

- 1 Part 1. New ULDC Art. 4.B.5, Industrial Uses, is hereby established as follows:
- 2 CHAPTER B USE CLASSIFICATION
- 3 Section 5 Industrial Uses

A. Industrial Use Matrix

Reason for amendments: [Zoning] Consolidates all zoning districts into one Use Matrix to improve ease of use and better delineate differences in approval processes for Standard, PDD or TDD districts. Tables consolidated are as follows: Table 3.B.15.F, IRO Permitted Use Schedule; Table 3.B.16.E, PRA Use Matrix; Table 3.E.1.B, PDD Use Matrix; Table 3.F.1.F, TDD Use Schedule; and, Table 4.A.3.A, Use Matrix.

16 17

18

19

20

4 5

Use Matrix has been provided as a separate handout for ease of use.

B. <u>General Industrial Standards</u> <u>Reserved for future use.</u>

C. Definitions and Supplementary Use Standards for Specific Uses

13. Asphalt or Concrete Plant

An establishment engaged in the manufacture, mixing or batching of asphalt, asphaltic cement, cement or concrete products.

Reason for amendments: [Zoning] Asphalt and Concrete Plant is being consolidated with Heavy Industry, due to similar characteristics such as:

- Nuisances such as appearance, dust and odor, and noise;
- Uses are land intensive requiring room for storage of aggregate and materials, heavy equipment,
- need for maneuvering area for delivery vehicles; and,
- The Comprehensive Plan deems the two uses as similar.

42

43 44

1 35. Contractor Storage Yard

Reason for amendments: [Zoning]

- 1. Delete requirement limiting minimum number of commercial vehicles allowed and to consolidate language describing construction and mechanical equipment within the definition. Research of other municipal ordinances and the American Planning Association (APA) does not support a limitation of the number of vehicles;
- 2. Delete the Accessory Office requirement as it is addressed by Article 5.B.1.A, Accessory Uses and Structures; and,
- 3. Relocate and consolidate screening requirements for outdoor storage, Flex Space, and Barbed Wire in Article 5.B, Accessory and Temporary Uses.

a. Definition

A lot used for the <u>The</u> storage of construction material, <u>mechanical</u> equipment <u>used in</u> <u>construction activity</u>, or three or more commercial vehicles used by building trades and services, other than construction sites. **[Ord. 2005-002]**

- . Construction Equipment
- Mechanical equipment principally used in construction activity. Such equipment shall include but is not limited to bobcats, front-end loaders, over-head cranes, graders, dump trucks, compactors, forklift, steam rollers, earth movers, bulldozer, backhoe, concrete mixer, trenchers, cable/pipe layers or any such equipment that is not a street worthy vehicle.

o. Office Permitted

An accessory office shall be permitted subject to Article 5.B, ACCESSORY AND TEMPORARY USES.

c. Screening

Outdoor storage shall be screened from view in accordance with Article 5.B, ACCESSORY AND TEMPORARY USES. For a storage yard contiguous to property in a residential district, an opaque fence/wall a minimum of eight feet in height shall be installed along the inside edge of the required landscape buffer.

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

This use shall be allowed as a flex space component pursuant to the applicable approval

9

10 11 12

13 14

15 16

17

18

19

20

21 22

23 24

25

26

27 28 Flex Space

process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005] Barbed Wire Barbed wire may be installed pursuant to Art. 5.B.1.A.2.c, Dangerous Materials, except when located adjacent to a parcel having a residential FLU designation or use. Barbed wire shall not be visible from any public street. [Ord. 2011-001] Reason for amendments to Contractor Storage Yard in the Use Matrix: [Zoning] This use was previously classified under the "Commercial Uses" category; however, the use was not permitted in any commercial districts, only industrial districts. The use has been added as a Development Review Officer (DRO) approval to the Multiple Use 2. Planned Development (MUPD) with an Economic Development Center (EDC) Future Land Use (FLU) designation. This is consistent with the FLU Element of the Plan which states that light industrial uses are consistent with EDC FLU designation. The Industrial category is primarily utilized by light, medium and heavy industrial uses and related services. The EDC is intended to be an employment generator. Although a Contractor Storage Yard may not always be the prototypical employment generator, it would contribute to new industrial development. **Data and Information Processing** 2 38. Reason for amendments: [Zoning] Updated Data and Information Processing use definition for a more specific and consistent terminology used in today's market; and to relocate reference to "Flex Space", which will be addressed in Article 5 of the ULDC. The proposed definition indicates that this use is commonly collocated with other uses in the Industrial Use Classification, such as manufacturing, and is commonly found in planned industrial campus style complexes. The revisions are based on an evaluation of definitions used by other municipalities locally, in the state, and nationally, as well as adapting language from such sources as North America Industry Classification System (NAICS) and APA. Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses. 2 **Definition** <u>a.</u> The use of a An establishment for business offices, including corporate offices, which may be associated with uses such as: manufacturing and processing plants or similar industrial complexes; mass/bulk mail processing; and telemarketing centers. The use is often integrated into a campus style development, and This use is not frequented by the general public. This term does not include such uses as: Business or Professional Offices; computer-related General Retail Sales establishments; and Personal Services and Medical or Dental Offices. Flex Space This use shall be allowed as a flex space component pursuant to the applicable approval process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005] Reason for amendments to Transportation Facility in the Use Matrix: [Zoning] Due to the high number of employees typically employed by this use, it generates high trip counts and is not a neighborhood oriented use. Therefore this use is proposed for deletion from the followina: Commercial Low-Office (CLO) and Community Commercial (CC) Zoning Districts; Infill Redevelopment Overlay (IRO) Zoning District with a Commercial Low (CL) and CLO FLU designation; MUPD with a CL FLU designation; and, Lifestyle Commercial Center (LCC) Zoning District with a CL FLU designation. Add as Permitted Use to MUPD with an EDC FLU designation. This zoning district requires approval 2. of a Preliminary Site Plan by the Board of County Commissioners (BCC), at which time related impacts such as location, access, and orientation should be addressed.

