

All Florida Schools are eligible to receive FREE lead testing!

This includes:

Childcares

Charter Schools

Private Schools

Public Schools

DEP and FRWA are receiving assistance through a grant from EPA.

This program will allow participants to benefit from this initiative at no cost.

TOGETHER WE CAN PROTECT CHILDREN'S HEALTH!!!

- ✦ On-site drinking water sample collection and analysis.
- ✦ Messages for effectively communicating with parents and the community.

Testimonials from School Districts: Marion County Charles H. Stegall: "Marion County Public Schools has enjoyed participating in The Lead in Public Schools Program. Our staff, schools and parents are very happy with our results and our continuing effort to improve drinking water quality for all students and staff. It was a pleasure working with FRWA, the lab, and the sampling contractor as they all worked together to make this a successful program for our District."

For more information, please contact Erica Manz erica@frwa.net.
