

LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB) Use Regulations Project Sub-Committee

AUGUST 20, 2013 AGENDA 2300 NORTH JOG ROAD

1st Floor Hearing Room (VC-1W-60) 2:00 р.м. – 4:00 р.м.

A. CALL TO ORDER

- 1. Introductions
- 2. Additions, Substitutions, and Deletions
- 3. Motion to Adopt Agenda
- 4. Adoption of May 14, 2013 Meeting Summary (Exhibit A)

B. SUBCOMMITTEE RULES AND PROCEDURES

C. RECAP OF MAY SUBCOMMITTEE MEETING

D. OVERVIEW

- 1. General Changes to the ULDC
- 2. Presentation Format

E. INDUSTRIAL USES

- 1. Article 4, Use Regulations (Exhibit B)
- 2. Article 5, Supplementary Standards (Exhibit C)

F. STAFF COMMENTS

G. ADJOURN

EXHIBIT A

PALM BEACH COUNTY LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB) USE REGULATIONS PROJECT SUBCOMMITTEE

MAY 14, 2013 MEETING SUMMARY

Prepared by Scott Rodriguez, Site Planner II

On Tuesday, May 14, 2013, the Use Regulations Project Subcommittee held a meeting at the Vista Center, Room VC-1E-58 Conference Room at 2300 North Jog Road, West Palm Beach, Florida.

A. CALL TO ORDER

The meeting commenced at 2:35 p.m.

1. Introduction of Members, Staff and Interested Parties

LDRAB Subcommittee Member: Joni Brinkman, Jim Knight, and David Carpenter Interested Parties: Ora Owensby, Dodi Glas, John F. Schmidt, Cliff Hertz, Caroline Villanueva, Josh Long, and, Jon E. Schmidt.

County Staff: Rebecca Caldwell, Maryann Kwok, William Cross, Monica Cantor, David Nearing, Scott Rodriguez, Diane Burress, Erin Fitzhugh, Gail James, Donna Adelsperger.

2. Election – Chair and Vice Chair

Election of the Subcommittee Chair was initiated by David Carpenter who made a motion to nominate Jim Knight as Chair and Joni Brinkman as Vice Chair, they both accepted.

- **3. February 26, 2013 Meeting Summary** Ms. Cantor explained that summaries of meetings will be provided in place of minutes.
- **4.** Additions, Substitutions and Deletions to Agenda There were no additions, substitutions and deletions to the agenda.
- 5. Motion to Adopt Agenda Agenda was adopted by the LDRAB Subcommittee.

B. SUBCOMMITTEE OBJECTIVES AND MEETING RULES AND PROCEDURES

Ms. Cantor presented a brief overview of the subcommittee's goals and objectives which was had been explained in detail at the February 26, 2013 meeting. Ms. Cantor then explained how future subcommittee meetings will be conducted, including typical timeframes, staff presentation of drafts, discussion of material by the Subcommittee, question and staff response, and consensus or pending issues of drafts.

C. PENDING ISSUES FROM FEBRUARY'S SUBCOMMITTEE MEETING

Ms. Cantor clarified that recommendations made by Subcommittee regarding the new formatting will be addressed through the User Guide of Article 4, Use Regulations.

D. INDUSTRIAL USES

1. Order to Review Uses

Ms. Cantor presented the general overview of the project to date including the tentative timeline and future subcommittee dates.

2. Important Comprehensive Plan Language to Consider When Reviewing Industrial Uses

EXHIBIT A

PALM BEACH COUNTY LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB) USE REGULATIONS PROJECT SUBCOMMITTEE

MAY 14, 2013 MEETING SUMMARY

Ms. Cantor went through Comprehensive Plan language related to Industrial Uses including Light and General Industrial, and Planned Industrial Park Development (PIPD) regulations and the need to address consistency.

3. Explanation of Consolidated Use Matrix

Ms. Cantor explained that the Use Matrix will delineate the most restrictive approval process, and clarified the following:

- The symbol showing "R" for Requested Use will be discontinued and replaced by the "A" for Class A Conditional Use, to clarify when BCC approval is required;
- 2) The Economic Development Center (EDC) Future Land Use (FLU) designation has been included in the Multiple Use Planned Development (MUPD) and as a new Pod in the Planned Industrial Park Development (PIPD);
- 3) The matrix shows 16 total uses: Asphalt and Concrete Plan has been removed as it is being consolidated with Heavy Industry;
- Three uses have been relocated into the Industrial Use classification (Contractor Storage Yard, and Towing and Service from Commercial; and, Recycling Plant from Utilities); and,
- 5) Some use names have been updated for consistency with industry trends.

4. Industrial Uses

Ms. Cantor presented the relocation of use definitions from Article 1 to Article 4 as result of the proposed changes to eliminate duplicated language.

• Film Production Studio

Mr. Rodriguez briefly discussed the changes to the use name from Film Production Studio to Multi-Media Production, the approval process and supplemental standards.

Subcommittee participants requested clarification on:

1) Outdoor activities or outside equipment associated with the use;

2) Why Class A Conditional Use approval in Institutional and Public Facilities (IPF) Zoning District; and,

3) What is the purpose of changing the approval process from Permitted by Right to Development Review Officer (DRO) in a MUPD with CH or CHO FLU designation.

The discussion was broadened to additional uses that have similar approval process changes. Staff was asked to clarify and provide reasons on what triggers the changes in the approval process, particularly from Permitted by Right to DRO approval.

Staff responded that the matrix, including changes to the approval process, was in the draft stages, and appreciated the group's recommendations. Further discussions would take place regarding broader policy issues; more concise process review by staff; and more clear explanation of the reasons for changes.

• Asphalt and Concrete Plant

Mr. Rodriguez explained the recommendation to relocate the use into Heavy Industry by stating that both uses have similar characteristics and approval processes. The

EXHIBIT A

PALM BEACH COUNTY LAND DEVELOPMENT REGULATION ADVISORY BOARD (LDRAB) USE REGULATIONS PROJECT SUBCOMMITTEE

MAY 14, 2013 MEETING SUMMARY

approval process for this use would be incorporated into the Heavy Industry use and removed from the consolidated use matrix. Additional changes to the approval process were made to a section of the ULDC that includes this use as accessory use of a Type III Excavation.

Participants provided feedback on the proposed recommendations, asking for consideration on potential non-conformities that may be created with the change to the Excavation portion. Members of the group recommended the approval process to remain as a DRO approval when accessory to Excavation. To address this issue, staff would continue to review this portion along with Heavy Industry.

Heavy Industry

Mr. Nearing briefly presented the changes to the approval process and supplemental standards. Mr. Nearing mentioned that accessory retail for industrial uses is to be discussed at future meetings as result of fireworks sale proposed deletion from this use standard.

E. DISCUSSION

The following items were discussed to follow up at future meetings:

- Clarification of what "Permitted by Right" is, to be consistently applied through the use matrix;
- Further review and reasoning of the approval process changes, from less restrictive to more restrictive;
- Address accessory uses; and,
- Determination on when the proposed changes create Major or Minor Non-conformities and how they will be addressed.

F. ITEMS FOR NEXT MEETING

Ms. Cantor explained that the discussion points, along with the Industrial Uses general standards, and a review of the three uses presented today will occur at the next meeting.

G. ADJOURN

The meeting adjourned at 4:10 p.m.

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

- 1 Part 1. New ULDC Art. 4.B.5, Industrial Uses, is hereby established as follows:
- 2 CHAPTER B USE CLASSIFICATION
- 3 Section 5 Industrial Uses

A. Industrial Use Matrix

Reason for amendments: [Zoning] Consolidates all Zoning districts into one Use Matrix to improve ease of use and better delineate differences in approval processes for Standard, PDD or TDD districts. Tables consolidated are as follows: Table 3.B.15.F, IRO Permitted Use Schedule; Table 3.B.16.E, PRA Use Matrix; Table 3.E.1.B, PDD Use Matrix; Table 3.F.1.F, TDD Use Schedule; and, Table 4.A.3.A, Use Matrix.

16 17

18

19

20

4 5

Use Matrix has been provided as a separate handout for ease of use.