29 30 31

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

1 2 3	<u>3</u> 13. Transportation <u>Distribution</u> Facility
	 Reason for amendments to Transportation Facility in the Use Matrix: [Zoning] Since 1992, Transportation Facility has regulated the movement of people and goods in certain zoning districts in the ULDC. Research concludes that the moving of people and goods are not similar in terms of overall operation and impact. The moving of people is consistent with public or civic uses (bus stops, train station) while goods are consistent with an industrial use (railroad depots, truck terminals). The proposed amendment will split Transportation Facility into two uses, Transportation Facility and Distribution Facility, to clarify the distinction between the moving of people and goods. Transportation Facility, the movement of people, will be established and located to a more appropriate use classification, Public and Civic Uses. Distribution Facility, the movement of goods, will be retained consistent with the industrial nature of the use. To revise the definition to: a) clarify Distribution Facility is not people related; and, b) adds language to replace transfer of transportation standard. The revisions are based on an evaluation of definitions used by other municipalities locally, in the state, and nationally, as well as adapting language from such sources as NAICS and APA.
4 5 6 7 8 9	 <u>Definition</u> An establishment facility for the loading, unloading, and interchange of passengers, baggage, and freight or package express between modes of transportation. Typical uses include bus truck terminals, railroad stations depots and yards (including temporary storage), and major mail-processing centers.
10 11 12 13 14 15 16 17 18	 a. Transportation Transfer Facility (distribution) An establishment providing for the transfer of transportation or other motorized vehicles, but not involving vehicle sales or rental (retail or wholesale). Typical uses include the transfer of automobiles, trucks, heavy equipment, or other motorized vehicles prior to distribution to retail dealers. 1) Permitted only in districts with an industrial zoning designation. The facility shall be subject to the same approval requirements indicated in the use matrix as a transportation facility except for commercial districts.
	 Reason for amendments to Transportation Facility in the Use Matrix: [Zoning] Based on the reasons stated above, this use is being deleted from the following commercial districts: General Commercial (CG); Urban Redevelopment Area Overlay (URAO) Urban Center 1 (UC1); and, Urban Infill 1 (UI1) Transect Sub-Zones. Distribution Facility is generally considered a light or general industrial use therefore inappropriate for lesser types of designations such as commercial districts. The deletions are consistent with the proposed separation of Transportation Facility (which would be allowed in these districts) and
	 Distribution Facility. Distribution Facility is a potentially intense industrial use (e.g., a railroad depot) and should not be in these districts regardless of mitigation options. The approval process has also been deleted in the Institutional Public Facilities (IPF) Zoning District for consistency. The use has been added as Permitted to a MUPD with an Industrial (IND) FLU designation or an EDC FLU designation. This is consistent with the FLU Element of the Plan which states that light industrial uses are consistent with EDC FLU designation. The Industrial category is primarily utilized
19	by light, medium and heavy industrial uses and related services.
20 21 22 23	4.61 Gas and Fuel, Wholesale
	Reason for amendments to Gas and Fuel Wholesale in the Use Matrix: [Zoning]
	 Update definition to reflect changes in technology and practices of the petroleum industry. The proposed definition focuses on the function of the use as opposed to the storage volumes. Remove the standard regarding locating the use in the Airport Zoning Overlay (AZO) from the definition, making it a standalone criteria. Criteria such as performance standards are not normally
	 contained in definitions for uses, but listed as specific performance standards; 3. Add criteria to prevent the use from being located within the five-mile long runway use restriction zone for airports, to prevent any unfortunate mishaps in the event of emergency or short landings; and,
24	 To require input from County fire officials in determining safe separation distances between the use and all adjacent uses in the event of an accidental leak or explosion.
24 25 26 27	The use of land for bulk storage and wholesale distribution of 2,500 gallons or more of flammable liquid, or 2,000 gallons water capacity or more of flammable gas, excluding below-ground storage which is clearly accessory to the principal use on the site. Wholesale of gas

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

1		an	d fuel shall be permitted in the AZO Overlay as an airport-related use only when
2			sociated with sales of aviation fuel. [Ord. 2006-036] [Relocated to b, below]
3			Definition
4			An establishment engaged in the storage of gas and fuels for wholesale distribution, to
5			businesses.
6		b.	Airport Zoning Overlay
7		<u></u>	Wholesale of gas and fuel shall be permitted in the AZO Overlay as an airport-related use
8			only when associated with sales of aviation fuel.
9		C	Location
10		<u>.</u>	This use shall not be located within any Prohibited Land Use Area/Five Mile Runway
11			Buffer Zone.
12		Ь	Separation Distance
13		<u>u.</u>	A separation distance shall be established between this use and any adjacent uses. The
14			separation distance shall be that prescribed by PBC Fire Rescue Department based
15			upon recognized standards and guidelines,
16			apor recognized standards and galdelines,
	Re	ason for an	nendments to Gas and Fuel Wholesale in the Use Matrix: [Zoning]
			strial (IND/L) Pod of a Planned Industrial Park Development (PIPD): add the use as a Class
	••		nal Use for consistency with Light Industrial (IL) Zoning District.
	2.		the approval process from a Class B Conditional Use in the General Industrial (IG) Zoning
	۷.		a DRO approval process. The IG Zoning District is a much more intense zoning district
			a broader array of heavier industrial uses. Since the subject use is storage only, as
			the processing of raw product, the level of volatility is reduced, and therefore, no public
			needed. A DRO review will ensure specific design criteria, such as separation distances
			are being properly complied with, as well as proper placement of landscaping, access, and
	~		to ensure public safety issues are being addressed.
	3.		e use in the Public Ownership (PO) Zoning District from Permitted to a DRO approval
			or the reasons noted above in 2. This will primarily impact publicly owned lands and
			hich should be treated in the same fashion as privately owned establishments.
	4.		e the review process to a DRO in the General Industrial (IND/G) Pod of a PIPD. This will
			ent with the treatment of the use in the IG Zoning District. While the PIPD goes through the
			pproval of a Master Plan, due to the potential volatility of the use, requiring the DRO
			specially if the use is being added after the Master Plan is approved, will ensure that any
		conditions	of Master Plan approval are implemented as well as the design issues discussed in 2
		above.	
17			

21

22 23

24

25 26

27 28

29

30 31

32

33

34 35

36

37

5 69. Heavy Industry

Reason for amendments: [Zoning]

- Consolidate asphalt or concrete plant in the list of typical heavy industry uses, as this use is a good example of the type of impacts and traffic found in other heavier uses, including fumes and odors, heavy trucks and equipment, and loud noises. This use includes a very broad range of uses from manufacturing large machinery to concrete and asphalt plants.
- 2. Delete firework sales, as it is not generally desirable to attract the general population to areas with high volumes of industrially oriented traffic, such as large trucks, and heavy equipment.

a. Definition

An establishment engaged in the basic processing and manufacturing of materials or products predominately from extracted or raw materials, or a use engaged in storage of, or manufacturing processes utilizing flammable, hazardous, or explosive materials, or processes which potentially involve hazardous or commonly recognized offensive conditions. Typical uses include <u>asphalt or concrete plant</u>; manufacturing and warehousing of chemicals, dry ice, fertilizers, fireworks and explosives; pulp and paper products; radioactive materials; fat rendering plants; slaughterhouses and tanneries; and, steel works.

ba. Fireworks

The retail sale of fireworks from a permanent fireworks storage facility or establishment shall be limited to an accessory use.

c. EDC FLU

Heavy Industry shall be prohibited in the EDC FLU designation.

Notes:

ARTICLE 4.B. USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

1

6

7 8

9

10

Reason for amendments to Heavy Industry in the Use Matrix: [Zoning] Change from Permitted to DRO approval process in the IND/G Pod of a PIPD for consistency with the approval process in IG Zoning District. DRO review ensures that any incompatibility issues are identified and made compliant with the requirements of the ULDC. This use involves large volumes of heavy vehicles, like semis and trailers, for delivery and distribution, which requires a higher level of scrutiny.

6 80. Machine or Welding Shop

Reason for amendments: [Zoning] To broaden the definition to include tool and die fabrication, which is typically associated with welding and machine shops.

> A workshop where machines, machine parts, or other metal products are fabricated. Typical uses include machine shops, welding shops, tool and die fabrication, and sheet metal shops.

