

**PALM BEACH COUNTY  
PLANNING, ZONING AND BUILDING DEPARTMENT  
ZONING DIVISION**

---

**TITLE: UNIFIED LAND DEVELOPMENT CODE (ULDC) AMENDMENT ROUND 2017-01  
FIRST READING AND REQUEST TO ADVERTISE FOR ADOPTION HEARING**

**SUMMARY:** The proposed ordinance will account for consistency with the Comprehensive Plan, correction of glitches and clarifications, as well as several specific amendments, as follows:

- Exhibit A - Art. 1.C.1, Rules of Construction - Rounding of Fractions
- Exhibit B - Mobile Home Owner Disclosure Requirements to Potential Buyers
- Exhibit C - Administrative Approvals-Unmanned Retail Structures
- Exhibit D - Art. 2.G.3.A.3, Board Membership
- Exhibit E - Art. 3, Planned Development Districts
- Exhibit F - Art. 3.B.14.F, Property Development Regulations [Related to WCRAO]
- Exhibit G - Lifestyle Commercial Center LCC
- Exhibit H - Art. 4, Use Regulations
- Exhibit I - Art. 4.B, Use Classification [Related to URAO]
- Exhibit J - Retail Gas and Fuel - Standards for Approval
- Exhibit K - Art. 5.B.1.A, Accessory Uses and Structures - General Exceptions
- Exhibit L - Art. 5.B.1.A, Accessory Uses and Structures - Exceptions for Buildings  
Accessory to Residential
- Exhibit M - Accessory Solar Energy Systems
- Exhibit N - Art. 5.B.1.B, Temporary Structures - Portable Storage Containers and  
Shipping Containers
- Exhibit O - Requested Use Reference
- Exhibit P - Art. 6 Parking
- Exhibit Q - Art. 8.F.5, Illumination [Related to Signage]
- Exhibit R - Art. 8.G.3.B, Electronic Message Signs
- Exhibit S - Art. 16, Airports and F.S. 333

**Staff Recommendation:** Staff recommends approval of First Reading and to Advertise for Adoption Hearing of ULDC Amendment Round 2017-01 on August 24, 2017.

**LDRAB/LDRC:** Land Development Regulation Advisory Board (LDRAB) Recommendation and Land Development Regulation Commission (LDRC) Determination: Recommended approval of the proposed amendments by multiple votes on March 29, 2017, April 26, 2017 and May 24, 2017. Sitting as the LDRC on May 24, 2017, all proposed ULDC amendments were found to be consistent with the Comprehensive Plan.

**BCC Public Hearings:** June 22, 2017, Request for Permission to Advertise for First Reading on July 27, 2017: Approved, 7-0.

**MOTION:** To approve on First Reading and Advertise for Adoption Hearing of ULDC Amendment Round 2017-01 on August 24, 2017: AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF PALM BEACH COUNTY, FLORIDA, AMENDING THE UNIFIED LAND DEVELOPMENT CODE, ORDINANCE 2003-067, AS AMENDED, AS FOLLOWS: **ARTICLE 1 - GENERAL PROVISIONS:** CHAPTER C, RULES OF CONSTRUCTION AND MEASUREMENT; CHAPTER F, NONCONFORMITIES; CHAPTER I, DEFINITIONS & ACRONYMS; **ARTICLE 2 - DEVELOPMENT REVIEW PROCEDURES:** CHAPTER A, GENERAL; CHAPTER B, PUBLIC HEARING PROCESS; CHAPTER D, ADMINISTRATIVE PROCESS; CHAPTER G, EMINENT DOMAIN; **ARTICLE 3 - OVERLAYS AND ZONING DISTRICTS:** CHAPTER A, GENERAL; CHAPTER B, OVERLAYS; CHAPTER D, PROPERTY DEVELOPMENT REGULATIONS (PDRs); CHAPTER E, PLANNED DEVELOPMENT DISTRICTS (PDDs); CHAPTER F, TRADITIONAL DEVELOPMENT DISTRICTS (TDD's); **ARTICLE 4 - USE REGULATIONS:** CHAPTER A, USE CLASSIFICATION; CHAPTER B, SUPPLEMENTARY USE STANDARDS; **ARTICLE 5 - SUPPLEMENTARY STANDARDS:** CHAPTER B, ACCESSORY AND TEMPORARY USES; CHAPTER C, DESIGN STANDARDS; CHAPTER E, PERFORMANCE STANDARDS; CHAPTER G, DENSITY BONUS PROGRAMS; **ARTICLE 6 - PARKING:** CHAPTER A, PARKING; CHAPTER B, LOADING STANDARDS; **ARTICLE 7 - LANDSCAPING:** CHAPTER C, MGTS TIER COMPLIANCE; **ARTICLE 8 - SIGNAGE:** CHAPTER D, TEMPORARY SIGNS REQUIRING SPECIAL PERMIT; CHAPTER F, GENERAL PROVISIONS FOR ALL SIGN TYPES; CHAPTER G, STANDARDS FOR SPECIFIC SIGN TYPES; CHAPTER H, OFF-SITE SIGNS; CHAPTER I, ADMINISTRATION AND ENFORCEMENT; **ARTICLE 16 - AIRPORT REGULATIONS:** CHAPTER A, GENERAL; CHAPTER B, AIRSPACE HEIGHT REGULATIONS; CHAPTER C, AIRPORT LAND USE REGULATIONS; PROVIDING FOR: INTERPRETATION OF CAPTIONS; REPEAL OF LAWS

IN CONFLICT; SEVERABILITY; A SAVINGS CLAUSE; INCLUSION IN THE UNIFIED LAND DEVELOPMENT CODE; AND, AN EFFECTIVE DATE.

**EXHIBIT A – Rules of Construction [Rounding of Fractions]**

| Part | Article   | Reasons  |
|------|---|--|
| 1.   | ULDC Art. 1.C.1.A.2, Interpretation and Application | [Zoning] Establish standards to clarify how and when the rounding of numbers may be permitted to determine minimum of maximum requirements. Most jurisdictions recognize the common practice of rounding up or down to nearest whole number for itemized requirements such as parking spaces, loading zones, trees, shrubs, etc. that often result in fractions. Example: A use to be located in a 2,277 sf building that requires one parking space for each 200 sf, thus resulting in 11.39 spaces, would be rounded down to 11 parking spaces. Linear or area dimensions typically aren't rounded, with limited exceptions. |

**EXHIBIT B – Mobile Home Owner Disclosure Requirements to Potential Buyers**

| Part | Article   | Reasons   |
|------|---|---|
| 1.   | ULDC Art. 2.A.1.J, Notification                           | <p>[PZ&amp;B/County Attorney] This amendment serves to establish additional notification requirements for rezoning applications involving the redevelopment of mobile home parks, with the intended purpose of providing additional disclosure to persons who may unknowingly purchase a mobile home dwelling unit without knowledge that future tenancy in the park may be short term. These notification requirements would be applicable to approximately 71 mobile home parks with 13,987 mobile home units within the unincorporated areas of Palm Beach County.</p> <p>Florida Statutes, Chapter 723 “Mobile Home Park Lot Tenancies” establishes and pre-empts to the State, through the Department of Business and Professional Regulation (DBPR), the regulation of the landlord-tenant relationship between mobile home park owners or operators, and the owners of mobile home dwelling units (mobile home) where lots are rented or leased. These laws are intended to mitigate potential inequalities of the mobile home owner who cannot easily relocate, while protecting the rights of both parties. This includes requiring that a park owner identify any known future redevelopment plans within rental agreements, notify each mobile home owner, or an association, if applicable, of any application for a change in zoning within 5 days of filing for rezoning, and provide notice of eviction, with reference to potential eligibility of compensation under the Florida Mobile Home Relocation Trust Fund.</p> <p>However, while there are requirements pertaining to transfer of rental agreements upon the private sale of a mobile home dwelling unit between private parties, there do not appear to be sufficient safeguards to ensure that potential buyers are aware of the aforementioned notifications, which may result in the purchase of a unit that may be required to be removed from the park. While such purchasers may qualify for relocation assistance, in some cases older units cannot be successfully relocated, among numerous other complications.</p> <p>To this end, the additional notification requirements established herein are intended to bridge the current gap until such time as the State may update current laws to address both existing and interim tenancy</p> |
| 2.   | ULDC Art. 2.B.1, Official Zoning Map Amendment (Rezoning) | [Zoning] Provide additional references to F.S. 723.083, Governmental Action Affecting Removal of Mobile Home Owners, which is currently located under the Mobile Home Park Development (MHPD) district, to other areas of the Code to ensure that other approvals affecting existing mobile home parks that are not within the MHPD district, are in compliance with statutory requirements   |
| 3.   | ULDC Art. 2.B.1, Official Zoning Map Amendment (Rezoning) | [Zoning] Provide additional references to F.S. 723.083, Governmental Action Affecting Removal of Mobile Home Owners, which is currently located under the Mobile Home Park Development (MHPD) district, to other areas of the Code to ensure that other approvals affecting existing mobile home parks that are not within the MHPD district, are in compliance with statutory requirements.  |
| 4.   | ULDC Art. 3.E.6.G, Rezoning of Mobile Home Parks          | [Zoning] Clarify that prior reference to Florida Statutes 723.083 applies to all local government actions related to the redevelopment of mobile home parks.  |

**EXHIBIT C – Administrative Approvals Unmanned Retail Structures**

| Part | Article | Reasons |
|------|---------|---------|
|------|---------|---------|

|    |  |            |  |
|----|--|------------|--|
| 1. | ULDC 2.D.1.G.1, Modifications BCC or Approvals | Art. to ZC | [Zoning] Clarify administrative authority to amend projects approved by the Zoning Commission or Board of County Commissioners, to allow for the addition or modification of an unmanned retail structure, consistent with provisions for the similar Freestanding ATM use. This clarification was inadvertently omitted from the recently adopted Use Regulations Project, where the use was partially established by Board direction to accommodate a freestanding ice dispensing facility. Typically, the addition of a freestanding structure would necessitate a request to the ZC or BCC for a Development Order Amendment (DOA); however, the structures in question are de minimis, and are not anticipated to result in the same impacts as would an occupied freestanding structure. |
|----|--|------------|--|

**EXHIBIT D – Art. 2.G.3.A.3, Board Membership [Related to Land Development Regulation Advisory Board]**

| Part | Article   | Reasons   |
|------|---|---|
| 1.   | ULDC Art. 2.G.3.A.3, Board Membership [Related to Land Development Regulation Advisory Board] | <p>[Zoning] This amendment deletes the Association of General Contractors of America (AGC) from the list of organizations represented on the Land Development Regulation Advisory Board (LDRAB) due to lack of interest in recommending a replacement for the last representative who served in 2009.</p> <p>The LDRAB reviews proposed amendments to the Unified Land Development Code (ULDC) and makes recommendations to the Board of County Commissioners (BCC). Members are appointed by the BCC. Membership is comprised of professionals with expertise from multiple land development occupations as established in Art. 2.G.3.A3.b, Qualifications, which currently includes 9 members recommended by organizations specified in Table 2.G.3.A, LDRAB Expertise, 7 members appointed by each Commissioner, and 2 at-large alternate members.</p> <p>The commercial builder representative, which requires a recommendation by the AGC, has been vacant since December 2009. Zoning staff has made repeated attempts to obtain a recommendation from the AGC to fill this seat, but no candidate has been successfully recommended for appointment by the organization.</p> |

**EXHIBIT E – Article 3.E, Planned Development Districts**

| Part | Article  | Reasons   |
|------|--|---|
| 1.   | ULDC Art. 3.A.3, Zoning District Consistency with the Future Land Use Atlas (FLUA) | <p>[Zoning]</p> <ol style="list-style-type: none"> <li>1. Correct scrivener’s error in Ord. 2017-007, by deleting a reference to note # “4” related to IPF Zoning District in Table 3.A.3.B, Future Land Use (FLU) Designation and Corresponding Standard Zoning Districts. The text that pertains to the IPF is specified under Art. 3.B.1.m, related to the list of “Standard District Exceptions and Limitations”.</li> <li>2. Implement recently amended Plan Policy 2.2.1-j (Ord. 2017-004), which clarifies that parcels with the High Residential (RH) Zoning district are consistent with the Medium Residential – 5 (MR-5) future land use designation in place at the time of the adoption of the 1989 Comprehensive Plan. The RH district was consolidated with the Medium Residential (RM) Zoning district in 2003, and the ULDC recognizes that the RH district is consistent with the RM district. The Plan amendment further establishes that eligible parcels with the RH Zoning district shall be exempt from rezoning to the RM Zoning District.</li> </ol> |
| 2.   | ULDC Art. 3.E.4, Mixed Use Planned Development (MXPDP)                             | <p>[Zoning] Implement recently amended Plan policy 4.4.6-a (Ord. 2017-004) which deletes the internal trip capture requirements for the MXPDP.</p>  |

**EXHIBIT F – Art. 3.B.14.f, Property Development Regulations [Related to WCRAO]**

| Part | Article  | Reasons  |
|------|--|--|
| 1.   | ULDC Art. 3.B.14.F, Property Development Regulations | <p>[Zoning] Ongoing efforts to provide additional clarity and guidance to staff and applicants in implementing the form based code principles outlined in the 2004 Westgate/Belvedere Homes Community Redevelopment Agency (WCRA) Redevelopment Plan.</p> <p>1. Clarify that Plazas and Squares are optional or otherwise to be accommodated within the WCRAO. Inclusion of the “heading” Plazas and Squares in the WCRAO Property Development Regulations (PDRs) table to recognize exceptions to building build to line PDR requirements, has repeatedly been misconstrued as establishing a requirement to provide plazas and squares.</p> <p>2. Re-organize exceptions to Build to Line requirements for ease of use.</p> <p>3. The proposed amendment clarifies that a provision allowing for an administrative reduction to building frontage requirements for small lots (where no side or rear access is applicable), is limited to the minimum reduction necessary to accommodate vehicular access to parking to the rear of the subject building. The revision also corrects a scrivener’s error by relocating a footnote. Confusion has occurred where applicants have attempted to cite the exception to allow for greater reductions than those anticipated, or where staff require more prescriptive guidance in the application of form based codes.</p> <p>Background: The consultant contracted by the WCRA to develop the framework for the code provisions necessary to implement the 2004 WCRA Plan, established expansive minimum building frontage requirements within key redevelopment areas, including the Westgate Avenue corridor. After consultation with PZ&amp;B, this was reduced to 80 percent or less, including the language being amended, which was required by Zoning staff, in recognition of smaller lots that could not meet the stringent 80 percent requirement due to the need to allow vehicular access to parking to the rear of the building (again, where no side or rear access is applicable). The provisions are twofold, the first allows for a 50 percent reduction by right for any lot less than 100 feet in width, while the second limits the reduction to the minimum necessary to comply with other Code requirements.</p> <p>For example, development of a lot with 100 feet of frontage on Westgate Avenue, with no other frontages on the sides or rear, would dictate a building a minimum of 80 feet in width, which leaves 20 feet for side setbacks and vehicular access, among other requirements. However, the minimum access width required for two-way vehicular traffic is 25 feet. Additional width may also be required to accommodate perimeter buffers, safe sight corners, or pedestrian access ways, among other considerations. Hence, the inclusion by Zoning to allow for reductions commensurate such Code requirements would be the minimum necessary to allow a property owner the reasonable ability to redevelop, not a wholesale reduction.</p> |

**EXHIBIT G – Lifestyle Commercial Center (LCC)**

| Part | Article                      | Reasons  |
|------|------------------------------|--|
|      |                              | <p><b>General Reason for Amendments:</b> [Zoning] The Future Land Use Element (FLUE) of the Comprehensive Plan was recently amended by Ord. 2017-004, to delete the requirement that the Lifestyle Commercial Center (LCC) be a standalone zoning district that mirrored the Traditional Marketplace Development (TMD) district. Revised FLUE Policy 4.4.4-d (fka 2.2.2-c) relocates several minor LCC specific provisions under the TMD district, eliminating a number of redundant provisions, while retaining the LCC specific exception that allowed for an individual tenant to occupy up to a maximum of 100,000 square feet. The TMD is one of several types of mixed-use development, allowed in any location with frontage on an arterial or collector roads as indicated in FLUE Policy 2.2.2-a. In addition, the recent Plan amendment also clarifies that the LCC is only allowed in the Urban/Suburban Tier on sites assigned a commercial future land use (FLU) designation, for two sites approved under Ordinances 2008-048 and 2009-028.</p> <p>As a result, this amendment deletes the LCC as standalone zoning district throughout the ULDC; and, retains some LCC regulations not covered under TMD.</p> |
| 1.   | ULDC Art. 1.1.2, Definitions | [Zoning] See General Reason for Amendment above.   |

|     |  |   |
|-----|--|---|
| 2.  | ULDC Art. 2, Development Review Procedures   | [Zoning] See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.  |
| 3.  | ULDC Art. 3.A.1.B, Overlays and Zoning Districts                                     | [Zoning] See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.  |
| 4.  | ULDC Table 3.A.3.C – FLU Designation and Corresponding Planned Development Districts | [Zoning] See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.  |
| 5.  | ULDC Table 3.A.3.C – TDD Corresponding Land Use                                      | [Zoning] Correct glitch by deleting provisions indicating that the TMD district is consistent with the Commercial Low Office (CLO) and Commercial High Office (CHO) FLU designations. Comprehensive Plan FLUE Policy 4.4.4-a only allows TMD to be located on sites with Commercial High (CH) or Commercial Low (CL) FLU designation.   |
| 6.  | ULDC Art. 3.E.1.B.2.f, LCC Minimum Density Requirements                              | [Zoning] See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.  |
| 7.  | ULDC Art. 3.E.1.D.1, Pre-Application Conference                                      | [Zoning] See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district. Specific application procedures are in place for TMDs  |
| 8.  | ULDC Art. 3.E, Lifestyle Commercial Center Development (LCC)                         | [Zoning] See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.<br><br>As a result, this amendment deletes most of the LCC requirements and relocates specific LCC provisions related to Interconnectivity, Perimeter Frontage and Type 1 Waivers to be under the TMD as they are not covered under the TMD regulations,   |
| 9.  | ULDC Art. 3.F, Traditional Development Districts (TDDs)                              | 1. See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.<br>2. Delete reference to Live/Work use from TDD regulations as the use was removed from the Code through Ordinance 2017-007.  |
| 10. | ULDC Art. 3.F.4.C, Development Standards for All TMDs                                | 1. See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.<br>2. Clarify the maximum square footage for a single tenant in a TMD with CL FLU designation is 65,000 sq. ft. when approved through BCC public hearing. Currently the regulation for the Urban/Suburban Tier in TMD limits single tenants to 50,000 sq. ft. and allows expansion via public hearing approval and further indicates single tenant more than 100,000 sq. ft as prohibited. In the other hand, Art. 5.I, Large Scale Commercial Development limits single tenant square footage to 65,000 sq. ft. in CL FLU designation. The proposed amendment looks to create consistency between Art. 3.F.4.C and 5.I. by limiting single tenants in TMDs with CL FLU designation to 65,000 sq. ft. and clarify that 100,000 sq. ft. limitation is applicable to sites expected with high intensity as CH FLU designation. |
| 11. | ULDC Art. 3.F.4, Traditional Marketplace Development (TMD)                           | [Zoning] Establish regulations for TMDs in the Urban/Suburban Tier when developed in the form of LCC as requirements for LCC were modified from the Comprehensive Plan through Ordinance 2017-004 making LCC a type of TMD.   |
| 12. | ULDC Art. 4, Use Regulations   | [Zoning] See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.<br>[Zoning] See General Reason for Amendment above. Delete references to LCC for consistency with recent amendments to FLUE Policy 4.4.4-d (fka 2.2.2-c), which allows for the LCC to be consolidated under the TMD district.  |
| 13. | ULDC Art. 5, Supplementary Standards   | [Zoning] Delete reference to LCC as the Zoning District is consolidated with TMD per revised Plan policy FLUE 4.4.4-d (fka 2.2.2-c) and contained in Ord. 2017-004.   |
| 14. | ULDC Art. 5, Supplementary Standards   | 1. Delete reference that exempts LCC from the requirements of Art. 5.C. related to recesses and projections. Requirements for LCC as a standalone zoning district were deleted from the Plan FLUE through Ordinance 2017-004. The revised Plan policy FLUE 4.4.4-d (fka 2.2.2-c) makes LCC a type of TMD and TMD primary and secondary frontage are not subject to the Architectural Guidelines in Art. 5.C.<br>2. Currently Art. 5 limits development in CL FLU to 65,000 square feet for single tenant with the exception of a specific geographic area. This amendment expands exception of square footage limitation for single tenants to 100,000 square feet for sites in the Urban/Suburban Tier and   |

|     |                          |   |
|-----|--------------------------|---|
|     |                          | condition of approval requiring the use of LCC by Ordinances 2008-048 and 2009-028 as established in Plan policy FLUE 4.4.4-d (fka FLUE 2.2.2-c). Regardless of the provisions established by Ordinance 2017-004 allowing 100,000 square feet of single tenant in LCC, the site under Ord. 2009-048 is limited to 65,000 square feet. |
|     |                          | [Zoning] Delete reference to LCC as the Zoning District is consolidated with TMD per revised Plan policy FLUE 4.4.4-d (fka 2.2.2-c) and contained in Ord. 2017-004.   |
| 15. | ULDC Art. 7, Landscaping | [Zoning] Delete reference to LCC as the Zoning District is consolidated with TMD per revised Plan policy FLUE 4.4.4-d (fka 2.2.2-c) and contained in Ord. 2017-004.   |

### Exhibit H – Article 4, Use regulations

| Part | Article  | Reasons   |
|------|--|---|
| 1.   | ULDC Art. 4.A.9, Development Thresholds                          | [Zoning] Establish an additional reference to Art. 5.G, Density Bonus Programs within Art. 4.A.9, Development Thresholds, to ensure that those reviewing the ULDC are familiar with additional thresholds for residential projects utilizing the density bonus provisions of the Workforce Housing, Affordable Housing or Transfer of Development Rights Programs.  |
| 2.   | ULDC Art. 4.B.1.C.3.d, Zoning Districts [Related to Multifamily] | <p>Correct Use Regulations Project revision which inadvertently changed the approval process for the Multifamily use in the Multifamily Residential (RM) Zoning District when located on parcels with a High Residential 8 (HR-8) Future Land Use (FLU) designation or higher.</p> <p>Under the Use Regulation Project (URP), Ordinance 2017-007, the Use Matrix for each Use Type has been amended to show the most restrictive approval process. The Use Matrix is showing Class A Conditional Use approval for Multifamily use in Residential Multifamily (RM) Zoning District which is intended to be only applicable to sites located in Medium Residential 5 (MR-5) Future Land Use (FLU) designation. This amendment clarifies that Multifamily use is Permitted by Right on sites with RM Zoning District with HR-8 or higher FLU designations.</p>   |
| 3.   | ULDC Table 4.B.2.A – Commercial Use Matrix                       | <p>This amendment is to allow Microbreweries in Multiple Use Planned Development (MUPD) with an Economic Development Center (EDC) FLU designation, subject to a Development Review Officer (DRO) approval for the following reasons:</p> <ul style="list-style-type: none"> <li>• The Comprehensive Plan dictates that an MUPD with EDC FLU designation is intended to have office and research parks as well as industrial uses with light industrial characteristics.</li> <li>• The Microbrewery use was developed to recognize the recent craft beer trend, which typically comprised of light industrial manufacturing and processing, storage and distribution in addition to commercial sales, brewery tours or education, and accessory tap rooms, which includes consumption on site. These use characteristics make Microbrewery a light industrial use.</li> <li>• In addition, MUPD developments are required to be subject to the Board of County Commissioners (BCC) approval, which allows for issues or concerns regarding site design or uses to be discussed publicly.</li> </ul> |

### EXHIBIT I – Use Classification [Related to URAO]

| Part | Article                      | Reasons  |
|------|------------------------------|--|
| 1.   | Art. 4.B, Use Classification | <p>[Zoning] Reincorporate URAO Use Matrix note that was inadvertently deleted when Use Matrices were consolidated in Art. 4 as part of the Use Regulations Project.</p> <p>These uses were Permitted by Right in General Commercial (CG) Zoning District prior to the establishment of the Urban Center (UC) and Urban Infill (UI) Zoning Districts. The note serves to recognize the approval of those uses to be Permitted by Right when structural modifications are not taking place, the use operates indoor, and parking provisions are met.</p> |