B. <u>General Industrial Standards</u> <u>Reserved for future use.</u>

C. Definitions and Supplementary Use Standards for Specific Uses

13. Asphalt or Concrete Plant

An establishment engaged in the manufacture, mixing or batching of asphalt, asphaltic cement, cement or concrete products.

Reason for amendments: [Zoning] Asphalt and Concrete Plant is being consolidated with Heavy Industry, due to similar characteristics such as:

- Nuisances such as appearance, dust and odor, and noise;
- Uses are land intensive requiring room for storage of aggregate and materials, heavy equipment,
- need for maneuvering area for delivery vehicles; and,
- The Comprehensive Plan deems the two uses as similar.

1 35. Contractor Storage Yard

Reason for amendments: [Zoning]

- 1. Delete requirement limiting minimum number of commercial vehicles allowed and to consolidate language describing construction and mechanical equipment within the definition. Research of other municipal ordinances and the American Planning Association (APA) does not support a limitation of the number of vehicles;
- 2. Delete the Accessory Office requirement as it is addressed by Article 5.B.1.A, Accessory Uses and Structures; and,
- 3. Relocate and consolidate screening requirements for outdoor storage, Flex Space, and Barbed Wire in Article 5.B, Accessory and Temporary Uses.

a. Definition

A lot used for tThe storage of construction material, <u>mechanical</u> equipment <u>used in</u> <u>construction activity</u>, or three or more commercial vehicles used by building trades and services, other than construction sites. **[Ord. 2005-002]**

- . Construction Equipment
- Mechanical equipment principally used in construction activity. Such equipment shall include but is not limited to bobcats, front-end loaders, over-head cranes, graders, dump trucks, compactors, forklift, steam rollers, earth movers, bulldozer, backhoe, concrete mixer, trenchers, cable/pipe layers or any such equipment that is not a street worthy vehicle.

o. Office Permitted

An accessory office shall be permitted subject to Article 5.B, ACCESSORY AND TEMPORARY USES.

c. Screening

Outdoor storage shall be screened from view in accordance with Article 5.B, ACCESSORY AND TEMPORARY USES. For a storage yard contiguous to property in a residential district, an opaque fence/wall a minimum of eight feet in height shall be installed along the inside edge of the required landscape buffer.

Flex Space

This use shall be allowed as a flex space component pursuant to the applicable approval process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005] Barbed Wire Barbed wire may be installed pursuant to Art. 5.B.1.A.2.c, Dangerous Materials, except when located adjacent to a parcel having a residential FLU designation or use. Barbed wire shall not be visible from any public street. [Ord. 2011-001] Reason for amendments to Contractor Storage Yard in the Use Matrix: [Zoning] This use was previously classified under the "Commercial Uses" category; however, the use was not permitted in any commercial districts, only industrial districts. The use has been added as a Development Review Officer (DRO) approval to the Multiple Use 2. Planned Development (MUPD) with an Economic Development Center (EDC) Future Land Use (FLU) designation. This is consistent with the FLU Element of the Plan which states that light industrial uses are consistent with EDC FLU designation. The Industrial category is primarily utilized by light, medium and heavy industrial uses and related services. The EDC is intended to be an employment generator. Although a Contractor Storage Yard may not always be the prototypical employment generator, it would contribute to new industrial development. 2 38. **Data and Information Processing** Reason for amendments: [Zoning] Updated Data and Information Processing use definition for a more specific and consistent terminology used in today's market; and to relocate reference to "Flex Space", which will be addressed in Article 5 of the ULDC. The proposed definition indicates that this use is commonly collocated with other uses in the Industrial Use Classification, such as manufacturing, and is commonly found in planned industrial campus style complexes. The revisions are based on an evaluation of definitions used by other municipalities locally, in the state, and nationally, as well as adapting language from such sources as North America Industry Classification System (NAICS) and APA. Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses. 2 **Definition** <u>a.</u> The use of a An establishment for business offices, including corporate offices, which may be associated with uses such as: manufacturing and processing plants or similar industrial complexes; mass/bulk mail processing; and telemarketing centers. The use is often integrated into a campus style development, and This use is not frequented by the general public. This term does not include such uses as: Business or Professional Offices; computer-related General Retail Sales establishments; and Personal Services and Medical or Dental Offices. Flex Space This use shall be allowed as a flex space component pursuant to the applicable approval process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005] Reason for amendments to Transportation Facility in the Use Matrix: [Zoning] Due to the high number of employees typically employed by this use, it generates high trip counts and is not a neighborhood oriented use. Therefore this use is proposed for deletion from the followina: Commercial Low-Office (CLO) and Community Commercial (CC) Zoning Districts; Infill Redevelopment Overlay (IRO) Zoning District with a Commercial Low (CL) and CLO FLU designation; MUPD with a CL FLU designation; and, Lifestyle Commercial Center (LCC) Zoning District with a CL FLU designation. Add as Permitted Use to MUPD with an EDC FLU designation. This zoning district requires approval 2. of a Preliminary Site Plan by the Board of County Commissioners (BCC), at which time related impacts such as location, access, and orientation should be addressed.

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

1 2 3		
4	 Reason for amendments to Transportation Facility in the Use Matrix: [Z Since 1992, Transportation Facility has regulated the movement of zoning districts in the ULDC. Research concludes that the moving of similar in terms of overall operation and impact. The moving of people civic uses (bus stops, train station) while goods are consistent with an ir truck terminals). The proposed amendment will split Transportation Facility and Distribution Facility, to clarify the distince people and goods. Transportation Facility, the movement of people, w to a more appropriate use classification, Public and Civic Uses. Distributing goods, will be retained consistent with the industrial nature of the use. To revise the definition to: a) clarify Distribution Facility is not people reto replace transfer of transportation standard. The revisions are definitions used by other municipalities locally, in the state, and national goods are stated and approximate and national standard. 	people and goods in certain of people and goods are not e is consistent with public or ndustrial use (railroad depots, tion Facility into two uses, tion between the moving of ill be established and located tion Facility, the movement of lated; and, b) adds language based on an evaluation of

