## Description:

Understanding basic grief concepts provides the foundation for supporting grieving children. Equally important is an understanding of how to relate to a child who has experienced a loss. This workshop will explore children's grief (including influencing factors & developmental stages) and teach methods of interaction for relating to children/families around grief and loss. Participants will acquire intervention ideas, planning strategies, and approaches for supporting creative expression when working with grieving children/families. Sharing of questions and participant experiences will be encouraged to facilitate the transition of the material covered to practical application in the workplace. Though focused on loss through death, the concepts and interventions presented can be applied to any loss or change a child and family face.

## Learning Objectives:

- 1) List a minimum of five (5) factors that influence grief.
- 2) Identify a minimum of three (3) common grief responses across various developmental stages.
- 3) Describe a minimum of two (2) intervention techniques for encouraging and supporting creative expression.

## Presenter:

**Kerry Debay, ATR-BC, LMHC**, serves currently as the Chief Program Officer at the Children's Healing Institute. She is a Board-Certified Art Therapist and Licensed Mental Health Counselor. Kerry has been working with children and families in Palm Beach County for over 25 years with a significant focus on grief & loss education and support. Kerry is the author of *The Grief Bubble*, a workbook for children designed to assist in the understanding and expression of grief in response to a loss through death (available in English and Spanish). She is a contributing author of *Assessment and Treatment Activities for Children, Adolescents, and Families Volume II: Practitioners Share Their Most Effective Techniques*, and illustrated the children's book *Honey Bear Died*.