Reason for amendments to Machine or Welding Shop in the Use Matrix: [Zoning]

To include Machine and Welding Shop as a Permitted in MUPD with an EDC FLU designation. This is consistent with the language in the Plan which states that a use which is suitable to be a Permitted in the IL Zoning District is also consistent with the characteristics of those uses permitted in the EDC FLU designation.

15

<u>7</u>81. **Manufacturing and Processing**

- Reason for amendments: [Zoning]:
- To revise the definition of Manufacturing and Processing to clarify that food processing does not include slaughterhouses and meat packing plants. Those uses involve the processing from raw materials (animals) which would classify them as Heavy Industrial. Wholesale butchers and similar uses are covered under Commercial Uses;
- 2. To relocate and consolidate supplementary use standards regarding outdoor activity, which will be addressed in Art. 5; and,
- Delete provisions for Outdoor Activities, to coincide with deletion of use from MUPD Commercial 3. districts.

	4.	Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses.	
16			
17		a. <u>Definition</u>	
18		An establishment engaged in the manufacture, predominantly from previously prepare	red
19		materials, of finished products or parts, including processing, fabrication, assemi	
20		treatment and packaging of such products., and This use also includes incider	
21		storage, sales and distribution of such products, but excluding excludes heavy indust	
22		processing. Typical uses include factories, large-scale production, wholesale distributi	
23		publishing, and food processing (excluding livestock and poultry slaughterhouses a	and
24		meat packing plants).	
25		a. Manufacturing	
26		Manufacturing and processing shall only be allowed as a requested use in a MUPD v	vith
27		EDC or MLU land use.	
28		1) Exception	
29		Manufacturing and processing shall be allowed as a permitted use in a MUPD with I	ND
30		land use.	
31		b. Outdoor Activities	
32		Outdoor manufacturing, processing or storage shall be limited to industrial zoning distri	cts
33		only.	
34		c. Flex Space	
35		This use shall be allowed as a flex space component pursuant to the applicable appro	
36		process indicated in Table 3.E.1.B – PDD Use Matrix, Table 4.A.3.A – Use Matrix, a	ana
37		pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005]	
38	De	conferementments to Manufacturing and Dressesing in the Lies Matrix [Zaping]	
	1.	son for amendments to Manufacturing and Processing in the Use Matrix: [Zoning] To delete Manufacturing and Processing from MUPD with CL, Commercial High (CH), CI	\circ
	1.	Commercial High-Office (CHO), and Commercial Recreation (CR) FLU designations, as this is	
		industrial use which is not consistent with these commercial FLU designations.	all
	2.	Add as Permitted in MUPD with an EDC FLU designation. This use is currently Permitted in the	2 11
	۷.	Aud as remitted in Mor D with an EDC r EO designation. This use is currently remitted in the	

Zoning District, which is intended for less noxious cleaner, lighter industrial uses. These types of uses are also consistent with the uses identified by the Plan for the EDC FLU designation.

6 7

8

9

10

11

12

13

14 15

8 84. Medical or Dental Laboratory

Reason for amendments: [Zoning]

- 1. Revise definition to ensure that other medical equipment, such as prosthetic, dental, optical and orthopedic, are included;
- 2. Revise definition to clarify in more detail the laboratory portion of the use; and,
- 3. Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses.

An establishment facility for the construction or repair of medical equipment, such as dental, optical, orthopedic, or prosthetic devices; or medical testing laboratories primarily engaged in providing analytic or diagnostic services exclusively on the written work order of a licensed member of the dental or medical profession and not for the public.

- a. Flex Space
 - This use shall be allowed as a flex space component pursuant to the applicable approval process indicated in Table 3.E.1.B PDD Use Matrix, Table 4.A.3.A Use Matrix, and pursuant to Article 5.B.1.C, Flex Space. **[Ord. 2010-005]**

Reason for amendments to Medical or Dental Laboratory in the Use Matrix: [Zoning]

- 1. Change the approval process from Class B Conditional Use to DRO approval process in CHO Zoning District. This use is typically confined to a wholly enclosed operation, is not a high traffic volume generator or attractor, does not generate noxious fumes, smoke or other common nuisances, and does not entail outdoor storage. A clear distinction needs to be made between the industrial nature of the use and the commercial nature of the use (e.g., lens grinding and fitment into eyeglass frames). This can be fulfilled by the DRO review. The establishment of the Urban Redevelopment Area Overlay (URAO) (2010) and Infill Redevelopment Overlay (IRO) (2010) allowed this use as a DRO approval.
- Amend to allow this Use as Permitted in the IG Zoning District; MUPD with an EDC FLU designation; and, IND/G Pod of a PIPD. Medical or Dental Laboratory is considered an industrial use. The recommendations for these districts are to be consistent with the intent of the use in industrial FLU designations and Pods.

38

<u>9</u> 54. Film Multi-Media Production Studio

Reason for amendments: [Zoning]

- 1. Rename Film Production Studio to Multi-Media Production to:
 - a) Reflect changes in the industry engaged in the production and distribution of information and cultural products; and,
 - b) Clarify types of uses that may be included such as motion picture film laboratories, Computer Generated Imagery (CGI) and special effects, etc.
- 2. To clarify that outdoor Multi-Media Production establishments related to the development and production of CGI and special effects are not permitted in commercial districts and pods.

a. Definition

The use of a lot or building for the production of films or videotapes for exhibition or sale. such as digital, audio and motion pictures; or film laboratories, stock footage film libraries, mass video publication and other related activities.

a. CHO, CG and LCC Districts

Outdoor activities shall be located a minimum of 300 feet from a residential district. [Ord. 2010-005]

b. Film Permit

A film permit shall be issued by the Director of the Film Liaison Office. The duration of the permit shall not exceed 24 months without approval of the Zoning Director. This permit may be issued in all districts. **[Ord. 2007-001]**

c. Zoning Districts

Indoor Multi-Media Production establishments shall be permitted in Urban Infill (UI), Urban Center (UC) and commercial zoning districts and pods only.

<u>d</u>e. LCC

Film production studios shall not be located on a main street. [Ord. 2010-005]

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

1

Reason for amendments to Film Production Studio in the Use Matrix: [Zoning]

- 1. Add Permitted approval process in a MUPD with an EDC FLU designation. FLU Element of the Comprehensive Plan, under FLU Atlas Regulation (III.C.4), Industrial Uses, indicates that the EDC designation is intended for uses with "Light Industrial" attributes with the addition of office uses. The EDC FLU designation shall be primarily utilized by office and research parks. The use is consistent with the Comprehensive Plan FLU Element.
- 2. Change Commercial Recreation (CRE) Zoning District and MUPD with CR FLU designation approval process from BCC to DRO. FLU Element of the Comprehensive Plan, under FLU Atlas Regulation (III.C.3), Commercial Recreation, addresses major public and private commercial recreation facilities that meet a portion of the recreational needs of residents and tourists. The change would allow flexibility for a recreation use, such as Lion Country Safari, to incorporate the possible collocation of a multi-media production use as part of its business model or to allow it in the facility
- 3. Change Lifestyle Commercial Center (LCC) with CH FLU designation approval process from Permitted to DRO. This change is made to reflect consistency of commercial districts as requiring DRO approval due to the potential nature of this use being more consistent with light industrial. The change will also address the potential for adverse impacts where permitted in a LCC, by requiring DRO approval in combination with proposed Supplemental Standards establishing limitations on this use when located in Commercial districts.