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

	(Opdated 6/15/15)
1 3 4 5 6 7 8 9 10 11 23 4 5 6 7 8 9 10 11 23 4 5 6 7 8 9 10 11 2 3 4 5 6 7 8 9 10 11 2 3 4 5 6 7 8 9 10 11 2 3 4 5 6 7 8 9 10 11 12 3 4 5 6 7 8 9 10 11 12 11 12 10 10 11 12 10 10 10 10 10 10 10 10 10 10 10 10 10	 The use of land for bulk storage and wholesale distribution of 2,500 gallons or more of flammable liquid, or 2,000 gallons water capacity or more of flammable gas, excluding below-ground storage which is clearly accessory to the principal use on the site. Wholesale of gas and fuel shall be permitted in the AZO Overlay as an airport-related use only when associated with sales of aviation fuel. [Ord. 2006-036] [Relocated to b, below] <u>a</u> <u>Definition</u> An establishment engaged in the storage of gas and fuels for wholesale distribution, to businesses. <u>b</u> <u>Airport Zoning Overlay</u> Wholesale of gas and fuel shall be permitted in the AZO Overlay as an airport-related use only when associated with sales of aviation fuel. <u>c</u> <u>Location</u> This use shall not be located within any Prohibited Land Use Area/Five Mile Runway Buffer Zone. <u>d</u> <u>Separation Distance</u> A separation distance shall be established between this use and any adjacent uses. The separation distance shall be that prescribed by PBC Fire Rescue Department based upon recognized standards and guidelines.
20	Basson for amondments to Cas and Evel Whelesels in the Use Matrix [Zariza]
	 Reason for amendments to Gas and Fuel Wholesale in the Use Matrix: [Zoning] Light Industrial (IND/L) Pod of a Planned Industrial Park Development (PIPD): add the use as a Class A Conditional Use for consistency with Light Industrial (IL) Zoning District. To change the approval process from a Class B Conditional Use in the General Industrial (IG) Zoning District to a DRO approval process. The IG Zoning District is a much more intense zoning district permitting a broader array of heavier industrial uses. Since the subject use is storage only, as opposed to the processing of raw product, the level of volatility is reduced, and therefore, no public hearing is needed. A DRO review will ensure specific design criteria, such as separation distances standards, are being properly complied with, as well as proper placement of landscaping, access, and screening to ensure public Safety issues are being addressed. Change the use in the Public Ownership (PO) Zoning District from Permitted to a DRO approval process, for the reasons noted above in 2. This will primarily impact publicly owned lands and facilities, which should be treated in the same fashion as privately owned establishments. To increase the review process to a DRO in the General Industrial (IND/G) Pod of a PIPD. This will be consistent with the treatment of the use in the IG Zoning District. While the PIPD goes through the BCC for approval of a Master Plan, due to the potential volatility of the use, requiring the DRO process, especially if the use is being added after the Master Plan is approved, will ensure that any conditions of Master Plan approval are implemented as well as the design issues discussed in 2
	above.
21	
22	
23	
24	<u>5</u> 69. Heavy Industry
25	Reason for amendments: [Zoning]
	 Consolidate asphalt or concrete plant in the list of typical heavy industry uses, as this use is a good example of the type of impacts and traffic found in other heavier uses, including fumes and odors, heavy trucks and equipment, and loud noises. This use includes a very broad range of uses from manufacturing large machinery to concrete and asphalt plants. Delete firework sales, as it is not generally desirable to attract the general population to areas with high volumes of industrially oriented traffic, such as large trucks, and heavy equipment.
26	
27	a. <u>Definition</u>
28 29	An establishment engaged in the basic processing and manufacturing of materials or products predominately from extracted or raw materials, or a use engaged in storage of,
29 30	or manufacturing processes utilizing flammable, hazardous, or explosive materials, or
31	processes which potentially involve hazardous or commonly recognized offensive
32	conditions. Typical uses include asphalt or concrete plant; manufacturing and
33	warehousing of chemicals, dry ice, fertilizers, fireworks and explosives; pulp and paper
34	products; radioactive materials; fat rendering plants; slaughterhouses and tanneries; and,
35	steel works.
36 37	ba. Fireworks The retail sale of fireworks from a permanent fireworks storage facility or establishment
38	shall be limited to an accessory use.
39	<u>c.</u> <u>EDC FLU</u>
40	Heavy Industry shall be prohibited in the EDC FLU designation.
41	

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

1

6

7 8

9

10

Reason for amendments to Heavy Industry in the Use Matrix: [Zoning] Change from Permitted to DRO approval process in the IND/G Pod of a PIPD for consistency with the approval process in IG Zoning District. DRO review ensures that any incompatibility issues are identified and made compliant with the requirements of the ULDC. This use involves large volumes of heavy vehicles, like semis and trailers, for delivery and distribution, which requires a higher level of scrutiny.

6 80. Machine or Welding Shop

Reason for amendments: [Zoning] To broaden the definition to include tool and die fabrication, which is typically associated with welding and machine shops.

> A workshop where machines, machine parts, or other metal products are fabricated. Typical uses include machine shops, welding shops, tool and die fabrication, and sheet metal shops.

Reason for amendments to Machine or Welding Shop in the Use Matrix: [Zoning]

To include Machine and Welding Shop as a Permitted in MUPD with an EDC FLU designation. This is consistent with the language in the Plan which states that a use which is suitable to be a Permitted in the IL Zoning District is also consistent with the characteristics of those uses permitted in the EDC FLU designation.

15

<u>7</u>81. **Manufacturing and Processing**

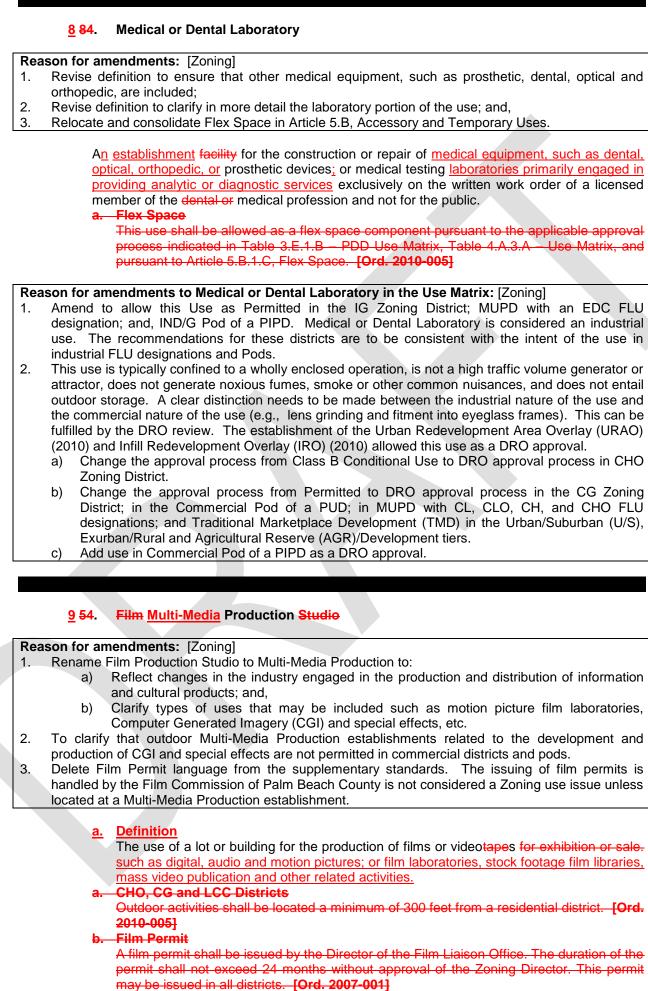

- Reason for amendments: [Zoning]:
- To revise the definition of Manufacturing and Processing to clarify that food processing does not include slaughterhouses and meat packing plants. Those uses involve the processing from raw materials (animals) which would classify them as Heavy Industrial. Wholesale butchers and similar uses are covered under Commercial Uses;
- 2. To relocate and consolidate supplementary use standards regarding outdoor activity, which will be addressed in Art. 5; and,
- Delete provisions for Outdoor Activities, to coincide with deletion of use from MUPD Commercial 3. districts.

	4.	Relocate ar	nd consolidate Flex Space in Article 5.B, Accessory and Temporary Uses.
16			
17		<u>a.</u>	Definition
18			An establishment engaged in the manufacture, predominantly from previously prepared
19			materials, of finished products or parts, including processing, fabrication, assembly,
20			treatment and packaging of such products., and This use also includes incidental
21			storage, sales and distribution of such products, but excluding excludes heavy industrial
22			processing. Typical uses include factories, large-scale production, wholesale distribution,
23			publishing, and food processing (excluding livestock and poultry slaughterhouses and
24			meat packing plants).
25		a.	Manufacturing
26			Manufacturing and processing shall only be allowed as a requested use in a MUPD with
27			EDC or MLU land use.
28			1) Exception
29			Manufacturing and processing shall be allowed as a permitted use in a MUPD with IND
30			land use.
31		D.	Outdoor Activities
32			Outdoor manufacturing, processing or storage shall be limited to industrial zoning districts
33			only.
34		6.	Flex Space
35			This use shall be allowed as a flex space component pursuant to the applicable approval
36 37			process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and
			pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005]
38	Do	acon for am	endments to Manufacturing and Processing in the Use Matrix: [Zoning]
	ле 1.		Manufacturing and Processing from MUPD with CL, Commercial High (CH), CLO,
	1.		I High-Office (CHO), and Commercial Recreation (CR) FLU designations, as this is an
			e which is not consistent with these commercial FLU designations.
	2		mitted in MUPD with an EDC FLU designation. This use is currently Permitted in the IL
	۷.		milled in Mor D with an EDO I EO designation. This use is currently I emilled in the IE

Zoning District, which is intended for less noxious cleaner, lighter industrial uses. These types of uses are also consistent with the uses identified by the Plan for the EDC FLU designation.