### Exhibit J – Retail Gas and Fuel – Standards for Approval

| Part | Article   | Reasons   |
|------|---|---|
| 1.   | ULDC Art. 4.B.2.C.16.d, Additional Standards for Approval | [Zoning] Delete redundant standards previously established for Retail Gas and Fuel uses, which are either redundant to existing Standards regulating site development, or must be demonstrated. Specifically, Art. 2.B.1.B.2, Consistency with the Code; Art. 2.B.1.B.3, Compatibility with Surrounding Uses; and Art. 2.B.1.B.5, Development Patterns, among others, already establish sufficient standards for uses requiring Class A Conditional Use approval. Similar standards would apply for Waivers or subsequent Development Order Amendments. |

**EXHIBIT K – Art. 5.B.1.A, Accessory Uses and Structures General Exceptions**

| Part | Article                         | Reasons  |
|------|---------------------------------|--|
| 1.   | ULDC Art. 5.B.1.A.1.b, Location | <p>[Zoning] The adoption of the 2003 Managed Growth Tier System (MGTS) Code rewrite [Ord. 2003-067] included an additional restriction on the location of accessory structures in front or side street yards. The ULDC definition of “yard” includes “any area that lies between a principal building or buildings and the nearest lot line”, which can be problematic where principal buildings exceed the minimum required setback, thus reducing the amount of land area where additional improvements may be made. While the change clarified that certain types of structures, such as clothes lines, may not be appropriate when placed in the front yard, it also created a number of non-conformities, or otherwise limited options for future renovations or expansion, emphasis on residential uses.</p> <p>As an example, it’s not uncommon for residential lots that back up to desirable open space areas such as the ocean, lakes, golf courses, equestrian trails, or nature preserves, among others, to locate living areas in close proximity to such amenities, as opposed to placement at the street. However, this configuration limits design options for detached accessory structures where prohibited in front “yards”. While less common in South Florida, there are also architectural trends that use multiple buildings connected with courtyards, decks, or walkways, which may not be permitted due to the front or side street yard prohibition. Lastly, there are a number of accessory structures that are commonly or obviously permitted within front or side-street yards, including fences and walls, entry features, as well as cabanas or other accessory structures that serve recreation amenities such as tennis courts, where there are no principal structures.</p> <p>Staff have identified a number of scenarios where accessory structures were permitted within front yards prior to 2003, as well as subsequent applications for variance relief, and determined that in most instances, such improvements were and should be accommodated, subject to minor limitations or standards ensuring compatibility with the surrounding community. Since reduced setbacks for accessory structures only apply in limited instances for side and rear property lines, unless exempt, accessory structures permitted in front and side-street yards would be subject to the same setbacks applicable to principal buildings.</p> <p>See also Exhibit G, Accessory Uses and Structures – Exceptions for Buildings Accessory to Residential</p> |

**EXHIBIT L – Art. 5.B.1.A, Accessory Uses and Structures\ Exceptions for Buildings Accessory to Residential**

| Part | Article                         | Reasons   |
|------|---------------------------------|---|
| 1.   | ULDC Art. 5.B.1.A.1.b, Location | <p>[Zoning] As outlined in Exhibit E, Art. 5.B.1.A., Accessory Uses and Structures – General Exceptions, the adoption of the 2003 Managed Growth Tier System (MGTS) Code rewrite [Ord. 2003-067] included an additional restriction on the location of accessory structures in front or side street yards. The ULDC definition of “yard” includes “any area that lies between a principal building or buildings and the nearest lot line”, which can be problematic where principal buildings exceed the minimum required setback, thus reducing the amount of land area where additional improvements may be made. While the change clarified that certain types of structures, such as clothes lines, may not be appropriate when placed in the front yard, it also created a number of non-conformities, or otherwise limited options for future renovations or expansion, emphasis on residential uses.</p> <p>As an example, it’s not uncommon for residential lots that back up to desirable open space areas such as the ocean, lakes, golf courses, equestrian trails, or nature preserves, among others, to locate living areas in close proximity to such amenities, as opposed to placement at the street. However, this configuration limits design options for detached accessory structures where prohibited in front “yards”. While less common in South Florida, there are also architectural trends that use multiple buildings connected with courtyards, decks, or walkways, which may not be permitted due to the front or side street yard prohibition.</p> <p>Staff have identified a number of scenarios where accessory structures were permitted within front yards prior to 2003, as well as subsequent applications for variance relief, and determined that in most instances, such improvements were and should be accommodated, subject to minor limitations or standards ensuring compatibility with the surrounding community. Since reduced setbacks for accessory structures only apply</p> |

**Exhibit M – Accessory Solar Energy Systems**

| Part | Article                         | Reasons   |
|------|---------------------------------|---|
| 1    | ULDC Art. 5.B.1.A.1.b, Location | [Zoning] Continuation of exceptions to structures in front and side street yards as outlined in Exhibit E, Art. 5.B.1.A., Accessory Uses and Structures – General Exceptions  |
| 2.   | ULDC Art. 5.B.1.A.1.b, Location | <p><b>Reason for Amendment:</b> [Zoning] This amendment serves to memorialize and expand upon the application of existing ULDC provisions that have historically allowed for accessory solar energy systems, to: 1) assist with the County’s SolSmart certification effort being coordinated through the office of the County Climate Change &amp; Sustainability Coordinator; and, 2) a one-time Solar Tree Pilot Project, which Planning and Building collaborated on with Florida Power and Light (FPL) staff, to accommodate a solar tree installation at the FPL West County Energy Center.</p> <p>While the County has long accommodated accessory solar energy systems, most commonly in the form of rooftop solar or pool heating systems for single family homes, the same provisions also allow for similar installations on any other residential or non-residential building, or placement on standalone structures within back yards. This was further clarified in 2014 by an amendment acknowledging that such systems were exempt, for obvious reasons, from screening requirements for mechanical equipment. Similarly, existing provisions regulating height allow for an exception of up to five feet measured from a roof deck, for mechanical equipment, which accommodates the need for solar equipment placement, or movement, to best maximize exposure to the sun. Staff also confirmed in 2014 that there were no standards in Art. 5.C, Architectural Standards that would preclude the use of solar energy systems, including solar energy roofing materials.</p> <p>The County has been approved for participation in the SolSmart Host Advisor Program, which will help to facilitate the County’s effort to attain SolSmart designation, which is achieved through taking action to foster local solar market growth. This designation provides a number of benefits, including job creation, promoting sustainability, reducing greenhouse gases, among numerous other County goals. Notwithstanding existing and prior efforts to accommodate accessory solar energy systems, adding a specific reference will serve to better clarify these longstanding provisions, while furthering the County’s efforts to obtain SolSmart certification.</p> <p>The second component, acknowledges FPL or other similar efforts to promote solar usage, through collocation of accessory solar energy systems in the form of solar trees, which may be designed to provide a secondary function such as shade, public art, or similar. More commonly noted examples of these structures can be found at the FPL Manatee Center. Staff generally supports the solar tree concept, provided that such structures don’t adversely impact required landscaping, much less replace trees, or pedestrian or vehicular movement.</p> |

**EXHIBIT N - Art. 5.B.1.B, Temporary Structures – Portable Storage Containers and Shipping Containers]**

| Part | Article                                 | Reasons   |
|------|---|---|
| 1.   | ULDC Art. 5.B.1.B, Temporary Structures | <p>[Zoning]</p> <ol style="list-style-type: none"> <li>1. Codify new industry trend to allow portable storage containers to be located temporarily on sites with residential uses. Containers are typically used to store household goods to be shipped or while a residential structure is under renovation. This amendment allows the use of one Permitted by Right container. It also establishes regulations to limit its onsite duration to 15 days; and, to dictate the maximum dimensions of the container consistent with the intensity of its intended use, to fit in driveways, and to avoid encroachment into vehicular or pedestrian pathways. A minimum side setback of 7.5 feet is necessary to ensure the structure is not placed too close to an adjacent property.</li> <li>2. Codify PPM ZO-O-066 related to Shipping Containers. The amendment allows the use of shipping containers as temporary structures for contractors to store construction materials on an on-going construction site or building. The structure is proposed to be Permitted by Right, subject to the Building Division requirements.</li> </ol> |

|  |  |  |
|--|--|--|
|  |  | 3. Recognize the use of Shipping Container as a permanent structure for storage purposes or to make it habitable. Clarify that a permanent Shipping Container will be treated like any other permanent structure, subject to Building and Zoning Code regulations. |
|--|--|--|

**EXHIBIT O – Requested Use Reference**

| Part | Article                            | Reasons   |
|------|------------------------------------|---|
| 1.   | ULDC Table 5.G.2.D, Review Process | 1. Delete reference to Requested Use under the Density Bonus Review Process table. Requested Use was consolidated as Conditional Use through the Use Regulations Project. |

**Exhibit P – Art. 6, Parking**

| Part | Article  | Reasons  |
|------|--|--|
| 1.   | Table 2.D.6.B, Summary of Type 1 Waivers                           | [Zoning] Expand the list of Type 1 Waivers related to the reduction of loading spaces to include Type 3 CLF or Nursing Home or Convalescent Facility. See Part 2 below for details. The loading provisions proposed for these uses require one parking space per building which may not be necessary when the buildings are only housing dormitories or incidental services that do not require loading areas.   |
|      | Table 6.A.1.B, Minimum Off-Street Parking and Loading Requirements | <p>1. Amendment the loading space requirements for Congregate Living Facilities (CLF) and Nursing Home or Convalescent Facility as follows:</p> <ul style="list-style-type: none"> <li>• Delete regulations that require CLF or Nursing Home or Convalescent Facility to provide one loading space for each 50 beds for facilities containing 20 or more beds. This requirement may result in an unnecessary number of loading areas, sometimes larger than the number required for some industrial or commercial uses.</li> <li>• Type 3 CLF allows for a higher number of beds based on the FLU designation than Types 1 and 2 since it is for more than 14 occupants. Type 3 CLF as well as Nursing Homes or Convalescent Facility typically require additional services incidental to the use operation which may result in the need of loading areas. This amendment requires one loading space per building mainly to address situations in which the site design places decentralized services in multiple building while allows applicants to apply for Type 1 Waiver. The waiver looks to address cases when can be demonstrated that a building or buildings do not include services or operations that are going to require loading areas.</li> <li>• This amendment continues recognizing that Type 1, 2 and 3 CLFs with less than 20 beds are not subject to the loading requirements.</li> </ul> <p>2. Update references to use classifications correct “Use Type” to “Use Classification” for consistency with recently amended Art. 4, Use Regulations.</p> <p>3. Under the Use Regulations Project, Convenience Store use, and accompanying parking and loading standards, were inadvertently deleted from the minimum off-street parking and loading requirements table. This amendment reinstated this use in Table 6.A.1.B - Minimum Off-Street Parking and Loading Requirements with no proposed modifications.</p> <p>4. Include parking provisions for recently split Financial Institution with Drive Thru Facilities use consistent with the same parking and loading requirements for the Financial Institution Use.</p> <p>5. Update references to use classifications correct “Use Type” to “Use Classification” for consistency with recently amended Art. 4, Use Regulations.</p> <p>6. Clarify parking provisions for the Microbrewery use. This use was recently added to Article 4, Use Regulations and parking provisions to address the processing aspect of the use were overlooked. This amendment clarifies that 1 parking space for every 3 seats is intended to apply to taproom area, while manufacturing areas including packing, distribution or storage, shall be subject to 2 spaces per 1,000 square feet, consistent with the parking provisions for the industrial use Manufacturing and Processing. Note also that accessory office uses are subject to separate parking requirements.</p> <p>7. Relocate and apply same parking provisions for Repair and Maintenance, Self Service Storage, and Vehicle Sales and Rental as they were split uses in Art. 4 through the Use Regulations Project.</p> <p>8. Update references to use classifications correct “Use Type” to “Use Classification” for consistency with recently amended Art. 4, Use Regulations.</p> <p>9. Clarify parking regulations for Electric Distribution Substation as it was split from the Minor Utilities use in Art. 4 by Ord. 2017-007. The parking provisions are the same as in Minor Utility.</p> <p>10. See reason #1 above.</p> |

|    |  |   |
|----|--|---|
| 3. | Art. 6.B.1.D.2, Type 1 Waiver – Reduction of Minimum Number of Required Loading Spaces | [Zoning] Expand applicability of Type 1 Waivers to reduce loading spaces by including Type 3 CLF or Nursing Home or Convalescent Facility. The loading provisions proposed in these uses require one parking space per building which may not be necessary when the buildings are only housing dormitories or incidental services that do not require loading areas. Existing provisions are in place to ensure some criteria is met such as technical data that demonstrates on site loading demand. |
|----|--|---|

**Exhibit Q – Art. 8.F.5, Illumination [Related to Signage]**

| Part | Article  | Reasons   |
|------|--|---|
| 1.   | ULDC Art. 8.F.5, Illumination [Related to Signage] | <p>1. Exempt Electronic Message Signs from Tier based limitations for internally illuminated signage, based on evaluation of existing standards and potential benefit to public versus potential for adverse impacts, including but not limited to:</p> <ul style="list-style-type: none"> <li>• Prohibitions on types of lamps utilized and message movement, and minimum standards for timing and instantaneous message change;</li> <li>• Limitations on the types* of Electronic Message Sign Types permitted; and,</li> <li>• 2014 ULDC updates, based on long term studies, evaluation or regulation of electronic signage, which included: <ul style="list-style-type: none"> <li>✓ Establishment of maximum brightness levels based on ambient light (e.g. daytime, rainy days, nighttime, etc.);</li> <li>✓ Technological advancements and industry trends resulting in more accurate and reliable ambient light sensing technology to ensure that maximum brightness levels aren't exceeded, mitigating adverse glare and minimizing excessive light pollution; and,</li> <li>✓ A default mechanism to shut the sign down in the event of a malfunction or failure.</li> </ul> </li> </ul> <p>This exception is based on current provisions allowing for Electronic Message Signs, and may warrant reconsideration should future amendments be considered.</p> <p>2. Update limits on internally illuminated signage within the Agricultural Reserve (AGR) Tier for commercial properties commensurate with recent amendments to the Comprehensive Plan.</p> <p>This amendment was initiated in response to BCC discussion and direction at the March 23, 2017 BCC Zoning Hearing pertaining to initiation of ULDC Amendment Round 2017-01. The topic was raised at the request of industry representatives for Cobblestone Plaza Multiple Use Planned Development (MUPD), which was requesting and subsequently obtained Variance from the internal illumination requirement relief on April 6, 2017. Note also that the Delray Marketplace Traditional Marketplace Development (TMD) had also previously obtained similar Variance relief as well. While the standards for sign illumination were originally calibrated with assistance from a consultant based on the characteristics of the 2003 Managed Growth Tier System (MGTS), recent amendments to the Comprehensive Plan to allow for additional commercial development and use of the MUPD district, merits re-evaluation. Factors considered, include:</p> <ul style="list-style-type: none"> <li>• In addition to allowing additional commercial, the MUPD district allows for broader use of freestanding signs than was originally anticipated within the Tier under the previous TMD limitation;</li> <li>• Consideration that additional commercial development within the Tier will likely be limited to specific high traffic corridors within the Tier, where improved sign illumination may be warranted; and,</li> <li>• Expanding the current options for external or silhouette lighting for signage under the proposed commercial limitation may not significantly alter the original aesthetic vision for the Tier, nor efforts to control light pollution.</li> </ul> |

**Exhibit R – Art. 8.G.3.B, Electronic Message Signs**

| Part | Article                                     | Reasons  |
|------|---|--|
| 1.   | ULDC Art. 8.G.3.B, Electronic Message Signs | <ol style="list-style-type: none"> <li>1. Sunset the Electronic Changeable Copy Message Sign PRA Pilot Program pursuant to BCC discussion and direction at the March 23, 2017 BCC Zoning Hearing, pertaining to the Zoning Director update on the status of the PRA Pilot Program. The discussion affirmed ensuring that any signs approved during the timeframe the Pilot Program was in effect, would be considered conforming. Eligible signs will still be subject to the original standards for placement in the event of an application to relocate such signage, or the critical operational standards, which serve to mitigate any potential for adverse impacts.</li> <li>2. Streamline and simplify the evaluation and approval requirements for Type I Electronic Message Signs by consolidating requirements that the BCC make specific findings, with other Standards required to be considered as part of the Class A Conditional Use (BCC approval) process.</li> </ol> |

**EXHIBIT S – Department of Airports Chapter 333, Florida Statutes Update**

| Part | Article                                  | Reasons  |
|------|--|--|
| 1.   | ULDC Art. 1.F.3, Nonconforming Structure | <p>[Airports]</p> <p>Changes made in 2016 to Chapter 333, Florida Statutes (FS), Airport Zoning requires amendments to Article 16, with related amendments to Articles 1, 2 and 4, to be consistent with the recent statutory changes. An overview of the specific changes includes:</p> <ol style="list-style-type: none"> <li>1. Chapter 333 speaks to airport “obstructions” and “hazards”, which include not only permanent and temporary structures but other tall objects or terrain.</li> <li>2. Updates to reference most current related documents.</li> <li>3. Establishes an amended height review procedure to comply with Chapter 333.07.</li> <li>4. Amendments to more clearly reference provisions within the ULDC or in other regulating documents.</li> </ol> <p>Due to the recent (July 1, 2016) amendment of Chapter 333, Florida Statutes (F.S.), Airport Zoning, there have been changes to the statute with regard to the following:</p> <ol style="list-style-type: none"> <li>1) statutory requirement for political subdivisions to provide a copy of airport zoning permit applications to the Aviation and Spaceport Office (ASO) for review;</li> <li>2) statutory requirement for political subdivisions to provide a copy of amended airport zoning regulations to the ASO upon adoption;</li> <li>and 3) the statutory requirement to enter into either an interlocal agreement or joint zoning board when one of two or more political subdivisions have land which underlies a Part 77 airport surface of an adjacent airport owned by another political subdivision.</li> </ol> <p>These amendments are a result of a legislative action that occurred in July 2016. Specifically, House Bill 7061 contained several FDOT related statutes that included revisions to Florida Statutes Chapter 333, Airport Zoning, including but not limited to the following:</p> <ul style="list-style-type: none"> <li>• 333.135(1) Any political subdivision having an airport within its territorial limits which has not adopted airport zoning regulations shall, by July 1, 2017, adopt airport zoning regulations consistent with this chapter.</li> <li>• 333.135(2) Any airport zoning regulation in effect on July 1, 2016, which includes provisions in conflict with this chapter shall be amended to conform to the requirements of this chapter by July 1, 2017.</li> </ul> <p>Palm Beach County already has Airport Zoning Regulations adopted in the Unified Land Development Code, specifically within Article 16. Therefore, to comply with 333.135(2) these amendments are proposed to conform to the amended requirements.</p> <p>Other minor amendments to terminology and references are also being updated as part of these amendments for consistency within the ULDC.</p> |

|    |                                   |  |
|----|-----------------------------------|--|
|    |                                   | <p>[Airports]</p> <ol style="list-style-type: none"> <li>1. This amendment clarifies that structures and other obstructions are reviewed as Nonconforming structures.</li> <li>2. This amendment clearly specifies which regulated areas are exempt from these requirements</li> <li>3. This amendment proposes terminology consistent with the definition of substantial modification.</li> </ol>   |
|    |                                   | <p>[Airports]</p> <p>This amendment clarifies the discontinuance of a use, and the terminology proposed is consistent with similar provisions</p>  |
|    |                                   | <p>[Airports]</p> <p>This amendment is proposed to be consistent with the definition of substantial modification and the thresholds identified in Chapter 333. This amendment also addresses the total value of improvements as referenced elsewhere in Art. 1. As Chapter 333 establishes a threshold of 50% for improvement costs, the stepped thresholds of 50% and 80% currently referenced in the code are no longer applicable.</p>  |
|    |                                   | <p>[Airports]</p> <p>This amendment is proposed to clearly reference supporting provisions in the ULDC.</p>  |
| 2. | ULDC Art. 1.I. 2 Definitions      | <p>[Airports/Zoning]</p> <ol style="list-style-type: none"> <li>1. The proposed amendments include new and amended definitions related to Art. 16 Airport Zoning and are being incorporated or amended into Art. 1 to be consistent with definitions in Chapter 333, Florida Statutes, Airport Zoning.</li> <li>2. To delete definitions already addressed in Art. 4 as part of the Use Regulations Project.</li> </ol>  |
|    |                                   | <p>[Airports/Zoning]</p> <p>This amendment allows for the deletion of this definition from Article 1. The definition was instated in Article 4 as part of the Use Regulations Project.</p>   |
|    |                                   | <p>[Airports/Zoning]</p> <p>The proposed amendment includes an amended definition related to Art. 16 Airport Zoning and is being proposed to be consistent with definitions in Chapter 333, Florida Statutes, Airport Zoning.</p>  |
| 3. | ULDC Art.2.B.3, Type II Variance  | <p>[Airports]</p> <p>This amendment removes the opportunity to seek an Airport Variance due to amendments in Chapter 333 where the legislature removed the variance provisions.</p>  |
| 4. | ULDC Art. 3.D.1, Building Height  | <p>[Airports]</p> <p>To be consistent with revised terminology used Article 16.</p>  |
| 5. | ULDC Art. 4.B, Use Classification | <ol style="list-style-type: none"> <li>1. To be consistent with revised terminology used Article 16 for Airport Land Use Compatibility Zoning.</li> <li>2. To be consistent with the regulations in Chapter 333.03, Florida Statutes for locational criteria for restricted uses.</li> <li>3. To be consistent with the PBIAO</li> </ol>   |
|    |                                   | <p>[Airports/Zoning]</p> <p>Prohibition of this use is only restricted to the Palm Beach International Airport Overlay (PBIAO) as identified in Art. 3.B.9.</p>  |
|    |                                   | <p>[Airports/Zoning]</p> <p>Reference to Vertiport included in the definition as the term is used in Article 16.</p>   |
| 6. | ULDC Art.16, Airport Zoning       | <p>[Airports]</p> <p>Changes made in 2016 to Chapter 333, Florida Statutes (FS), Airport Zoning requires amendments to Article 16, with related amendments to Articles 1, 2 and 4, to be consistent with the recent statutory changes. An overview of the specific changes includes:</p> <ol style="list-style-type: none"> <li>1. Chapter 333 speaks to airport “obstructions” and “hazards”, which include not only permanent and temporary structures but other tall objects or terrain.</li> <li>2. Updates to reference most current related documents.</li> <li>3. Establishes an amended height review procedure to comply with Chapter 333.07.</li> </ol> <p>Amendments to more clearly reference provisions within the ULDC or in other regulating documents.</p> |
|    |                                   | <p>[Airports]</p> <p>This amendment clearly indicates that there are supporting Maps and Schedules that identify specific areas, zones and uses that are referenced in Art. 16, and that these Maps and other documents may be obtained from the Department of Airports.</p>   |

|  |  |
|--|--|
|  | <p>[Airports]<br/>This amendment reflects the terminology used in Chapter 333 Florida Statutes, Airport Zoning for Airport Hazards, and to amend references to be consistent with airports obstructions and hazards as identified therein.</p>   |
|  | <p>[Airports]<br/>The amendments to Tables E-1, G-2 and G-3 are being made due to changes to the runway numbering recently implemented. These amendments also included changes to the dimensions of the RPZ.</p>   |
|  | <ol style="list-style-type: none"> <li>1. Amendments to Chapter 333.07 require the local government to permit airspace obstructions. These amendments provide for a procedure for the Department of Airports to review for obstructions through the Development Review Officer and Building Permit processes. The Department of Airports is already integrated into these processes as a member of the DRO and a reviewing agency through the Building Department. The amended provisions outline the process by which obstructions will be reviewed by the FAA, Department of Airports and FDOT.</li> <li>2. References to Tall Structure Permit review is being removed as it will be replaced by the Permit for Obstruction review that will be accomplished through the DRO and/or Building Permit processes.</li> </ol> |
|  | <p>[Airports]<br/>This amendment reflects terminology referenced in Chapter 333, Florida Statutes for determining incompatible uses on properties surrounding airports.</p>  |
|  | <p>[Airports]<br/>This amendment establishes a procedure for review of land uses in proximity to Airports to comply with Chapter 333.03(2). This amendment provides for a procedure for the Department of Airports to review land use compatibility through the Development Review Officer and Building Permit processes. The Department of Airports is already integrated into these processes as a member of the DRO and a reviewing agency through the building Department.</p>   |
|  | <p>[Airports]<br/>This amendment references the prohibited uses by the naming convention used in Art. 4 - Use Regulations.</p>   |
|  | <p>[Airports]<br/>This amendment identifies Landfills as a restricted use in Chapter 333.03(2)(a).</p>   |
|  | <p>[Airports]<br/>This amendment removes the opportunity to seek a Variance due to amendments in Chapter 333 where the legislature removed the variance provisions.</p>  |
|  | <p>[Airports]<br/>This amendment reflects the process by which airport signage is currently reviewed and implemented</p>   |
|  | <p>[Airports]<br/>This amendment references where Maps and other documents are available and to correct reference numbers.</p>   |

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF PALM BEACH COUNTY, FLORIDA, AMENDING THE UNIFIED LAND DEVELOPMENT CODE, ORDINANCE 2003-067, AS AMENDED, AS FOLLOWS: **ARTICLE 1 – GENERAL PROVISIONS:** CHAPTER C, RULES OF CONSTRUCTION AND MEASUREMENT; CHAPTER F, NONCONFORMITIES; CHAPTER I, DEFINITIONS & ACRONYMS; **ARTICLE 2 – DEVELOPMENT REVIEW PROCEDURES:** CHAPTER A, GENERAL; CHAPTER B, PUBLIC HEARING PROCESS; CHAPTER D, ADMINISTRATIVE PROCESS; CHAPTER G, EMINENT DOMAIN; **ARTICLE 3 – OVERLAYS AND ZONING DISTRICTS:** CHAPTER A, GENERAL; CHAPTER B, OVERLAYS; CHAPTER D, PROPERTY DEVELOPMENT REGULATIONS (PDRs); CHAPTER E, PLANNED DEVELOPMENT DISTRICTS (PDDs); CHAPTER F, TRADITIONAL DEVELOPMENT DISTRICTS (TDD's); **ARTICLE 4 – USE REGULATIONS:** CHAPTER A, USE CLASSIFICATION; CHAPTER B, SUPPLEMENTARY USE STANDARDS; **ARTICLE 5 – SUPPLEMENTARY STANDARDS:** CHAPTER B, ACCESSORY AND TEMPORARY USES; CHAPTER C, DESIGN STANDARDS; CHAPTER E, PERFORMANCE STANDARDS; CHAPTER G, DENSITY BONUS PROGRAMS; **ARTICLE 6 – PARKING:** CHAPTER A, PARKING; CHAPTER B, LOADING STANDARDS; **ARTICLE 7 – LANDSCAPING:** CHAPTER C, MGTS TIER COMPLIANCE; **ARTICLE 8 – SIGNAGE:** CHAPTER D, TEMPORARY SIGNS REQUIRING SPECIAL PERMIT; CHAPTER F, GENERAL PROVISIONS FOR ALL SIGN TYPES; CHAPTER G, STANDARDS FOR SPECIFIC SIGN TYPES; CHAPTER H, OFF-SITE SIGNS; CHAPTER I, ADMINISTRATION AND ENFORCEMENT; **ARTICLE 16 – AIRPORT REGULATIONS:** CHAPTER A, GENERAL; CHAPTER B, AIRSPACE HEIGHT REGULATIONS; CHAPTER C, AIRPORT LAND USE REGULATIONS; PROVIDING FOR: INTERPRETATION OF CAPTIONS; REPEAL OF LAWS IN CONFLICT; SEVERABILITY; A SAVINGS CLAUSE; INCLUSION IN THE UNIFIED LAND DEVELOPMENT CODE; AND, AN EFFECTIVE DATE.