26

27

28

29

Part 2. ULDC Article 1.I.2, Definitions (page 50 of 119), is hereby amended as follows:

Reason for amendments: [Zoning] Introduce a new definition for "Construction and Demolition Debris" to better clarify what specific materials can be received in a Recycling Plant. According to the PBC Solid Waste Management Plan, mixing of Construction and Demolition Debris with other types of solid waste will classify the waste as something else. This definition is consistent with State Statute 403.703, Environmental Control, the Department of Environmental Protection Solid Waste Facilities Chapter 62-701 and the Integrated Solid Waste Management Plan of the Palm Beach County Solid Waste Authority.

7 CHAPTER I DEFINITIONS & ACRONYMS

8 Section 2 Definitions

- C. Terms defined herein or referenced Article shall have the following meanings:
 - 92. Construction and Demolition Debris for the purposes of Article 4.B.5.C.10, Recycling Plant means discarded solid materials that are not water soluble and not hazardous, including, but not limited to: steel, glass, brick, concrete, asphalt roofing material, pipe, gypsum wallboard, lumber. It also includes rocks and soils from construction, renovation or demolition of a structure or a site; and, trees or vegetative material from land clearing.
 - [Renumber Accordingly]

Part 1, Continued

Part 1. New ULDC Art. 4.B.5, Industrial Uses, is hereby established as follows:

Reason for amendments: [Zoning]

- Revise definition of Recycling Plant to create consistency with terminology identified in the definition of "Recovered Materials Processing Facility" used by the North America Industrial Classification System (NAICS); the Department of Environmental Protection (DEP); State Statute 403.703 Definitions for Resource Recovery and Management; and, Florida Administrative Code (F.A.C.) Chapter 62-701, Solid Waste Management Facilities which includes "recover" and "reuse" of sorted material;
- 2. Include a list of specific materials to be recycled in order to be consistent with and comply with State Statute 403-706(2)(g), that requires local governments to be responsible to promote recycling of plastic, metal, all grades of paper and rubber which includes tires; and,
- 3. Remove Chipping and Mulching from the use definition as it is a use defined in the Code therefore a principal use that may be collocated with Recycling Plant where permitted.

10 105. Recycling Plant

a. <u>Definition</u> <u>A permanent facility designed and An establishment</u> used for <u>the recovery receiving</u>, <u>separating</u>, <u>storing</u>, <u>converting</u>, <u>baling or processing</u> of non-hazardous recyclable materials that are not intended for disposal <u>to be collected</u>, <u>separated and sorted</u>, for <u>reuse</u>. <u>The use may include</u> <u>Recyclable materials include</u> <u>Ceonstruction and Demolition</u> <u>D</u>debris, recycling or other intensive recycling processes such as chipping and mulching. plastic, glass, metal, all grades of paper, textiles or rubber.</u>

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

	Rea	son for a	mendn	nents: [Zoning]
	1.	Standar	ds for S	Screening and Buffering are relocated and consolidated with Article 5.B, Accessory
		and Ten		
	2.	Provide	an exe	ception for Recycling Plant to be DRO approval when surrounded by IND FLU d separated 500' from residential, recreation, civic or conservation FLU or uses, or
		where a	ll activit	ies take place in an enclosed building.
	3.	an IND	FLU de	backs to allow application of district setback when a site shares the property line with esignation, or Industrial Zoning District parcel with industrial use on it and keeping ment of 50 feet setback when other zoning districts are adjacent.
	4.	Delete	Recyclir	ng Plant distance requirement of 150 feet from civic and residential uses as the
	5.			on of 50 feet from property line should satisfy any impacts caused by the use. nt setback standard for IG and IL Zoning Districts addressed by the 50 foot setback.
2			_	
3		a		npatibility, Screening, Buffering
4				ensure compatibility with surrounding uses, adequate setbacks, screening and
5 6			time	ering around the perimeter of the proposed recycling plant shall be required at the the facility is constructed. The standards shall be waived if any of the required
7				scape buffer is not visible from adjacent lots or streets.
8				Lot Size
9				The minimum lot size for recycling plants in all industrial districts shall be five acres.
10 11			ł	However, the minimum lot size or greater for the underlying district shall apply for recycling plants that operate completely in enclosed buildings. [Partially relocated]
12				to 4.B.1.A.10.g.3.]
13 14				Setbacks Except for a freestanding office, no part of a recycling plant and its accessory ramps,
14 15				exception a meestanding once, no part of a recycling plant and its accessory ramps, on site circulation system, or storage areas shall be located within 50 feet of any
16				property line. [Partially relocated to 4.B.1.A.105.a.2.a)]
17				a) IL District
18				If the facility is in an industrial district and is contiguous to land in an industrial district and is contiguous to land in an industrial
19				district or IND FLU designation the setback shall be 25 feet from that contiguous
20 21				property line. [Partially relocated to 4.B.1.A.105.e] b) Civic and Residential Uses
22			1	No part of a recycling plant, its accessory ramps, on site circulation system or
22				storage areas shall be sited within 150 feet of a school, park, church, library, or
24				residential lot. In no case shall the setback be less than the requirement of the
25				district.
26				c) IG and IL Districts
27				No additional setback beyond district setbacks shall apply to recycling plants that
28				operate completely in enclosed buildings and are located in the IG, and IL
29				districts.
30				Screening and Fencing
31				All storage areas shall be screened from view by on-site walls, fences, or buildings.
32				Such screening shall be designed and installed to ensure that no part of a storage
33				area can be seen from street or adjacent lots. In no case shall the height of
34 35				recyclable or recovered materials, or non-recyclable residue stored in outdoor areas, exceed 20 feet or the height of the principal building on the lot, whichever is greater.
36				For an outdoor recycling plant contiguous to property in a residential district, an
37				ppaque fence/wall a minimum of eight feet in height shall be placed along the inside
38				border of the required landscape buffer. [Partially relocated to 4.B.1.A.105.h.]
39				Buffers
40				When the property line is contiguous to a residential district, the incompatibility buffer
41			ę	shall be 50 feet in width.
42		b	<u>. App</u>	roval Process
43			<u>A Re</u>	ecycling Plant requiring Class A Conditional Use approval may be approved by the

