In a medical emergency, always dial 911 or go to the nearest emergency room. But when your condition isn’t life threatening, you can save time and money, and get the care you need from:

- **Your doctor.** They know you best. Make an appointment or ask about your care choices.

- **Urgent care clinics.** They are most like emergency rooms. Their doctors, assistants and nurses treat broken bones, cuts, fevers and conditions that need immediate care.

- **Convenience care clinics.** They are usually located in pharmacies and other places where you shop. Their nurse practitioners and doctors’ assistants treat simple conditions like earaches, sore throats and flu.

If you need help with your treatment choices or where to go for care, call the Cigna 24-Hour Health Information Line at 800.Cigna24 (800.244.6224), and talk with a nurse any time, day or night.

See reverse side for a list of urgent care and convenience care clinics in Florida. This list is subject to change but you can always get a current list on myCigna.com or by calling the customer service number on the back of your ID card.