**WHEREAS**, Section 163.3202, Florida Statutes, mandates the County compile Land Development Regulations consistent with its Comprehensive Plan into a single Land Development Code; and

**WHEREAS**, pursuant to this statute the Palm Beach County Board of County Commissioners (BCC) adopted the Unified Land Development Code (ULDC), Ordinance 2003-067, as amended from time to time; and

**WHEREAS**, the BCC has determined that the proposed amendments further a legitimate public purpose; and

**WHEREAS**, the Land Development Regulation Commission has found these amendments to the ULDC to be consistent with the Palm Beach County Comprehensive Plan; and

**WHEREAS**, the BCC hereby elects to conduct its public hearings on this Ordinance at 9:30 a.m.; and

**WHEREAS**, the BCC has conducted public hearings to consider these amendments to the ULDC in a manner consistent with the requirements set forth in Section 125.66, Florida Statutes.

**NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF PALM BEACH COUNTY, FLORIDA, as follows:**

1           **Section 1. Adoption**

2           The amendments set forth in Exhibits listed below, attached hereto and made a part  
3 hereof, are hereby adopted.

- 4           ▪ Exhibit A - Art. 1.C.1, Rules of Construction - Rounding of Fractions
- 5           ▪ Exhibit B - Mobile Home Owner Disclosure Requirements to Potential Buyers
- 6           ▪ Exhibit C - Administrative Approvals-Unmanned Retail Structures
- 7           ▪ Exhibit D - Art. 2.G.3.A.3, Board Membership
- 8           ▪ Exhibit E - Art. 3, Planned Development Districts
- 9           ▪ Exhibit F - Art. 3.B.14.F, Property Development Regulations [Related to WCRAO]
- 10          ▪ Exhibit G - Lifestyle Commercial Center LCC
- 11          ▪ Exhibit H - Art. 4, Use Regulations
- 12          ▪ Exhibit I - Art. 4.B, Use Classification [Related to URAO]

27           **Section 2. Interpretation of Captions**

28           All headings of articles, sections, paragraphs, and sub-paragraphs used in this  
29 Ordinance are intended for the convenience of usage only and have no effect on interpretation.

30  
31           **Section 3. Repeal of Laws in Conflict**

32           All local laws and ordinances in conflict with any provisions of this Ordinance are hereby  
33 repealed to the extent of such conflict.

34  
35           **Section 4. Severability**

36           If any section, paragraph, sentence, clause, phrase, word, map, diagram, or any other  
37 item contained in this Ordinance is for any reason held by the Court to be unconstitutional,  
38 inoperative, void, or otherwise invalid, such holding shall not affect the remainder of this  
39 Ordinance.

40  
41           **Section 5. Savings Clause**

42           All development orders, permits, enforcement orders, ongoing enforcement actions, and  
43 all other actions of the Board of County Commissioners, the Zoning Commission, the  
44 Development Review Officer, Enforcement Boards, all other County decision-making and  
45 advisory boards, Special Masters, Hearing Officers, and all other County officials, issued  
46 pursuant to the regulations and procedures established prior to the effective date of this  
47 Ordinance shall remain in full force and effect.

## ART. 1.C.1, RULES OF CONSTRUCTION [ROUNDING OF FRACTIONS] SUMMARY OF AMENDMENTS (Updated 5/11/17)

1  
2 Part 1. ULDC Art. 1.C.1.A.2, Interpretation and Application (pages 7 - 8 of 110), is hereby  
3 amended as follows:  
4

### 5 ARTICLE 1 GENERAL PROVISIONS

#### 6 CHAPTER C RULES OF CONSTRUCTION AND MEASUREMENT

##### 7 Section 1 Rules of Construction

8 The rules set out in this Section shall be used to enforce and apply this code, unless such rules are  
9 inconsistent with the Plan. References to Florida Statutes (F.S.) and the Florida Administrative Code  
10 (F.A.C.) refer to citations published in 2003 as may be amended.

##### 11 A. General

##### 12 1. Rules and Definitions

13 The rules and definitions set out in this Section shall not be applied to any express provision,  
14 which are specifically excluded. This Code shall be liberally construed in order that the intent  
15 of the Plan may be fully carried out. In cases of conflict, the Plan shall prevail to the extent of  
16 the conflict. Terms used in this Code, unless otherwise stated, shall have the meanings  
17 prescribed by the statutes of the State of Florida for the same terms.

##### 18 2. Interpretation and Application

19 The interpretation and application of any provision in this Code shall be the minimum required  
20 to promote the public health, safety, comfort, convenience and general welfare. Where  
21 interpretation and application of any provision in this Code imposes greater restrictions upon  
22 the subject matter than a general provision imposed by the Plan or other provision in this Code,  
23 the provision imposing the greater restriction shall control.

24 ....

##### 25 r. Rounding of Fractions

26 Rounding may be permitted for itemized requirements such as minimum parking spaces,  
27 trees, shrubs or other similar required by this Code, as well as linear or area dimensions,  
28 except that PDRs for minimum lot dimensions may only be rounded for legal lots of record,  
29 and rounding shall not apply to density. Rounding shall not be permitted for any build to  
30 lines, maximum height limitations, or any measurement used to calculate a number. The  
31 results of calculations containing a fraction of 0.5 or greater, shall be rounded up to the  
32 nearest whole number; and, a fraction of less than 0.5 shall be rounded down to the nearest  
33 whole number.

34 [ReNUMBER accordingly]

MOBILE HOME OWNER DISCLOSURE REQUIREMENTS TO POTENTIAL BUYERS SUMMARY OF AMENDMENTS (Updated 05/16/17)

Part 1. ULDC Art. 2.A.1.J, Notification (pages 17 of 18), is hereby amended as follows:

ARTICLE 2 DEVELOPMENT REVIEW PROCEDURES

CHAPTER A GENERAL

Section 1 Applicability

J. Notification

1. Applicability

Applications subject to Public Hearing or Type 1B Variance processes, corrective resolutions, or Administrative Inquiries, or any application that will result in the redevelopment of an existing occupied mobile home park, shall require notification to the public, in accordance with the following table: [Ord. 2011-016] [Ord. 2015-031] [Ord. 2017-002]

Table 2.A.1.J – Notification Applicability

Table with 4 columns: Process, Newspaper Publication, Courtesy Notice, Signs. Row 1: Redevelopment of Mobile Home Parks, N/A, N/A, Yes (4). Includes notes section with 4 numbered items.

4. Signs

c. Additional Sign Notification Requirements for Redevelopment of Mobile Home Parks

The purpose of this Section is to provide additional notice to a prospective purchaser of a mobile home in a mobile home park that has either applied for or received an approval to redevelop the property, potentially to another use. Should a person decide to purchase any mobile home in this park, he or she may be required to bear the cost of removing the mobile home to another suitable location. An application for a DO that will result in the redevelopment of an existing occupied mobile home park, shall be subject to the following additional notification requirements:

1) Standards for Notification

In addition to the sign requirements above, the following additional requirements shall apply:

- a) The applicant shall post signs within 30 days of an application being deemed sufficient.
b) Signs shall be prepared by the applicant using information provided by the Zoning Division, consistent with the requirements of the Zoning Technical Manual, and at a minimum shall be posted in English, Creole and Spanish, to include the following specific text: "This mobile home park has applied for or has received an approval to redevelop the property, potentially to another use. Should you decide to purchase any mobile home in this park, you may be required to bear the cost of removing the mobile home to another suitable location".
c) One sign shall be posted for each 250 feet of frontage, evenly spaced, along a street up to a maximum of 5 signs, and where applicable at the entrance to any park management offices and recreational facilities.
d) Signs shall remain posted until such time as the application is approved, denied or withdrawn.

2) Standards Applicable to Redevelopment Approvals

Upon approval, the above public information signs shall be updated and reposted in accordance with the following:

- a) The signs shall be posted within 30 days of a zoning application approval, in accordance with the information above, including number, spacing, location and language, to include the following text: "This mobile home park has been approved for (specific use). Should you decide to purchase any mobile home in this park,

# MOBILE HOME OWNER DISCLOSURE REQUIREMENTS TO POTENTIAL BUYERS SUMMARY OF AMENDMENTS (Updated 05/16/17)

1                   you may be required to bear the cost of removing the mobile home to another  
2                   suitable location”.

3                   b) The signs shall be maintained until such time as all mobile home units within the  
4                   affected development area have been removed from the park, or the approval is  
5                   abandoned.

### 6                   **3) Compliance with Notice Requirement**

7                   The owner of the mobile home park shall be required to submit the form Affidavit of  
8                   Installation of Notification Signs substantiating that such signage is consistently being  
9                   maintained, on a quarterly basis, as follows:

10                   a) To the Zoning Division, for signs required under 1 above; and,

11                   b) To the Monitoring and Compliance Section of the Planning Division, for signs  
12                   required under 2 above.

13

## ADMINISTRATIVE APPROVALS UNMANNED RETAIL STRUCTURES SUMMARY OF AMENDMENTS

(Updated 3/13/17)

1  
2 Part 1. ULDC Art. 2.D.1.G.1, Modifications to BCC or ZC Approvals (pages 39-40 of 87), is hereby  
3 amended as follows:  
4

### 5 ARTICLE 2, DEVELOPMENT REVIEW PROCEDURES

#### 6 CHAPTER D ADMINISTRATIVE PROCESS

#### 7 Section 1 Development Review Officer (DRO)

#### 8 G. Modifications to Prior Development Orders

##### 9 1. Modifications to BCC or ZC Approvals

10 The DRO shall have the authority to approve modifications to a Development Order approved  
11 by the BCC or ZC. An application for an amendment shall be submitted in accordance with  
12 Article 2.A.1, Applicability, and reviewed in accordance with the standards in Article 2.D.1.C,  
13 Review Procedures. Applications must be submitted on deadlines established on the Zoning  
14 Calendar. The authority of the DRO to modify a BCC or ZC approved plan shall be limited to  
15 the following: [Ord. 2008-003] [Ord. 2010-005] [Ord. 2010-022] [Ord. 2011-001]  
16

17 i. Add new or amend existing Freestanding ATMs, or Unmanned Retail Structure. [Ord.  
18 2013-021]  
19

##### 20 2. Administrative Modifications

###### 21 a. Purpose

22 To establish procedures to allow for approvals of specific minor corrections, additions and  
23 amendments to Final Plans approved by the BCC, ZC or DRO. [Ord. 2007-001] [Ord.  
24 2014-001] [Ord. 2015-006] [Ord. 2016-016]

###### 25 b. Agency Review

26 Agency Review is for applications that require amendment(s) to existing approved plan(s).  
27 This type of application requires review, comments, and conditions by a maximum of five  
28 DRO Agencies. The DRO shall determine which Agencies are required to review the  
29 amendment based upon the request and compliance with County Ordinances. The Zoning  
30 Director shall maintain PPM Z0-0-29, Administrative Modifications to Approved Site Plans,  
31 outlining a list of minor amendments and establishing items that are exempt from the  
32 Administrative Modifications process. Amendments include the following, provided Art.  
33 2.D.1.G.1, Modifications to BCC/ZC Approvals, requirements are not exceeded: [Ord.  
34 2008-003] [Ord. 2011-001] [Ord. 2014-001] [Ord. 2015-006] [Ord. 2016-016]  
35

36 9) Proposed or relocated guard houses; ~~and~~, [Ord. 2014-001] [Ord. 2015-031]

37 10) PUD informational signs; ~~and~~, [Ord. 2015-031]

38 11) Add new or amend existing Freestanding ATMs, or Unmanned Retail Structure.  
39

## ARTICLE 3.E, PLANNED DEVELOPMENT DISTRICTS SUMMARY OF AMENDMENTS

(Updated 04/21/17)

1 ....

2  
3  
4 Part 2. ULDC Art. 3.E.4, Mixed Use Planned Development (MXPDP) (page 163 of 215), is hereby  
5 amended as follows:

6 CHAPTER E PLANNED DEVELOPMENT DISTRICTS (PDDS)

7 Section 4 Mixed Use Planned Development (MXPDP)

8 A. General

9 1. Purpose and Intent

10 The purpose and intent of the MXPDP district is to provide for the compatible development and  
11 integration of residential and non-residential uses into a unified development with enlightened  
12 and imaginative approaches to community planning, including: **[Ord. 2007-001]**

- 13 a. the use of vertical or horizontal integration with residential and non-residential uses;  
14 b. the selection of land uses which allows for ~~internal automobile trip capture and~~ compatibility  
15 with residential uses;

16 ....

17 B. Objectives and Standards

18 1. Design Objectives

19 An MXPDP shall comply with the following objectives:

- 20 a. Provide ~~for the~~ vertical ~~and/or~~ horizontal integration of residential and non-residential uses;  
21 b. Provide a continuous non-vehicular circulation system for pedestrians;  
22 c. Allow for innovative building design and orientation;  
23 d. Provide for interconnection between all uses in and adjacent to the project; and,  
24 ~~e. Demonstrate the ability to achieve an internal trip capture concurrent with the build-out of~~  
25 ~~the project see Article 3.E.4.B.2.e, Transportation Program; and~~  
26 ef. Provide recreational opportunities for the residential population of the MXPDP.

27 2. Performance Standards

28 An MXPDP shall comply with the following standards:

29 ....

30 ~~e. Transportation Program~~

31 ~~The applicant shall provide a traffic study demonstrating the ability of the MXPDP to achieve~~  
32 ~~a significant (ten percent) internal trip capture rate concurrent with the build-out of the~~  
33 ~~project.~~

34 **[Renumber accordingly]**

### Notes:

| <b>Notes:</b>  |    |   |     |     |     |    |            |
| <del>5. Width may be reduced by 50 percent for buildings with a building frontage less than 80 feet in length along the build to line. [Ord. 2006-004] [Ord. 2010-022] [Re-number Accordingly]</del><br>9. Minimum frontage shall only apply to the front build to line, <u>and may be reduced in accordance with Art. 3.B.14.F.2.b.1)(a), Exception. [Ord. 2015-031]</u><br><del>10. Dimensions for Plazas and Squares shall be met when applied as an exception to Build to Line in accordance with Art. 3.B.14.F.2.a, Build to Line. [Ord. 2017-002] [Relocated to Art. 3.B.14.F.2.a.1)(d) under Build to Line General Exceptions, below]</del> |    |   |     |     |     |    |            |

#### 2. Build to Line and Frontages

##### a. Build to Line

~~The build to line may be adjusted by the DRO, or at Building Permit review for projects Permitted by Right, to accommodate requirements such as increased R-O-W buffers due to location of existing utility easements, or required corner clips.~~ The first three floors of all main structures, excluding parking garages, shall be constructed at the build to line, unless specified otherwise. ~~An additional ten or 12 foot setback is permitted where a gallery is used in lieu of an arcade. Up to 25 percent of the building frontage or footprint that is required to be on the build to line may be either setback or projected beyond the build to line to accommodate requirements for balconies, stoops, porches, or other architectural features designed to enhance the pedestrian streetscape environment, provided that ground floor improvements do not conflict with the placement of street trees. Recesses and projections of the building façade up to a maximum of three feet shall be permitted.~~ Maximum encroachments for balconies, and entryways shall comply with Table 3.B.14.G – WCRAO Supplementary Standards by Sub-Area. **[Ord. 2006-004] [Ord. 2011-001]**

##### 1) General Exceptions

The following exceptions to the build to line shall be permitted by right:

- (a) An additional ten or 12 foot setback is permitted where a gallery is used in lieu of an arcade.
- (b) Up to 25 percent of the building frontage or footprint that is required to be on the build to line may be either setback or projected beyond the build to line to accommodate requirements for balconies, stoops, porches, or other architectural features designed to enhance the pedestrian streetscape environment, provided that ground floor improvements do not conflict with the placement of street trees.
- (c) Recesses and projections of the building façade up to a maximum of three feet.
- (d) Plazas and squares are optional. References to such shall not be misconstrued as a requirement, except that dimensions for Plazas and Squares shall be met when applied as an exception to Build to Line in accordance with Art. 3.B.14.F.2.a, Build to Line. [Ord. 2017-002] [Relocated from Table 3.B.14.F - WCRAO Sub-area PDRs note 10, above]

##### 2) R-O-W/Easement Exception

#### Notes:

- Underlined indicates new text.
- ~~Stricken~~ indicates text to be ~~deleted~~. If being relocated, or partially relocated, destination is noted in bolded brackets **[Relocated to: ]** or **[Partially relocated to: ]**.
- *Italicized* indicates relocated text. Source is noted in bolded brackets **[Relocated from: ]**.
- .... A series of four bolded ellipses indicates language omitted to save space.

# EXHIBIT F

## ART. 3.B.14.F, PROPERTY DEVELOPMENT REGULATIONS [RELATED TO WCRAO] SUMMARY OF AMENDMENTS (Updated 6/7/17)

The build to line may be adjusted by the DRO where a site plan is required, or at Building Permit review for projects Permitted by Right, to accommodate requirements such as increased R-O-W buffers due to location of existing utility easements, or required corner clips.

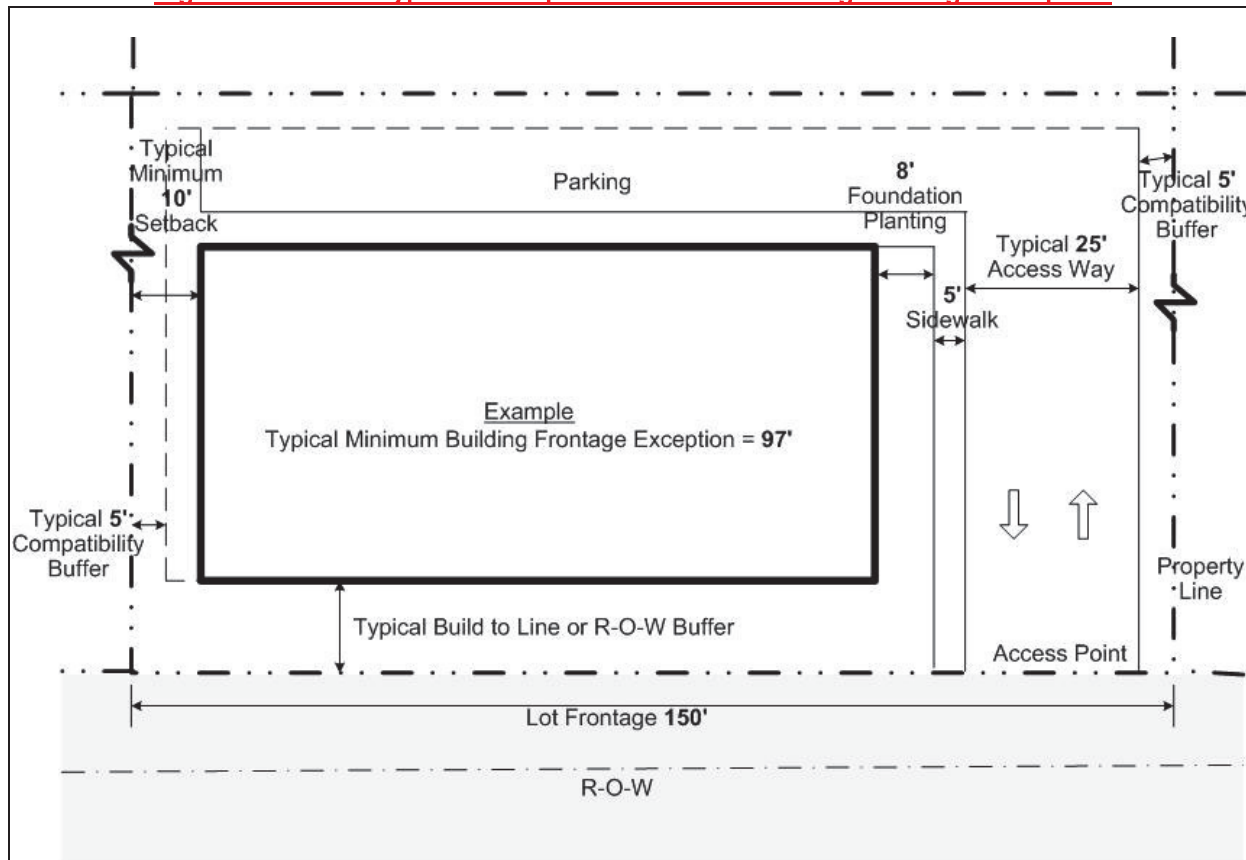

**b. Minimum Building Frontage**

1) The minimum building frontage shall be in accordance with the requirements for each Sub-area and Figure 3.B.14.F, WCRAO Sub-area Building Configurations and Lot Placements. The portion of the structure required to meet the building frontage shall be located on the build to line unless otherwise stated. ~~Frontage requirements may be reduced for lots with no rear access to required parking, or to accommodate a drive aisle to the rear of the lot and required landscaping.~~ [Ord. 2006-004] [Ord. 2010-022] [Ord. 2011-001] [Ord. 2015-031]

**(a) Minimum Building Frontage Small Lot Exception**

This provision is established for lots that only have frontage on one street, or where side or rear access to required parking is unobtainable, or where a narrow lot with side or rear access cannot meet minimum building frontage and setback requirements. The minimum building frontage may be reduced, provided that the reduction shall be the minimum necessary to accommodate required side setbacks, perimeter buffers, foundation planting areas and a maximum of one vehicular access point for required parking, as well as any pedestrian sidewalk up to five feet in width.

**Figure 3.B.14.F – Typical Example of Minimum Building Frontage Exception**

Typical example of how Minimum Building Frontage Exception is calculated:

- Lot frontage = 150'
- Neighborhood Commercial (NC) Sub-area requires a minimum 80 percent Building Frontage per Table 3.B.14.F, WCRAO Sub-area PDRs.
- 150' x 80% = Minimum Building Frontage of 120' required.
- If no side or rear access, Minimum Building Frontage may be reduced to accommodate the following ULDC requirements: 10' Side Setback (includes typical 5' Compatibility Buffer); 8' side Foundation Planting area; 5' foot sidewalk; 25' Access Way; and, typical 5' Compatibility Buffer.
- Reduction is taken from Lot Frontage: 150' - (10' + 8' + 5' + 25' + 5') = Minimum Building Frontage of 97'.