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

- 1 2 3 4 5
- Only indoor Multi-Media Production establishments shall be permitted in Urban Infill (UI), Urban Center (UC) and commercial zoning districts and pods. c. LCC

Film production studios shall not be located on a main street. [Ord. 2010-005]

Reason for amendments to Film Production Studio in the Use Matrix: [Zoning]

- 1. Add Permitted approval process in a MUPD with an EDC FLU designation. FLU Element of the Comprehensive Plan, under FLU Atlas Regulation (III.C.4), Industrial Uses, indicates that the EDC designation is intended for uses with "Light Industrial" attributes with the addition of office uses. The EDC FLU designation shall be primarily utilized by office and research parks. The use is consistent with the Comprehensive Plan FLU Element.
- 2. Change Commercial Recreation (CRE) Zoning District and MUPD with CR FLU designation approval process from BCC to DRO. FLU Element of the Comprehensive Plan, under FLU Atlas Regulation (III.C.3), Commercial Recreation, addresses major public and private commercial recreation facilities that meet a portion of the recreational needs of residents and tourists. The change would allow flexibility for a recreation use, such as Lion Country Safari, to incorporate the possible collocation of a multi-media production use as part of its business model or to allow it in the facility
- 3. Change Lifestyle Commercial Center (LCC) with CH FLU designation approval process from Permitted to DRO. This change is made to reflect consistency of commercial districts as requiring DRO approval due to the potential nature of this use being more consistent with light industrial. The change will also address the potential for adverse impacts where permitted in a LCC, by requiring DRO approval in combination with proposed Supplemental Standards establishing limitations on this use when located in Commercial districts.

15

16 17 18

19

31 32

Part 2. ULDC Article 1.I.2, Definitions (page 50 of 119), is hereby amended as follows:

Reason for amendments: [Zoning] Introduce a new definition for "Construction and Demolition Debris" to better clarify what specific materials can be received in a Recycling Plant. According to the PBC Solid Waste Management Plan, mixing of Construction and Demolition Debris with other types of solid waste will classify the waste as something else. This definition is consistent with State Statute 403.703, Environmental Control, the Department of Environmental Protection Solid Waste Facilities Chapter 62-701 and the Integrated Solid Waste Management Plan of the Palm Beach County Solid Waste Authority.

11 CHAPTER I DEFINITIONS & ACRONYMS

12 Section 2 Definitions

- C. Terms defined herein or referenced Article shall have the following meanings:
 92. Construction and Demolition Debris for the purposes of Article 4.B.5.C.1
 - 92. Construction and Demolition Debris for the purposes of Article 4.B.5.C.10, Recycling Plant means discarded solid materials that are not water soluble and not hazardous, including, but not limited to: steel, glass, brick, concrete, asphalt roofing material, pipe, gypsum wallboard, lumber. It also includes rocks and soils from construction, renovation or demolition of a structure or a site; and, trees or vegetative material from land clearing.

[Renumber Accordingly]

This space left blank intentionally.

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

1 2 3 Part 1, Continued 4 Part 1. New ULDC Art. 4.B.5, Industrial Uses, is hereby established as follows: 5 Reason for amendments: [Zoning] Revise definition of Recycling Plant to create consistency with terminology identified in the definition of "Recovered Materials Processing Facility" used by the North America Industrial Classification System (NAICS); the Department of Environmental Protection (DEP); State Statute 403.703 Definitions for Resource Recovery and Management; and, Florida Administrative Code (F.A.C.) Chapter 62-701, Solid Waste Management Facilities which includes "recover" and "reuse" of sorted material; Include a list of specific materials to be recycled in order to be consistent with and comply with State 2. Statute 403-706(2)(g), that requires local governments to be responsible to promote recycling of plastic, metal and all grades of paper; and, Remove Chipping and Mulching from the use definition as it is a use defined in the Code therefore a 3. principal use that may be collocated with Recycling Plant where permitted. 6 7 10 105. Recycling Plant 8 a. Definition A permanent facility designed and An establishment used for the recovery receiving, 9 10 separating, storing, converting, baling or processing of non-hazardous recyclable materials that are not intended for disposal to be collected, separated and sorted, for 11 reuse. The use may include Recyclable materials include Ceonstruction and Demolition 12 Ddebris, recycling or other intensive recycling processes such as chipping and mulching. 13 14 plastic, glass, metal, all grades of paper, textiles or rubber. 15 Reason for amendments: [Zoning] Standards for Screening and Buffering are relocated and consolidated with Article 5.B, Accessory 1. and Temporary Uses. Provide an exception for Recycling Plant to be DRO approval when surrounded by IND FLU designation, or all the use activities take place in an enclosed building. 2. Consolidate setbacks to allow application of district setback when a site shares the property line with 3. an IND FLU designation, or Industrial Zoning District parcel with industrial use on it and keeping existing requirement of 50 feet setback when other zoning districts are adjacent. 4. Delete Recycling Plant distance requirement of 150 feet from civic and residential uses as the setback provision of 50 feet from property line should satisfy any impacts caused by the use. Delete redundant setback standard for IG and IL Zoning Districts addressed by the 50 foot setback. 5. 16 17 Compatibility, Screening, Buffering To ensure compatibility with surrounding uses, adequate setbacks, screening and buffering around the perimeter of the proposed recycling plant shall be required at the 18 19 time the facility is constructed. The standards shall be waived if any of the required 20 21 landscape buffer is not visible from adjacent lots or streets. 22 1) Lot Size 23 The minimum lot size for recycling plants in all industrial districts shall be five acres. 24 However, the minimum lot size or greater for the underlying district shall apply for 25 recycling plants that operate completely in enclosed buildings. [Partially relocated 26 to 4.B.1.A.10.g.3.] 27 **Setbacks** 2) Except for a freestanding office, no part of a recycling plant and its accessory ramps, 28 29 on site circulation system, or storage areas shall be located within 50 feet of any property line. [Partially relocated to 4.B.1.A.105.a.2.a)] 30 31 **IL District** If the facility is in an industrial district and is contiguous to land in an industrial 32 33 district or IND FLU designation the setback shall be 25 feet from that contiguous 34 property line. [Partially relocated to 4.B.1.A.105.e] 35 b) **Civic and Residential Uses** 36 No part of a recycling plant, its accessory ramps, on site circulation system or 37 storage areas shall be sited within 150 feet of a school, park, church, library, or residential lot. In no case shall the setback be less than the requirement of the 38 39 district 40 IG and IL Districts 41 No additional setback beyond district setbacks shall apply to recycling plants that operate completely in enclosed buildings and are located in the IG, and IL 42 43 districts. 44 3) Screening and Fencing

