# Palm Beach County Census 2020

## Your Participation in the 2020 Census Matters

An accurate count of Palm Beach County in the 2020 census is vitally important to Palm Beach County's future.

Every year, more than \$675 billion in federal funds is awarded to states and communities based on census data. That's more than \$4 trillion over a 10-year period.

Census data guide local decision-makers in important community planning efforts, including where to build new roads, hospitals and schools.

Census data is also used to determine the need for additional social services, including community development block grants and other grant programs essential to many communities.

Census data affects your voice in Congress by determining how many seats each state will have in the U.S. House of Representatives.