	(opulled to to to to)
1	all times and which carry official notice that only authorized persons are allowed on the
2 3 4	site. Access from a local residential street shall be prohibited. Entrances shall be gated to prevent access from unauthorized persons.
5	c. Drainage
6	Untreated surface water runoff shall not be permitted to discharge directly into lakes,
7	streams, drainage canals, or navigable waterways other than into or through approved
8	on-site containment areas. [Relocated to 4.B.1.A.10.e.]
9 10	<u>d.</u> Setbacks No part of a recycling plant and its accessory ramps, on site circulation system, or
11	storage areas shall be located within 50 feet of any property line, unless adjacent to
12	another property with an IND FLU designation that is vacant or has an existing industrial
13	use. [Partially relocated from 4.B.1.A.105.a.2.a)]
14 15	e. <u>Drainage</u> Untreated surface water runoff shall not be permitted to discharge directly into lakes,
16	streams, drainage canals, or navigable waterways other than into or through approved
17	on-site containment areas. [Relocated from 4.B.1.A.105.c.]
18	
	Reason for amendments: [Zoning]
	1. Remove Chipping and Mulching reference because any use functioning as collocated shall comply with the standards applicable to the use.
	2. Delete redundant site plan requirements that are addressed through DRO or Building Permit
	Process;
	3. Delete language related to Type of Facility, Quantity of Waste, and Dust Control since they are
	requirements of the F.A.C. Chapter 62-722 Regulations of Recovered Materials, FAC Chapter 62-
	701.320 Solid Waste Management Facility Permit Requirements, and the PBC Solid Waste Authority at time of application for the use license.
	4. Clarify that a minimum lot size of 5 acres is required when the use includes outdoor activities.
	5. Delete Fire Protection since requirements are covered under State Statute F.A.C. Chapter 62-
10	701.320(16)(a)3 to provide fire prevention system before commencing operation.
19 20	df. Storage Areas
21	All outdoor storage of recyclable materials shall be in leak-proof containers or located on
22	a paved area that is designed to capture all potential run-off associated with the stored
23	material. Run-off shall be handled in a manner that is in conformance with local, state
24 25	and Federal regulations. e. Chipping or Mulching
26	If a recycling plant facility includes chipping or mulching, adherence to the standards of
27	Article 4.B.1.A.28, Chipping and Mulching, is required.
28	f. Supplemental Application Requirements
29 30	Application for recycling plants shall include the following:
31	Graphic illustration and narrative analysis of year round access routes to the site.
32	2) Type of Facility
33	An explanation of the type of facility requested. It shall specify the type of materials to
34 35	be handled and include a description of the proposed method of operation, including special waste handling procedures and limitations.
36	3) Quantity of Waste
37	An estimate of the quantity of waste to be received, expressed in cubic yards per day
38	or tons per day.
39	4) Hours of Operation
40 41	A statement specifying the hours of operation. 5) Dust Control
42	A plan to address dust control in traffic, storage and processing areas and
43	contingency during high winds. Dust control measures may include: additional
44 45	setbacks, full or partial enclosure of chipper or grinder, screening/fencing, vacuuming
45 46	or watering traffic areas and watering or enclosing storage piles. g. Outdoor Activities
47	The minimum lot size shall be five acres for any Recycling Plant with outdoor activities.
48	[Partially relocated from 4.B.1.A.105.a.1)]
49 50	h.6)SWA Permit
50 51	Verification that the applicant has obtained a permit from and posted a bond with the SWA before prior to Final Site Plan approval or Building Permit, whichever occurs first.
52	7) Fire Protection
53	A recycling plant shall be located within a ten mile radius of a full-service fire station
54	or have and maintain on-site firefighting equipment acceptable to the PBC Fire.
55 56	
56	

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

Reason for amendments to Recycling Plant in Use Matrix: [Zoning]

Make the use subject to Class A Conditional Use approval in IL Zoning District instead of Class B Conditional Use for consistency with approval of Salvage and Junk Yard located in IL Zoning District.

Modify the approval process in IND/L Pod of PIPD from Permitted to Class A Conditional Use in order to:

- Address the Comprehensive Plan directive contained in Section III.C.4 to maintain this type of use under General Industrial Districts instead of Light Industrial; and,
- Create consistency with the proposed changes in IL Zoning District.
- 2. An MUPD with IND FLU designation is changed to indicate the most restrictive approval process from Permitted to Class A Conditional Use. A specific standard to address less restrictive approval process is included within the use standards.
- 3. Change approval process from Permitted to DRO in the IND/G Pod of a PIPD to provide consistency with the approval process in the IG Zoning District;

1 2 3 4

5

6

11 7. Laboratory, Industrial Research and Development

Reason for amendments: [Zoning]

- Rename Industrial Research Laboratory to Research and Development. The revision is based on an evaluation of definitions used by other municipalities locally, in the State, and Nationally, as well as adapting language from such sources as NAICS and APA.
- 2. Clarify Research and Development includes bioscience/biotech uses.
- 3. Relocate the Outdoor Activities standard for consistency.
- 4. Delete the accessory use standard. The language would be better suited as a standard to a College or University use permitting Research and Development as an accessory use.
- 5. Correct Scrivener's error to change existing Biotechnology Research Protection Overlay (BRPO) title in ULDC to be consistent with Comprehensive Plan title Bioscience Research Protection Overlay.
- 6. Delete language related to BRPO. The use will be Permitted in IL Zoning District therefore not subject to DRO approval.
- 7. Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses.

7	a.	Definition
8		An establishment engaged in industrial, scientific or medical research, testing, and
9		analysis, including support services and structures. Typical uses include natural
10		science/manufacturing research facilities, bioscience research/biotechnology and product
11		testing/quality control facilities.
12	a.	Outdoor Activities
13		Outdoor manufacturing, processing or testing shall be limited to industrial districts only.
14		[Relocated to c. below]
15	b.	Accessory Use
16		A research laboratory shall be permitted as an accessory use to a college or university.
17	<u>b.</u> €	. Biotechnology Bioscience Research Protection Overlay (BRPO)
18		A research laboratory Research and Development establishment located in the BRPO
19		and the IL District may be approved by the DRO and shall not be subject to the limitations
20		of Table 4.A.3.A, Thresholds for Projects Requiring Board of County Commissioner
21		Approval.
22	<u>C.</u> e	a. Outdoor Activities
23		Outdoor manufacturing, processing or testing shall be limited to industrial districts only.
24		[Relocated from a. above]
25	d.	Flex Space
26		This use shall be allowed as a flex space component pursuant to the applicable approval
27		process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and
28		pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005]

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

1

- Reason for amendments to Laboratory, Industrial Research in the Use Matrix: [Zoning]
- 1. Delete the approval processes in the CRE Zoning District. This use is not consistent with the intent of the III.C.3, Commercial Recreation, of the Comprehensive Plan which designates areas on the Future Land Use Atlas to reflect and accommodate major public and private commercial recreation facilities that meet a portion of the recreational needs of residents and tourists.
- 2. Change the approval process to allow the use in the following Zoning Districts:
 - Standard Districts.

Add the use to CLO Zoning District as a Class A Conditional Use;

Add the use to CC, CHO and CG Zoning Districts subject to DRO approval process.

Change Class B Conditional Use to Permitted in IL Zoning District.

Planned Development Districts:

Change Class A Conditional Use to DRO approval in MUPD with CH and CHO FLU designations, MXPD with CH FLU designation and Lifestyle Commercial Center (LCC) with CH FLU designation;

Add use as a DRO approval in MXPD with CHO FLU designation;

Add use as Permitted in MUPD with an EDC FLU designation.

Certain types of office Research and Development (R & D) may fit well in commercial provided there is no outdoor activity. These changes will ensure that industrial R & D with outdoor activity does not go into commercial. The change will also ensure all districts have consistent approval processes in commercial low, commercial high and industrial districts.

24

25

12 116. Salvage or Junk Yard

Reason for amendments: [Zoning]

Salvage or Junk Yard, Recycling Plant and Recycling Center uses have similar terminology within their respective definitions, such as salvaging, storing, and collecting.