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

1	All storage areas shall be screened from view by on-site walls, fences, or buildings.
2	Such screening shall be designed and installed to ensure that no part of a storage
3	area can be seen from street or adjacent lots. In no case shall the height of
4	recyclable or recovered materials, or non-recyclable residue stored in outdoor areas,
5	exceed 20 feet or the height of the principal building on the lot, whichever is greater.
6	For an outdoor recycling plant contiguous to property in a residential district, an
7	opaque fence/wall a minimum of eight feet in height shall be placed along the inside
8	border of the required landscape buffer. [Partially relocated to 4.B.1.A.105.h.]
9	4) Buffers
10	When the property line is contiguous to a residential district, the incompatibility buffer
11	shall be 50 feet in width.
12	<u>b.</u> <u>Approval Process</u>
13	A Recycling Plant that mitigates impacts to any surrounding parcels having a residential,
14	civic, recreation, recreation or conservation FLU designation or use that meets one of the
15	following may be permitted subject to DRO approval:
16	1) When surrounded by parcels having an IND FLU designation that are vacant or
17	developed with industrial uses providing a 500 foot separation; or,
18	2) When all recycling activities are located within enclosed structures that have no
19	openings oriented or visible from the land uses listed above.
20	<u>c</u> b . Access
20	An access road that can be negotiated by loaded collection vehicles shall be provided to
22	
	the entrance of the recycling plant. Access shall not be provided from a local residential
23	street. Access shall be restricted to specific entrances with gates which can be locked at
24	all times and which carry official notice that only authorized persons are allowed on the
25	sito.
26	Access from a local residential street shall be prohibited. Entrances shall be gated to
27	prevent access from unauthorized persons.
28	c. Drainage
29	Untreated surface water runoff shall not be permitted to discharge directly into lakes,
30	streams, drainage canals, or navigable waterways other than into or through approved
31	on-site containment areas. [Relocated to 4.B.1.A.10.e.]
32	<u>d.</u> Setbacks
33	No part of a recycling plant and its accessory ramps, on site circulation system, or
34	storage areas shall be located within 50 feet of any property line, unless adjacent to
35	another property with an IND FLU designation that is vacant or has an existing industrial
36	use. [Partially relocated from 4.B.1.A.105.a.2.a)]
37	e. Drainage
38	Untreated surface water runoff shall not be permitted to discharge directly into lakes,
39	streams, drainage canals, or navigable waterways other than into or through approved
40	on-site containment areas. [Relocated from 4.B.1.A.105.c.]
41	
	Reason for amendments: [Zoning]
	1. Remove Chipping and Mulching reference because any use functioning as collocated shall comply
	with the standards applicable to the use.
	2. Delete redundant site plan requirements that are addressed through DRO or Building Permit
	Process;
	3. Delete language related to Type of Facility, Quantity of Waste, and Dust Control since they are
	requirements of the F.A.C. Chapter 62-722 Regulations of Recovered Materials, FAC Chapter 62-
	701.320 Solid Waste Management Facility Permit Requirements, and the PBC Solid Waste
	Authority at time of application for the use license.
	4. Clarify that a minimum lot size of 5 acres is required when the use includes outdoor activities.
	5. Delete Fire Protection since requirements are covered under State Statute F.A.C. Chapter 62-
	701.320(16)(a)3 to provide fire prevention system before commencing operation.
42	
43	df. Storage Areas
44	All outdoor storage of recyclable materials shall be in leak-proof containers or located on
45	a paved area that is designed to capture all potential run-off associated with the stored
46	material. Run-off shall be handled in a manner that is in conformance with local, state
40 47	and Federal regulations.
48	e. Chipping or Mulching
49	If a recycling plant facility includes chipping or mulching, adherence to the standards of
50	Article 4.B.1.A.28, Chipping and Mulching, is required.
51	f. Supplemental Application Requirements
52	Application for recycling plants shall include the following:
53	1) Access
54	Graphic illustration and narrative analysis of year round access routes to the site.
55	2) Type of Facility
	-/ .////

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

	(Updated 8/15/13)
1	A research laboratory Research and Development establishment located in the PRPO
1 2	A research laboratory <u>Research and Development establishment</u> located in the BRPO and the IL District may be approved by the DRO and shall not be subject to the limitations
3	of Table 4.A.3.A, Thresholds for Projects Requiring Board of County Commissioner
4	Approval.
5	c.a. Outdoor Activities
6	Outdoor manufacturing, processing or testing shall be limited to industrial districts only.
7	[Relocated from a. above]
8	d. Flex Space
9	This use shall be allowed as a flex space component pursuant to the applicable approval
10	process indicated in Table 3.E.1.B PDD Use Matrix, Table 4.A.3.A Use Matrix, and
11	pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005]
12	
12	Reason for amendments to Laboratory, Industrial Research in the Use Matrix: [Zoning]
	1. Delete the approval processes in the CRE Zoning District. This use is not consistent with the intent
	of the III.C.3, Commercial Recreation, of the Comprehensive Plan which designates areas on the
	Future Land Use Atlas to reflect and accommodate major public and private commercial recreation
	facilities that meet a portion of the recreational needs of residents and tourists.
	 Change the approval process to allow the use in the following Zoning Districts:
	Standard Districts.
	Add the use to CLO Zoning District as a Class A Conditional Use;
	Add the use to CC, CHO and CG Zoning Districts subject to DRO approval process.
	Change Class B Conditional Use to Permitted in IL Zoning District.
	Planned Development Districts:
	Change Class A Conditional Use to DRO approval in MUPD with CH and CHO FLU
	designations, MXPD with CH FLU designation and Lifestyle Commercial Center (LCC) with
	CH FLU designation;
	Add use as a DRO approval in MXPD with CHO FLU designation;
	Add use as Permitted in MUPD with an EDC FLU designation.
	Certain types of office Research and Development (R & D) may fit well in commercial provided there
	is no outdoor activity. These changes will ensure that industrial R & D with outdoor activity does not
	go into commercial. The change will also ensure all districts have consistent approval processes in
	commercial low, commercial high and industrial districts.

Reason for amendments to Salvage or Junk Yard in the Use Matrix: [Zoning] No changes in the approval process are being proposed. Implementation Section, III.C.4, of the Comprehensive Plan identifies that the Salvage or Junk Yard use is limited to the General Industrial Future Land Use designation.

130. Towing Service and Storage

Reason for amendments: [Zoning]

- Use relocated from Commercial Uses, as it was not permitted in any commercial zoning district. The use is industrial in nature, with heavier equipment and outdoor storage as common activities.
 Revise definition to reflect that certain uses cannot take place within the storage lot, such as retail sales or repair of towed vehicles. Any such activity will need to take place in conjunction with any possible collocated use, such as an Auto Paint and Body Shop, or a Salvage or Junk Yard.
- 3. Relocate Barbed Wire to be consolidated in Article 5.B, Accessory and Temporary Uses.

a. Definition

- The use of a lot for the temporary storage of operable or inoperable vehicles in conjunction with a commercial towing service, with This shall not include retail sales, or repair, or salvage of towed vehicles activity occurring on the storage lot, and subject to the following standards:
- a. Outdoor storage standards and screening requirements of Article 5.B, ACCESSORY AND TEMPORARY USES.
- b. Towtruck and towing and storage regulations of Towtruck Ord. No. 2002-007 as amended.

c. Barbed Wire

Barbed wire may be installed pursuant to Art. 5.B.1.A.2.c, Dangerous Materials, except when located adjacent to a parcel having a residential FLU designation or use. Barbed wire shall not be visible from any public street.

Reason for amendments to Towing Service and Storage in the Use Matrix: [Zoning]

- 1. The use is being relocated from the Commercial Use category to the Industrial Use category due to the fact that, while it has historically been listed as a commercial use, it has never been permitted in any commercial zoning district. Due to the type of equipment, and the normal presence of outdoor storage, the use is more consistent with lower intensity industrial uses. However, while the use is consistent with the criteria of the Plan for lighter industrial uses, it is not of a nature typically found in the EDC FLU designation, as this is not a major employment generator.
- 2. The use is being added to the IND/G Pod of a PIPD as it is compatible with the intensity of other uses proposed for that pod, including uses with which it might logically collocate, such as Salvage and Junk Yard, or Recycling Plant.

14 31. Truck Stop

Reason for amendments: [Zoning]

- 1. Revise the definition to clarify that the use is primarily intended for commercial vehicle related services.
- Revise the Lot Size standard. Review of municipal and industry trend research indicates that a minimum lot size of five (5) acres is customary to address the potential intensity of numerous uses on one lot.
- Delete the Security Standard. Personal safety on our highways is an issue which is typically addressed by law enforcement officials. Security Quarters, if desired, may be approved by Special Permit.
- 4. Revise the "Accessory Uses" standards to clarify what uses are classified as "Collocated", are primarily for truck stops, and that the site layout will not unnecessarily isolate users based on vehicle type. Uses listed within the supplemental standard will be subject to DRO approval.

a. Definition

An establishment which provides services primarily for transient commercial vehicle operators, such as fueling, day and overnight parking. A Truck Stop may also serve other travelers.

A facility which provides fueling, parking, washing, repair and maintenance services, food service, overnight accommodations, and incidental retail sales for transient commercial vehicles.