[Ord. 2017-xxx]

## LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

1  
2 Part 1. ULDC Art. 1.1.2, Definitions (pages 30, 85, 102 and 117 of 119), is hereby amended as  
3 follows:  
4

Reason for amendments: [Zoning] See General Reason for Amendment above.

### 5 CHAPTER I DEFINITIONS AND ACRONYMS

#### 6 Section 2 Definitions

7 A. Terms defined herein or referenced in this Article shall have the following meanings:

8  
9 ~~7. **Access, Primary** for the purposes of a Lifestyle Commercial Center, a primary access shall~~  
10 ~~be from an arterial street. If a development fronts two arterial streets, the primary access shall~~  
11 ~~have the largest ADT as determined by the County Engineer. [Ord. 2010-005]~~  
12

13 B. Terms defined herein or referenced Article shall have the following meanings:

14  
15 49. **Build-to-Line** - an alignment establishing a certain location for a building from either the R-O-  
16 W for a public street or the curb line along internal streets for a TMD, TND Neighborhood  
17 Center, ~~LCC~~, WCRAO, IRO or PRA project. [Ord. 2010-005] [Ord. 2010-022]  
18

19 L. Terms defined herein or referenced Article shall have the following meanings:

20 59. **Lot Frontage** -

21  
22 b. For the purposes of TDD, WCRAO, IRO, ~~LCC~~ or PRA projects where a build-to-line is  
23 required, and vehicular access may be from the side or rear of the property, the property  
24 line used to meet the build-to-line requirements shall be the lot frontage. [Ord. 2006-004]  
25 [Ord. 2010-005] [Ord. 2010-022]  
26

27 P. Terms defined herein or referenced Article shall have the following meanings:

28  
29 41. **Planned Development, District (PDD)** - a zoning district which is approved pursuant to the  
30 policies and procedures of Art. 3.E, Planned Development Districts of this Code including: PUD,  
31 Residential Planned Unit Development District; MXPDP, Mixed-Use Planned Development  
32 District; MUPDP, Multiple Use Planned Development District; PIPDP, Planned Industrial Park  
33 Development District; MHPDP, Mobile Home Park Planned Development District; and, RVPDP,  
34 Recreational Vehicle Park Planned Development District; ~~and LCC, Lifestyle Commercial~~  
35 ~~Center~~. [Ord. 2010-005]  
36

37 S. Terms defined herein or referenced Article shall have the following meanings:

38  
39 ~~99. **Street, Main** for the purposes of a Lifestyle Commercial Center, a street consisting of~~  
40 ~~buildings located on both sides with on-street parking; sidewalks for pedestrian circulation with~~  
41 ~~provisions for streetscape; usable open spaces, and buildings with a variety of heights and~~  
42 ~~sizes characterized by distinctive architectural elements. [Ord. 2010-005]~~  
43

44 105. **Streetscape** – For the purposes of the IRO, WCRAO, PRAs, ~~LCC~~ and TDDs, the visual  
45 elements of a street, adjoining buildings, street furniture, trees, pedestrian areas and open  
46 spaces, that combine to form the street's character. [Ord. 2010-005] [Ord. 2010-022]  
47  
48  
49

50 Part 2. ULDC Art. 2, Development Review Procedures (pages 12 and 46 of 87), is hereby  
51 amended as follows:

### 52 CHAPTER A GENERAL

#### 53 Section 1 Applicability

54  
55 E. Pre-Application Conference (PAC)

56  
57 1. **Plan Review**

58 The applicant shall specify in the application whether the PAC is requested for a conceptual  
59 plan review. A conceptual master plan shall be required for the Infill Redevelopment Overlay

#### Notes:

### LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

~~All residential units shall be vertically or horizontally integrated. The minimum required density shall be determined as a percentage of maximum density indicated in Table 3.E.1.B, PUD Density, as follows: [Ord. 2010-005]~~

~~1) Sites with Future Land Use designations of LR-2 or lower shall provide, at a minimum, 50 percent of the maximum PUD density; or [Ord. 2010-005]~~

~~2) Sites with an LR-3 Future Land Use designation shall provide, at a minimum, 33 percent of the maximum PUD density; or [Ord. 2010-005]~~

~~3) Sites with Future Land Use designations of MR-5 or higher shall provide, at a minimum, 20 percent of the maximum PUD density. [Ord. 2010-005]~~

~~Minimum workforce housing units shall be calculated in accordance with Art. 5.G.1, Workforce Housing Program. [Ord. 2010-005]~~

Part 7. ULDC Art. 3.E.1.D.1, Pre-Application Conference (pages 137 of 234), is hereby deleted:

#### CHAPTER E PLANNED DEVELOPMENT DISTRICTS (PDDS)

##### Section 1 General

###### D. Application Requirements

For a rezoning to a PDD, the applicant shall comply with the requirements in Article 2.B.1, Official Zoning Map Amendment (Rezoning), Art. 2.A.1.G.2, Application Procedure, General and Art.2.A.1.G.3, Plan Requirements for certification and final approval by the DRO. [Ord. 2009-040]

###### ~~1. Pre-Application Conference (PAC)~~

~~All applications for a LCC shall require a PAC pursuant to Art. 2.A.1.E, Pre-Application Conference. [Ord. 2010-005]~~

[Renumber Accordingly]

Part 8. ULDC Art. 3.E, Lifestyle Commercial Center Development (LCC) (pages 117 of 119), is hereby amended as follows:

#### CHAPTER E PLANNED DEVELOPMENT DISTRICTS (PDDS)

##### ~~Section 8 — Lifestyle Commercial Center Development (LCC)~~

###### ~~A. General~~

###### ~~1. Purpose and Intent~~

~~The purpose and intent of the LCC is to implement the FLUE Policy 2.2.2-c of the Plan, as amended. A LCC is a mixed use form of development that incorporates a variety of uses such as: commercial, residential, civic and recreational. The LCC may be a transitional form of development located adjacent to properties with a residential future land use or Zoning district. The layout typically supports an open air, traditional market place design configuration, which consists of one or more main streets with integrated in-line tenants and may include limited freestanding tenants.~~

~~LCC regulations are established to provide predictability in the built environment with a degree of design flexibility while ensuring compatibility, interconnectivity and intensity issues are addressed. [Ord. 2010-005]~~

###### ~~2. Applicability~~

~~The requirements of this Section shall apply to all LCCs. [Ord. 2010-005]~~

###### ~~3. Conflicts~~

~~If a conflict exists between this Section and other Articles in this Code, the provisions of this Section shall apply to the extent of the conflict. [Ord. 2010-005]~~

###### ~~B. Design Principles~~

~~The LCC form of development shall consider the impact of proposed commercial uses, and the need to establish an interface with existing and future adjacent developments. This interface shall be comprised of the following: site layout, building form, interconnectivity, and mixed of uses that will support the surrounding residential uses. The LCC shall be laid out with one or more main streets that incorporate any in-line large tenant that is designed as a multi-tenant store front. It may also include a freestanding large tenant and outparcel tenants that are located outside of the main street. [Ord. 2010-005]~~

###### ~~1. Site Layout~~

###### ~~a. Street~~

~~Streets within an LCC shall be designed to create block configurations composed of main streets, secondary streets and alleys, as defined in Art. 3.E.8.C.3, Site Layout. [Ord. 2010-005]~~

#### Notes:

*Stricken* indicates text to be deleted. *Stricken and italicized* means text to be totally or partially relocated. If being relocated destination is noted in bolded brackets [Relocated to: ].

*Italicized* indicates text to be relocated. Source is noted in bolded brackets [Relocated from: ].

.... A series of four bolded ellipses indicates language omitted to save space.

## EXHIBIT G

### LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

- 1 ~~**b. Interconnectivity and Circulation**~~  
2 ~~The site layout shall provide interconnectivity between the LCC and adjacent parcels on at~~  
3 ~~least two sides. The ingress/egress shall be aligned with that of existing and future~~  
4 ~~developments on adjacent parcels and shall be shown on the Preliminary Site Plan (PSP)~~  
5 ~~pursuant to Art. 2.A.1.G.3, Plan Requirements. The design principles are: **[Ord. 2010-**~~  
6 ~~**005]**~~  
7 ~~1) Minimize internal vehicular trips by arranging buildings, amenities, and parking in~~  
8 ~~proximity to each other to reduce pedestrian walking distance; **[Ord. 2010-005]**~~  
9 ~~2) Establish location of vehicular or pedestrian interconnectivity points with adjacent~~  
10 ~~properties; **[Ord. 2010-005]**~~  
11 ~~3) The site shall be designed without any provisions for gates unless stated otherwise~~  
12 ~~herein. **[Ord. 2010-005]**~~  
13 ~~**c. Buildings**~~  
14 ~~1) A majority of the buildings (building square footage) shall front on an internal main~~  
15 ~~street with a build-to-line. Buildings shall frame the main street integrating site~~  
16 ~~elements such as sidewalks and pedestrian amenities. **[Ord. 2010-005]**~~  
17 ~~2) Buildings in developments that include a freestanding large tenant, or outparcel~~  
18 ~~tenants, shall be oriented in a manner that complements the main street buildings and~~  
19 ~~associated parking areas, and mitigates the impact of potential incompatibilities on~~  
20 ~~surrounding properties. **[Ord. 2010-005]**~~  
21 ~~**d. Pedestrian Area and Usable Open Space**~~  
22 ~~1) Pedestrian areas in any form of usable open space shall function as activity nodes~~  
23 ~~within the development. These areas or activity nodes shall include, but not limited to:~~  
24 ~~art, fountains, shaded sitting areas and other similar amenities to encourage public~~  
25 ~~use. **[Ord. 2010-005]**~~  
26 ~~2) Large or out parcel tenants located outside of the main street areas shall be connected~~  
27 ~~to the LCC pedestrian circulation system through a series of usable open spaces and~~  
28 ~~shaded sidewalks. **[Ord. 2010-005]**~~  
29 ~~**e. Parking and Loading**~~  
30 ~~1) Required parking and loading for each tenant shall be located to the side and rear of~~  
31 ~~the building. **[Ord. 2010-005]**~~  
32 ~~2) Perimeter of parking lots shall be framed by buildings, structures or landscaping to~~  
33 ~~create user friendly spaces. **[Ord. 2010-005]**~~  
34 ~~**f. Transitional Elements**~~  
35 ~~Drainage or preserve areas shall serve as a transition between the commercial portion of~~  
36 ~~the development and adjacent existing residential uses when possible. **[Ord. 2010-005]**~~

(This space intentionally left blank)

### ~~2. Building Forms and Design~~

- ~~a. Buildings shall be designed in scale and proportion to provide pedestrian-level interest and establish a sense of place by incorporating a variety of heights and façade treatments. Architectural, landscape, or hardscape focal points shall be provided at key locations such as internal street intersections, public gathering areas and along external streets to create a sense of arrival and place or to provide terminus. [Ord. 2010-005]~~
- ~~b. Buildings facing the arterial street shall provide pedestrian sidewalks or usable open space to be oriented towards the arterial street to encourage walkability, and a positive visual interface along the street right-of-way. [Ord. 2010-005]~~

### ~~3. Mixed Use and Integration~~

- ~~The LCC shall primarily consist of commercial related uses, live-work units, and limited residential units based upon the site's FLU designation. The integration of uses shall consist of the following: [Ord. 2010-005]~~
- ~~a. Placement of buildings providing a harmonious interface between internal mixed uses, and adjacent uses; and [Ord. 2010-005]~~
  - ~~b. Horizontally integrated residential units are serving as a transition between the more intense uses and immediately adjacent existing or future residential uses to reduce the need for large buffers. [Ord. 2010-005]~~

### ~~C. Design and Development Standards~~

~~An LCC shall comply with all standards listed below unless a waiver is granted pursuant to Article 3.E.8.D, Type I Waivers. [Ord. 2010-005]~~

#### ~~1. Minimum Site Area~~

~~Site area shall be 10 acres. [Ord. 2010-005]~~

#### ~~2. Access and Frontage~~

- ~~a. Minimum frontage shall be consistent with PDD standards pursuant to Art. 3.E.1.C.2.a., Access and Circulation. [Ord. 2010-005]~~
- ~~b. Primary access shall be provided from the arterial street to a main street of the LCC. [Ord. 2010-005]~~

#### ~~3. Site Layout~~

~~Blocks and streets shall establish the general framework for the site layout. [Ord. 2010-005]~~

##### ~~a. Blocks~~

- ~~Blocks shall be created by utilizing streets and alleys to provide continuous vehicular circulation, interconnectivity, and accessibility within the LCC, with exception in area where an access is required by the Engineering Department. Blocks shall be subject to the following thresholds: [Ord. 2010-005]~~
- ~~1) Minimum length of a block shall be 160 feet; [Ord. 2010-005]~~

#### Notes:

**Italicized** indicates text to be relocated. Source is noted in bolded brackets **[Relocated from: ]**.

.... A series of four bolded ellipses indicates language omitted to save space.

# EXHIBIT G

## LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

1 ~~2) Maximum length of a block shall be 660 feet without pedestrian pass-thru; and, [Ord.~~  
2 ~~2010-005]~~

3 ~~3) Maximum length of a block shall be 750 feet with pedestrian pass-thru. [Ord. 2010-~~  
4 ~~005]~~

### ~~b. Streets~~

5 ~~Streets shall include main streets, secondary streets, alleys, and driveways that are~~  
6 ~~designed consistent with the following. Streets designated as public or private R-O-W shall~~  
7 ~~also comply with any Engineering requirements. [Ord. 2010-005]~~

#### ~~1) Main Street~~

8 ~~The main street(s) shall be designed as the primary street(s) in the LCC and shall~~  
9 ~~comply with the following standards: [Ord. 2010-005]~~

10 ~~a) A continuous main street shall traverse a minimum of 60 percent of the length or~~  
11 ~~width of the LCC, whichever is greater; [Ord. 2010-005]~~

12 ~~b) The design shall be consistent with Figure 3.F.2.A, TDD Commercial Street or the~~  
13 ~~TMD design exception summarized in Figure 3.F.4.D, Typical Example of TMD~~  
14 ~~Commercial Street with Angled Parking; [Ord. 2010-005]~~

15 ~~c) A minimum of 65 percent of the total GFA for the overall development shall be~~  
16 ~~located on the main street(s); [Ord. 2010-005]~~

17 ~~d) A plaza may be located at the end of a main street provided a building is located~~  
18 ~~immediately adjacent to the plaza to frame the space and establish a visual~~  
19 ~~terminus; and, [Ord. 2010-005]~~

20 ~~e) Intersections of two main streets, if provided, shall provide an amenity including,~~  
21 ~~but not limited to: roundabout with decorative pavers and a focal point; or any other~~  
22 ~~element that reflects a common architectural theme of the LCC. [Ord. 2010-005]~~

#### ~~2) Secondary Street~~

23 ~~Secondary streets shall be designed consistent with Figure 3.F.2.A, TDD Commercial~~  
24 ~~Street, except that on-street parking may not be required and minimum sidewalk width~~  
25 ~~may be reduced from ten to four feet in width. [Ord. 2010-005]~~

#### ~~3) Alley~~

26 ~~Alley access shall not be permitted from a main street. Alleys shall conform with the~~  
27 ~~requirements of Art. 3.F.2.A.1.e, Alleys. [Ord. 2010-005]~~

### ~~c. Interconnectivity~~

28 ~~1) Interconnectivity shall be required if the LCC is adjacent to an existing development or~~  
29 ~~vacant parcels. The Planning Division shall review and make a recommendation on~~  
30 ~~interconnectivity, pursuant to Objective 4.3, Community Design of the Plan. In~~  
31 ~~addition, the following shall apply: [Ord. 2010-005]~~

32 ~~2) All required connecting points shall be paved up to the property line of adjacent parcels~~  
33 ~~and a cross access agreement shall be recorded. [Ord. 2010-005]~~

34 ~~3) All connecting access points shall be designed and constructed pursuant to the Land~~  
35 ~~Development Design Standards Manual. [Ord. 2010-005]~~

36 ~~4) The use of gates or other preventative barriers is prohibited, exceptions are allowed~~  
37 ~~for: dumpsters, loading areas, private garages and parking areas. [Ord. 2010-005]~~

## ~~4. Buildings~~

38 ~~All buildings shall front a street, and shall be designed in compliance with the following: [Ord.~~  
39 ~~2010-005]~~

### ~~a. Internal Frontage~~

40 ~~1) Buildings or structures located on the main or secondary street shall be setback a~~  
41 ~~minimum of 15 feet and maybe expanded to 25 feet to provide outdoor dining areas,~~  
42 ~~pedestrian area or usable open space. Setbacks are measured from the proposed~~  
43 ~~building façade to the inside edge of the curb. [Ord. 2010-005]~~

### ~~b. Perimeter Frontage~~

44 ~~Buildings that front on the perimeter of a LCC and adjacent to residential uses, arterial~~  
45 ~~streets or any other street exterior to the development shall be considered perimeter~~  
46 ~~building frontage, and shall comply with the following: [Ord. 2010-005]~~

47 ~~1) Buildings or structures located on the perimeter of the site shall be setback a minimum~~  
48 ~~of 25 feet. Setbacks are measured from the proposed building façade to the inside~~  
49 ~~edge of the perimeter R-O-W buffer. [Ord. 2010-005]~~

50 ~~2) Facade shall provide design features including, but not limited to: building entrances,~~  
51 ~~display windows, usable open space and pedestrian circulation system. [Ord. 2010-~~  
52 ~~005]~~

53 ~~3) Outdoor vehicular circulation and queuing areas for uses including, but not limited to:~~  
54 ~~gas sales, financial institution, restaurants, and other facilities with drive-thru shall only~~  
55 ~~be allowed if the associated outdoor vehicular activities are not visible from the street~~  
56 ~~or adjacent residential uses. [Ord. 2010-005]~~

### ~~c. Building Design~~

#### Notes:

~~Stricken~~ indicates text to be deleted. ~~Stricken and italicized~~ means text to be totally or partially relocated. If being relocated destination is noted in bolded brackets **[Relocated to: ]**.

~~Italicized~~ indicates text to be relocated. Source is noted in bolded brackets **[Relocated from: ]**.

.... A series of four bolded ellipses indicates language omitted to save space.

# EXHIBIT G

## LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

1 ~~1) The facade design of all buildings shall comply with Art. 5.C, Design Standards. [Ord. 2010-005]~~

2 ~~2) For perimeter building that faces a street R-O-W, a pedestrian area with sidewalks and~~  
3 ~~street trees shall be provided abutting the building. [Ord. 2010-005]~~

### 4 ~~d. Building Height~~

5 ~~The maximum building height shall be 45 feet. The height limit shall not apply to these~~  
6 ~~exceptions listed in Art. 3.D.1.E.4, Height Exceptions.~~

### 7 ~~e. Tenant Size and Large Tenant~~

8 ~~1) The total square footage for all freestanding buildings and large tenants shall not~~  
9 ~~exceed 40 percent of the GFA of the LCC. [Ord. 2010-005]~~

10 ~~2) Large tenants occupying more than 100,000 square feet shall be prohibited. [Ord.~~  
11 ~~2010-005]~~

12 ~~3) Any large scale single tenant retail use (as defined by the definition of big box in the~~  
13 ~~Plan), with or without accessory tenants, in a single building, shall not exceed 65,000~~  
14 ~~square feet. [Ord. 2010-005]~~

15 ~~4) Large tenants shall be architecturally designed to appear as a multi-tenant building.~~  
16 ~~[Ord. 2010-005]~~

17 ~~5) Large tenants shall comply with requirements for fenestration details and exterior~~  
18 ~~treatments of Table 5.C.1.1-13, Large Scale Commercial Development. [Ord. 2010-~~  
19 ~~005]~~

20 ~~6) No single tenant shall occupy more than 200 feet of frontage. An increase of up to 240~~  
21 ~~feet per single tenant shall be permitted, provided that any increase over 200 feet~~  
22 ~~incorporates the appearance of a separate storefront to include: a distinct architectural~~  
23 ~~style a minimum of 40 feet in length, similar transparency, and an additional building~~  
24 ~~entrance, or appearance of an entrance. [Ord. 2010-005]~~

### 25 ~~f. Integrated Residential Use~~

26 ~~Residential uses shall be provided in compliance with Art. 3.E.1.B.2.f, LCC Minimum~~  
27 ~~Density Requirements and the following standards: [Ord. 2010-005]~~

28 ~~1) For project with vertically integrated units, these units shall be located above non-~~  
29 ~~residential buildings, and shall be accessed from the main street through a common~~  
30 ~~area, including but not limited to: an internal lobby, courtyard, gathering areas, or~~  
31 ~~usable open space between buildings. [Ord. 2010-005]~~

32 ~~2) For horizontally integrated units, alternative frontage requirements may be permitted~~  
33 ~~pursuant to Art. 3.F.4.D.4.d, Optional Standards for Residential PDRs. [Ord. 2010-~~  
34 ~~005]~~

## 35 ~~5. Pedestrian Area on Main Street~~

36 ~~The area between the building façade and the main street curb is defined as pedestrian area,~~  
37 ~~and shall be subject to the following: [Ord. 2010-005]~~

38 ~~a. Required on both sides of a main street with open or arcaded sidewalks, street trees,~~  
39 ~~pedestrian amenities, and street furniture. [Ord. 2010-005]~~

40 ~~b. All sidewalks shall be a minimum six feet width with no encumbrance. The width may be~~  
41 ~~increased to accommodate seating areas or other pedestrian amenities. In addition to the~~  
42 ~~sidewalk, a minimum width of five feet shall be provided for the installation of street trees,~~  
43 ~~landscaping and street lights. [Ord. 2010-005]~~

44 ~~c. A minimum of 75 percent of the frontage on the main street shall have arcaded sidewalks~~  
45 ~~or any other architectural element that provides shade to pedestrians such as permanent~~  
46 ~~canopies and awnings. All arcades or architectural shade elements shall have a minimum~~  
47 ~~height clearance of 12 feet. When canopies or awnings are provided to comply with the~~  
48 ~~75 percent requirement, they shall extend at least 6 feet to shade pedestrian sidewalks.~~  
49 ~~[Ord. 2010-005]~~

50 ~~d. Pedestrian pass thru that connects the main street and the parking lots or service areas at~~  
51 ~~the rear or the side of the building shall have a maximum width of 25 feet. Pedestrian pass-~~  
52 ~~thrus shall be occurred at intervals no greater than 100 feet to provide convenient~~  
53 ~~pedestrian access. [Ord. 2010-005]~~

## 54 ~~6. Pedestrian Area on Secondary Street~~

55 ~~Pedestrian area shall be a minimum width of ten feet and shall be located on both sides of the~~  
56 ~~street. The sidewalk shall be a minimum width of five feet with no encumbrance and a minimum~~  
57 ~~width of five feet for amenities such as street trees and street lights. [Ord. 2010-005]~~

## 58 ~~7. Usable Open Space~~

59 ~~A minimum of five percent of the total site GFA shall be provided as usable open space. [Ord.~~  
60 ~~2010-005]~~

### 61 ~~a. Dimensions~~

62 ~~All usable open spaces shall meet the minimum dimensions provided under Table 3.E.8.C,~~  
63 ~~Dimensions for Usable Open Space. The provision of usable open space in excess of the~~  
64 ~~minimum required shall be notated. [Ord. 2010-005]~~

### 65 ~~b. Street Frontage~~

### Notes:

~~Stricken~~ indicates text to be deleted. ~~Stricken and italicized~~ means text to be totally or partially relocated. If being relocated destination is noted in bolded brackets [Relocated to: ].

~~Italicized~~ indicates text to be relocated. Source is noted in bolded brackets [Relocated from: ].

## LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

- 1            Usable open space shall be bounded by a street on at least one side. ~~[Ord. 2010-005]~~
- 2            ~~**c. Landscaping**~~
- 3            A minimum of 15 percent of each usable open space shall be shaded by landscape material
- 4            or shade structures at time of construction, and a minimum of 30 percent of the total square
- 5            footage shall be pervious. ~~[Ord. 2010-005]~~
- 6            ~~**d. Pedestrian Amenities**~~
- 7            If one or more usable open spaces are provided within the LCC, a minimum of 50 percent
- 8            of these spaces shall be designed with seating areas for pedestrians. Each space shall
- 9            have a minimum of one linear foot of seating for each 200 square feet of overall area. ~~[Ord.~~
- 10           ~~2010-005]~~
- 11           ~~**8. Street Trees, Street Lights and Utilities**~~
- 12           a. ~~Street trees shall be planted pursuant to Art. 3.F.2.A.4.d, Street Trees. [Ord. 2010-005]~~
- 13           b. ~~Street lights shall be provided along all streets and alleys pursuant to Art. 3.F.2.A.1.f.2).a),~~
- 14           ~~TDD Street Lighting. At least one light fixture shall be located at the pedestrian crosswalk~~
- 15           ~~and along of all pedestrian pass-thru. [Ord. 2010-005]~~
- 16           c. ~~All public utilities shall be installed in accordance to the standard of Art. 11.E.7, Utilities.~~
- 17           ~~[Ord. 2010-005]~~
- 18           ~~**9. Parking and Loading**~~
- 19           Parking shall comply with Art. 6, Parking, unless otherwise stated below: ~~[Ord. 2010-005]~~
- 20           a. ~~**Parking Lot**~~
- 21           A maximum of 200 parking spaces shall be permitted in each parking lot. The perimeter of
- 22           the parking lot shall be framed by: ~~[Ord. 2010-005]~~
- 23           1) ~~buildings or structures on all four sides; or [Ord. 2010-005]~~
- 24           2) ~~an eight-foot wide landscape strip. The landscape strip shall have a 30 inch high hedge~~
- 25           ~~or a 30 inch concrete wall and appropriate groundcover. Canopy trees shall be planted~~
- 26           ~~at 20 feet on center. [Ord. 2010-005]~~
- 27           b. ~~**Parking Structures**~~
- 28           Parking for any use in excess of six spaces per 1,000 square feet of non-residential floor
- 29           area shall be located in a parking structure. ~~[Ord. 2010-005]~~
- 30           c. ~~**Service and Loading Areas**~~
- 31           All service and loading areas shall be located along the rear or side of the structures, and
- 32           shall not be visible from the main street and any usable open space. The service areas
- 33           shall be located within the footprint of the building or immediately adjacent to the building.
- 34           ~~[Ord. 2010-005]~~
- 35           ~~**10. Landscaping**~~
- 36           Landscaping shall comply with Art. 7, Landscaping, unless otherwise stated below: ~~[Ord.~~
- 37           ~~2010-005]~~
- 38           a. ~~**Landscape Buffer Exemption**~~
- 39           Required perimeter buffers may be modified subject to an approved Alternative Landscape
- 40           Plan, if: ~~[Ord. 2010-005]~~
- 41           1) ~~the proposed horizontally integrated residential units of the LCC are located adjacent~~
- 42           ~~to existing residential units of the same housing type and density, and the adjacent~~
- 43           ~~parcel has an existing buffer that meets this Code; or [Ord. 2010-005]~~
- 44           2) ~~the adjacent non-residential development is compatible with the LCC and has an~~
- 45           ~~existing buffer that meets this Code. [Ord. 2010-005]~~
- 46           b. ~~**Foundation Planting**~~
- 47           Foundation planting shall be in compliance with Art. 7, Landscaping, unless otherwise
- 48           stated below: ~~[Ord. 2010-005]~~
- 49           1) ~~Foundation plantings shall not be required for the following: buildings with frontages~~
- 50           ~~on the main streets, secondary streets, buildings along an alley or internal street~~
- 51           ~~between non-residential buildings, or where buildings front on a plaza or square. [Ord.~~
- 52           ~~2010-005]~~
- 53           2) ~~Buildings that face a perimeter street R-O-W and designed with: arcades, pedestrian~~
- 54           ~~area or framed by an usable open space. [Ord. 2010-005]~~
- 55           ~~**D. Type I Waivers**~~
- 56           ~~An applicant may seek Type I Waivers from specific code requirements listed in accordance with~~
- 57           ~~Art. 2.D.6, Type I Waiver, and Table 3.E.8.D, LCC Waivers. Type I Waiver approval shall be~~
- 58           ~~granted prior to DRO certification. The following table summarizes the development standards that~~
- 59           ~~could be requested through a Type I Waiver process. [Ord. 2011-016] [Ord. 2012-027]~~

## LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

1

**Table 3.E.8.D – Type I Waivers**

| <i>Requirements</i>   | <i>Waiver</i>   | <i>Criteria of Review (1)</i>  |
|---|---|--|
| <b>Main Street</b>  |   |  |
| Art. 3.E.8.C.3.b.1).a)<br>A continuous main street shall traverse a minimum of 60 percent of the length or width of the LCC; whichever is greater.  | Reduce a maximum of 10 percent.   | -Constraints on site configuration prohibiting compliance with minimum length;<br>-Encumbrance by existing natural features or easements (lake, preserve, etc.).   |
| Art. 3.E.8.C.3.b.1).c)<br>A minimum of 65 percent of the total GFA shall be located on the main street(s).  | Reduce a maximum of 10 percent.   | -Existing site constraints that prohibit compliance with required layout and square footage cannot be accommodated on main streets.  |
| <b>Interconnectivity</b>  |   |  |
| Art. 3.E.8.C.3.c.4)<br>The use of gates or other preventative barriers is prohibited, exceptions are allowed for: dumpsters, loading areas, private garages and parking areas.  | Allow use of gates within the development.  | -Special circumstances between adjacent uses;<br>-Specific user requirements within the LCC requires building(s) to be gated provided these gates do not impact the continuity of the LCC street network.  |
| <b>Perimeter Frontage</b>   |   |  |
| Art. 3.E.8.C.4.b.2)<br>Facade shall provide design features, including but not limited to: building entrances, display windows, usable open space and pedestrian circulation system.  | No facade design features   | -If proposed building is separated from the adjacent street or use by a canal R-O-W or other geological encumbrance or utility easement that is 80 feet or greater.<br>-Facade shall meet Art.5.C.   |
| Art. 3.E.8.C.4.b.3)<br>Outdoor vehicular circulation and queuing areas for uses including, but not limited to: gas sales, financial institution, restaurants, and other facilities with drive-thru shall only be allowed if the associated outdoor vehicular activities are not visible from the street or adjacent residential uses. | Allow outdoor vehicular activities to be visible from the perimeter street.   | -Provide a Type 3 Incompatibility Buffer, and exemplary architectural design that incorporates walls or other visual barriers a minimum of six feet in height, or a combination of the two.  |
| <b>Building Height</b>  |   |  |
| Art. 3.E.8.C.4.d<br>The maximum building height shall be 45 feet.   | Increase building height up to a maximum of 60 feet.<br>>60 feet shall be subject to a Waiver approval by the BCC.                  | -Demonstrate that the use associated with the building requires additional height due to its use or structural reasons related to the use or building design;<br>-Architectural focal point shall be provided and proportional to the additional height of the building.<br>-Additional height of the building shall create no impact on adjacent properties.<br>-Utilize Green Architecture, if applicable. |
| <b>Tenant Size and Large Tenant</b>   |   |  |
| Art. 3.E.8.C.4.e.1)<br>The total square footage for all freestanding building and large tenants shall not exceed 40 percent of the GFA of the LCC.  | Increase a maximum of 10 percent of the total GFA to be designated for freestanding buildings and large tenants.                    | -Increase Architectural features that exceed Art.5.C ; or<br>-Utilize Green Architecture, if applicable; and<br>-Increase usable open space by 10% for the site.   |
| Art. 3.E.8.C.4.e.6)<br>Single tenants shall not occupy more than 240 feet of frontage.  | Increase to a maximum of 325 feet for sides that do not have pedestrian use areas or street frontages other than for service areas. | -Provide Architectural features that exceed Art.5.C ;<br>-Utilize Green Architecture, if applicable  |
| <b>Vertical Integration</b>   |   |  |
| Art. 3.E.8.C.4.f.1)<br>Vertically integrated units shall be accessed from the main street through a common area, including but not limited to: an internal lobby, courtyard, gathering area or usable open space between buildings.   | Vertically integrated units without access from the main street   | -Proposed access complies with the entry requirements of Art. 5.C.1.H.1.d, Entries, provided it is adjacent to usable open space.  |
| <b>Usable Open Space</b>  |   |  |
| Table 3.E.8.C.<br>Dimensions for Usable Open Space  | Reduce a maximum of 25 percent of the minimum dimensions.   | -Proposed design features of the reduced usable open space elements shall exceed minimum code requirements; and,<br>-Demonstrate the overall usable open spaces are evenly distributed to meet the purpose and intent of this requirement.   |
| <b>Parking Lot</b>  |   |  |
| Art. 3.E.8.C.9.a<br>A maximum of 200 parking spaces shall be permitted in each parking lot.   | Increase a maximum of 20 percent.   | -Only allowed if framed by buildings on all four sides and designed to give the appearance of small parking lots.  |
| <b>[Ord. 2010-005] [Ord. 2012-027]</b>  |   |  |
| <b>Notes:</b>   |   |  |
| 1. <i>The applicant can submit additional justification or documentation to support waiver request.</i>   |   |  |

## LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

1  
2 Part 9. ULDC Art. 3.F, Traditional Development Districts (TDDs) (pages 177 and 192 of 213), is  
3 hereby amended as follows:

4 CHAPTER F TRADITIONAL DEVELOPMENT DISTRICTS (TDDS)

5 Section 1 General Provisions for TDDs

6 D. Types of TDDs

7 TDDs include the following:

8 ....

9 2. Traditional Marketplace Development (TMD)

10 TMDs are mixed-use commercial, residential, and office areas that function as town activity  
11 centers serving residents in the vicinity. The Lifestyle Commercial Center (LCC) is a type of  
12 TMD in the Urban Suburban Tier limited only to sites required by Condition of Approval by  
13 Ordinances 2008-048 and 2009-028.

14 ....

15 Section 3 Traditional Neighborhood Development (TND)

16 D. Land Use Zones

17 1. Neighborhood Center

18 A Neighborhood Center is intended to accommodate neighborhood-oriented non-residential  
19 uses and services. It may include professional offices, community facilities, and civic uses to  
20 serve the population of the TND and adjacent neighborhoods. Multi-family ~~or live/work~~  
21 ~~residential uses are~~ is encouraged when located above non-residential uses. [Ord. 2012-027]

22 a. General Standards

23 ....

24 6) Maximum Total Floor Area

25 40,000 square feet of GFA, excluding multi-family units ~~or the residential portion of a~~  
26 ~~live/work unit counted as density.~~

27 Ord. 2012-027]

28 b. Building Standards

29 ....

30 3) Multi-family ~~and Live/Work~~

31 Multi-family ~~residential and live/work~~ units shall only be permitted subject to the  
32 following: [Ord. 2012-027]

33 ....

34  
35  
36 Part 10. ULDC Art. 3.F.4.C, Development Standards for All TMDs (pages 199 of 213), is hereby  
37 amended as follows:

38 CHAPTER F TRADITIONAL DEVELOPMENT DISTRICTS (TDDS)

39 Section 4 Traditional Marketplace Development (TMD)

40 C. Development Standards for all TMDs

41 The following standards apply to TMDs located in all tiers: [Ord. 2005 – 002]

42 1. General Standards

43 The following standards apply to all TMDs; however, additional standards or provisions shall  
44 apply to the AGR Tier, per Art. 3.F.4.D, Standards Applicable to AGR Tier, and  
45 Urban/Suburban Tier, per Art. 3.F.4.E, Standards Applicable to Urban/Suburban Tier. [Ord.  
46 2005-002] [Ord. 2005-041]

47 ....

48 c. Maximum Floor Area per Single Tenant [Ord. 2005-041]

49 1) U/S Tier

50 Variance from these requirements shall be prohibited. No single tenant may occupy  
51 more than 50,000 ~~sq. ft. unless approved as a requested use square feet, except as~~  
52 ~~follows:~~

53 a) CL FLU

54 A maximum of 65,000 square feet may be permitted subject to Class A Conditional  
55 Use approval.

56 b) CH FLU

57 Single tenants occupying more than A maximum of 100,000 square feet are  
58 prohibited may be permitted subject to Class A Conditional Use approval. [Ord.  
59 2005 – 002]

## LIFESTYLE COMMERCIAL CENTER (LCC) SUMMARY OF AMENDMENTS

(Updated 3/23/17)

1 C. Definitions and Supplementary Use Standards for Specific Uses

2 ....  
3 5. Recycling Drop-Off Bin

4 ....  
5 c. Location

6 The drop-off bin shall be located in or adjacent to an off-street parking area, and shall not  
7 be located within required parking spaces. In TMD ~~and LCC~~ districts, and for IRO projects,  
8 the recycling drop-off bins shall be designed to be consistent with the building's design and  
9 shall not be located on a Main Street. [Ord. 2010-005] [Ord. 2013-001]

10 ....  
11  
12  
13 Part 13. ULDC Art. 5, Supplementary Standards (pages 15, 38 of 100), is hereby amended as  
14 follows:

15 CHAPTER B ACCESSORY AND TEMPORARY USES

16 Section 1 Supplementary Regulations

17 A. Accessory Uses and Structures

18 ....  
19 2. Fences and Walls

20 .....  
21 e. Dangerous Materials

22 ....  
23 2) Electrified Fences - Exceptions and Regulations

24 ....  
25 b) Standards

26 ....  
27 (7) URAO, IRO, ~~LCC~~, WCRAO and TDD Limitations

28 (a) Electrified fences shall not be permitted in any URAO, IRO, ~~LCC~~, or TDD  
29 developments constructed with a required build to line or any other area  
30 unless located behind buildings and in areas not accessible by the public.  
31 [Ord. 2013-018]

32 ....  
33  
34  
35 Part 14. ULDC Art. 5, Supplementary Standards (pages 15, 38 of 100), is hereby amended as  
36 follows:

37 CHAPTER C DESIGN STANDARDS

38 Section 1 Architectural Guidelines

39 C. Exemptions

40 ....  
41 ~~7. All building frontages that are required to be located on a main street in an LCC shall be exempt~~  
42 ~~from the requirements of Art. 5.C.1.H.1.c.1),a), Recesses and Projections. [Ord. 2010-005]~~

43 ....  
44 I. Large Scale Commercial Development

45 ....  
46 1. Single Tenant Limit

47 Variances from these requirements shall be prohibited. [Ord. 2005 – 002] [Ord. 2011-001]

48 a. CL FLU

49 The maximum building size for a single tenant shall be less than 65,000 gross square feet  
50 ~~except as follows:~~ [Ord. 2005-002] [Ord. 2013-001]

51 1) ~~The commercial development of the parcel located at the northwest corner of Southern~~  
52 ~~Boulevard and Seminole Pratt Whitney Road and identified in the legal description in~~  
53 ~~Ordinance 2010-030 (LGA 2010-012); and, shall be exempt from the maximum square~~  
54 ~~footage limitation for single tenants in the CL FLU designation. [Ord. 2005-002] [Ord.~~  
55 ~~2013-001]~~

56 2) Sites approved under Ordinances 2008-048 and 2009-028 as an LCC in the  
57 Urban/Suburban Tier are allowed to have up to a maximum of 100,000 square feet.

58 ....  
59

## ARTICLE 4, USE REGULATIONS SUMMARY OF AMENDMENTS

(Updated 04/21/17)

1  
2 Part 1. ULDC Art. 4.A.9, Development Thresholds (page 12 of 199), is hereby amended as  
3 follows:

### 4 CHAPTER A USER GUIDE AND GENERAL PROVISIONS

#### 5 Section 9 Development Thresholds

##### 6 A. Development Review Officer

7 Any amendment to an existing development, or new construction of projects that meets or exceeds  
8 either the maximum square footage or number of units, shall require DRO site plan approval.

9 ....

##### 10 B. Public Hearing Approval

11 Any amendment to an existing development, or new construction of residential, commercial or industrial  
12 projects that meets or exceeds either the maximum square footage or units, or maximum acreage of Table  
13 4.A.9.B, ....

##### 14 C. Density Bonus

15 Any amendment to an existing development, or new construction of projects, which includes an  
16 existing or proposed WHP, AHP or TDR residential density bonus, shall require confirmation of any  
17 applicable thresholds for approval process in accordance with Art. 5.G, Density Bonus Programs.

18 [ReNUMBER Accordingly]

19  
20  
21 Part 2. ULDC Art. 4.B.1.C.3.d, Zoning Districts [Related to Multifamily] (page 14 to 15 of 188), is  
22 hereby amended as follows:

### 23 CHAPTER B USE CLASSIFICATION

#### 24 Section 1 Residential Uses

##### 25 C. Definitions and Supplementary Use Standards for Specific Uses

##### 26 3. Multifamily

27 ....

##### 28 d. Zoning District

##### 29 1) TMD District

30 AGR-TMDs shall be exempt from the integration requirement and shall comply with  
31 the Development Order approved by the BCC.

##### 32 2) RM District

33 Multifamily units may be allowed in the RM Zoning District ~~with an MR5-FLU~~  
34 ~~designation subject to the following as follows:~~ [Partially relocated below]

##### 35 a) MR5 FLU Designation

##### 36 a(1) Planning Determination

37 A written determination from the Planning Director that the property meets the  
38 criteria for an Infill Density Exemption in the Plan; and,

##### 39 b(2) Existing RM Zoning

40 The property was zoned RM prior to the 1989 adoption of the Plan.

##### 41 c(3) Approval Process

42 The approval process shall be as follows:

43  
44  
45  
46  
47  
48  
49  
50  
51  
52  
53  
**Table 4.B.1.C - Approval Process**  
**RM District with MR-5 FLU Designation**

| Process                 | Units   |
|-------------------------|---------|
| Class A Conditional Use | Over 24 |
| Class B Conditional Use | 9-24    |
| DRO                     | 5-8     |
| Permitted by Right      | 1-4     |

##### 54 d(4) Development Order

55 Prior approvals for Multifamily units in the RM Zoning District with MR5 FLU  
56 designation shall be considered legal conforming uses.

##### 57 b) HR-8, HR-12 or HR-18 FLU Designation

58 Multifamily units on parcels with an HR-8, HR-12 or HR-18 FLU designation, may  
59 be Permitted by Right unless Development Thresholds in Art. 4.A.9 are triggered.

##### 60 ec) Limestone Creek

61 Multifamily units in the RM Zoning District shall be prohibited in the area bounded  
62 on the north by 184 Place North, on the south by the C-18 Canal, on the east by

## RETAIL GAS AND FUEL ADDITIONAL STANDARDS FOR APPROVAL SUMMARY OF AMENDMENTS (Updated 3-20-17)

1  
2 Part 1. ULDC Art. 4.B.2.C.16.d, Additional Standards for Approval [Related to Retail Gas and  
3 Fuel], is hereby amended as follows:  
4

### 5 ARTICLE 4, USE REGULATIONS

#### 6 Section 2 Commercial Uses

#### 7 C. Definitions and Supplementary Use Standards for Specific Uses

#### 8 15. Gas and Fuel Sales, Retail

#### 9 **d. Additional Standards for Approval**

10 ~~In addition to the Standards of Art. 2.B.2.B, Standards for Conditional Uses and~~  
11 ~~Development Order Amendments, or Art.2.B.2.G.3, Standards (Type 2 Waiver), when~~  
12 ~~considering a Development Order application for a Conditional Use, DOA or Type 2~~  
13 ~~Waiver, the BCC shall consider whether or not: [Ord. 2011-016]~~

14 1) ~~Adequate ingress and egress have been provided. [Ord. 2006-004]~~

15 2) ~~Adequate buffering and setbacks from residential areas have been provided. [Ord.~~  
16 ~~2006-004]~~

17 3) ~~Sufficient vehicle stacking, circulation, access, and area for turning movements have~~  
18 ~~been provided. [Ord. 2006-004]~~

19 4) ~~The number of fueling positions proposed is excessive. [Ord. 2006-004]~~

20 5) ~~There are an excessive number of similar stations in the vicinity. [Ord. 2006-004]~~

21 [ReNUMBER accordingly]

## ART. 5.B.1.A, ACCESSORY USES AND STRUCTURES GENERAL EXCEPTIONS SUMMARY OF AMENDMENTS (Updated 5/24/17)

1  
2 Part 1. ULDC Art. 5.B.1.A.1.b, Location [Related to Accessory Uses and Structures] (page 9 of  
3 107), is hereby amended as follows:  
4

### 5 ARTICLE 5 SUPPLEMENTARY STANDARDS

#### 6 CHAPTER B ACCESSORY USES AND STRUCTURES

#### 7 Section 1 Supplementary Regulations

##### 8 A. Accessory Uses and Structures

##### 9 1. General

##### 10 a. Standards

11 Uses indicated in the Use Matrix as blank in a zoning district shall not be allowed as  
12 accessory use unless stated otherwise in Art. 4, Use Regulations. An accessory use or  
13 structure shall be subject to the same regulations that apply to the principal use or structure,  
14 except as otherwise stated. [Ord. 2017-007]

##### 15 b. Location

16 All accessory uses and structures except for approved off-site parking, shall be located on  
17 the same lot as the principal use. No accessory structure shall be located in the front or  
18 side street yard, unless stated otherwise herein. [Ord. 2017-007]

##### 19 1) General Exceptions

20 Structures such as: fences and walls; entry features for access ways internal to a PUD;  
21 bike racks; outdoor recreation amenities and support structures such as cabanas,  
22 located within a Neighborhood Recreation Facility or Recreation Pod; or, structures,  
23 projects and improvements listed in Art. 3.D.1.D.5, Setback Exceptions, excluding  
24 mechanical equipment accessory to a building, may be allowed within front or side  
25 street yards.  
26

## ART. 5.B.1.A, ACCESSORY USES AND STRUCTURES\ EXCEPTIONS FOR BUILDINGS ACCESSORY TO RESIDENTIAL SUMMARY OF AMENDMENTS

(Updated 5/24/17)

1  
2 Part 1. ULDC Art. 5.B.1.A.1.b, Location [Related to Accessory Uses and Structures] (page 9 of  
3 107), is hereby amended as follows:  
4

### 5 ARTICLE 5 SUPPLEMENTARY STANDARDS

#### 6 CHAPTER B ACCESSORY USES AND STRUCTURES

#### 7 Section 1 Supplementary Regulations

##### 8 A. Accessory Uses and Structures

##### 9 1. General

##### 10 b. Location

11 All accessory uses and structures except for approved off-site parking, shall be located on  
12 the same lot as the principal use. No accessory structure shall be located in the front or  
13 side street yard, unless stated otherwise herein. [Ord. 2017-007]

##### 14 **1) Exceptions for Buildings Accessory to Residential**

15 A detached garage, cabana, Accessory Quarters, or Guest Cottage, may be allowed  
16 within the front or side street yard, subject to the following:

17 a) The building is consistent with the architecture characteristics of the principal  
18 building, including roofing materials, fenestration, and paint color, where  
19 applicable;

20 b) When accessory to a principal residential use, such as a Single Family Home,  
21 accessory structures shall be connected to the principal building by common  
22 shared driveways, sidewalks, or pathways; and,

23 c) An application for a DO or Building Permit for any building proposing to utilize this  
24 provision shall include an affidavit from a licensed architect or general contractor,  
25 delineating how the proposed building will be in compliance with the requirements  
26 above.

## ACCESSORY SOLAR ENERGY SYSTEMS SUMMARY OF AMENDMENTS

(Updated 5/16/17)

1  
2 Part 1. ULDC Art. 5.B.1.A.1.b, Location [Related to Accessory Uses and Structures] (page 9 of  
3 107), is hereby amended as follows:  
4

### 5 ARTICLE 5 SUPPLEMENTARY STANDARDS

#### 6 CHAPTER B ACCESSORY USES AND STRUCTURES

##### 7 Section 1 Supplementary Regulations

###### 8 A. Accessory Uses and Structures

###### 9 1. General

###### 10 b. Location

11 All accessory uses and structures except for approved off-site parking, shall be located on  
12 the same lot as the principal use. No accessory structure shall be located in the front or  
13 side street yard, unless stated otherwise herein. [Ord. 2017-007]

###### 14 3. Accessory Solar

15 Accessory solar in the form of mechanical equipment attached to other permitted  
16 structures, or Solar Trees, in accordance with the standards of Art. 5.B.1.A.26,  
17 Accessory Solar.

18 ....

19  
20  
21 Part 2. ULDC Art. 5.B.1.A.1.b, Location [Related to Accessory Uses and Structures] (page 9 of  
22 107), is hereby amended as follows:  
23

### 24 ARTICLE 5 SUPPLEMENTARY STANDARDS

#### 25 CHAPTER B ACCESSORY USES AND STRUCTURES

##### 26 Section 1 Supplementary Regulations

###### 27 A. Accessory Uses and Structures

28 ....

###### 29 19. Mechanical Equipment

###### 30 a. Applicability

31 ....

###### 32 2) Screening Requirements

33 ....

###### 34 c) Screening Exemptions

###### 35 (1) Solar Energy Systems

36 Solar Energy Systems, including Solar Trees, are exempted from the  
37 screening requirements. [Ord. 2014-001]

###### 38 (2) Existing Multifamily Condominium

39 ....