- The proposed changes to the definition are needed to clarify differences between similar uses (i.e., Recycling Plant and Recycling Center) and to acknowledge the trend in recycling. Clarification of definition to delete "waste paper, rags". The salvage of paper and rags is more appropriately addressed under Recycling Plant and will be incorporated into that use.
- 2. Add language to definition related to building materials and fixtures to include architectural salvage.
- Add Approval Process Standard related to architectural salvaging (aka deconstruction) to allow in an IL or IG Zoning Districts, MUPD with an IND FLU designation or IND/L or IND/G Pod of PIPD. Architectural Salvage is commonly identified as a light industrial use. The established standard would allow this type of salvaging in light industrial districts.
- 4. Relocate and consolidate barbed wire in Article 5.B, Accessory and Temporary Uses.

a. Definition

A lot, land or structure, or part thereof, <u>An establishment</u> used primarily for the collecting, storage and sale of waste paper, rags, scrap metal or discard material; or for the collecting, dismantling, storage and salvaging of machinery or vehicles not in running condition; or for the sale of parts thereof. <u>Salvage may also include architectural salvage</u> which consists of building materials and fixtures recovered prior to the demolition of buildings or structures.

<u>Approval Process</u>

Architectural salvage may be permitted subject to DRO approval in the following zoning districts:

- 1) IL or IG Zoning District;
- 2) MUPD with an IND FLU designation; or,
- 3) IND/L or IND/G Pod of a PIPD.

. Barbed Wire

Barbed wire may be installed pursuant to Art. 5.B.1.A.2.c, Dangerous Materials, except when located adjacent to a parcel having a residential FLU designation or use. Barbed wire shall not be visible from any public street. **[Ord. 2011-001]**

Reason for amendments to Salvage or Junk Yard in the Use Matrix: [Zoning] No changes in the approval process are being proposed. Implementation Section, III.C.4, of the Comprehensive Plan identifies that the Salvage or Junk Yard use is limited to the General Industrial Future Land Use designation.

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

		(opulied toriorio)	
1		Shall require approval as a MUPD or PIPD. The proposed site shall have an IND	
2		FLU designation.	
3	С.	Setbacks	
4		Parking areas, parking spaces, maneuvering areas, and drive aisles, shall be setback a	
5		minimum of 200 feet from any existing residential use, zoning district or FLU designation.	
6	d.	Landscaping Buffer	
7		Perimeter Incompatibility landscape buffers shall be required adjacent to an existing	
8		residential district, use, zoning district or FLU designation. The buffer shall include a six	
9		foot high berm topped by with a six foot high opaque wall or fence installed at the plateau	
10		of the berm. Variances may be requested from these requirements.	
11	e.	Security	
12		24 hour on site security shall be provided.	
13	<u>e</u> f.	Accessory Collocated Uses	
14		For purposes of this section, collocated uses shall mean a use that is mainly oriented to	
15		serving transient commercial vehicle operators. The following collocated uses shall be	
16 17		permitted in conjunction with a Truck Stop subject to DRO Approval:	
17		1) <u>Type I Restaurant;</u> 2) <u>Type II Restaurant;</u>	
10 19		3) Convenience store with gas sales;	
20		<u>4) Convenience store without gas sales;</u>	
20		5) Car wash;	
22		<u>6) Hotel/Motel;</u>	
23		7) Personal Services;	
24		8) Financial Institution;	
25		9) Gas and Fuel Retail;	
26		10) Laundry Service; and,	
27		11) Retail Sales, Auto Accessories and Parts.	
28	<u>f.</u>		
29		The site shall be designed to ensure the provision of adequate vehicular circulation and	
30		parking patterns. This shall demonstrating that collocated uses listed above are	
31		designed and located to mainly serve transient commercial vehicle operators.	
32		The following uses may be allowed in conjunction with a truck stop, subject to the	
33		requirements of the underlying zoning district: convenience store with gas sales, general	
34		repair and maintenance, restaurant, car wash, security or caretakers quarters, personal	
35		services, and business office. Use permitted based on the zoning designation of the site:	
36 37		general repair and maintenance; truck wash facilities; convenience stores; general or specialty restaurants; hotel/motel accommodations; and general office services.	
38		specially residurants, noter moter accommodations, and general once services.	
00	Reason for am	endments to Truck Stop in the Use Matrix: [Zoning] No changes are being proposed to

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

1 2 3

Reason for amendments: [Zoning] To clarify that warehousing in the zoning districts identified in the Use Matrix may include accessory office space equal to up to 30 percent of floor space of each bay. This guideline can be modified by review of Class A Conditional Use by the BCC. This new language also refers the reader to the guidelines for "Office/Warehouses" located in the Westgate Community Redevelopment Area Overlay (WCRAO) which specifies that a minimum of 25 percent of the floor space must be accessory office space in the Overlay. Clarify that retail sales from warehouses is prohibited, unless approved through the Flex Space 2 standards in Article 5. Deleting prohibition on manufacturing. That use is regulated by "Manufacturing and Processing" in 3. the industrial zoning districts. If a person wishes to engage in that use, they may obtain the necessary approvals to do so where otherwise permitted. Delete reference to parking standards. The need for this provision was eliminated with the adoption 4 of past amendments to the ULDC (Ord. 2009-040). 5. Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses. 6. To reword the language dealing with the use in the MUPD Zoning District, and to relocate the pertinent text dealing with the WCRAO to a new sub-heading. 4 5 a. Definition 6 An building establishment used for the storage of raw materials, equipment, or products. 7 Typical uses include moving companies, cold storage, and dead storage facilities, but 8 excludes self-service storage facilities. 9 ba. Accessory Office 10 The maximum percentage of office space in each warehouse bay shall be 30 percent of 11 the GFA, unless approved as a Class A conditional use. Unless approved as a Class A Conditional Use, or as specified in "d" below, office space in each warehouse bay shall 12 13 be a maximum of 30 percent of the GFA of that bay. cb. Sales 14 General retail sales shall be prohibited, except as approved in conjunction with Flex 15 16 Space. 17 Manufacturing C. Manufacturing, assembly or processing shall be prohibited in a warehouse. 18 19 d. WCRA Overlay Warehouse and oOffice/warehouse uses are prohibited in the NR, NRM, NG, and NC 20 sub-areas, as outlined in Table 3.B.14.E, WCRAO Sub-area Use Regulations. Office and 21 warehouse combinations, such as a construction office for special trade contractors, or a 22 commercial wholesale trade establishment consisting of a mix of independent business 23 24 offices each having a contiguous, accessory enclosed storage area which is internally accessible to the office, shall be permitted in the UG, UH, and UI sub-areas as specified 25 in Table 3.B.14.E, WCRAO Sub-area Use Regulations pursuant to a Class A Conditional 26 Use, limited to lots with a CH or IND FLU Designation and corresponding zoning district. 27 The office/warehouse development must-shall have an office space a minimum of 25 28 29 percent of office space the per gross floor area for each bay. [Ord. 2006-004] 30 **Parking in PDDs** 31 Facilities located in a PDD shall comply with Table 6.A.1.B - Minimum Off-Street Parking 32 and Loading Requirements. Variances may be requested from these requirements. 33 [Ord. 2008-037] [Ord. 2010-022] 34 Flex Space £ 35 This use shall be allowed as a flex space component pursuant to the applicable approval process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and 36 37 oursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005] eg. Freestanding Structures 38 Freestanding structures for warehouse developments located in an IND-MUPD with an 39 IND FLU designation shall not be subject to the provisions of Table 3.E.3.B, Freestanding 40 41 Buildings. [Ord. 2010-022] 42 43 44 45 (This space intentionally left blank) 46 47 48