<u>b.a. Location</u> Frontage

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

		(Opualed 0/15/15)
1		Truck Stops shall have a A minimum of 200 linear feet of frontage on an arterial street
2		only.
3	c b .	Lot Size
4	<u>-</u>	Shall be a minimum of five acres.
5		1) Ten Acres or Less
6		Shall be permitted as a Class A conditional use in the IL and IG districts.
7		2) Greater than Ten Acres
8		Shall require approval as a MUPD or PIPD. The proposed site shall have an IND
9		FLU designation.
10	C.	Setbacks
11		Parking areas, parking spaces, maneuvering areas, and drive aisles, shall be setback a
12		minimum of 200 feet from any existing residential use, <u>zoning</u> district or FLU designation.
13	d.	Landscaping Buffer
14		Perimeter Incompatibility landscape buffers shall be required adjacent to an existing
15		residential district, use, zoning district or FLU designation. The buffer shall include a six
16		foot high berm topped by with a six foot high opaque wall or fence installed at the plateau
17		of the berm. Variances may be requested from these requirements.
18	e.	Security
19 20	of	24 hour on site security shall be provided. Accessory Collocated Uses
20	<u>e</u> t.	For purposes of this section, collocated uses shall mean a use that is mainly oriented to
22		serving transient commercial vehicle operators. The following collocated uses shall be
23		permitted in conjunction with a Truck Stop subject to DRO Approval:
24		1) Type I Restaurant;
25		2) Type II Restaurant;
26		3) Convenience store with gas sales;
27		4) Convenience store without gas sales;
28		5) Car wash;
29		<u>6)</u> <u>Hotel/Motel;</u>
30		<u>7)</u> Personal Services;
31		8) Financial Institution;
32		9) Gas and Fuel Retail;
33		10) Laundry Service; and,
34		11) Retail Sales, Auto Accessories and Parts.
35 36	<u>f.</u>	Site Design:
30 37		The site shall be designed to ensure the provision of adequate vehicular circulation and parking patterns. This shall demonstrating that collocated uses listed above are
38		designed and located to mainly serve transient commercial vehicle operators.
39		The following uses may be allowed in conjunction with a truck stop, subject to the
40		requirements of the underlying zoning district: convenience store with gas sales, general
41		repair and maintenance, restaurant, car wash, security or caretakers quarters, personal
42		services, and business office. Use permitted based on the zoning designation of the site:
43		general repair and maintenance; truck wash facilities; convenience stores; general or
44		specialty restaurants; hotel/motel accommodations; and general office services.
45		
		endments to Truck Stop in the Use Matrix: [Zoning] No changes are being proposed to
		proval processes. The Future Land Use Atlas Regulation (III.C.4), Industrial Uses
		medium and heavy uses limited to the Industrial Future Land Use designations. A Truck
40	Stop is consider	red an industrial use.

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

1 2 3

<u>15</u> 138. Warehouse

Reason for amendments: [Zoning] To clarify that warehousing in the zoning districts identified in the Use Matrix may include accessory office space equal to up to 30 percent of floor space of each bay. This guideline can be modified by review of Class A Conditional Use by the BCC. This new language also refers the reader to the guidelines for "Office/Warehouses" located in the Westgate Community Redevelopment Area Overlay (WCRAO) which specifies that a minimum of 25 percent of the floor space must be accessory office space in the Overlay. Clarify that retail sales from warehouses is prohibited, unless approved through the Flex Space 2 standards in Article 5. Deleting prohibition on manufacturing. That use is regulated by "Manufacturing and Processing" in 3. the industrial zoning districts. If a person wishes to engage in that use, they may obtain the necessary approvals to do so where otherwise permitted. Delete reference to parking standards. The need for this provision was eliminated with the adoption 4 of past amendments to the ULDC (Ord. 2009-040). 5. Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses. To reword the language dealing with the use in the MUPD Zoning District, and to relocate the 6. pertinent text dealing with the WCRAO to a new sub-heading. 4 5 a. Definition 6 An building establishment used for the storage of raw materials, equipment, or products. 7 Typical uses include moving companies, cold storage, and dead storage facilities, but 8 excludes self-service storage facilities. ba. Accessory Office 9 10 The maximum percentage of office space in each warehouse bay shall be 30 percent of 11 the GFA, unless approved as a Class A conditional use. Unless approved as a Class A Conditional Use, or as specified in "d" below, office space in each warehouse bay shall 12 13 be a maximum of 30 percent of the GFA of that bay. cb. Sales 14 General retail sales shall be prohibited, except as approved in conjunction with Flex 15 16 Space. 17 Manufacturing G. Manufacturing, assembly or processing shall be prohibited in a warehouse. 18 19 d. WCRA Overlay Warehouse and oOffice/warehouse uses are prohibited in the NR, NRM, NG, and NC 20 sub-areas, as outlined in Table 3.B.14.E, WCRAO Sub-area Use Regulations. Office and 21 warehouse combinations, such as a construction office for special trade contractors, or a 22 commercial wholesale trade establishment consisting of a mix of independent business 23 24 offices each having a contiguous, accessory enclosed storage area which is internally accessible to the office, shall be permitted in the UG, UH, and UI sub-areas as specified 25 in Table 3.B.14.E, WCRAO Sub-area Use Regulations pursuant to a Class A Conditional 26 Use, limited to lots with a CH or IND FLU Designation and corresponding zoning district. 27 The office/warehouse development must-shall have an office space a minimum of 25 28 29 percent of office space the per gross floor area for each bay. [Ord. 2006-004] 30 **Parking in PDDs** 31 Facilities located in a PDD shall comply with Table 6.A.1.B - Minimum Off-Street Parking 32 and Loading Requirements. Variances may be requested from these requirements. 33 [Ord. 2008-037] [Ord. 2010-022] 34 Flex Space f. 35 This use shall be allowed as a flex space component pursuant to the applicable approval process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and 36 37 oursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005] eg. Freestanding Structures 38 Freestanding structures for warehouse developments located in an IND-MUPD with an 39 IND FLU designation shall not be subject to the provisions of Table 3.E.3.B, Freestanding 40 Buildings. [Ord. 2010-022] 41 42

Notes:

ARTICLE 4.B, USE REGULATIONS SUMMARY OF AMENDMENTS (Updated 8/15/13)

1

Reason for amendments to Warehouse in the Use Matrix: [Zoning]

- Remove from MUPD with a CH FLU designation. The CH FLU designation permits a broad range of 1. general commercial zoning districts, such as Neighborhood Commercial (CN) and CG, which permit a very broad range of uses, including general retail, professional offices, and day care. Warehousing is an incompatible use to this type of development. If retained in the CH FLU designation, it could be argued that the use should also be included in every standard zoning district permitted in the CH FLU designation. The use was added to the MUPD with CH FLU designation in 1998. Research has not revealed that it has ever been used.
- 2. Add the use as Permitted in the MUPD with an EDC FLU designation: The use is consistent with the criteria in the plan for the EDC FLU designation, and is traditionally collocated with other lower intensity industrial uses.

16 140. Wholesaling, General

Reason for amendments: [Zoning]

- 1. To revise the definition to more clearly and concisely list the activities which take place in this use, as well as uses that are excluded.
- Removed reference to refrigerated storage, as this is a function of warehousing. 2. Wholesale operations typically do not lease space for storage by third parties, as it takes away inventory space. Refrigerated storage is already covered in the definition of a Warehouse as "cold storage." Relocate and consolidate Flex Space in Article 5.B, Accessory and Temporary Uses. 3.

Definition <u>a.</u>

An establishment engaged in: the display, maintaining maintenance and display of inventories of goods, storage, for distribution and sale of goods to other firms for resale;, or, the supplying of goods to various trades such as landscapers, construction contractors, institutions, industries, or professional businesses. In addition to selling, wholesaleThese establishments also sort and grade goods in from large to small lots, break bulk and redistribute in smaller lots, and engage in delivery. and refrigeration storage, but This use excludesing vehicle sales, and the wholesaleing greenhouses or of nurseries<u>-supplies</u>, wholesale of gas and fuel, and wholesale building supplies.

Flex Space

This use shall be allowed as a flex space component pursuant to the applicable approval process indicated in Table 3.E.1.B - PDD Use Matrix, Table 4.A.3.A - Use Matrix, and pursuant to Article 5.B.1.C, Flex Space. [Ord. 2010-005]

Reason for amendments to Wholesaling, General in the Use Matrix: [Zoning] Add the use as Permitted to MUPD with an EDC FLU designation. The use is consistent with the criteria in the plan for the EDC FLU designation, and is traditionally located with other lower intensity industrial uses.

Part 4. ULDC Art. 4.D.5.E.5, Accessory Use [Related to Type III, Excavation] (page 152 of 171), is hereby amended as follows:

Reason for amendments: [Zoning] Correct Scrivener's error to change "asphalt batch concrete plant" to Asphalt or Concrete Plant for consistency and address a spelling error.