###### 40 26. Accessory Solar Energy Systems

41 Accessory Solar Energy Systems may be allowed as an accessory use, subject to the following:

###### 42 a) Incidental and Subordinate

43 Applications for the installation of an accessory Solar Energy System shall include  
44 documentation from the manufacturer, architect, engineer, or contractor performing  
45 installation, verifying the system is the maximum necessary to meet onsite energy usage.  
46 This limitation does not prohibit the use of net metering where permitted.

###### 47 b) Collocation with Buildings

48 Solar Energy Systems are classified as mechanical equipment, and may be placed on  
49 principal or accessory buildings, including those permitted within a front or side-street yard.

###### 50 c) Standards for Other Structures

51 Solar Energy Systems installed on other structures shall be limited to the side or rear yard  
52 in accordance with the Standards of this Chapter, except as follows:

###### 53 1) Exception

54 Where the conditions of the side or rear yard prohibit installation, a Solar Energy  
55 System may be installed in the front or side street yard, subject to the following"

56 (a) Structures greater than six feet in height shall meet the minimum setbacks for the  
57 district. Structures less than six feet in height may be permitted within required  
58 setbacks, but in no case shall the system be located within 25 feet of the property  
59 line; and.

### ACCESSORY SOLAR ENERGY SYSTEMS SUMMARY OF AMENDMENTS

(Updated 5/16/17)

1                    (b) The system is completely screened from view from any other parcel or R-O-W  
2                    through use of landscaping, fences or walls.

3                    **(2) Solar Trees**

4                    A Solar Energy System installed on a structure intended to provide shade, provide for  
5                    public art, or other similar function, may be allowed provided that the structure complies  
6                    with setbacks, does not adversely impact any required or preserved landscaping, be  
7                    placed so as to conflict with any vehicular or pedestrian circulation system, nor shade  
8                    more than ten percent of any Open Space area.

9                    **(3) Associated Solar – with Mechanical Structures**

10                   Where used to power electric gates, environmental monitoring stations, street lights,  
11                   or other similar, provided the solar panel does not exceed a maximum of four square  
12                   feet, and all electrical cables or equipment are hidden within the structure.

13                   **d) Incorporation of Solar in Vehicular and Pedestrian Surfaces**

14                   The incorporation of Solar Energy Systems into any parking lot, sidewalk, bike path, or  
15                   similar surface, shall be exempt from any setback or front or side-street yard limitation.

## ART. 5.B.1.B, TEMPORARY STRUCTURES [PORTABLE STORAGE CONTAINERS AND SHIPPING CONTAINERS] SUMMARY OF AMENDMENTS (Updated 6/7/17)

1 Part 1. ULDC Art. 5.B.1.B, Temporary Structures (page 42 of 107), is hereby amended as  
2 follows:  
3

### 4 ARTICLE 5 SUPPLEMENTARY STANDARDS

#### 5 CHAPTER B ACCESSORY USES AND STRUCTURES

#### 6 Section 1 Supplementary Regulations

##### 7 B. Temporary Structures

##### 8 4. Portable Storage Container

9 Portable storage containers are weather resistant receptacles used for the temporary storage  
10 of goods for residential uses which may be Permitted by Right as follows:

11 a) A maximum of one container 16 feet in length, 8 feet in width and 8 feet in height may be  
12 allowed, for no more than 2 times a year for a maximum of 15 days each time.

13 b) Shall be located on driveways not to overlap easements, sidewalks or R-O-W.

14 c) Shall be setback a minimum of 7.5 feet from the side property lines, except where no other  
15 driveway areas are available, the setback may be reduced subject to the dimensions in  
16 Art. 6.C.1.A.1.a, Local or Residential Access Streets.

17 d) Container location shall not result of required parking to be placed on areas not designed  
18 to park vehicles.

##### 19 5. Shipping Containers

20 a) Shipping containers used as temporary storage on a construction site shall be permitted  
21 by right subject to the Building Division requirements.

22 b) A repurposed Shipping Container that complies with the Florida Building Code shall not be  
23 considered a Shipping Container.

### ART. 8.F.5, ILLUMINATION [RELATED TO SIGNAGE] SUMMARY OF AMENDMENTS

(Updated 4/21/17)

1  
2 Part 1. ULDC Art. 8.F.5, Illumination [Related to Signage] (page 22 of 42), is hereby amended as  
3 follows:  
4

#### 5 **ARTICLE 8 SIGNAGE**

#### 6 **CHAPTER F GENERAL PROVISIONS FOR ALL SIGN TYPES**

#### 7 **Section 5 Illumination**

8 Signs may be illuminated subject to the following standards:

##### 9 **A. General Requirements**

- 10 1. Ground-mounted and building-mounted signs adjacent to a residential zoning district ~~or~~ ~~→~~  
11 residential use shall be illuminated only during hours when the establishment is open for  
12 business;  
13 2. External lighting shall be properly shielded to prevent glare on adjacent streets or properties;  
14 ~~and~~  
15 3. Illumination shall be constant and shall not consist of flashing, animated or changing lights,  
16 except for permitted change of message for electronic message signs, pursuant to Art. 8.G.3.B,  
17 Electronic Message Signs; ~~and~~ ~~→~~ **[Ord. 2014-025]**  
18 4. Electronic Message Signs shall be exempt from AGR, Exurban, Rural or Glades Tier  
19 prohibitions on internally illuminated signage.

##### 20 **B. U/S Tier Requirements**

- 21 1. Signs may be illuminated by silhouette, internal and external lighting, except where located in  
22 or oriented towards the NRM or NG Sub-areas of the WCRAO; and **[Ord. 2006-004]**  
23 2. Neon signs are allowed in the U/S Tier, except where located in or oriented towards the NRM  
24 or NG Sub-areas of the WCRAO, as part of a wall sign or window sign only. The sign area for  
25 a neon sign shall not exceed eight square feet. **[Ord. 2006-004]**

##### 26 **C. AGR Tier Requirements**

- 27 1. Signs may be illuminated by external or silhouette lighting only, with exception to the following:-  
28 a. Signs permitted under Art. 8.G.3.B, Electronic Message Signs; and,  
29 b. Signs on properties with a commercial future land use designation.  
30 ~~2. Outparcel identification signs require external lighting only.~~  
31 23. All sign lighting is restricted to the hours of operation of the entity or establishment with which  
32 the sign is associated.

- 33 4. Neon signs are allowed as a window sign only. The sign area shall not exceed six square feet.

##### 34 **D. Exurban, Rural, and Glades Tier Requirements**

- 35 1. Signs may be illuminated by external lighting only, with exception to signs permitted under Art.  
36 8.G.3.B, Electronic Message Signs.  
37 2. All sign lighting is restricted to the hours of operation of the entity or establishment with which  
38 the sign is associated

## ART. 8.G.3.B, ELECTRONIC MESSAGE SIGNS SUMMARY OF AMENDMENTS (Updated 4/21/17)

Part 1. ULDC Art. 8.G.3.B, Electronic Message Signs (page29 - 33 of 42 [Supplement 20]), is hereby amended as follows:

### ARTICLE 8 SIGNAGE

#### CHAPTER G STANDARDS FOR SPECIFIC SIGN TYPES

##### Section 3 Other Sign Types

###### B. Electronic Message Signs

###### 1. Applicability and Approval Process

Electronic message signs shall only be allowed as follows: [Ord. 2015-031]

Table 8.G.3.B, Electronic Message Sign Types and Approval Process

| Sign Type         | Permitted Content   | Approval Process                     |
|-------------------|---|--------------------------------------|
| Type 1            | At regional facilities, facilities with serial performances, and, specialized attractions that, by their operating characteristics, have unique sign requirements | Class A Conditional Use approval (1) |
| Type 2 <u>(2)</u> | <u>Reserved for Future Use</u><br><u>Electronic Changeable Copy Message Sign (PRA Pilot Program)</u>  | <u>N/A</u><br><u>Building Permit</u> |
| Type 3            | Time and temperature  | Building Permit                      |
| Type 3            | Fuel prices   | DRO                                  |
| Type 3            | Informational signs within residential Planned Unit Development (PUD)   | DRO                                  |

[Ord. 2010-022] [Ord. 2014-025] [Ord. 2015-031] [Ord. 2016-020] [Ord. 2017-007]

**Notes:**

1. Unless exempt under **Article 8.B, EXEMPTIONS**.
2. Signs approved pursuant to the provisions of the Type 2 Electronic Changeable Copy Message Sign (PRA Pilot Program) shall be considered conforming, where in compliance with all of the standards established for the Pilot Program in Ord. 2016-020.

###### 2. Prohibited Elements

....  
b. Message units that change copy, light, color, intensity, words or graphics more than once per eight seconds for Type 1 or Type 3 Electronic Message Signs, ~~and not more than once daily (24 hour period) for Type 2 Electronic Changeable Copy Message Signs~~. Any change in message shall be completed instantaneously. There shall be no special effects in-between messages; [Ord. 2014-025] [Ord. 2016-020]

###### c. Additional Standards for Approval-Required Findings

In addition to the Standards of Art. 2.B.2.B, Standards for Conditional Uses and Development Order Amendments, when considering a Class A Conditional Use for a Type 1 Electronic Message Sign, the ~~The~~ BCC shall consider whether or not the following standards have been met may approve an application for a Type 1 electronic message sign upon finding that: [Ord. 2014-025] [Ord. 2015-031]

- 1) The sign will not create confusion or a significant distraction to passing motorists;
- 2) The sign (including its supporting structure, if any) is consistent with Art. 8.A.1.B, General Design Principals of the same architectural character as the building's principal use;
- 3) The sign will not be a nuisance to occupants of adjacent and surrounding properties; and
- 4) The sign is accessory to a use regional in scale and attraction that, by its nature, demonstrates a unique need to communicate more information than is ordinarily needed for ~~a business or an~~ attraction.

###### ~~5. Standards for Type 2 Electronic Changeable Copy Message Sign (PRA Pilot Program)~~

~~A Type 2 Electronic Changeable Copy Message Sign may be permitted as an integral component of a conforming freestanding (excluding outparcel) or wall sign, for commercial, public and civic, or recreational uses, subject to the following: [Ord. 2016-020]~~

###### ~~a. One-Year Pilot Program Effective Dates~~

~~Applications for new Type 2 Electronic Changeable Copy Message Signs shall only be permitted from the effective date of this Ordinance to September 1, 2017. The Zoning Director shall provide a Status Report on the Pilot Program as part of the initiation of ULDC Amendment Round 2017-01. [Ord. 2016-020]~~

###### ~~b. Location~~

#### Notes:

- Underlined indicates new text.
- ~~Stricken~~ indicates text to be ~~deleted~~. If being relocated, or partially relocated, destination is noted in bolded brackets [**Relocated to:** ] or [**Partially relocated to:** ].
- *Italicized* indicates relocated text. Source is noted in bolded brackets [**Relocated from:** ].
- .... A series of four bolded ellipses indicates language omitted to save space.

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

1  
2 Part 1. ULDC Art. 1.F.3, Nonconforming Structure, (Pages 21 – 23 of 110) are hereby amended  
3 as follows:

4 CHAPTER F NONCONFORMITIES

5 Section 3 Nonconforming Structure

6 A. General

7 A nonconforming structure may continue to exist in accordance with this Section. [Ord. 2010-005]

8 B. Expansion

9 Expansion of a nonconforming structure shall not change or increase the nonconforming features  
10 of the structure, and shall not result in the intensification of a nonconforming use through the  
11 structural expansion. Expansion shall not exceed the percentage pursuant to Table 1.F.1.F,  
12 Nonconformities - Percentage and Approval Process for Expansion. [Ord. 2010-005]

13 C. Maintenance, Renovation and Natural Disaster Damage Repair

14 Maintenance, renovation, and damage repair caused by acts of nature shall not exceed the  
15 percentage pursuant to Table 1.F.1.G, Nonconformities - Percentage and Approval Process for  
16 Maintenance, Renovation, and Natural Disaster Damage Repair. [Ord. 2010-005].

17 D. Uses and Structures within an Airport Zone established in Article 16

18 1. Applicability

19 Uses, structures and other obstructions permitted prior to the effective date of the Airport  
20 regulations, November 1, 1996, that lie within regulated areas defined in Art. 16, Airport  
21 Regulations, which do not comply with the Airport Land Use Compatibility Schedule or FDOT,  
22 "Guidelines for the Sound Insulation Residences Exposed to Aircraft Operations," or exceeds  
23 permitted height limitations shall be considered a nonconforming use unless the structure or  
24 use is brought into conformance with the provisions of Art. 16, Airport Regulations. [Ord. 2010-  
25 005]

26 a. Exemptions

27 Land Uses within regulated areas ~~defined in Art. 16.C.1.D.2, ALUNZs for Airports, which~~  
28 ~~have not completed a Federal Aviation Regulation Part 150 Noise and Land Use~~  
29 ~~Compatibility Study, for PBC Park Airport (Lantana), PBC Glades Airport (Pahokee), Belle~~  
30 ~~Glade Municipal Airport, and Palm Beach North County Airport~~ are exempt from the  
31 requirements of this Article. [Ord. 2010-005]

32 2. Existing Uses and Occupancy

33 The requirements of Art.16, Airport Regulations, shall not be construed to necessitate the  
34 removal, lowering, or other modification alteration of a structure or building supporting an  
35 existing use non-conforming to the requirements therein, or otherwise interfere with the  
36 continuance of such use which legally existed prior to November 1, 1996, provided the  
37 continuation does not jeopardize life or health. Construction or alterations which existed or  
38 started prior to November 1, 1996, and are diligently pursued and completed in accordance  
39 with building permitting requirements as defined by PZB, shall not be required to comply with  
40 the provisions in Art. 16, Airport Regulations. [Ord. 2010-005]

41 a. Change in Use and Occupancy

42 If a change of use is proposed for an existing structure or building which does not comply  
43 with the Airport Zoning provisions for that particular use, ~~as specified in the Airport Land~~  
44 ~~Use Compatibility Schedule, the entire structure or building shall be brought into~~  
45 conformance with Art.16, Airport Regulations. [Ord. 2010-005]

46 3. ~~Abandonment of a Use~~

47 ~~If a use non-conforming to the Airport Regulations has been abandoned for 365 days (one~~  
48 ~~Year), a permit cannot be issued to repair, reconstruct or restore the structure to re-establish~~  
49 ~~the use unless the extent of the repair, reconstruction or restoration complies with the~~  
50 ~~requirements in Art. 16.B.1, Airspace Height Regulations, and Art. 16.C.1.E, General Land Use~~  
51 ~~Regulations Off Airport Land Use Compatibility Schedule. [Ord. 2010-005]~~

52 Discontinuance or Cessation

53 A nonconforming use or structure that is intentionally discontinued, abandoned or changed  
54 shall lose its nonconforming status and shall not be reestablished or resumed. Any subsequent  
55 use or structure in the same location shall be consistent with this Code. A use or structure that  
56 has been discontinued, abandoned, or changed for a period of more than 180 consecutive  
57 days, or for a total of 540 calendar days during any three-year period, shall constitute a  
58 presumption of the intent to discontinue, abandon, or change the use or structure. In the event  
59 either time period has been exceeded, an applicant shall have the burden of rebutting the

### DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS (Updated 05/24/17)

- 1 presumption by presenting competent, substantial evidence of the intent to maintain the  
2 nonconforming use or structure.
- 3 4. **Repair, Reconstruction, Restoration, or Alteration of a Structure**  
4 a. **Height Restrictions**  
5 Permits shall not be granted that would allow an existing structure to become higher or  
6 become a greater hazard to air navigation than it was as of November 1, 1996. All  
7 structures shall comply with Art. 16.B.1, Airspace Height Regulations. [Ord. 2010-005]  
8 b. **Use Regulations**  
9 Any permits to substantially modify, alter, repair, restore, reconstruct, or rebuild a structure  
10 supporting a non-conforming use shall comply with Art. 16.C.1.E, General Land Use  
11 Regulations Off-Airport Land Use Compatibility Schedule. In such cases, the entire  
12 building or structure shall be brought into conformance with these requirements. For the  
13 purposes of this Article, substantially alter modify shall mean: [Ord. 2010-005]  
14 1) the structure is more than 80 percent torn down, destroyed, deteriorated, or decayed;  
15 or [Ord. 2010-005]  
16 2) the ~~cost~~ Total Value of Improvement of repair, reconstruction or restoration exceeds  
17 ~~80~~ 50 percent of the Improvement Value of the existing building or structure; ~~or~~ [Ord.  
18 2010-005] [Ord. 2013-001]  
19 ~~3) the non-structural alterations or repairs exceed 50 percent of the Improvement Value~~  
20 ~~of the existing building or structure. [Ord. 2010-005] [Ord. 2013-001]~~  
21 If the structure does not meet these criteria, then only the new construction, alteration or  
22 repair shall be subject to the requirements of Art. 16, Airport Regulations. [Ord. 2010-005]
- 23 5. **Relocated Buildings**  
24 Buildings or structures moved into or within Palm Beach County, into a RPZ or ALUNZ shall  
25 comply with the height and noise level reduction provisions in Art. 16, Airport Regulations.  
26 [Ord. 2010-005]
- 27 6. **Obstruction and Marking Requirements**  
28 Any repair, restoration, reconstruction or alteration to a non-conforming structure, or  
29 establishment of a new use, shall require compliance with the Obstruction Marking and Lighting  
30 provisions in Article 16.B.1, Airspace Height Regulations. [Ord. 2010-005]
- 31 **Section 4 Nonconforming Use**
- 32 **A. Nonconforming Use Classifications**  
33 There are three classes of nonconforming uses: Major, Minor, and Nonconforming to Airport  
34 Regulations. [Ord. 2010-005]
- 35 1. **Major**  
36 A major nonconforming use is a use that was legally established in a zoning district where the  
37 use is now prohibited under the terms of this Code. Major nonconforming uses are  
38 inappropriately located and create or threaten to create incompatibilities that are detrimental to  
39 the public welfare. The intent of the PBC Comprehensive Plan is to eliminate or reduce existing  
40 or previously approved land uses, and activities, which were lawful before the adoption of the  
41 Plan but are now prohibited, regulated or restricted under the terms of the Plan. [Ord. 2010-  
42 005]
- 43 2. **Minor**  
44 A minor nonconforming use is a use that was legally established in a zoning district under a  
45 prior Code and one or more of the following applies: the use has been changed to a more  
46 restrictive review or approval process under the terms of this Code; DOAs or improvements to  
47 the use would exceed the development and approval thresholds; or, the use does not meet the  
48 property development regulations of this Code. Minor nonconforming uses do not create or  
49 threaten to create incompatibilities injurious to the public welfare. An applicant who is  
50 requesting modification or improvement to a minor nonconforming use is encouraged to apply  
51 pursuant to the review and approval process now in effect to correct the nonconforming status  
52 of the use for the benefit of future development order amendments and other types of  
53 improvements. [Ord. 2010-005] [Ord. 2015-006]
- 54 3. **Nonconforming to Airport Regulations**  
55 Requirements for uses nonconforming to Airport regulations are set forth in Art. 1.F.3.D, Uses  
56 and Structures within an Airport Zone. Nonconforming uses that are also nonconforming to the  
57 Airport zoning regulations shall comply with both the nonconforming provisions in Article 1. F  
58 and the ~~Airport~~ nonconforming provisions in Article 16 Airport Regulations. These uses shall  
59 be regulated as follows: [Ord. 2010-005]  
60 a. A major nonconforming use shall comply with the major nonconforming use provisions in  
61 Article 1. F. [Ord. 2010-005]

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

- 1           b. A minor nonconforming use shall comply with both provisions of the minor nonconforming  
2           use provisions in Article 1.F and the Nonconforming to Airport Regulations in Article 16.C.3.  
3           [Ord. 2010-005]
- 4       **B. Change in Use**  
5       A nonconforming use shall not be changed to any other use, unless the new use conforms to this  
6       Code. A nonconforming use physically replaced by a permitted use shall not be re-established.  
7       [Ord. 2010-005]
- 8       **C. Discontinuance or Cessation**  
9       A nonconforming use that is intentionally discontinued, abandoned, or changed to an accessory  
10       use shall lose its nonconforming status and shall not be reestablished or resumed. Any subsequent  
11       use in the same location shall be consistent with this Code. A use that has been discontinued,  
12       abandoned, or changed to an accessory use for a period of more than 180 consecutive days, or  
13       for a total of 540 calendar days during any three year period, shall constitute a presumption of the  
14       intent to discontinue, abandon, or change to an accessory use. In the event either time period has  
15       been exceeded, an applicant shall have the burden of rebutting the presumption by presenting  
16       competent, substantial evidence of the intent to maintain the nonconforming use. [Ord. 2010-005]
- 17       **D. Expansion**
- 18       1. **Major Nonconforming Use**  
19       Expansion shall not exceed the percentage pursuant to Table 1.F.1.F, Nonconformities -  
20       Percentage and Approval Process for Expansion. [Ord. 2010-005]
- 21       2. **Minor Nonconforming Use**  
22       A minor nonconforming use may be expanded pursuant to Table 1.F.1.F, Nonconformities -  
23       Percentage and Approval Process for Expansion, and the following: [Ord. 2010-005]
- 24       a. The expansion shall not exceed ten percent of the approved floor area of the structure or  
25       ten percent of the improvement value of the structures on site, whichever is less; or any  
26       other form of measure of intensity/density for the specific use such as but not limited to:  
27       beds for congregate living facilities; decks for restaurants; number of children for daycares;  
28       number of fueling stations or gas pumps for Retail Gas and Fuel Sales or other traffic  
29       intensity measures. [Ord. 2010-005] [Ord. 2017-007]
- 30       **E. Maintenance, Renovation and Natural Disaster Damage Repair**  
31       Shall not exceed the percentage pursuant to Table 1.F.1.G, Nonconformities - Percentage and  
32       Approval Process for Maintenance, Renovation, and Natural Disaster Damage Repair. For natural  
33       disaster damage repair, improvement value shall be established at the time the damage occurred.  
34       [Ord. 2010-005]
- 35       **F. Relocation**  
36       See Figure 1.F.4, Relocation and Expansion for permitted relocation of nonconformities. A  
37       nonconforming use shall not be relocated. [Ord. 2010-005]

40 **Part 2. ULDC Art. 1.I. 2 Definitions, (Pages 31, 32, 58, 63, 84, and 94 of 110) are hereby amended**  
41 **as follows:**

### 42 **CHAPTER I DEFINITIONS AND ACRONYMS**

#### 43 **Section 2 Definitions**

- 44       A. Terms defined herein or referenced in this Article shall have the following meanings:

45       ....

46       28. Aeronautical Study – means a Federal Aviation Administration study, conducted in  
47       accordance with the standards of 14 C.F.R. part 77, subpart C., and Federal Aviation  
48       Administration policy and guidance, on the effect of proposed construction or alteration upon  
49       the operation of air navigation facilities and the safe and efficient use of navigable airspace.

50       **[Renumber accordingly]**

51       43. Airport – for the purposes of Art. 16, any area of land or water designed and set aside for the  
52       taking off, maneuvering and landing of aircraft and used or to be used in the interest of the  
53       public for such purpose, including Palm Beach International Airport (PBI), Park Airport  
54       (Lantana), PBC Glades Airport (Pahokee), Belle Glade Municipal Airport, Palm Beach North  
55       County Airport and Boca Raton Airport and any area owned or operated by PBC, or other public  
56       entity, intended to be used for the taking-off, maneuvering and landing of aircraft, including any  
57       seaplane base, heliport or vertiport, validly licensed by the State of Florida for public use.

58       ....