Notes:

49

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 10/15/13)

1

Reason for amendments to Warehouse in the Use Matrix: [Zoning]

- Remove from MUPD with a CH FLU designation. The CH FLU designation permits a broad range of 1. general commercial zoning districts, such as Neighborhood Commercial (CN) and CG, which permit a very broad range of uses, including general retail, professional offices, and day care. Warehousing is an incompatible use to this type of development. If retained in the CH FLU designation, it could be argued that the use should also be included in every standard zoning district permitted in the CH FLU designation. The use was added to the MUPD with CH FLU designation in 1998. Research has not revealed that it has ever been used.
- 2. Add the use as Permitted in the MUPD with an EDC FLU designation: The use is consistent with the criteria in the plan for the EDC FLU designation, and is traditionally collocated with other lower intensity industrial uses.

35

36 37

38 39 40

16 140. Wholesaling, General

Reason for amendments: [Zoning]

- 1. To revise the definition to more clearly and concisely list the activities which take place in this use, as well as uses that are excluded.
- Removed reference to refrigerated storage, as this is a function of warehousing. 2. Wholesale operations typically do not lease space for storage by third parties, as it takes away inventory space. Refrigerated storage is already covered in the definition of a Warehouse as "cold storage." Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses. 3.

Definition <u>a.</u>

An establishment engaged in: the display, maintaining maintenance and display of inventories of goods, storage, for distribution and sale of goods to other firms for resale;, or, the supplying of goods to various trades such as landscapers, construction contractors, institutions, industries, or professional businesses. In addition to selling, wholesaleThese establishments also sort and grade goods in from large to small lots, break bulk and redistribute in smaller lots, and engage in delivery, and refrigeration storage, but This use excludesing vehicle sales, and the wholesaleing greenhouses or of nurseries<u>-supplies</u>, wholesale of gas and fuel, and wholesale building supplies.

Flex Space

This use shall be allowed as a flex space component pursuant to the applicable approval process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005]

Reason for amendments to Wholesaling, General in the Use Matrix: [Zoning] Add the use as Permitted to MUPD with an EDC FLU designation. The use is consistent with the criteria in the plan for the EDC FLU designation, and is traditionally located with other lower intensity industrial uses.

Part 4. ULDC Art. 4.D.5.E.5, Accessory Use [Related to Type III, Excavation] (page 152 of 171), is hereby amended as follows:

Reason for amendments: [Zoning] Correct Scrivener's error to change "asphalt batch concrete plant" to Asphalt or Concrete Plant for consistency and address a spelling error.

29 CHAPTER D **EXCAVATION**

Section 5 **Excavation Standards** 30

E. Type III Excavations

5. Accessory Use

An aAsphalt batch or cConcrete pPlant shall be permitted as an accessory use to a Type III B excavation, subject to DRO approval and provided that:

- a. the site is a minimum of 500 acres;
- b. the use is separated at least one-half mile from any residential use or district; and
- direct access to the plat plant is provided from an arterial street. C.

ARTICLE 5 – SUPPLEMENTARY STANDARDS SUMMARY OF AMENDMENTS (Updated 10/15/13)

1 2 The following language was reviewed at the August 20, 2013 LDRAB Subcommittee Meeting. Review of Article 5, Supplementary Standards of the ULDC is an ongoing project and will continue to be updated as each Use Classification is analyzed. 3 4 5 Part 1. ULDC Art. 1.I, Definitions & Acronyms (page 82 of 119), is hereby amended as follows: 6 Reason for amendments: [Zoning] To clarify that screening requirements for outdoor activities are not intended to apply to common business operations such as outdoor storage or loading bays and related activities. See also relocation and consolidation of standards for screening outdoor activities with Art. 5, Supplementary Use Standards for outdoor storage. 7 **CHAPTER I DEFINITIONS & ACRONYMS** 8 Section 2 Definitions 9 10 O. Terms defined herein or referenced Article shall have the following meanings: 11 23. Outdoor Activity - for the purposes of Art. 5, Supplemental Use Standards, any functional operation associated with a use listed in Art. 4, Use Regulations, that takes place outside of 12 13 an enclosed building. The term excludes Outdoor Storage and the loading or unloading of 14 trucks at loading bays or docks. 15 16 [Renumber Accordingly] 17 18 Part 2. ULDC Art. 3, Overlays and Zoning Districts [Related to Hours of Operation] (pages 137, 19 138, 161, 176 of 229), is hereby amended as follows: 20 21 Reason for amendments: [Zoning] Relocate and consolidate hours of operation in new Article 5.E.5, Hours of Operation [Related to Performance Standards]. **PROPERTY DEVELOPMENT REGULATIONS (PDRS)** 22 CHAPTER D 23 Section 3 **District Specific Regulations** A. District Specific Regulations 24 Additional PDRs shall apply in certain districts as follows: 25 26 All Commercial, Public and Civic Uses 27 2. 28 Hours of Operation Commercial, Public and Civic uses located within 250 feet of a residential district shall not 29 30 commence business activities, including deliveries and stocking, prior to 6:00 AM nor 31 continue business activities later than 11:00 PM daily. Measurement shall be taken by drawing a straight line from the closest point on the perimeter of the residential district to 32 33 the closest point on the perimeter of the exterior wall, structure, or bay, housing the nonresidential use. [Ord. 2009-040] [Partially relocated in new Art. 5.E.5, Hours of 34 35 **Operation**] 1) Existing Uses 36 37 Uses existing prior to this amendment may comply with the requirements existing at 38 the time the use was established, unless modified by a subsequent development order. [Ord. 2009-040] [Relocated in new Art. 5.E.5, Hours of Operation] 39 40 **Exemptions** Uses owned or operated by a governmental entity that provide essential services for 41 42 the public, as determined by the Zoning Director, shall be exempt from these standards. [Ord. 2009-040] [Relocated in new Art. 5.E.5, Hours of Operation] 43 44 [Renumber Accordingly] 45 3. **CN District** 46 Hours of Operation b 47 Commercial uses shall not commence business activities, including deliveries 48 stocking, prior to 6:00 AM nor continue business activities later than 11:00 PM daily. 49 50 5. CC District a. Hours of Operation 51

ARTICLE 5 – SUPPLEMENTARY STANDARDS SUMMARY OF AMENDMENTS (Updated 10/15/13)

Notes:

ARTICLE 5 – SUPPLEMENTARY STANDARDS SUMMARY OF AMENDMENTS (Updated 10/15/13)

