Dear Mayor, County Commissioners and TDC Board Members,

It is our pleasure to present the Annual Report of the Palm Beach County Tourist Development Council (TDC) covering operations for the fiscal year beginning October 1, 2015 and ending September 30, 2016. The accompanying reports were prepared by the Administrative Office of the TDC with information provided by our contracted agencies of record.

The availability of tourist development funds also known as “Bed Taxes” generated from our visitors staying in accommodations throughout Palm Beach County, are used by the contracted tourism organizations to market, promote, administer grants, and operate and maintain tourism generating assets constructed using tourist development tax dollars. The continued return of investment on tourist development taxes lessens the tax burdens on our residents and contributes to our residents’ quality of life in Palm Beach County. The TDC has continued to fund beach restoration to the County Environmental Resource Management group (ERM), to maintain the 47 miles of coastline visitors enjoy and use. The TDC continues to monitor the economic trends of our State and our key feeder markets. With your approval, the addition of the 6th Penny of Bed Tax collected beginning in February of 2015, allows us to continue to report total collections growth year over year, 2015/2016 resulting in a 10.3% increase for all 6 Cents collected. Each penny of tax collected is growing at 3.5%, and is projected to continue this trend into Fiscal Year 2017.

As one of the largest industries in Palm Beach County County, the Leisure and Hospitality sector employs more than 80,000 people. Approximately 46,000 of these employees directly service our visitors when here in the County. It is estimated an additional 14,000 employees in retail, real estate and insurance are employed servicing our visitors. As an increasingly year-round destination, the offering of over 17,000 hotel rooms from world famous resorts like the Breakers Palm Beach and the Boca Raton Resort & Club, to the recognized branded hotel properties and privately owned hotels across the county, it is projected that more than 7 million people annually will visit the Palm Beaches. These visitors will enjoy world class cultural performances and venues, lifestyle sports facilities including our being home to four Major League Baseball Spring Training teams, our globally recognized equestrian venues, restaurants for all tastes, shopping for all pocketbooks, along with breathtaking beaches and environmental adventures from Lake Okeechobee to the Everglades.

The Palm Beach County Convention Center, has witnessed an explosion of interest for Group Meetings with the new attached West Palm Beach Hilton Hotel and soon to be completed 2638 space parking garage. We partner closely with the Palm Beach International Airport in support of marketing new air service opportunities to the County from new and existing feeder markets for both the leisure and the business traveler.

The hospitality industry in the Palm Beaches plays a significant role to our County’s economic vitality and quality of life. We are proud to provide these marketing services to our tourism partners in local government and the business community.