59       45. **Airport Hazard** - for the purposes of Art. 16, an obstruction to air navigation which effects the  
60       safe and efficient use of navigable airspace or the operation of planned or existing air

#### **Notes:**

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

1  
2 Part 3. ULDC Art. 2.A.1.D.1.b.5), Zoning Commission (ZC) [Related to Authority] (Page 12 of 87)  
3 are hereby amended as follows:

### 4 CHAPTER A GENERAL

#### 5 Section 1 Applicability

##### 6 D. Authority

##### 7 1. Processes

##### 8 ..... 9 b. Zoning Commission (ZC)

10 The ZC shall consider the following types of development order applications:

11 .....  
12 5) The ZC is not authorized to grant variances from Code regulations with prohibited  
13 provisions, or the following Articles of the ULDC: [Ord. 2006-036] [Ord. 2011-001]  
14 [Ord. 2014-001]

15 .....  
16 p) Art. 16, Airport Regulations, and,  
17 pg) Art. 2.G, Decision Making Bodies; ~~and,~~  
18 .....  
19

20  
21 Part 4. ULDC Art.2.B.3, Type II Variance, (Pages 30 – 31 of 87) are hereby amended as follows:

### 22 CHAPTER B PUBLIC HEARING PROCESS

#### 23 Section 3 Type II Variance

##### 24 A. General

25 To allow variances in accordance with Art. 2.B.3.E, Standards, unless stated otherwise. Variance  
26 requests for density or intensity beyond the stated limits of the Plan shall be prohibited. Type II  
27 Variances shall be required for the following: [Ord. 2011-001] [Ord. 2012-003]

- 28 1. any application requesting variances from the ULDC requirements which are allowed under the  
29 authority of Article 2.A.1.D.1.b, Zoning Commission; [Ord. 2011-001]
- 30 2. any application requesting five or more variances; [Ord. 2009-040] [Ord. 2011-001]
- 31 3. any application requesting variances that exceed 15 percent of a required standard or Property  
32 Development Regulations for residential lots of three units or less; and [Ord. 2009-040] [Ord.  
33 2011-001] [Ord. 2012-003]
- 34 4. any application requesting variances that exceed the standards of Art. 2.D.3.D.2, Non  
35 Residential Projects; [Ord. 2012-003] [Ord. 2012-027]
- 36 5. ~~any airport zoning variance as described in Art. 2.B.3.D.2, Airport Variance; and, [Ord. 2006-~~  
37 ~~036] [Ord. 2009-040] [Ord. 2012-003] [Ord. 2012-027]~~

##### 38 B. Application Procedure

##### 39 ..... 40 3. Sequence of Submittal

41 An application for a variance shall comply with the following:

- 42 a. Approval of a variance shall be obtained prior to master plan, site plan or subdivision plan  
43 approval by the DRO, plat recordation, or issuance of a building permit, whichever occurs  
44 first.
- 45 b. If an application for a development order is contingent upon approval of a variance, then  
46 the variance shall be obtained prior to certification by the DRO.
- 47 ~~c.—Application for a variance from the Airport Zoning regulations shall comply with the review~~  
48 ~~procedures in Article 16, Airport Regulations.~~
- 49 dc. A pre-application meeting with staff shall be required prior to application submittal. [Ord.  
50 2008-003]

##### 51 ..... 52 D. Review and Recommendation

##### 53 ~~2. Airport Variance~~

54 ~~A variance from Art. 16, Airport Regulations, shall require the applicant to submit a copy of the~~  
55 ~~application by certified mail to the FDOT Aviation Section and DOA. The FDOT and DOA shall~~  
56 ~~have 45 days from receipt of the application to provide comments to the applicant and ZC, after~~  
57 ~~which the right to comment is waived. The ZC may proceed with consideration of an application~~

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

1 An establishment engaged in the storage of gas and fuels for wholesale distribution, to  
2 businesses.

3 **b. Overlay – Airport Zoning Overlay (AZO)**

4 Wholesale of gas and fuel shall be allowed in the AZO Overlay as an airport-related use  
5 only when associated with sales of aviation fuel.

6 **c. Location**

7 This use shall not be located within ~~any Prohibited Land Use Area/Five Mile Runway Buffer~~  
8 Zone the PBIAO.  
9

....

10 **Section 7 Utility Uses**

11 ....

12 **C. Definitions and Supplementary Use Standards for Specific Uses**

13 ....

14 **6. Landfill or Incinerator**

15 **a. Definition**

16 A facility for the disposal or incineration of solid waste for which a permit is required by the  
17 Florida Department of Environmental Protection, which receives solid waste for disposal in  
18 or upon the land. The term does not include a land-spreading site, injection well or surface  
19 impoundment.

20 **b. SWA permit**

21 Prior to operation of the facility, the owner or operator shall obtain a SWA Permit.

22 **c. Airport Land Use Compatibility Zoning**

23 1) New Landfills are prohibited, and existing Landfills within the following areas are  
24 restricted pursuant to Art. 16.1.E.2.c:

25 a) Within 10,000 feet from the nearest point of any Airport runway used or planned to  
26 be used by turbine aircraft or,

27 b) Within 5,000 feet from the nearest point of any Airport runway used by only non-  
28 turbine aircraft or,

29 c) Outside the perimeters defined in subparagraphs a. and b., but still within the  
30 lateral limits of the civil airport imaginary surfaces defined in 14 C.F.R. s. 77.19.  
31 Case –by case review of such landfills is advised.

32 2) Where any Landfill is located and constructed in a manner that attracts or sustains  
33 hazardous bird movements from feeding, water or roosting areas into, or across, the  
34 runways or approach and departure patterns of aircraft. The Landfill operator must  
35 incorporate bird management techniques or other practices to minimize bird hazard to  
36 airborne aircraft. These management techniques shall be addressed in the applicable  
37 zoning application. DOA, in consultation with the PZB, shall administer the review of  
38 development application for compliance.  
39

1 residents and property in areas surrounding PBC Airports; to promote the full utility of PBC Airports and  
2 public use airports; to provide structure height standards for airport hazards and uses within airport primary,  
3 horizontal, conical, approach and transitional surfaces so as to encourage and promote ~~the proper and~~  
4 ~~sound compatible~~ development of land beneath said areas; and to provide administrative procedures for  
5 the efficient and uniform regulation of all development proposals within said zones.

### 6 Section 2 Short Title and Authority

- 7 A. This Article shall be known and cited as the "Airport Zoning Ordinance."  
8 B. This Article is enacted pursuant to the provisions of Art. VIII, Sec. 1(g) of the Florida Constitution;  
9 Chapter 125, F.S. § (1995) Chapter 333, F.S. § ~~(1995)~~ (2016), or as amended.

### 10 Section 3 Applicability

- 11 A. This Article regulates height and land uses around publicly owned airports in PBC. The height  
12 standards for structures or obstructions provide maximum height limits and a review procedure to  
13 determine if structures or obstructions will have an adverse impact on safe and efficient airspace  
14 use. The land use standards provide restrictions and a review procedure within four nautical miles  
15 of publicly owned airports to determine if the land use is compatible with normal airport operation  
16 and Federal Aviation Administration (FAA) guidelines. The land use standards apply to the highest  
17 most restrictive airport hazard areas and Noise Zones, and limit uses which include, but are not  
18 limited to, hazardous material storage, emissions of light or smoke, or uses which attract  
19 concentrations of people or birds.  
20 B. This Article applies to all land in unincorporated PBC.  
21 C. This Article also applies to all municipalities that may elect to participate through interlocal  
22 agreement, pursuant to Chapters 163 and 333.03, (1)(b)1, Florida Statutes, ~~or to all affected~~  
23 ~~municipalities if a Joint Airport Zoning Board is created pursuant to F.S. §333.03 (1) (b) 2, (1994).~~  
24 D. These regulations supplement other land development regulations in this Code.  
25 E. Where there exists a conflict between any of the regulations or limitations prescribed in this Article  
26 and any other regulations applicable to the same area, the more stringent limitation or requirement  
27 shall govern and prevail.

### 28 Section 4 Definitions and Acronyms

29 See Art. 1.I, Definitions and Acronyms.

### 30 Section 5 Appendices

31 Maps and related information contained in Appendices 1-15 are incorporated herein by reference and are  
32 available for review at the Department of Airports or may be obtained from their web site.

## 33 CHAPTER B ~~AIRSPACE HEIGHT REGULATION AIRPORT PROTECTION ZONING REGULATIONS~~ 34 GOVERNING AIRPORT HAZARDS

### 35 Section 1 Airspace Height Regulations

#### 36 A. General

37 In order to carry out the provisions of this Article, there are hereby created and established certain  
38 zones which include all of the applicable land lying beneath the primary, horizontal, conical,  
39 approach, and transitional surfaces as they apply to a particular airport. To regulate height, an  
40 Airspace Notification Map, ~~(attached as Appendix 1),~~ and a procedure to review ~~the permitting of~~  
41 ~~and permit tall structures obstructions~~ has been established. Airport height limitations and the  
42 notification procedures established in this Section conform to the standards for determining  
43 obstructions to air navigation of Federal Aviation Regulations Part 77, ss. 77.23.

#### 44 B. Regulated ~~Construction Obstructions~~

45 For purposes of this Section, ~~construction obstructions~~ includes but ~~is are~~ not limited to, any existing  
46 or proposed permanent or temporary object, natural growth or creating new structures, or adding  
47 height to any existing structure and shall include the location of derricks, draglines, cranes and  
48 other boom-equipped machinery. ~~Construction Obstruction~~ does not include any development  
49 which does not have the effect of adding height to the land or other structure, such as paving,  
50 draining or roofing.

#### 51 C. Regulated Areas

52 The various surfaces displayed as Zone 1 and Zone 2 on the PBC "Airspace Notification Map" are  
53 defined below. Penetration of one of these zones shall require a technical analysis by FAA and

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

obtaining a Permit for Obstruction from the DOA following a review ~~of the analysis~~ by the DOA, PZB Department, and other applicable governmental agencies in accordance with this Article.

**1. Publicly-Owned, Public Use ~~PBC~~ Airports**

- a. Zone 1 - All construction within 3,500 feet from the airport reference point in all directions.
- b. Zone 2 - Any construction of a height exceeding the limitations of any zone established in this Section within a four nautical mile radius of the airport reference point.
- c. Any construction or alteration of a height greater than an imaginary surface extending outward and upward for a distance of 20,000 feet from the reference point of any terminal navigational aid facility up to a height of 200 feet above ground level.

**2. All ~~PBC~~ Heliports/Vertiports**

Any construction or alteration of a height greater than an imaginary surface extending outward and upward from any point of any public or private State licensed ~~PBC~~ Heliport for a distance of 5,000 feet up to a height of 200 feet above ground level.

**3. Terminal Navigational Aid Notification Areas**

Any construction or alteration within 5,000 feet of any navigational aid facility; and

**4. Other Areas**

Any construction or alteration of a height greater than 200 feet above ground level.

**D. Airport Zones Established**

Primary, Horizontal, Conical, Approach and Transitional Airport Zones are shown on maps described below. These maps are on file at the DOA and PZB and are incorporated herein. These maps are included by reference and attached as Appendices 2-7, available at The Department of Airports.

- Map A - PBCIA (Appendix 2)
- Map B - PBC Park Airport (Lantana) (Appendix 3)
- Map C - PBC Glades Airport (Pahokee) (Appendix 4)
- Map D - Belle Glade Municipal Airport (Appendix 5)
- Map E - Palm Beach North County Airport (Appendix 6)
- Map F - Boca Raton Airport (Appendix 7)

**E. Airport Runway Categories Defined**

The size and dimensions of each zone created and established as part of this Section is based upon the category of each runway, according to the type of approach available or planned for that runway. The category of each runway for airports included in this Article are listed in Table 16.B.1.E-1, Runway Category and Runway Protection Zone (RPZ) Defined, by Airport.

**Table 16.B.1.E-1 Runway Category and Runway Protection Zone (RPZ) Defined, by Airport**

| Airport/Runway                                | Runway                                    | Length                   | Inner Width                   | Outer Width      | RPZ Acres                       |
|---|---|--------------------------|-------------------------------|------------------|---------------------------------|
| Palm Beach International ( <del>PBCIA</del> ) | Runway <del>09/27</del> <u>09/27R-10L</u> | Precision                | <del>1,700</del> <u>2,500</u> | 1,000            | <del>48.978</del> <u>78.914</u> |

|   | Runway <del>09R/27L</del> <u>10R/28L</u>  | Visual                   | 1,000                         | 500              | 13.770                          |
| PBC Park (Lantana)                            | Runway 09/27                              | Non-Precision            | 1,700                         | 500              | 29.465                          |
|   | Runway 15/33                              | Non-Precision            | 1,700                         | 500              | 29.465                          |
|   | Runway 03/21                              | Visual                   | 1,000                         | 500              | 13.770                          |
| PBC Glades (Pahokee)                          | Runway 17/35                              | Non-Precision            | 1,700                         | 500              | 29.465                          |
| Belle Glade Municipal                         | Runway 09/27                              | Visual                   | 1,000                         | 500              | 13.770                          |
| Palm Beach North County                       | Runway <del>08R/26L</del>                 | Precision                | 1,700                         | 1,000            | 48.978                          |
|   | <del>Runway 26L</del>                     | <del>Non-Precision</del> | <del>1,700</del>              | <del>500</del>   | <del>29.465</del>               |
|   | Runway 13/31                              | Non-Precision            | 1,700                         | 500              | 29.465                          |
|   | Runway 08L/26R                            | Visual                   | 1,000                         | 500              | 13.770                          |
| Boca Raton                                    | Runway 05/23                              | Non-Precision            | 1,700                         | 500              | 29.465                          |

**F. Airport Height Limitations**

**1. General**

Where any two limitations in this Article are in conflict, the more stringent applies. Except as otherwise provided in this Section, no obstruction including any structure, or object of natural growth, shall be erected, altered, or be maintained without prior approval by DOA or PZB, which

# EXHIBIT S

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS (Updated 05/24/17)

is or would be an ~~obstruction~~ obstacle to air navigation, as defined in this Article, or of a height greater than:

- a. 500 feet above ground level at the site of the object;
- b. 200 feet above ground level or the established airport elevation, whichever is higher. These heights shall be measured within three nautical miles of the established reference point of an airport; and which height increases up to a maximum of 500 feet, at a slope of one foot vertically for every 100 feet horizontally, for a distance of 50,000 feet; or
- c. Any object within the approach segment, departure area, or any missed approach or circling approach area which is determined by the Airports Director to be a hazard to the safe and efficient use of airspace around an airport.

### G. Airport Height Zone Definitions and Limitations

A property located in more than one of the described zones is considered to be only in the zone with the more restrictive height limitation. The various zones are hereby established and defined below. These zones are depicted in plan view in Appendix Appendices 2 through 7 and in isometric view in Appendix 15. The specific definitions of each airport height zone (horizontal distance, width, arc radius, etc.) are listed on Table 16.B.1.G-2, Specific Zone Definition, by Airport, by Runway. General definition and height limitations are described in the Subsections to follow.

**Table 16.B.1.G-2 Specific Zone Definition, By Airport, By Runway**

| Airport/<br>Runway                            | Primary<br>Zone Width<br>(in feet) | Horizontal<br>Arc Radius<br>(in feet) | Conical<br>Zone<br>(in feet) | Approach Zone (in feet) |             |                |
|---|------------------------------------|---------------------------------------|------------------------------|-------------------------|-------------|----------------|
|   |                                    |                                       |                              | Horizontal Dist.        | Inner Width | Outer Width    |

#### 1. Primary Zone Definition

An area longitudinally centered on a runway, extending 200 feet beyond each end of that runway with the width so specified for each runway for the most precise approach existing or planned for either end of the runway.

##### a. Primary Zone Height Limitations

No structure or obstruction will be permitted within the Primary Zone that is not part of the landing, maneuvering and taking-off facilities.

##### b. Primary Zone Width for each Specific Airport

The specific width of each Primary Zone for each airport is listed in Table 16.B.1.G-2, Specific Zone Definition, by Airport, by Runway.

#### Notes:

Underlined indicates **new** text.

~~Stricken~~ indicates text to be **deleted**. ~~Stricken and italicized~~ means text to be totally or partially relocated. If being relocated destination is noted in bolded brackets [**Relocated to:** ].

*Italicized* indicates text to be relocated. Source is noted in bolded brackets [**Relocated from:** ].

# EXHIBIT S

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

1       **2. Horizontal Zone Definition**

2       The area around each airport with an outer boundary the perimeter of which is constructed by  
3       swinging arcs of specified radii from the center of each end of the Primary Zone of each airport's  
4       runways and connecting adjacent area by lines tangent to those arcs. The radius of the arc  
5       specified for each end of a value will be the highest composite value determined for either end  
6       of the runway. When a 5,000-foot arc is encompassed by tangents connecting two adjacent  
7       10,000-foot arcs, the 5,000-foot arc shall be disregarded on the construction of the perimeter  
8       of the Horizontal Zone.

9       **a. Horizontal Zone Height Limitations**

10       No structure or obstruction that has a height greater than 150 feet above the airport  
11       elevation, will be permitted in the Horizontal Zone.

12       **b. Horizontal Arc Radius for each Specific Airport**

13       The specific horizontal arc Radius of each airport is listed above in Table 16.B.1.G-2,  
14       Specific Zone Definition, by Airport, by Runway.

15       **3. Conical Zone Definition**

16       The area extending outward from the periphery of the Horizontal Zone for a distance of 4,000  
17       feet. The specific Conical Zone distance for each airport is listed above in Table 16.B.1.G-2,  
18       Specific Zone Definition, by Airport, by Runway.

19       **a. Conical Zone Height Limitation**

20       No structure or obstruction will be permitted in the Conical Zone that has a height greater  
21       than 150 feet above the airport elevation at the inner boundary (connecting the Horizontal  
22       Zone) with permitted height increasing at a slope of one foot vertically for every 20 feet of  
23       horizontal distance, measured outward from the inner boundary to a height 350 feet above  
24       the airport elevation at the outer boundary.

25       **b. Approach Zone Definition**

26       An area longitudinally centered on the extended runway centerline and extending outward  
27       and upward from each end of the primary zone. An Approach Zone is designated for each  
28       runway based upon the type of approach available or planned for that runway end.

29       **4. Approach Zone Height Limitations**

30       The permitted height limitation within an outer or inner Approach Zone is the same as the  
31       runway end height at the inner edge and increases with horizontal distance outward from the  
32       inner edge based upon the calculation method listed in Table 16.B.1.G-3, Specific Zone Height  
33       Limitation Calculation, by Airport, by Runway.

34       **a. Approach Zone Horizontal Distance for each Specific Airport**

35       The specific Approach Zone dimensions for each airport is listed above on Table 16.B.1.G-  
36       2, Specific Zone Definition, by Airport, by Runway.

37       **Table 16.B.1.G-3-Specific Approach Zone Height Limitation Calculation, By Airport, By Runway**

| AIRPORT/RUNWAY                           |  | APPROACH ZONE HEIGHT LIMIT CALCULATION  |
|--|--|---|
| Palm Beach International ( <u>PBIA</u> ) | Runway <del>09L/10L/27R</del> <u>28R</u> | One foot vertically for every 50 feet of horizontal distance for the first 10,000 feet, and then one foot vertically for every 40 feet of horizontal distance for an additional 40,000 feet.  |
|  | Runway <del>13/14/31-32</del>            | One foot vertically for every 34 feet of horizontal distance.   |
|  | Runway <del>09R/10R/27L</del> <u>28L</u> | One foot vertically for every 20 feet of horizontal distance.   |
| PBC Park (Lantana)                       | Runway 09/27                             | One foot vertically for every 20 feet of horizontal distance.   |
|  | Runway 15/33                             |   |
|  | Runway 03/21                             |   |
| PBC Glades (Pahokee)                     | Runway 17/35                             | One foot vertically for every 20 feet of horizontal distance.   |
| Belle Glade Municipal                    | Runway 09/27                             | One foot vertically for every 20 feet of horizontal distance.   |
| Palm Beach North County                  | Runway 08R/26L                           | <b>Runway 08R:</b> one foot vertically for every 20 feet of horizontal distance for the first 10,000 feet, then one foot vertically for every 40 feet of horizontal distance for an additional 40,000 feet.<br><b>Runway 26L:</b> one foot vertically for every 34 feet of horizontal distance. |
|  | Runway 13/31                             | One foot vertically for every 20 feet of horizontal distance.   |
|  | Runway 08L/26R                           |   |
| Boca Raton                               | Runway 05/ 23                            | One foot vertically for every 34 feet of horizontal distance.   |

# EXHIBIT S

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

### 5. Transitional Zone Definition

The area extending outward from the sides of the Primary Zones and Approach Zones connecting them to the Horizontal Zone. Height limits within the Transitional Zone are the same as the Primary Zone or Approach Zone at the boundary line where these Zones meet (i.e., level with the nearest point on the runway centerline) and increase at a rate of one foot vertically for every seven feet horizontally, with the horizontal distance measured at right angles to the runway centerline and extended centerline, until the height matches the height of the Horizontal Zone, the Conical Zone or for a horizontal distance of 5,000 feet from the side of the part of the Precision Approach Zone that extends beyond the Conical Zone.

#### a. Transitional Zone Height Limitation

No ~~object or~~ structure or obstruction will be permitted within the Transitional Zone greater in height than the Primary Zone or Approach Zone at their adjoining boundary lines increasing at a rate of one foot vertically for every seven feet horizontally, with the horizontal distance measured at right angles to the runway centerline and extended centerline, until the height of the slope matches the height of the Horizontal Zone or the height of the Conical Zone and for a horizontal distance of 5,000 feet from each side of that part of the Approach Zone for a Precision Instrument Runway extending beyond the Conical Zone.

### 6. Terminal Navigational Aid Obstruction Zone Definition

Operation of a Navigational Aid Facility is electromagnetic in nature therefore, objects constructed off of airport property may have an adverse ~~affect~~ effect on the safe and efficient operation of navigational facilities. An Airport Surveillance Radar (ASR) facility Navigational Aid Obstruction Zone has been established extending in all directions to a radius of 3,500 feet from the navigation aid. This zone is shown on the Airspace Notification Map, Appendix 1.

#### a. Terminal Navigational Aid Obstruction Zone Limitation

No construction or alteration or installation of any electromagnetic device shall be permitted within this Navigation Aid Obstruction Zone without prior technical review by the FAA. If deemed necessary by the results of the FAA review, ~~approval~~ a Permit for Obstruction must be obtained from DOA following a review by the DOA and PZB.

### 7. Heliport/Vertiports

#### a. Primary Zone Definition

The Primary Zone coincides in size and shape with the designated take-off and landing area of a Heliport/Vertiport.

##### 1) Primary Zone Limitation

This primary zone height limitation is described by a horizontal plane at the elevation of the established elevation.

#### b. Approach Zone Definition

The Approach Zone begins at each end of the Heliport/Vertiport Primary Zone with the same width as the Primary Zone and extends outward and upward for a horizontal distance of 4,000 feet where its width is 500 feet.

##### 1) Approach Zone Height Limitation

The Approach Zone height limitation is a slope of one foot vertically for every eight feet horizontally.

#### c. Transitional Zone Definition

The Transitional Zone extends outward and upward from the lateral boundaries of the Primary Zone and from the Approach Zone for a distance of 250 feet measured horizontally from the centerline of the Primary and Approach Zones.

##### 1) Transitional Zone Height Limitation

The Transitional Zone has a height limitation at a slope of one foot vertically for every two feet horizontally.

### H. Airspace Height Review Procedures

All new construction, ~~or~~ reconstruction or alteration that which adds height to any ~~land or building~~ obstruction within areas shown on the ~~or~~ "Airspace Notification Map", ~~(incorporated by reference and attached as~~ Appendix 1), shall be reviewed for compliance with the standards of this Section.

#### 1. General

No ~~Tall Structure~~ Permit for Obstruction will be issued if all FAA and DOA comments are not addressed to the satisfaction of DOA, PZB and County Attorney. No development permit application shall be issued if the proposed construction or alteration is found to violate the provisions of this Article, or exceed an obstruction standard of Federal Aviation Regulation ~~s~~, Part 77 or ~~any~~ other applicable Federal or State rules or regulations.

#### 2. ~~Tall Structure~~ Permit for Obstruction Review ~~Required~~

#### Notes:

Underlined indicates new text.

~~Stricken~~ indicates text to be ~~deleted~~. ~~Stricken and italicized~~ means text to be totally or partially relocated. If being relocated destination is noted in bolded brackets [**Relocated to:** ].

*Italicized* indicates text to be relocated. Source is noted in bolded brackets [**Relocated from:** ].

.... A series of four bolded ellipses indicates language omitted to save space.

# EXHIBIT S

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS (Updated 05/24/17)

~~DOA shall make a determination if FAA notification is required. An application for the construction, reconstruction or alteration of any obstruction must be reviewed in accordance with the development review procedures in Article 2. Development Review Process~~ prior to certification of an application by DRO or issuance of a building permit for a permanent or temporary ~~structure obstruction~~ located within ~~areas~~ Regulated ~~Areas by this Article~~.

### a. **FAA Review**

The DOA shall inform the applicant that ~~prior~~ review by the FAA is required if DOA determines that the proposed ~~construction or alteration~~ obstruction represented in the application may exceed:

- 1) The standards of Federal Aviation Regulations Part 77;
- 2) The provisions of Article 16.B.1.F, Airport Height Limitations, and Article 16.B.1.G, Airport Height Zone Definitions and Limitations;
- 3) Any other Federal or State rules and regulations; or
- 4) Adversely affects the airspace surrounding any Airport defined herein. The FAA must review and issue a determination of the proposal's effect on navigable airspace where such prior notification under Title 14, CFR, Part 77 is required. PZB shall suspend any review of any development permit application process until FAA findings of aeronautical affect are approved.