29 CHAPTER D **EXCAVATION**

Section 5 **Excavation Standards** 30

E. Type III Excavations

5. Accessory Use

An aAsphalt batch or cConcrete pPlant shall be permitted as an accessory use to a Type III B excavation, subject to DRO approval and provided that:

- a. the site is a minimum of 500 acres;
- b. the use is separated at least one-half mile from any residential use or district; and
- direct access to the plat plant is provided from an arterial street. C.

- O. Terms defined herein or referenced Article shall have the following meanings:
 - 23. Outdoor Activity for the purposes of Art. 5, Supplemental Use Standards, any functional operation associated with a use listed in Art. 4, Use Regulations, that takes place outside of an enclosed building. The term excludes Outdoor Storage and the loading or unloading of trucks at loading bays or docks. [Renumber Accordingly]

15 16 Part 2. ULDC Art. 3, Overlays and Zoning Districts [Related to Hours of Operation] (pages 137, 138, 161, 176 of 229), is hereby amended as follows: 17 18

Reason for amendments: [Zoning] Relocate and consolidate hours of operation in new Article 5.E.5, Hours of Operation [Related to Performance Standards].

19 CHAPTER D **PROPERTY DEVELOPMENT REGULATIONS (PDRS)**

20 Section 3 **District Specific Regulations**

A. District Specific Regulations

Additional PDRs shall apply in certain districts as follows:

2. All Commercial, Public and Civic Uses

Hours of Operation

Commercial, Public and Civic uses located within 250 feet of a residential district shall not commence business activities, including deliveries and stocking, prior to 6:00 AM nor continue business activities later than 11:00 PM daily. Measurement shall be taken by drawing a straight line from the closest point on the perimeter of the residential district to the closest point on the perimeter of the exterior wall, structure, or bay, housing the nonresidential use. [Ord. 2009-040] [Partially relocated in new Art. 5.E.5, Hours of **Operation**] 1) Existing Uses

Uses existing prior to this amendment may comply with the requirements existing at the time the use was established, unless modified by a subsequent development order. [Ord. 2009-040] [Relocated in new Art. 5.E.5, Hours of Operation] **Exemptions**

2)

Uses owned or operated by a governmental entity that provide essential services for the public, as determined by the Zoning Director, shall be exempt from these standards. [Ord. 2009-040] [Relocated in new Art. 5.E.5, Hours of Operation]

[Renumber Accordingly]

CN District 3.

Hours of Operation

Commercial uses shall not commence business activities, including deliveries and stocking, prior to 6:00 AM nor continue business activities later than 11:00 PM daily.

5. CC District

Hours of Operation

Commercial uses requiring outdoor activity shall not commence business activities, including delivery and stocking operations, prior to 6:00 AM nor continue outdoor activities later than 11:00 PM daily.

53 54 55

Notes:

46

ARTICLE 5 – SUPPLEMENTARY STANDARDS SUMMARY OF AMENDMENTS (Updated 08/15/13)

1	
	Reason for amendments: [Zoning] Delete the term "building" from Art. 5.B.1.A.b, Location related to Accessory Uses and Structures, since the provision already has the term "structure" which also means building.
2 3 4 5 6 7 8	 b. Location All accessory uses, buildings and structures except for approved off-site parking, shall be located on the same lot as the principal use. No accessory structure shall be located in the front or side street yard.
	 Reason for amendments: [Zoning] Consolidate standards for Barbed Wire from Art. 4.B, Supplementary Use Standards with Art. 5.B.1.A.2.c standards of dangerous materials; Relocate to Article 5 to be consistent with the formatting of the recently adopted Electrified Fence – Exceptions and Regulations; and, Relocate parts of the introductory language to be in specific sub-topics for easy understanding of the Barbed Wire provisions.
9 10 11	2. Fences, Walls and Hedges
12 13 14 15 16 17 18	 h.c. Dangerous Materials Fences or walls in any zoning district shall not be electrified or contain any substance such as broken glass, spikes, nails, barbed wire, razors, or any other dangerous material designed to inflict discomfort, pain or injury to a person or animal, except as allowed below. [Ord. 2010-005] [Ord. 2011-001] Barbed Wire Exceptions The use of barbed wire is prohibited. However, the County recognizes that barbed
19 20 21 22 23 24 25 26 27	wire may be necessary to secure certain uses such as public utilities, prisons, bona- fide agriculture, and public-owned natural areas, commercial or industrial uses that have outdoor storage areas. Therefore, the County allows the installation of barbed wire as part of the top of the fence or wall for specific uses pursuant to Art. 4.B, SUPPLEMENTARY USE STANDARDS or for situations stated below. The barbed wire shall not exceed 20 percent of the overall permitted height of the fence or wall. Bonafide agricultural uses, prisons, and other uses as authorized by the Zoning Director pursuant to provisions, Art. 5.B.1.A.2.c.2).c) below, shall be permitted to exceed the 20 percent provision. The calculation of the overall height of a fence or
28 29 30 31 32 33 34 35 36 37 38 39	 wall is inclusive of any barbed wire: [Ord. 2005-002] [Ord. 2010-005] [Ord. 2011-001] [Relocated below to Art. 5.B.1.A.2.h.1)a)/c)/d)] 1) Barbed Wire Exceptions and Regulations The use of Barbed Wire is prohibited except in instances as detailed below. The County recognizes that Barbed Wire may be necessary to secure certain non- residential uses or structures. Therefore, the County allows the installation of Barbed Wire on top of the fence or wall, subject to the following: [Partially relocated from Art. 5.B.1.A.2.c.2). and Art. 5.B.1.A.2.c.1).] a) <u>Allowable Uses for Barbed Wire</u> (1) Electric Power Facilities; (2) Electric Transmission Facility; (3) Minor Utility;
40 41 42 43 44 45 46 47 48 49 50 51 52 53 54	 (4) Prisons; (5) Solid Waste Transfer Stations; (6) Water or Treatment Plant; and, (7) Zoo. [Partially relocated from Art. 4.B.1.A.44-1, 44-2, 63.b, 123, 134, 139, and 143] (8) Except when located adjacent to a parcel having a Residential FLU designation, Residential Zoning District or residential use, Barbed Wire that is not visible from any public street, may be installed with the following uses: [Partially relocated from Art. 5.B.1.A.2.c.1) and Articles 4.B.1.A.35, 116, 120, 127, and 130] (a) Contractor Storage Yard; (b) Salvage or Junk Yard; (c) Self Service Storage; (d) Sugar Mill or Refinery; and, (e) Towing Service Storage.

Notes:

ARTICLE 5 – SUPPLEMENTARY STANDARDS
SUMMARY OF AMENDMENTS
(Updated 08/15/13)

$\begin{array}{c}1\\2\\3\\4\\5\\6\\7\\8\\9\\10\\11\\12\\13\\14\\15\\16\\7\\1\end{array}$	 (9) Bona Fide Agriculture use located in AGR, AP, and AR Zoning Districts; and AGR-PDD Preserve Parcels. When Bona Fide Agriculture is located in the AR Zoning District other than nurseries, Barbed Wire shall be setback a minimum of 25 feet from any property line. [Partially relocated from Art. 4.B.1.A.3.k).] (10) Properties with a Conservation FLU designation, for the purposes of protecting publicly owned natural areas; [Ord. 2005-002] [Ord. 2010-005] [Ord. 2011-001] (11) Properties where the owner can document a valid Development Permit for the use of Barbed Wire; and, [Ord. 2010-005] [Ord. 2011-001] (12) The Zoning Director shall have the authority to allow the installation of barbed wire for any uses pursuant to Art. 4.B, Supplementary Use Standards Use Classification, when the applicant demonstrates a need to comply with Federal, State or Local Government regulations. In support of the barbed wire installation, the Zoning Director may require the applicant to perform mitigation in order to address compatibility with adjacent properties or visibility from adjacent street right-of-way. [Ord. 2010-005] [Ord. 2011-001]
18	
-	Reason for amendments: [Zoning] Include requirement for an agreement for Barbed Wire removal prior to building permit if the parcel changes the use to one not listed in this section of the Code.
19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36 37 28	 (13)A removal agreement shall be executed to remove the Barbed Wire, prior to issuance of a Building Permit. This agreement shall require the removal of the Barbed Wire in the event the use changes to another use not allowed in the list above. b) Standards (1) Height The Barbed Wire shall not exceed 20 percent of the overall permitted height of the fence or wall or two feet whichever is less. [Partially relocated from Art. 5.B.1.A.2.c.2).] (2) Height Exemption Bonafide agricultural uses, prisons, and other uses as authorized by the Zoning Director pursuant to provisions in Article 5.B.1.A.2.h.1).a)(6), shall be permitted to exceed the 20 percent provision. The calculation of the overall height of a fence or wall is inclusive of any Barbed Wire_[Ord. 2005-002] [Ord. 2010-005] [Ord. 2011-001] [Partially relocated from Art. 5.B.1.A.2.c.1).]