_			
	ason for amendments: [Zoning]		
1.	. Relocate and consolidate standards for Outdoor Activities with Outdoor Storage and expand provisions to non-residential uses located in Residential Zoning Districts.		
2.	Delete 12 feet screening height provision that was applicable only to Outdoor Storage in industrial		
-	districts. The language was not limiting the height of the stored material but was limiting the height of		
	the screening to 12 feet even when the stored material was higher. Proposed screening requirement		
	applies to all sites except when the Outdoor Storage area is located in an Industrial Zoning District or		
	FLU designation that has a common property line with an Industrial FLU designation or Zoning District parcel.		
3.	Introduce height limitation of the storage material to be 15 feet for consistency with the PBC Fire		
	Code provision 31.3.6.3.2.4 which is applicable to processed or unprocessed materials.		
4.			
5.	feet. Exempt from the screening requirements any industrial site that has the Outdoor Storage or Outdoor		
5.	Activity areas next to another site with Industrial FLU designation or Zoning District and not visible		
	from any street.		
6.	Include provision that to minimize the visual impacts caused by Outdoor Activities in industrial sites		
	when adjacent to residential, civic, commercial, recreation, or conservation by requiring a 25 foot		
7.	wide Type III incompatibility buffer. Allow chipping, crushing, grinding, manufacturing or processing to be outdoor only when an industrial		
1.	use is located in intense industrial districts such as General Industrial and IND/G pod of PIPD. Less		
	intense Industrial Zoning Districts looking to have such outdoor activities are requested to be		
	permitted through public hearing through Class A Conditional Use. This amendment limits the		
	location of intense uses in close proximity of low intense uses.		
	3. Outdoor Storage and Activities		
	Outdoor storage of merchandise, inventory, equipment, refuse, or similar materials, and		
	outdoor activities in all nonresidential districts or non-residential uses located in Residential		
	Zoning Districts shall be subject to the following standards.		
	a. General Outdoor Storage and Activities may only be allowed when incidental to the use located		
	on the premises.		
	b. Location		
	Outdoor Storage and Activity areas shall not be located in any of the required setbacks.		
	c. <u>Height</u> Outdoor Storage material shall not avaged 15 feet in height or the height of the		
	Outdoor Storage material shall not exceed 15 feet in height or the height of the screening, whichever is less.		
	d. Nonresidential Districts, Except Industrial Screening		
	Outdoor Setorage and Activity areas shall be completely screened from view all property		
	lines by landscaping, fences, walls, or buildings.		
	de. Industrial <u>FLU Designation, Zoning</u> Districts or Uses <u>1)</u> Outdoor storage areas shall be completely screened from view from all streets and		
	adjacent residential districts by landscaping, fences, walls, or buildings up to a height		
	of 12 feet. All Outdoor Storage and Activity areas located on Industrial FLU		
	designation or Zoning District shall be completely screened from view from all		
	property lines. [Partially relocated from Art. 3.D.3.A.6, IL and IG Districts]		
	2) Outdoor Storage and Activity areas adjacent to parcels with Industrial FLU designation or Zoning District and not visible from any street shall be exempted from		
	the screening requirements.		
	3) Outdoor Activity areas in industrial uses shall have a Type III incompatibility buffer		
	along property lines adjacent to parcels with a Civic, Conservation, Commercial,		
	Recreational or Residential FLU designation, Zoning District or use, or where visible		
	from a public R-O-W. The incompatibility buffer shall be a minimum of 25 feet in width.		
	4) Outdoor Activities such as chipping, crushing, grinding, manufacturing or processing		
	shall be restricted to the IG Zoning District and Industrial General pod of PIPD unless		
	approved as a Class A Conditional Use.		
	(This space intentionally left blank)		
	(

29 30	D.	to Article 2.D.1 Development Review Officer. The applicant shall identify the portion of				
31		the building designated for flex space on the site plan. All other uses subject to the				
32		Building Permit review process shall be permitted in the DRO approved building. [Ord.				
33		2010-005]				
34	С.	Option III – Uses subject to the Building Permit review process may occupy a bay or the				
35		entire building as long as they comply with the applicable Supplementary Use Standards				
36		and additional ULDC requirements (parking, signage, etc.). The applicant shall identify				
37		the portion of the building designated for flex space on the site plan. The applicant has				
38		the option of applying flex space provisions to a specific bay in the building or having the				
39 40		entire building (single use tenant) dedicated to flex space. The applicant shall submit the Building approved site plan to the Zoning Division for informational purposes indicating				
41		the area designated as flex space and demonstrating that the overall site is in compliance				
42		with the applicable ULDC regulations. [Ord. 2010-005]				
43	2. D	evelopment Standards				
44	a.	CH – FLU				
45		Flex Space located on parcels with a CH FLU shall be permitted to have the following mix				
46		of uses: a minimum of 50% industrial, not to exceed 75%; with the balance consisting of				
47		office or retail. [Ord. 2010-005]				
48 49	b.	IND - OR EDC FLU				
49 50		Flex Space located on parcels with an IND FLU shall be permitted to have the following mix of uses: a maximum of 30% office or retail, with the balance consisting of industrial.

Part 6. New ULDC Art. 5.E, Hours of Operation (page 56 of 92), is hereby established:

Reason for amendments: [Zoning] Establish new Section E in Article 5 by consolidating all provisions for hours of operations contained in Article 3 of the ULDC. This amendment applies the hours of operation limitations to Industrial, Commercial, Recreation, and Public and Civic Uses when adjacent to Residential Future Land Use designation, Zoning District or use. Exceptions may be permitted depending on indoor or outdoor industrial activities. The limitation in Industrial uses is more restrictive than commercial uses as industrial uses are expected to be more intense in traffic and stocking activities.

11 CHAPTER E PERFORMANCE STANDARDS

12 <u>Section 5</u> <u>Hours of Operation</u>

- 13 Any non-residential use shall be subject to the hours of operations indicated below when: adjacent to
- Residential FLU designation, Zoning District or use. No stocking or deliveries outside of the permitted
 time when located within 250 feet of residential.
 - Table 5.B Hours of Operation FLU/Zoning District/Use Hours 7:00 a.m. to 7:00 p.m. (Monday -Industrial Saturday) 7:00 a.m. to 10:00 p.m. (Monday -Industrial without outdoor activities <u>Saturday)</u> 6:00 a.m. to 11:00 p.m. Commercial Recreation Public and Civic 6:00 a.m. to 11:00 p.m. Excavation [Ord.] Notes:

A. Measurement

Measurement shall be taken by drawing a straight line from the closest point on the perimeter of the residential district to the closest point on the perimeter of the exterior wall, structure, or bay, housing the non-residential use. [Ord. 2009-040] [Partially relocated from Art. 3.D.3.A.2.a, Hours of Operation – Related to All Commercial, Public and Civic Uses under District Specific Regulations]

B. Existing Uses

Uses existing prior to this amendment may comply with the requirements existing at the time the use was established, unless modified by a subsequent Development Order. [Ord. 2009-040] [Relocated from Art. 3.D.3.A.2.a.1), Existing Uses - Related to Hours of Operation applicable to all Commercial, Public and Civic Uses under District Specific Regulations] C. Exemptions

Uses owned or operated by a governmental entity that provide essential services for the public, as determined by the Zoning Director, shall be exempt from these standards. [Ord. 2009-040] [Relocated from Art. 3.D.3.A.2.a.2), Exemptions - Related to Hours of Operation applicable to all Commercial, Public and Civic Uses under District Specific Regulations]