### ~~b.5) Responsibility of the Applicant~~

The Applicant shall submit:

#### ~~1) Obtain~~

- a) ~~FAA Form 7460-1 from the DOA and mail the completed form to Federal Aviation Administration Southern Regional Office, Attn: ASO-532, Systems Management Branch, P. O. Box 20636, Atlanta, GA 30320~~ electronically via the FAA's website at <https://oeaaa.faa.gov/>.

#### ~~2) Bring~~

- b) In person or forward by Certified Mail (Return Receipt Requested) to the DOA, the FAA's ~~findings determination~~ of aeronautical affect, including a valid aeronautical study number along with and a copy of the ~~completed~~ original electronic submittal of FAA Form 7460-1.

### b. **DOA Review**

- 1) Following receipt the FAA finding of aeronautical affect, if required, the DOA shall consider the following criteria when determining whether to certify a development application with or without conditions of approval; or recommend issuance or denial of a building permit.

- a) The safety of persons on the ground and in the air.
- b) The safe and efficient use of navigable airspace.
- c) The nature of the terrain and height of existing structures.
- d) The effect of the construction or alteration on the state licensing standards for a public-use airport contained in Chapter 333 FS and rules adopted thereunder.
- e) The character of existing and planned flight operations and developments at public-use airports.
- f) Federal airways, visual flight rules, flyways and corridors, and instrument approaches as designated by the FAA.
- g) The effect of the construction or alteration on the minimum descent altitude or the decision height at the affected airport.
- h) The cumulative effects on navigable airspace of all existing structures and all other known proposed structures in the area.

#### **32) Structure(s) Not Exceeding Obstruction Standards or Other Provisions DOA**

~~DOA S~~shall review the FAA's determination issued in response to the applicant's FAA Form 7460-1 and the permit application. If DOA determines that the proposed construction or alteration does not exceed the height limitations in this Section, the DOA shall ~~notify the applicant in writing issue the permit or issue the permit with conditions of approval so~~ that the proposed structure may be erected in accordance with permitting requirements of PZB. PZB may certify the development application or issue a building permit, as applicable. The applicant shall present a copy of the permit to PZB with the development application or building permit application.

#### **43) Structure(s) Exceeding Obstruction Standards or Other Provisions**

DOA shall review the FAA's determination issued in response to the applicant's FAA Form 7460-1 and the permit application. If DOA determines the proposed ~~construction obstruction~~ exceeds the height limitations outlined in this Section, then the DOA shall ~~notice the applicant deny the permit~~. The notice shall state the reasons for denial and

#### Notes:

Underlined indicates new text.

~~Stricken~~ indicates text to be ~~deleted~~. ~~Stricken and italicized~~ means text to be totally or partially relocated. If being relocated destination is noted in bolded brackets [**Relocated to:** ].

*Italicized* indicates text to be relocated. Source is noted in bolded brackets [**Relocated from:** ].

.... A series of four bolded ellipses indicates language omitted to save space.

## EXHIBIT S

### DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS (Updated 05/24/17)

1 inform the applicant that they may ~~apply for a variance pursuant to Article 16.C.2,~~  
2 ~~Variances, and Article 2.B.3, Variances, of this Code, to allow deviations from the~~  
3 ~~standards of this Section~~ appeal the decision pursuant to Article 16.C.2.

#### 4) FDOT Review

5 Following receipt of a complete application, the DOA shall provide a copy of the  
6 application to the FDOT aviation office for their review and evaluation pursuant to  
7 Chapter 333.025, Florida Statutes.

#### 5) ~~Zoning and Building Permit Requirement~~

8 ~~If the Tall Structure permit is approved, the applicant shall present a copy of the Tall~~  
9 ~~Structure Permit with all development order conditions to PZB with an application for~~  
10 ~~the next applicable development order.~~

#### c.7 ~~Building Permit Requirement~~

11 The applicant shall present a copy of the ~~Tall Structure~~ Permit Application, along with all  
12 Development Order comments and conditions of approval, to the Building Director in order  
13 to ensure that any conditions are adequately addressed prior to the issuance of a building  
14 permit, including obstruction lighting and marking conditions.

#### d.6 ~~Obstruction Marking and Lighting~~

15 The owner shall mark and light the structure in accordance with the provisions of Chapter  
16 333, Florida Statute; Rules of Florida Department of Transportation, Chapter 14-60 and the  
17 FAA Advisory Circular 70/7460H, *Obstruction Marking or Lighting*, as may be amended  
18 from time to time. The permit may be conditioned to require the applicant to mark and light  
19 the structure, at applicant's own expense, or to allow DOA to install, operate and maintain  
20 at its own expense, such markers and lights as may be necessary to indicate to pilots the  
21 presence of an airspace obstruction if warranted.

## 25 CHAPTER C AIRPORT LAND USE COMPATIBILITY ZONING REGULATIONS

### 26 Section 1 Airport Land Use Regulations

#### 27 A. General

28 In order to carry out the provisions of this Article, there are hereby created and established certain  
29 zones which include all the land lying beneath the Runway Protection Zone (RPZ) and within Airport  
30 Land Use Noise Zone(s) (ALUNZ), as they apply to a particular airport. All areas defined as the  
31 RPZ and areas displayed as ALUNZ in Appendices 2 through 7 and 9 through 14 are subject to  
32 review and technical analysis by DOA, PZB, and other applicable governmental agencies, in  
33 consultation with PZB, in accordance with this Article.

34 To regulate land uses within these zones, an Off-Airport Land Use Compatibility Schedule  
35 Appendix 8, maps and review procedures have been established. The RPZ dimensions are defined  
36 in Table 16.B.1.E-1, Runway Category and Runway Protection Zone (RPZ) Defined, by Airport. The  
37 noise zones are depicted on the Airport Land Use Noise Maps, ~~(Appendices 9 through 14).~~

#### 38 B. Regulated Land Use

39 Notwithstanding any other provisions of this Article, no use may be made of land or water within  
40 the RPZ in such manner as to interfere with the operation of an airborne aircraft. The Off-Airport  
41 Land Use Compatibility Schedule, Appendix 8, shall be used to determine additional land  
42 development requirements for uses identified in Article 4, Use Regulations. Those activities and  
43 land uses not specifically listed in the Airport Land Use Compatibility Schedule are permitted or  
44 restricted based on their similarity to noise tolerance and compatibility with normal airport  
45 operations as exhibited by the activities and land uses which are listed in the Schedule.

##### 46 1. Construction, defined

47 For purposes of this Section, construction includes but is not limited to creating new structures,  
48 making alterations or repairs and additions to any existing building or structure, or moving or  
49 relocating a building(s) or structure(s) within a Regulated Area. Construction does not include  
50 paving, drainage or similar types of ~~construction~~ improvements.

##### 51 2. Review Procedure for Regulated Land Use

52 All new construction or reconstruction for temporary or permanent uses shall be reviewed for  
53 compliance with the standards of this Section in accordance with the development review  
54 procedures in Article 2, Development Review Process, or at the time of application for a building  
55 permit. Prior to issuance of a development order or a building permit, the DOA, in consultation  
56 with PZB, shall review the application for compliance with this Article.

#### 57 C. Regulated Areas

58 To regulate land uses within the RPZ and ALUNZ, and Off-Airport Land Use Compatibility  
59 Schedule, maps and review procedures have been established. Only the portion of the lot falling  
60

#### Notes:

# EXHIBIT S

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

1 within the RPZ or ALUNZ shall be subject to the provisions of this Article. The Off-Airport Land Use  
2 Compatibility Schedule, Appendix 8, shall be used to determine compatibility of land use with airport  
3 operations within these zones.

### 4 1. Runway Protection Zone (RPZ)

5 The RPZ includes all land lying beneath the defined RPZ, as shown on the applicable Airport  
6 Zoning Maps, in Appendices 2 through 7, for all airports in PBC.

### 7 2. Airport Land Use Noise Zones (ALUNZ)

8 The ALUNZ include all land area lying within the defined ALUNZ as shown on the applicable  
9 Airport Land Use Zone Maps, in Appendices 9 through 14, for all airports in PBC.

## 10 D. Airport Land Use Noise Zone(s) Established

11 All land uses shall be permitted within ALUNZ as provided in the Off-Airport Land Use Compatibility  
12 Schedule, Appendix 8.

### 13 1. Airport Land Use Noise Zones for Airports which have completed FAR Part 150 Noise 14 and Land Use Compatibility Studies

15 Several ~~PBC~~ airports within PBC have completed a noise study in accordance with 14 CFR  
16 Part 150. Land uses within the area contiguous to these airports, within an area defined as the  
17 outer noise contour, or equivalent thereof shall be consistent with the type of use listed in  
18 Airport Land Use Compatibility Schedule.

#### 19 a. Palm Beach International Airport (PBI)

20 The Palm Beach International ALUNZ has been established and is incorporated herein as  
21 Appendix 9. This Zone is created based on yearly averaged, 24-hour day/night average  
22 noise level projections arising from aircraft flight operations at PBI.

##### 23 1) Palm Beach International Airport Land Use Noise Zone (ALUNZ) Define

24 That area commencing at the outermost boundary of the airport and extending outward  
25 therefrom to a boundary indicated on the Palm Beach International Airport Land Use  
26 Noise Zone Map. The boundary of the zone extends approximately ½ nautical mile  
27 beyond the projected yearly averaged, 24-hour day/night average noise level contour  
28 of 65 L<sub>dn</sub>.

#### 29 b. Boca Raton Airport

30 The Boca Raton ALUNZ has been established and is incorporated herein as Appendix 10.  
31 This Zone is created based on projections of aircraft flight operations at Boca Raton Airport.

##### 32 1) Boca Raton Airport Land Use Noise Zone (ALUNZ) Defined

33 That area commencing at the outermost boundary of the airport and extending outward  
34 there from to a boundary indicated on the Boca Raton Airport Land Use Noise Zone  
35 Map. The outer boundary of the zone approximates a projected yearly averaged, 24-  
36 hour day/night average noise level contour of 60 L<sub>dn</sub> or greater.

### 37 2. ALUNZs for Airports which have not completed an FAR Part 150 Noise and Land Use 38 Compatibility Study

39 An overlay Land Use Noise Zone has been established for the civil airports which have not  
40 completed an Federal Aviation Regulation Part 150 Noise and Land Use Compatibility Study.  
41 This Zone is created as an area beneath the standard VFR traffic pattern and buffer airspace  
42 established in FAA Order 7400.2D, *Procedures for Handling Airspace Matters*, which underlies  
43 the majority of recurring aircraft flight paths. Land Uses within this zone may be subject to  
44 aircraft noise that may be considered objectionable.

#### 45 a. Land Use Noise Zone(s) Defined for PBC Park Airport (Lantana), PBC Glades Airport 46 Pahokee), Belle Glade Municipal Airport, and Palm Beach North County Airport

47 Land Use Noise Zones for these airports are established as the land lying within parallel  
48 lines 9,108 feet in both directions from the approach and departure end of each runway,  
49 the runway centerline, and all airspace in between. These zones are established and  
50 attached as Appendices 11 through 14.

## 51 E. General Land Use Regulations-Off-Airport Land Use Compatibility Schedule (Appendix 8)

### 52 1. The Off-Airport Land Use Compatibility Schedule (Appendix 8)

53 Lists land uses as defined below:

#### 54 a. Land Uses Compatible Without Restriction ("P")

55 Uses noted with a "P" may develop pursuant to the development review procedures in the  
56 Use ~~Regulation Schedule Matrices~~ in Article 4, Use Regulations, Article 3.B. Overlays and  
57 Article 2, Development Review Process, and are not required to comply with the conditional  
58 requirements set forth in Appendix 8, The Off-Airport Land Use Compatibility Schedule.

#### 59 b. Land Uses Qualified As Compatible Only If In Compliance With Conditional 60 Requirements ("Q")

61 Uses noted with a "Q" may develop pursuant to the development review procedures in the  
62 Use ~~Regulation Schedule Matrices~~ in Article 4, Use Regulations, Article 3.B. Overlays and

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

1 Article 2, Development Review Process, if regulated and constructed in accordance with  
2 the conditional notes in Appendix 8. ~~Application for a Type II variance from the conditional~~  
3 ~~requirements may be made to the ZC in accordance with the requirements in Article 2,~~  
4 ~~DEVELOPMENT REVIEW PROCESS. [Ord. 2006-036]~~

5 **c. Incompatible Land Uses (“N”)**

6 Uses noted as an “N” are considered to be incompatible in the Airport Zone Regulated  
7 Areas. These uses shall not be allowed in the Runway Protect Zone (RPZ) and variance  
8 relief is not available. ~~Uses within the Airport Land Use Zone shall require variance~~  
9 ~~approval pursuant Article 16.C.2, Variances, herein and Article 2.B.3, Variances, and shall~~  
10 ~~be subject to the development review procedures in the Use Regulation Schedule in Article~~  
11 ~~4, USE REGULATIONS, and Article 2, DEVELOPMENT REVIEW PROCESS, prior to~~  
12 ~~establishment of the use.~~

13 **2. Prohibited Land Uses**

14 a. In no case shall a new ~~educational facility~~ Limited or General Day Care, or ~~a public or~~  
15 ~~private school~~ School- Elementary or Secondary be permitted at either end of a runway  
16 within an area that extends five statute miles in a direct line along the centerline of the  
17 runway and which has a width of the length of 1/2 the runway. **[Ord. 2011-016]**

18 1) Nothing in subsection a. above shall be construed to require the removal, alteration,  
19 sound conditioning, or other change, or to interfere with the continued use or expansion  
20 to contiguous properties of any public or private educational structure in existence, or  
21 real property in use, on November 1, 1996. Construction of new education structures  
22 shall meet the provisions of Article 16.B.1.H, Airspace Height Review Procedures, and  
23 the provision of sound insulation materials in accordance with established architectural  
24 and acoustical principles as contained in document DOT/FAA/PP-92-5 (or later  
25 version), Guidelines for the Sound Insulation of Residences Exposed to Aircraft  
26 Operations, is encouraged.

27 2) The language in subsection a. above shall not be construed to require the removal,  
28 alteration, sound conditioning, or other change, or to interfere with the continued use  
29 or expansion of any Limited or General Day Care use in existence, or real property in  
30 use, or with a valid development order prior the effective date of this Ordinance.  
31 Expansion or alterations of a Day Care located within the runway area that represents  
32 an increase in the number of occupants shall be prohibited. **[Ord. 2011-016]**

33 b. In no case shall new residential construction be permitted within an area contiguous to the  
34 airport measuring ½ the length of the longest runway on either side of and at the end of  
35 each runway centerline unless it meets the conditional notes in the Off-Airport Land Use  
36 Compatibility Schedule - Appendix 8. This area is shown as the “New Residential  
37 Construction Limit” on Appendices 10-14.

38 **1) Exemption**

39 Land uses within regulated areas defined in Article 16.C.1.D.1.a, Palm Beach  
40 International Airport (PBIA) and Article 16.C.1.D.1.b, Boca Raton Airport Land Use  
41 Noise Zone (Airports which have completed Federal Aviation Regulation Part 150  
42 Noise and Land Use Compatibility Studies), “Palm Beach International Airport and  
43 Boca Raton Airport Land Use Noise Zone Defined” and which meet the standards set  
44 forth herein.

45 c. In no case shall a new Landfill be permitted, or an existing Landfill expanded, within 10,000  
46 feet from the nearest point of any Airport runway used by only turbine aircraft; within 5,000  
47 feet from the nearest point of any Airport runway used by only nonturbine aircraft; or within  
48 the lateral limits of the civil airport imaginary surfaces, Appendix 15.

49 **3. Additional Use Regulations**

50 In addition to the requirements contained in the Off-Airport Land Use Compatibility Schedule  
51 Appendix 8, all uses within regulated areas shall comply with the following provisions:

52 **a. Lights and Illuminations**

53 All lights or illumination used in conjunction with streets, parking, signs or use of land and  
54 structures shall be arranged and operated in such manner that is not misleading or  
55 dangerous to aircraft operating from or to a public airport or in vicinity thereof.

56 **b. Electronic Devices**

57 No application, use, or operations of any type shall produce electronic interference with  
58 navigation signals or radio communication between aircraft; the airport tower, or other air  
59 traffic control facility.

60 **c. Obscuration**

61 No operations of any type shall produce smoke, glare or other obscuration within three  
62 statute miles of any usable runway of a public airport.

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS

(Updated 05/24/17)

1           d. **Bird Concentrations**

2           No use of any type shall be permitted that attract or sustain hazardous bird movements,  
3           feeding, water, or roosting areas into or across an airport's runways' approach and  
4           departure pattern.

5           e. **Noise Level Reduction (NLR) Requirements**

6           If a proposed land use within an Airport Land Use Noise Zone is designated generally  
7           compatible (Q), or incompatible (N), then measures to achieve 30 dB NLR shall be  
8           incorporated into the regulated use.

9           1) **Exemptions**

10           Land Uses within regulated areas defined in Article 16.C.1.D.2.a, Land Use Noise  
11           Zone(s) Defined for PBC Park Airport (Lantana), PBC Glades Airport (Pahokee), Belle  
12           Glade Municipal Airport, and Palm Beach North County Airport.

13           2) **Use and Occupancy**

14           Buildings or structures supporting a legal use(s) which existed prior to (the effective  
15           date of this Article), may continue to support the existing use or occupancy provided  
16           such continued use does not jeopardize life or health.

17           3) **Relocated Buildings**

18           Buildings or structures moved into a RPZ or ALUNZ shall comply with the height and  
19           noise level reduction provisions of this Article, as applicable.

20           4) **Proposed or Newly Constructed Buildings**

21           Valid permits to construct a building, submitted to the Building Division of PZB prior to  
22           ~~(the effective date of this Article) June 16, 1992~~, shall not be required to comply with  
23           the provisions of Article 16, Airport Regulations, as long as the building permit has not  
24           been amended or expired.

25           5) **Design Requirements**

26           The NLR requirements of the Off-Airport Land Use Compatibility Schedule, ~~at~~  
27           Appendix 8, may be achieved by any suitable combination of building design, choice  
28           of building materials and construction techniques in accordance with established  
29           architectural and acoustical principles as contained in DOT document DOT/FAA/PP-  
30           92-5, *Guidelines for the Sound Insulation of Residences Exposed to Aircraft*  
31           *Operations*. This document is on file at the offices of the DOA and PZB. The noise level  
32           reduction requirements shall apply to all occupied rooms having one or more exterior  
33           walls or ceilings, when furnished in accordance with the intended final usage of the  
34           room.

35           f. **Disclosure**

36           The owner of any new building or structure or any existing building or structure which is  
37           substantially repaired, reconstructed or altered, as provided in Article 16, Airport  
38           Regulations, proposed to be located within regulated areas shall provide disclosure to all  
39           prospective purchasers or tenants of such building or structure that the building or structure  
40           is located within the Land Use Compatibility Noise Zone and that aircraft noise may be  
41           objectionable.

42           F. **Review Procedure for Airport Land Use Noise Zones (ALUNZ)**

43           All new construction or reconstruction for temporary or permanent structures within ALUNZ shall  
44           be reviewed for compliance with the standards of this Section. Prior to acceptance of a  
45           development order or issuance of a building permit, the DOA ~~and in consultation with~~ PZB, shall  
46           review the application for compliance with this Article.

47           ~~Section 2~~ **Variances**

48           ~~Application for a Type II variance may be submitted to erect or increase the height of any structures, or to~~  
49           ~~use property which does not comply with the regulations prescribed in this Article, to the ZC pursuant to the~~  
50           ~~procedures and standards set forth in Article 2.B.3, Variances. [Ord. 2006-036]~~

51           **Section 32**    **Nonconforming Uses**

52           Uses nonconforming to the Airport ~~Zoning~~ Regulations shall be administered in accordance with the  
53           provisions identified within Article 16, Airport Regulations and Article 1.F. Nonconformities.

54           **Section 43**    **Administration**

- 55           A. This section of the ULDC shall be interpreted by the Director of Airports. ~~PZB DOA~~, in consultation  
56           with the ~~DOA PZB~~, shall administer the review of development applications for compliance with this  
57           Article within the territorial limits over which PBC has jurisdiction. DOA by Interlocal Agreement with

## DEPARTMENT OF AIRPORTS CHAPTER 333, FLORIDA STATUTES UPDATES SUMMARY OF AMENDMENTS (Updated 05/24/17)

1 any jurisdiction which has permitting authority shall administer the review of development  
2 applications for compliance with this Article within the territorial limits of the municipality. If a ~~Fall~~  
3 ~~Structure~~ Permit for Obstruction is required, then the DOA shall administer review with the FAA.  
4 Fees shall be established by the DOA and PZB to administer this Article. [Ord. 2008-003]

- 5 B. In the event that any violation of the requirements of this Article are found, the Director of Code  
6 Enforcement shall give written notice to the property owner. Such notice shall indicate the nature  
7 of the violation and the necessary action to correct or abate the violation. A copy of said notice shall  
8 be sent to the Code Enforcement Board and DOA. PZB shall require work to stop and may take  
9 any or all other action necessary to correct violations and obtain compliance with all the provisions  
10 of this Section.
- 11 C. The DOA shall notify the Executive Director of PZB of all amendments to the airport master plan(s),  
12 or other regulations that ~~effect~~ affect the definitions or height limitations of the zones established  
13 herein.
- 14 D. Airport signage shall not be subject to the requirements of Article 8 of the ULDC. Proposed signage  
15 shall be ~~subject to review by the Aviation and Airports Advisory Board and~~ approved or amended  
16 in conjunction with the Airport master plan. [Ord. 2008-003]

### 17 Section ~~54~~ Enforcement

#### 18 A. Non-compliance

19 Failure to comply with the requirements of this Section or any permit or Approval granted or  
20 authorized hereunder shall constitute a violation of this code. PZB or DOA may issue a Cease and  
21 Desist Order or withhold a Certificate of Occupancy until the provisions of this Section have been  
22 met. PBC may subject the owner of the premises to the violation and enforcement provisions in  
23 F.S. Chapter 333.07, ~~and 1995, as amended, seek injunctive relief, pursuant to~~ F.S. Chapter  
24 333.13, as may be amended from time to time, or may pursue any other remedy available at law,  
25 in order to fully effectuate the purposes of this Ordinance. Each violation of this Ordinance or of  
26 any regulation, order or ruling promulgated herein shall be considered a separate offense and  
27 enforced in accordance with the provisions of Article 10, Enforcement.

### 28 Section ~~65~~ Appeals

29 ~~Any person aggrieved by the decision of PZB or the DOA made in the administration of this Article may~~  
30 ~~appeal the decision to the Hearing Officer in accordance with the provisions of Article 2.B.3, Variances, of~~  
31 ~~this Code. [Ord. 2006-036]~~  
32

- 33 A. Hearing Officers, as established in Article 2.G.3.G., are hereby authorized to hear and decide  
34 appeals of final decisions by the DOA.
- 35 B. An applicant shall file an appeal with DOA within 20 working days of a final decision by the DOA.  
36 The appeal must state with specificity the reasons for the appeal and shall contain such data and  
37 documentation upon which the applicant seeks to rely. The DOA, by Resolution of the BCC, may  
38 establish a reasonable fee to be paid by the applicant upon filing an appeal. This fee shall not  
39 exceed the cost to the County in processing the appeal.
- 40 C. The DOA shall schedule a hearing before the Hearing Officer no later than 90 working days after  
41 an appeal has been filed. The DOA shall notify the applicant of the hearing date at least 15 working  
42 days in advance of the hearing and invite the applicant or the applicant's representative to attend  
43 the hearing. Any of the time limitations set forth in this paragraph may be waived upon mutual  
44 agreement of the DOA and the party filing the appeal.
- 45 D. An appeal shall stay all proceedings in the underlying action appealed from, unless the DOA  
46 certifies that a stay would, in its opinion, cause imminent peril to life or property. In such cases,  
47 proceedings may not be stayed except by order of the BCC for good cause shown.
- 48 E. At the hearing, the Hearing Officer shall provide the applicant and the DOA an opportunity to  
49 present testimony and evidence, provided such information was part of the review before the DOA.  
50 The Hearing Officer shall affirm, reverse, or modify the final decision of the DOA in conformity with  
51 this Chapter. The Hearing Officer shall affirm the decision of the DOA if there is substantial  
52 competent evidence in the record that the DOA properly applied the standards in this Chapter.
- 53 F. Any aggrieved party, including PBC, may appeal an order of the Hearing Officer to the Fifteenth  
54 Judicial Circuit Court of PBC. Such appeal shall not be a hearing de novo, but shall be a petition  
55 for Writ of Certiorari and the Court shall be limited to appellate review of the record created before  
56 the Hearing Officer. PBC may assess a reasonable fee for the preparation of the record to be paid  
57 by the Petitioner in accordance with F.S. §119.07, F.S., as amended from time to time.
