

# Concrete Sustainability Field Day

NOVEMBER 14, 2008

FLORIDA ATLANTIC UNIVERSITY  
(BOCA RATON CAMPUS)

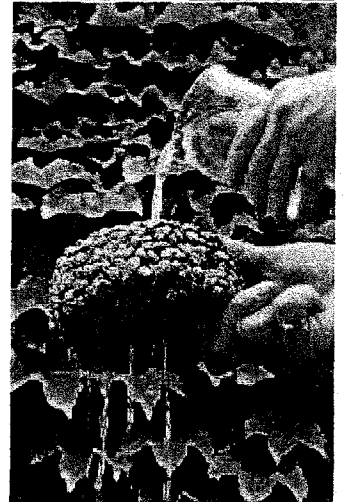

## Pervious Concrete

*When it rains...it drains.*

### Who is this for?

Owners, Developers, Architects, Engineers, Contractors, Finishers, Students, Professors, Suppliers, and anyone who is interested in ways to apply, utilize, specify, design and construct with Portland cement pervious concrete. Attendees may include state, county and city engineers who specify or permit value-added products such as the pervious concrete for credit toward retention storage and water quality protection.