42 43 44 45 46 47	

Notes:

ARTICLE 5 – SUPPLEMENTARY STANDARDS SUMMARY OF AMENDMENTS (Updated 08/15/13)

Re	ason for amendments: [Zoning]		
1.	Relocate and consolidate standards for Outdoor Activities with Outdoor Storage and expand		
	provisions to non-residential uses located in Residential Zoning Districts.		
2.	Delete 12 feet screening height provision that was applicable only to Outdoor Storage in industrial		
	districts. The language was not limiting the height of the stored material but was limiting the height of		
	the screening to 12 feet even when the stored material was higher. Proposed screening requirement		
	applies to all sites except when the Outdoor Storage area is located in an Industrial Zoning District of		
	FLU designation that has a common property line with an Industrial FLU designation or Zoning		
	District parcel.		
3.	Introduce height limitation of the storage material to be 15 feet for consistency with the PBC Fire		
0.	Code provision 31.3.6.3.2.4 which is applicable to processed or unprocessed materials.		
1			
4.	Avoid visibility of storage material by requesting equal screening and storage material height up to 15		
-	feet.		
5.	Exempt from the screening requirements any industrial site that has the Outdoor Storage or Outdoor		
	Activity areas next to another site with Industrial FLU designation or Zoning District and not visible		
	from any street.		
6.	Include provision that to minimize the visual impacts caused by Outdoor Activities in industrial sites		
	when adjacent to residential, civic, commercial, recreation, or conservation by requiring a 25 foot		
	wide Type III incompatibility buffer.		
7.	Allow chipping, crushing, grinding, manufacturing or processing to be outdoor only when an industrial		
	use is located in intense industrial districts such as General Industrial and IND/G pod of PIPD. Less		
	intense Industrial Zoning Districts looking to have such outdoor activities are requested to be		
	permitted through public hearing through Class A Conditional Use. This amendment limits the		
	location of intense uses in close proximity of low intense uses.		
	3. Outdoor Storage and Activities		
	Outdoor storage of merchandise, inventory, equipment, refuse, or similar materials, and		
	outdoor activities in all nonresidential districts or non-residential uses located in Residential		
	Zoning Districts shall be subject to the following standards-:		
	a. General		
	Outdoor Storage and Activities may only be allowed when incidental to the use located		
	on the premises.		
	b. Location		
	Outdoor Storage and Activity areas shall not be located in any of the required setbacks.		
	c. <u>Height</u>		
	Outdoor Storage material shall not exceed 15 feet in height or the height of the		
	screening, whichever is less.		
	d. Nonresidential Districts, Except Industrial Screening		
	Outdoor Setorage and Activity areas shall be completely screened from view all property		
	lines by landscaping, fences, walls, or buildings.		
	de. Industrial <u>FLU Designation, Zoning</u> Districts <u>or Uses</u>		
	1) Outdoor storage areas shall be completely screened from view from all streets and		
	adjacent residential districts by landscaping, fences, walls, or buildings up to a height		
	of 12 feet. All Outdoor Storage and Activity areas located on Industrial FLU		
	designation or Zoning District shall be completely screened from view from all		
	property lines. [Partially relocated from Art. 3.D.3.A.6, IL and IG Districts]		
	2) Outdoor Storage and Activity areas adjacent to parcels with Industrial FLU		
	designation or Zoning District and not visible from any street shall be exempted from		
	the screening requirements.		
	3) Outdoor Activity areas in industrial uses shall have a Type III incompatibility buffer		
	along property lines adjacent to parcels with a Civic, Conservation, Commercial,		
	Recreational or Residential FLU designation, Zoning District or use, or where visible		
	from a public R-O-W. The incompatibility buffer shall be a minimum of 25 feet in		
	width.		
	4) Outdoor Activities such as chipping, crushing, grinding, manufacturing or processing		
	shall be restricted to the IG Zoning District and Industrial General pod of PIPD unless		
	approved as a Class A Conditional Use.		
	(This space intentionally left blank)		
	(This space intentionally left bialty)		

Notes:

ARTICLE 5 – SUPPLEMENTARY STANDARDS SUMMARY OF AMENDMENTS (Updated 08/15/13)

1		
	Reason for a	amendments: [Zoning] Clarify that the requirements in this section are established to
		ent uses from nuisance prevent deterioration of neighbors by visual contamination; and,
		e and underground water regardless the nature of the use.
2	protect surface	e and underground water regardless the nature of the use.
2		Example
3	eī	. Exceptions
4		The following uses or material are exempt from this Section:
5		1) Storage and sales of landscape plant material.
6		2) <u>Temporary Storage storage</u> of material used for road construction on a lot directly
7		adjacent to the roadway under construction.
8		 Uses which allow outdoor storage by definition or in another Section.
9		
10		
11	D (C)	
12	Part 5. U	LDC Art. 5.B.1.C, Flex Space (page 33 of 92), is hereby amended as follows:

Part 6. New ULDC Art. 5.E, Hours of Operation (page 56 of 92), is hereby established:

Reason for amendments: [Zoning] Establish new Section E in Article 5 by consolidating all provisions for hours of operations contained in Article 3 of the ULDC. This amendment applies the hours of operation limitations to Industrial, Commercial, Recreation, and Public and Civic Uses when adjacent to Residential Future Land Use designation, Zoning District or use. Exceptions may be permitted depending on indoor or outdoor industrial activities. The limitation in Industrial uses is more restrictive than commercial uses as industrial uses are expected to be more intense in traffic and stocking activities.

11 CHAPTER E PERFORMANCE STANDARDS

12 <u>Section 5</u> <u>Hours of Operation</u>

- 13 Any non-residential use shall be subject to the hours of operations indicated below when: adjacent to
- Residential FLU designation, Zoning District or use. No stocking or deliveries outside of the permitted
 time when located within 250 feet of residential.

Table 5.B - Hours of Operation			
FLU/Zoning District/Use	Hours		
Industrial	7:00 a.m. to 7:00 p.m. (Monday – Saturday)		
Industrial without outdoor activities	7:00 a.m. to 10:00 p.m. (Monday – Saturday)		
Commercial	6:00 a.m. to 11:00 p.m.		
Recreation			
Public and Civic	<u>6:00 a.m. to 11:00 p.m.</u>		
Excavation			
[Ord.]			
Notes:			

A. Measurement

Measurement shall be taken by drawing a straight line from the closest point on the perimeter of the residential district to the closest point on the perimeter of the exterior wall, structure, or bay, housing the non-residential use. [Ord. 2009-040] [Partially relocated from Art. 3.D.3.A.2.a, Hours of Operation – Related to All Commercial, Public and Civic Uses under District Specific Regulations]

B. Existing Uses

Uses existing prior to this amendment may comply with the requirements existing at the time the use was established, unless modified by a subsequent Development Order. [Ord. 2009-040] [Relocated from Art. 3.D.3.A.2.a.1), Existing Uses - Related to Hours of Operation applicable to all Commercial, Public and Civic Uses under District Specific Regulations]

C. Exemptions Uses owned or operated by a governmental entity that provide essential services for the public, as determined by the Zoning Director, shall be exempt from these standards. [Ord. 2009-040] [Relocated from Art. 3.D.3.A.2.a.2), Exemptions - Related to Hours of Operation applicable to all Commercial, Public and Civic Uses under District Specific Regulations]
